Foreword

Projecting military forces over great distances to achieve strategic objectives became a hallmark of the U.S. Army in the twentieth century. Now that our Army is once again based largely in the continental United States, we have become keenly interested in the challenges associated with such force projection. These volumes remind us that those challenges are not easily met.

America's Army of 1898 was not prepared to achieve the objectives selected by its political masters. A flood of patriotic volunteers could fill its ranks but could not overcome fundamental shortcomings in staff organization, planning capacity, and sustainment capability. Although inspired innovation, good luck, and resilient soldiers offset many deficiencies, major reforms followed on the heels of the shaky performances outlined by the documents in these volumes.

The U.S. Army's original tradition in supporting military history scholarship centered on publication of key documents. The multivolume series of *Official Records* from the Civil War is reasonably well known in today's Army, and the recent reprint of *United States Army in the World War* has made that series more readily available. This reprint is in that same tradition, even though its scope is somewhat limited.

Soldiers who leaf through these volumes will be struck by similarities and differences as they consider the past and the world around them. The one major similarity is that leaders must lead. Obstacles, uncertainties, and mistakes will all be encountered as a nation goes to war. Seeing our forebears overcome their problems can give us perspective on our own. In this spirit, these volumes are reprinted in anticipation of the centennial of the events they chronicle.

Introduction

by

Graham A. Cosmas

For the United States Army, the Spanish-American War of 1898 possesses significance far beyond the familiar image of Theodore Roosevelt and the Rough Riders charging up San Juan Hill. The war was a major event in the Army's evolution from a frontier constabulary into the military arm of a twentieth-century world power. During the conflict, the Army gained its first experience in overseas deployment and support of major expeditionary forces, literally on opposite sides of the world. Following the war with Spain, the Army waged and won a difficult counterinsurgency campaign in the Philippines that in many respects foreshadowed the later struggle in Vietnam. In the China relief expedition of 1900 Army troops participated in their first multinational coalition operation.

In recent years the historiography of the Spanish-American War has moved far beyond the kind of semisatirical popular account typified by Walter Millis' *The Martial Spirit.* Present-day historians, using the wide range of primary source materials now available, have examined the complexity and importance of the war's diplomacy and military operations in the context of turn-of-the-century American political and institutional history. Influenced by the so-called New Military History, recent students of the war and its associated events have broadened their focus beyond the traditional tactical and operational themes. The social history of the late nineteenth- and early twentieth-century Army, the influence of American culture on American war making, the black experience in the wars of empire, and the Army's role in government and counterinsurgency in the Philippines all have been the subject of important recent works.

At the time of the war and since, the Army's official efforts to record the history of the conflict have been minimal. Although in 1898 the War Department only recently had completed publication of the monumental *Official Records of the Union and Confederate Armies,* it possessed no organized historical agency and had no tradition of writing narrative accounts of operations. Army reformers referred frequently to the "lessons" of the Spanish War in pressing for the creation of a general staff

during the early 1900s, and individual officers published histories or memoirs of the campaigns; but there was no formal institutional Army historical effort. An officer in the War Department's Bureau of Insular Affairs compiled a history and documentary collection on the Philippine-American War, based largely on captured Filipino records, which, for a variety of reasons, never was published. However, the manuscript and its supporting documents are preserved on microfilm in the National Archives. Thereafter, the "little wars" with Spain and the Philippines soon were overshadowed by the Army's participation in World War I, concerning which the War Department assembled and published a documentary record which has recently been republished by the Center of Military History.

For published documentation of the Army's role in the Spanish and Philippine-American Wars, therefore, the historian must resort to the annual reports of the Secretary of War, which are voluminous and detailed and include much primary material; to the proceedings, testimony, and supporting documents of the Dodge Commission, which investigated War Department management during the fall and winter of 1898–99; and to the two volumes of the Adjutant General's correspondence reprinted here.

In the pre–general staff War Department bureau system, the Adjutant General performed most of the functions later assumed by the Chief of Staff of the Army. This was especially true during and immediately after the Spanish-American War. The Commanding General at that time, Maj. Gen. Nelson A. Miles, proved unable to work effectively with President William McKinley and Secretary of War Russell A. Alger. McKinley, Alger, and Alger's successor, Elihu Root, relied on Adjutant General Henry C. Corbin, a skillful, politically astute administrator, as their channel of communication to the other bureau chiefs and the field commanders and as a policy adviser. Corbin's office, as a result, played a central role in the conduct of all aspects of wartime Army operations. Its correspondence with the field commanders, reprinted in these two volumes, accordingly is an indispensable source for the study of the Army in the war with Spain.

The correspondence is organized by campaign. Volume 1 covers the mobilization of the Regulars and Volunteers, the Santiago and Puerto Rico campaigns, and the China relief expedition. It contains as well brief histories of the eight army corps formed during the war and of the state Volunteer regiments mobilized for the conflict. Volume 2 is devoted entirely to the Philippines, with sections on the capture of Manila in August 1898, the growing tension between the United States forces and Emilio Aguinaldo's nationalist army, and the campaign in the Philippines from February 1899 through the officially proclaimed end of the conflict on 30 June 1902. For the most part, the material reproduced consists of telegrams between the Adjutant General and the commanders of expeditions. Often, the Adjutant General transmitted messages to the field from the President and Secretary of War. There is also telegraphic correspondence, related to organizing and supporting the expeditions, between the Adjutant General and unit, post, and military department commanders in

the United States. Interspersed among the telegrams are occasional memorandums, general orders, and longer reports. The documents, reproduced in chronological order, show little sign of deliberate editing or arrangement and contain a mixture of high policy and strategy with operational and logistical detail. Coverage goes much beyond combat activities, to include the minutia of supply, personnel management, and medical care, as well as extensive material on military government, political relations with Cubans and Filipinos, and the difficulties of Army commanders in dealing with the American press. Through these messages one can follow the making and execution of policy on many subjects; hence the telegrams provide valuable insights into the actual workings of Army command and administration at the turn of the century.

Valuable as they are, these volumes do not cover a number of important aspects of Army activity in the Spanish-American War era. Because they focus on communications between the Adjutant General and theater headquarters, they contain little on planning and decision making within the War Department, for example on strategy and mobilization. They also cannot be relied on for coverage of decisions and operations below the theater headquarters level. Certain major subjects are largely neglected due to the focus on the overseas campaigns, notably the organization and administration of the large Volunteer Army training camps in the United States, the partial demobilization and reorganization of the Volunteer force after the August 1898 armistice with Spain, the deployment of nearly 50,000 United States troops to occupy Cuba during the winter of 1898–99, the drafting and enactment of the Army reorganization act of March 1899, and the raising of a new United States Volunteer force to fight in the Philippines. Deployment of the latter force can be followed through the published correspondence. For other subjects, the historian must consult the War Department annual reports, the records of bureaus and commands in the National Archives, and the personal papers collections in the Library of Congress, the U.S. Army Military History Institute, and other repositories.

In spite of these gaps, the Adjutant General's published correspondence remains a major primary source on the Army in the Spanish-American War era. Until the last couple of decades, it formed the basis for most historians' accounts of Army operations; hence the collection, and its limitations, shaped the historiography of the conflict. More recent works have gone beyond the correspondence to fill in its gaps and produce more comprehensive views of the Army in the period. Nevertheless, these volumes continue to be heavily used by writers on the war, and with good reason, since they provide a solid core of primary material and a starting point for research on a wide spectrum of topics related to the conduct of the overseas campaigns. It is thus appropriate that the Center of Military History, as part of its observance of the approaching centennial of the war with Spain, make this valuable and long out-of-print primary source once again available to the Army and the public in the form of a facsimile reprint.

COMMANDING GENERAL, DEPARTMENT EAST,
Governors Island, New York:

With the approval of the Secretary of War, the following regiments of cavalry and light batteries of artillery are relieved from duty at their present stations and will be ordered to proceed to Chickamauga Park, Ga.: All the light batteries of the First, Second, Third, Fourth, and Fifth regiments of artillery and the First, Second, Third, Sixth, Ninth, and Tenth regiments of cavalry. The following regiments of infantry are relieved from duty at their present stations and will be ordered to the following points: To New Orleans, La., the First, Seventh, Eighth, Twelfth, Sixteenth, Eighteenth, Twenty-third, and Twenty-fourth; to Mobile, Ala., Second, Third, Tenth, Eleventh, Nineteenth, Twentieth, and Twenty-second; to Tampa, Fla., the Fourth, Fifth, Sixth, Ninth, Thirteenth, Seventeenth, and Twenty-first.

The commanding general Department of the Colorado will detail company of Fifteenth Infantry to proceed to Fort Wingate and take station at that post. At posts from which the whole garrison is withdrawn, one officer and a detail of two men from each company will be left in charge of the post. All transportation will accompany the troops. The necessities of the post from which all public transportation is withdrawn will be provided by hired transportation through the Quartermaster's Department. Troops will be provided with thirty days' field rations and necessary camp equipage. You will give the necessary orders for the execution of the movements of the troops in your department as indicated above. Acknowledge.

By command of Major-General Miles:

H. C. CORBIN, *Adjutant-General.*

Brig. Gen. J. F. WADE,

Commanding Department Dakota, St. Paul, Minn.:

Referring to previous telegrams on the same subject, the Major-General Commanding Army, with approval of Secretary of War, directs, as necessary for the public service, that you order your chief quartermaster to proceed immediately and in advance of your own departure to Tampa, Fla., for the purpose of selecting suitable ground as a camp for the troops ordered to rendezvous there for your action on arrival.

SCHWAN, *A. A. G.*

HEADQUARTERS OF THE ARMY,
Washington, D. C., April 18, 1898.

To the Honorable the SECRETARY OF WAR.

SIR: Referring to my former letters concerning healthful camps for the troops and the uncertainty of Congress requiring an army to move to Cuba at this season of the year, I would respectfully call attention to the letter of the Surgeon-General of the Army, dated Washington, March 25 of this year, as to the danger of putting an army in Cuba during what is known as the "rainy" or "sickly" season. That opinion is also confirmed by reports of Dr. James Guiteras, of Philadelphia, a well-known authority on yellow fever, and others.

In my opinion, it is extremely hazardous, and I think it would be injudicious, to put an army on that island at this season of the year, as it would undoubtedly be decimated by the deadly disease, to say nothing of having to cope with some 80,000 troops, the remnant of 214,000, that have become acclimated, and that are equipped with 183 guns. And still another element of extreme danger would be

to place an army there with the possibility of our own Navy not being able to keep the waters between our own territory and that island clear of hostile ships or fleets.

By mobilizing our force and putting it in healthful camps and using such force as might be necessary to harass the enemy, and doing them the greatest injury with the least possible loss to ourselves, if our Navy is superior to theirs, in my judgment we can compel the surrender of the army on the island of Cuba with very little loss of life, and possibly avoid the spread of yellow fever over our own country.

There is still time, if this is favorably considered, to put a small force of regular troops, numbering approximately 18,000 men, in healthful camps until such time as they can be used on the island of Cuba with safety.

Very respectfully,

NELSON A. MILES,
Major-General Commanding.

The ADJUTANT-GENERAL, U. S. A., *Washington, D. C.:*

Recommend brigades to consist of three regiments of infantry, three brigades to a division. Regular regiments to be brigaded together, adding two volunteer regiments to the sixteen regular regiments already here to form first and second divisions of Fifth Army Corps, the other corps to be formed in like manner from volunteer regiments. General officers in order of rank of respective corps to command divisions as fast as organized; others to command brigades. Staff officers recently appointed to be assigned as far as practicable with the volunteers, in order to give brigade commanders the benefit of their experience. The five cavalry regiments here now to be formed into two brigades of three and two regiments respectively. Should cavalry volunteer regiments be assigned here, brigades then to be formed with two regiments each. The number of regiments for each brigade as I have indicated is approved by General Wheeler. Other general officers whom I have consulted agree with me as to the number of regiments to constitute a brigade. Recommend placing all the regular regiments in one corps, so that they may be taken first for service in Cuba. If this is not satisfactory, half of the regulars can be assigned to each corps, and in event of an advance on Cuba the regulars in each corps formed for the advance. I think, however, that it would be better to have all regulars in one corps. The light artillery should

[remain], as at present, all together under charge of Colonel Randolph. They should accompany the advance, and then be assigned one battery to each division and one to cavalry corps, the remainder to constitute the reserve. If this project is approved, I request early order and I will immediately proceed to complete the organization. I have been led to make the recommendations in view of an early advance, and from the fact that I believe the first battle will be the decisive one and that the best troops should bear the brunt, supported as strongly as possible by the volunteers.

Paymaster-General represents that it is impossible for Pay Department with its present strength to pay Army oftener than every two months. A paymaster has been ordered to Tampa to pay officers and discharged men. Additional paymasters have not qualified, but probably will not be ready for duty prior to June 30 payment.

401.] NAVY DEPARTMENT,
Washington, May 27, 1898.

SIR: If the Spanish fleet is in the harbor of Santiago de Cuba, I expect absolute information to that effect from our naval commanding officer at any moment. On receipt of that information, the movement to Santiago should be made without a moment's delay, day or night; and I have therefore sent Admiral Sampson and Commodore Schley each a telegram, of which a copy is inclosed.

From these you will see that Admiral Sampson is ordered to be ready at once to convoy your troops. I write to ask you to inform me if the troops will be ready to embark as soon as I give you the above information, for which we are waiting; and, in that case, to advise me at what point my convoy shall report for the purpose of convoying the troops.

Respectfully, JOHN D. LONG, *Secretary.*

The Honorable the SECRETARY OF WAR.

NAVY DEPARTMENT,
Washington, May 27, 1898.

SCHLEY, *St. Nicholas Mole:*

The most absolutely urgent thing now is to know positively whether Cervera's division is in Santiago Harbor, as, if so, an immediate movement against him and the town will be made by the navy and a division of about 10,000 of our troops, which are all ready to embark. Your difficulties regarding coaling must be surmounted by your own ingenuity and perseverance. This is a crucial time, and the Department relies upon you to give quickly information as to Cervera's presence and to be all ready for concerted action with the army. Two colliers have been ordered to St. Nicolas Mole, and your ships might coal singly there or in Gonaives Channel or to leeward of Cape Cruz. Sampson will convoy the army transports, probably coming around by the Windward Passage. *Yankee* will join you and the *Minneapolis* will go north. Cervera must not be allowed to escape.

LONG.

NAVY DEPARTMENT,
Washington, May 27, 1898.

SAMPSON, *via Key West, Fla.:*

If Cervera's division is proved to be in Santiago, it is intended to make immediately a descent upon that port with 10,000 troops, landing about 8 miles east of port. You will be expected to convoy the transports, probably fifteen or twenty, going in person and taking with you *New York*, *Indiana*, *Oregon*, and as many smaller vessels with good batteries as can possibly be gathered to guard against possible attacks by torpedo destroyers and the like. The Havana blockade will be sufficiently provided for during the movement with the monitors and some small vessels. After arrival off Santiago, all vessels that can be spared will be returned to north coast. This early notice enables you to prepare details at once

for immediate execution when orders are issued. At the army's request, and by approval of this Department, the movement will be by north coast of Cuba and Windward Passage.

No case among troops; all protected by vaccination. One company still be raised to complete regiment, which will probably be filled within seven days. Report of smallpox was made to Washington just after arrival of mustering officer here. W. S. Lewis, captain, assistant surgeon, examining surgeon." "Columbia, S. C., May 27, 1898. Major-General Shafter, Tampa, Fla. Smallpox is very mild form in Columbia among negroes and poor whites generally. Volunteers are camped 3 miles from city. No cases of smallpox have ever occurred among them. South Carolina regiment lacks one company of being completed. Will be completed within a week. Newman, acting mustering officer." I think regiment should not come down until vaccination has taken effect, but if it does come at once, will endeavor to see that all precautions are taken.

With the approval of the Secretary of War, you are directed to take your command on transports, proceed under convoy of the Navy to the vicinity of Santiago de Cuba, land your force at such place east or west of that point as your judg-

ment may dictate, under the protection of the Navy, and move it onto the high ground and bluffs overlooking the harbor or into the interior, as shall best enable you to capture or destroy the garrison there; and cover the Navy as it sends its men in small boats to remove torpedoes, or with the aid of the Navy capture or destroy the Spanish fleet now reported to be in Santiago Harbor. You will use the utmost energy to accomplish this enterprise, and the Government relies upon your good judgment as to the most judicious use of your command, but desires to impress upon you the importance of accomplishing this object with the least possible delay. You can call to your assistance any of the insurgent forces in that vicinity, and make use of such of them as you think advisable to assist you, espepecially as scouts, guides, etc. You are cautioned against putting too much confidence in any persons outside of your troops. You will take every precaution against ambuscades or surprises or positions that may have been mined or are commanded by the Spanish forces. You will cooperate most earnestly with the naval forces in every way, agreeing beforehand upon a code of signals. Communicate your instructions to Admiral Sampson and Commodore Schley. On completion of this enterprise, unless you receive other orders or deem it advisable to remain in the harbor of Santiago de Cuba, reembark your troops and proceed to the harbor of Port de Banes, reporting by the most favorable means for further orders and future important service. This with the understanding that your command has not sustained serious loss and that the above harbor is safe for your transports and convoy. When will you sail?

SHAFTER, *Major-General, Commanding.*

NAVY DEPARTMENT, *Washington, May 31, 1898.*

SIR: This Department begs leave to inquire what means are to be employed by the War Department for landing the troops, artillery, horses, siege guns, mortars, and other heavy objects, when the pending military expedition arrives on the Cuban coast near Santiago.

While the Navy will be prepared to furnish all the assistance that may be in its power, it is obvious that the crews of the armored ships and of such others as will be called upon to remove the Spanish mines and to meet the Spanish fleet in action can not be spared for other purposes, and ought not to be fatigued by the work incident to landing of the troops, stores, etc.

Very respectfully,

JOHN D. LONG, *Secretary.*

The Honorable the SECRETARY OF WAR.

NAVY DEPARTMENT,
Washington, May 31, 1898.

SIR: The Navy Department is of the opinion that the concert of movement, so necessary and difficult in a combined expedition, would be much advanced in the approaching expedition by the commanding general embarking on board the ship

of the senior naval officer in the convoy; thus opportunity would be allowed for consultation.

This Department further suggests that it would be feasible so to arrange, when within striking distance of Santiago, that a detachment of 2,000 to 3,000 troops be sent ahead of the main body of the army, to land between midnight and 4 a. m., supported by the fire of the smaller ships of the blockade, to seize the important bridge of Juragua, which is reported to be mined, and guarded by some 30 or 40 Spanish soldiers. The main body of the army could arrive about daybreak and land at the place designated for that purpose, immediately supporting its advanced corps at the bridge.

This Department is strongly of the opinion that no body of seamen should be landed for this attempt on the bridge. The primary object of the expedition is the capture or destruction of the enemy's fleet in the port, which would be almost decisive of the war. Therefore, the United States squadron should not be weakened by a loss of skilled men in view of so important a possible naval action.

Very respectfully,

JOHN D. LONG, *Secretary.*

In any event the fleet could send but few men, and then, even if at first successful, could be driven back by reenforcements to the enemy.

The PRESIDENT.

SECRETARY OF WAR, *Washington, D. C.:*

Arrived this morning. Everything is being pushed as rapidly as possible to embark troops at Tampa and Mobile, and a small number will be embarked at New Orleans on the *Orizaba*. Men are working night and day. The following important and gratifying telegram received, dated May 31, from Key West: "Returned this morning. Landed at Port Banes, northern coast, directly across island from Santiago de Cuba. Landed over 400 armed and equipped Cubans; 1,300,000 rounds ammunition, Springfield and Remington; 7,500 Springfield rifles; 20,000 rations, besides large quantities equipment and clothing; 24 horses; 74 mules. Spanish force, 700 men, was at Sama, 18 miles northwest. Two small Spanish gunboats in Nipe Bay, about 5 miles east in air line. Landing was without interruption and apparently unobserved. Spent 26th, 27th at anchor unloading. Dorst, captain." Banes was port intended to have occupied, but Dorst has anticipated us. Believe it will be available for coaling station. Later the following telegram was received: "About 10,000 Spanish troops at Santiago de Cuba and about 15,000 at Manzanillo; including scattering detachments, not less than 40,000 in Santiago de Cuba. Movement to concentrate at above points and along main roads leading from them going on for about three weeks, apparently to meet reconnoissance in force mentioned in our newspapers. General Castillo owns estate east of Santiago de Cuba and knows country well. Will sail for Tampa this afternoon, and he will go with me. General Garcia can be communicated with by sending to Banes. Nearly 1,000 insurgent troops arrived there before I left. He was expected about to-day. To take Santiago de Cuba by land side requires siege guns. Large proportion of Spanish troops mentioned are guerrillas; all mounted men. Dorst, captain."

SECRETARY OF WAR, *Washington, D. C.:*

Mr. C. H. Zuginfuss, an officer of our Volunteer Army during the war, now general manager of the Juragua Iron Company, lives on the bank of the harbor of Santiago de Cuba, 1 mile outside the town. He left Santiago de Cuba February 26 and his superintendent left there April 23. He knows the surrounding country and all the facilities for coaling vessels in that harbor, and states there were always old vessels and gunboats in the harbor, and some old cruisers, one being of good size—the *Reina Mercedes*, which has been there several months, with boilers disabled. She was placed on a floating battery between Cayo Smith and Zocapa. He believes the boilers have been repaired. He also states that Cervera's fleet could have been coaled in forty-eight hours. His statements are confirmed by others. Mr. Richard S. Porro left Santiago de Cuba April 4 and also states that the following-named vessels were in harbor at that time: *Reina Mercedes*, 2,000 tons, second-class cruiser; *Conde del Venadito*, 1,500 tons, second or third class; *Galicia* and *Marquez de Molins*, sister ships, of 900 tons each, third class,

and yacht *Sandoval*, of 30 tons. Has it been positively ascertained where Cervera's fleet is?

The working force at Tampa has been divided into three reliefs, each working eight hours during the twenty-four, nine ships being loaded at one time.

The Honorable the SECRETARY OF WAR.

OFFICE OF NAVAL WAR BOARD,
Washington, June 3, 1898.

SIR: In view of the publicity which is being given to movements of the expeditionary force said to be embarking at Tampa, and the necessity for greater secrecy in the future, it is recommended that the commanding officer of the army in Tampa and of the navy at Key West be directed to seize and detain all press boats, of whatever character, in those ports, and to prevent their following the expedition, placing, if necessary, a file of soldiers or marines on board to enforce obedience; and likewise that the commanding naval officer of the convoy be directed, in case a press boat joins the fleet, to take charge of her and compel her to remain until he reaches the commander in chief, who shall also detain her so long as he thinks expedient to do so.

The lack of secrecy that now exists may very well eventuate in the needless loss of thousands of lives of American soldiers.

SECRETARY OF WAR, *Washington, D. C.:*

Several of the volunteer regiments came here without uniforms; several came without arms, and some without blankets, tents, or camp equipage. The Thirty-second Michigan, which is among the best, came without arms. Gen. Guy V. Henry reports that five regiments under his command are not fit to go into the field. There are over 300 cars loaded with war material along the roads about Tampa. Stores are sent to the quartermaster at Tampa, but the invoices and bills of lading have not been received, so that the officers are obliged to break open seals and hunt from car to car to ascertain whether they contain clothing, grain, balloon material, horse equipments, ammunition, siege guns, commissary stores, etc. Every effort is being made to bring order out of confusion. I request that rigid orders be given requiring the shipping officers to forward in advance complete invoices and bills of lading, with descriptive marks of every package, and the number and description of car in which shipped. To illustrate the embarrassment caused by present conditions, 15 cars loaded with uniforms were sidetracked 25 miles away from Tampa, and remained there for weeks while the troops were suffering for clothing. Five thousand rifles, which were discovered yesterday, were needed by several regiments. Also, the different parts of the siege train and ammunition for same, which will be required immediately on landing,

are scattered through hundreds of cars on the side tracks of the railroads. Notwithstanding these difficulties, this expedition will soon be ready to sail.

Replying to your dispatch that President wishes report of the situation, I have to say that everything possible is being done to get away, but delays occur that can not be prevented or foreseen. Siege guns have only been assembled late this evening. They will be loaded on cars to-night and sent to transports early in the morning and the loading rushed. Will begin putting men on to-morrow p. m. if possible, and be ready to start Monday night or Tuesday morning. The last of the troops from Chickamauga are expected to-night. Officers engaged in loading transports have worked night and day. The main cause for delay has been the fact that great quantities of stores have been rushed in promiscuously and with no facilities to handle or store them. The last 10 miles before reaching the wharf is a single track and very narrow place in which to work. The capacity of this place has been greatly exceeded. Could have put the troops on and rushed them off, but not properly equipped as I know the President wishes them. I will not delay a minute longer than is absolutely necessary to get my command in condition and start the earliest moment possible.

This expedition has been delayed through no fault of any one connected with it. It contains the principal part of the Army, which for intelligence and efficiency is not exceeded by any body of troops on earth. It contains 14 of the best-conditioned regiments of volunteers, the last of which arrived this morning. Yet these have never been under fire. Between 30 and 40 per cent are undrilled, and in one regiment over 300 men had never fired a gun. I request ample protection at all times for this command from the Navy. This enterprise is so important that I desire to go with this army corps, or to immediately organize another and go with it to join this, and capture position No. 2. Now that the military is about to be used, I believe it should be continued with every energy, making the most judicious disposition of it to accomplish the desired result.

Please convey this to the President, Secretary Alger, and Secretary Long, with the World's compliments. Cablegram just received from Gibraltar from a man specially detailed by the World to charter boat under British flag and go into Cadiz, says: "Fleet still there. All reports as to its departure for cruise or maneuvers untrue. Reason alleged among officials for its detention is, Government apprehends serious revolt in southern provinces at first decisive defeat of Spain. This fear also accounts for the concentration of the troops here, which still continues. Great scarcity of food prevails. Destitution among masses people daily intensifying."

Also another message from Madrid dated Sunday, which says: "Contradict rumors departure fleet Cadiz for Cuba. Minister marine and Camara assure Government it would be madness to send out fleet only composed of one battle ship, one protected cruiser, two small unarmored cruisers, and three destroyers. All of the vessels now require months to get ready.

"In diplomatic circles openly stated no European government will attempt to do anything for Spain until she makes up her mind to allow Cuban independence as a basis of negotiations."

The Honorable SECRETARY OF WAR,
Washington, D. C.:

The rest of the troops ordered from Chickamauga May 29 arrived yesterday. Some were five days en route, owing to single track and very bad railroad management. This expedition has been delayed by these and other unavoidable

obstacles. This can be corrected in future, and another expedition can be equipped of 30,000 as soon as transportation can be furnished and steamers prepared to receive troops. Boats from Miami can move 10,000 troops per week to Key West, which would render them more available, and that together with Tampa seems most expeditious.

MILES, *Commanding.*

PORT TAMPA, FLA., *June 8, 1898—6.30 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington, D. C.:*

Transports began pulling into the harbor from wharf a little before 6 o'clock this morning, and, under charge of the Navy Department, will be moved outside of entrance to harbor into Gulf. The difficulties encountered here have been almost insurmountable. Anything like quick loading is impossible, from the fact that wagons can not be driven within nearly a mile of the wharf, and the cars have to be run down, unloaded, and run back on the same track. Except when time is no object it should not be attempted to load more than 5,000 men at this place at one time. The following is a list of the organizations:

Infantry regiments: Sixth, Sixteenth, Seventy-first New York Volunteers, Tenth, Twenty-first, Second, Thirteenth, Ninth, Twenty-fourth, Eighth, Twenty-second, Second Massachusetts Volunteers, Fourth, First, Twenty-fifth, Twelfth, Seventh, Seventeenth, Third, and Twentieth. Total infantry, 561 officers, 10,709 enlisted men. Two dismounted squadrons, of four troops each, from the Third, Sixth, Ninth, First, Tenth Cavalry regiments; and two dismounted squadrons, of four troops each, from the First United States Volunteer Cavalry, Colonel Wood's regiment. Total dismounted cavalry, 159 officers, 2,875 enlisted men. One squadron Second Cavalry, mounted, 9 officers, 280 enlisted men. Light batteries E and K, First Artillery; A and F, Second Artillery—14 officers, 323 enlisted men. Batteries G and H, Fourth Artillery, siege, 4 officers, 132 enlisted men. Companies C and E of engineers, 9 officers, 200 enlisted men. Signal detachment, 2 officers and 45 enlisted men. Hospital detachment included in following figures: Corps staff, 15 officers; grand total, 773 officers and 14,564 enlisted men.

Referring to Secretary's telegram of yesterday to take advantage of delay to increase our forces as much as possible, I have to say steamer *Florida* was disabled yesterday by collision. The chief quartermaster reports to me this morning that practically the available space is now occupied on the transports that are now here, unless they were crowded more than is advisable, considering weather and long distance to go. There is an excellent division here of volunteers that I would like to have added to my forces, and that was intended to go, if transports can be sent to embark it.

HEADQUARTERS OF THE ARMY,

SECRETARY OF WAR, *Washington, D. C.:*

Think it would be well to announce that the army got on board transports and started, as they did, yesterday. Say nothing about its being recalled, but let our

naval vessels go over the course that our transports would have gone over, with the hope of finding those Spanish ships. Does not the presence of Spanish war vessels in Cuban waters render it extremely hazardous to send troops on transports until they are captured, destroyed, or driven away? And, under the circumstances, is it expected that I shall organize expedition No. 2. Arrangements had been partly made before the presence of the Spanish ships was announced.

MILES, *Major-General Commanding Army.*

TAMPA BAY HOTEL, *Tampa, Fla., June 9, 1898—2.45 p. m.*

SECRETARY OF WAR, *Washington, D. C.:*

It seems that it is a naval problem yet unsolved, and it might be advisable for the command now on board transports to have the protection of the entire Navy to convoy it to No. 1, No. 2, or Nuevitas, or if this is considered too hazardous, then keep the troops in healthful camps. as they now are, and assist the Navy to destroy the Spanish fleet. There are here 25 good steamers that could be used to carry water, coal and supplies, guns, revolving cannon and mortars, etc., and they could be added to the force of the Navy. It seems strange to be suggesting that the Army assist the Navy in this way, but I am sure we would receive most loyal support when the waters are safe for crossing with the Army.

Following from the Acting Secretary Navy sent for your information, and you will transmit it to General Shafter:

"Referring to the expedition destined to Santiago de Cuba, I have the honor to inform you that it is expected that the convoy of men-of-war, reenforced by two armored ships from Admiral Sampson's fleet, will be coaled and ready to start for Santiago by the evening of Monday, the 13th instant, or by the morning of the following day, without regard to the Spanish ships. The board is of the opinion that army transports should not move from the vicinity of Tampa until about twenty hours before the naval convoy will be coaled and ready to start. This latter time, though estimated as above, can not be closely fixed to-day, but probably can be by to-morrow evening."

Any further information concerning the movement of vessels for convoy will be sent you the moment it is received.

ADJUTANT-GENERAL OF THE ARMY, *Washington, D. C.:*

Practically all the transports have been in canal, where men have had free access to shore, and they have been off the greater part of two days. This afternoon all but eleven of the transports have been drawn a short distance into the stream, where the men are much more comfortable than in the canal, with excellent facilities for swimming and keeping clean. The command is being increased only by recruits, of which there are several hundred, the exact number of which will be telegraphed you in the morning, and by one troop of cavalry mounts. The transports now here are practically filled, though it might be possible to get one more regiment of volunteer infantry on. Will be able to tell to-morrow, when a rearrangement of some of the troops will be made. If I find it possible to take another regiment, I prefer the Thirty-second Michigan.

Major-General MILES, *Tampa, Fla.:*

Are there any troops still at Mobile or New Orleans? If so, they should be called to Tampa. How many troops are there besides those with No. 1 at Tampa? I am seriously thinking of moving the camp farther north, where the weather is better and shipping facilities are ample.

R. A. ALGER, *Secretary of War.*

HEADQUARTERS OF THE ARMY,
Tampa, Fla., June 10, 1898.

SECRETARY OF WAR, *Washington, D. C.:*

There are five regiments at Mobile—the First and Second Texas, First and Second Louisiana, and First Alabama—uniformed and equipped only in part. Camp there in good condition, healthy location, good water, and good bathing facilities.

Ten or fifteen thousand additional troops can be camped there better than to bring them to Tampa.

There are 15,000 troops at Tampa besides General Shafter's command, which is now on transports. His force would be increased by recruits and men left behind if he had additional transports.

Troops here are comparatively healthy, have fair camps, good bathing facilities, and are in good condition, considering the intense heat of the Southern clime. Would not advise their being moved North at this time.

As the camp at Chickamauga is becoming very much crowded, I expect to take some troops from there to make up the 30,000 required for expedition No. 2 and will recommend other changes as soon as report is received from Dr. Greenleaf's board.

The transports furnished do not afford accommodation for the number of troops expected. They are not suited for the shipment of large bodies of troops or animals. Believe it would be advisable to obtain larger steamers for the accommodation of both, and if the line of double or bilge keel cattle steamers, built especially for that purpose, could be obtained, they would be of great value in shipping animals for officers, cavalry, artillery, and transportation.

The fact that arms have been ordered to these three great commands does not indicate that they are available, as much time is consumed before they are received. I would recommend that arms and ammunition, camp equipage, especially such articles as axes, spades, cooking utensils, etc., be sent with as little delay as possible.

Experienced staff officers are much required, and I recommend that they be ordered to those headquarters for assignment to corps, divisions, and brigades.

To avoid the uncertainty as to time when expedition No. 2 will be ready, would suggest that if practicable some definite time be determined as to when the last transports can be procured and prepared, in order that that time may be understood as the time for having the commands ready for embarkation.

HEADQUARTERS OF THE ARMY,

SECRETARY OF WAR, *Washington, D. C.:*

Since your telegram of yesterday concerning Mobile, Tampa, and military camps, reports have been received that there are eight cases of yellow fever now at McHenry, 100 miles from Mobile, and it is expected that a quarantine will be established within twenty-four hours. This somewhat modifies the conditions and affects the future of the troops.

The board of officers, of which Colonel Greenleaf is president, will report Miami and Fernandina as the best points for troops from standpoint of health, being places where they can be most effectively isolated.

Mount Vernon has been for years a place of refuge from yellow fever for the troops on the Gulf, and I have telegraphed to ascertain if the ground can now be obtained from the State authorities, and if so, will move the troops from Mobile to that point, the distance being about 30 miles.

Expedition No. 2 will take practically all of the troops from Tampa except the cavalry, which can be moved later.

Owing to the crowded condition of the troops at Chickamauga, I think it advisable to move General Wilson's division of the First Corps to Miami, and also move an additional force from Chickamauga, added to those at Jacksonville, to make approximately 20,000 men under Lee at Fernandina.

Columbia, S. C., is out of the question on account of smallpox; also Savannah, Mobile, and Tampa, on account of threatened yellow fever and low malarial fevers.

If the above arrangement is approved, it will leave a reasonable number of troops at Chickamauga, Fernandina, and Miami, and the general plan as suggested in my letter of May 27 can be continued without interruption if we can have the full protection of the Navy.

Please inform me if the above disposition of the troops meets with your approval.

SIR: This Department desires to inform you that Commodore Remey, commandant of the naval base at Key West, has been directed to reassemble and coal, as soon as possible, the naval force which was recently designated to convoy the army transports in which is embarked the military expedition for Santiago de Cuba. As soon as Commodore Remey reports when the convoy will be coaled and ready his instructions are to send it to meet the army transports in the passage or strait between Rebecca Shoal and the Dry Tortugas, and considerable time would be saved if the army transports could leave Tampa about eighteen hours before the Key West division of the convoy reaches the neighborhood of

Rebecca Shoal. The date and hour at which the Key West division of the convoy will reach the vicinity of Rebecca Shoal can not yet be exactly fixed, but you will be informed of it as soon as practicable. Washington, June 12, 1898—11 a. m.

Maj. Gen. W. R. SHAFTER, *Port Tampa, Fla.:*

The following is sent you for your information and guidance: Commodore Remey, commandant of the naval base at Key West, has been directed to reassemble and coal, as soon as possible, the naval force which was recently designated to convoy the army transports in which is embarked the military expedition for Santiago de Cuba. As soon as Commodore Remey reports when the convoy will be coaled and ready his instructions are to send it to meet the army transports in the passage or strait between Rebecca Shoal and the Dry Tortugas, and considerable time would be saved if the army transports could leave Tampa about eighteen hours before the Key West division of the convoy reaches the neighborhood of Rebecca Shoal. The date and hour at which the Key West division of the convoy will reach the vicinity of Rebecca Shoal can not be exactly fixed, but you will be informed of it as soon as practicable.

You will place yourself in communication with Commodore Remey and arrange to meet convoy as herein suggested, making close connection. Acknowledge receipt.

By order Secretary War:

H. C. CORBIN, *Adjutant-General.*

HEADQUARTERS OF THE ARMY,

SECRETARY OF WAR, *Washington, D. C.:*

In the opinion of Colonel Greenleaf, chief surgeon, in which I concur, command at Jacksonville should move at once to Fernandina, where it may be isolated and increased by troops from Chickamauga. Jacksonville he regards as a dangerous place by reason of having been affected in previous epidemics and the danger of infection now through the concentration of railroads. Fernandina has ocean exposure, and next to Miami is considered safest place. Miami can now

accommodate 5,000, and in a few days 5,000 more. Troops can be gradually moved from there to Key West. Think I will move Wilson's division in that way.

I understand that 12 vessels have been chartered; accommodations for between 6,000 and 7,000 men. Troops will be ready when last transports arrive.

I understand that American Line steamers for transporting horses, mules, and cattle can be chartered and recommend that it be done, as that class of ships would be invaluable in this service. Colonel Kimball, at New York, can secure them. Large steamers would be advantageous both for health of command and safety of animals. Supplies and equipments have been gathered here. Believe it best for the larger portion of expedition No. 2 to sail from this place, and the remainder from Key West. When will sufficient transports be available?

As the Navy Department has full and latest information, I would suggest that the Department decide as to the advisability of the transports and convoys going by the south or north side of Cuba. The water may be smoother and the fleet in less danger from torpedo boats on the south side, hence I suggest that Department decide in view of recent information.

The Honorable the SECRETARY OF WAR.

SIR: The following telegram, dated Key West, Fla., 9 a. m., this date, in regard to the convoy for the expedition to Santiago, has been received in the Department from Commodore Remey:

"In answer to telegram cipher 'Abdicamur' of yesterday, *Indiana, Detroit, Bancroft, Wasp, Manning, Eagle, Wompatuck, Ericcson* have returned for convoy duty. *Osceola* and two armored cruisers from commander in chief North Atlantic Station not yet in. *Vesuvius* met and has been sent commander in chief North Atlantic force. Ships coaling this morning with difficulty. Rough outside. Water supply practically exhausted.

"REMEY."

It is recommended that the transports sail from Tampa this evening. They should reach the vicinity of Rebecca Shoal to-morrow afternoon, being convoyed to that point by the ships of war now at Tampa. At Rebecca Shoal the *Indiana* and other ships forming the rest of the convoy will meet the transports, and all proceed together to Santiago.

Very respectfully, CHAS. H. ALLEN, *Acting Secretary.*

JUNE 12, 1898.

SIR: In reply to your note of even date, I have the honor to inform you that General Shafter with his troops has been ordered to join the convoy at Rebecca Shoal not later than to-morrow afternoon.

Résumé of a letter from Garcia to Miles, which I send as only means of its reaching him. Miles letter received through Colonel Hernandez on June 6. Garcia regards his wishes and suggestions as orders and will immediately take measures to concentrate forces at the points indicated, but he is unable to do so as early as desired on account of his expedition to Banes Port, Cuba, but he will march without delay. All of his subordinates are ordered to assist to disembark the United States troops and to place themselves under orders. Santiago de Cuba well fortified, with advanced intrenchments, but he believes position for artillery can be taken as Miles desires. Approximate 12,000 regulars and 3,000 militia between Santiago and Guantanamo. He has sent force in order to prevent aid going to Santiago from Holguin. HEADQUARTERS OF THE ARMY,
Tampa, Fla., June 14, 1898.

SECRETARY OF WAR, *Washington, D. C.:*

In my judgment prudence and safety seem to dictate that the opinion of the highest medical military authorities and experience of many years should prevail. It is well known that Jacksonville just at present, although not on the coast, is healthful; so are Tampa and Mobile. Colonel Greenleaf states in his report: "Experience has demonstrated the necessity for camping troops in such places as may be made safe against the introduction of this disease—yellow fever—and I recommend that provision be made as soon as possible for transporting the troops now at Jacksonville, which would be a place of exposure should the disease advance from its present location, to Fernandina, and that other troops be transferred to Miami." He states his opinion is formed after consultation with yellow-fever experts, including Marine-Hospital Service. It will be an imperative necessity to move those troops at once should yellow fever approach Florida, and it should be commenced now. The troops at this place would have gone with first expedition had there been transportation, and have for days been working to get ready for expedition No. 2. In fact, these and a division at Chickamauga are the only troops ready. Other troops not ready or equipped for immediate field service can be sent to General Lee at Fernandina. I think it of the highest importance that the troops be placed in the three healthful camps of instruction—Chickamauga, Fernandina, and Miami—away from infected cities as soon as possible and the available force immediately equipped for active service. Is there objection to the troops at Mobile going to Mount Vernon?

MILES, *Major-General Commanding.*

WASHINGTON, D. C., *June 14, 1898.*

Major-General MILES, *Tampa, Fla.:*

You have made a large number of recommendations for staff appointments since you went South, all of which, I regret to say, can not have consideration, because all are filled or promised. Am seriously thinking of changing the base

from Tampa farther north. Major Hopkins and others who went to examine these places say that no troops can be camped at Miami. It is a coral-reef formation and not sufficiently cleared, except on the lowlands, where it is only 2 feet above low water, and where rain would make it impossible to use for drilling and camping; but that Fernandina and Savannah are excellent points. It seems to me it would be wise to ship the stores needed from Tampa on transports to save freight, as well as animals and transportation, and bring the troops farther north to those places where there is ample ground and plenty of water, and thus get ready for No. 2. We find much difficulty in getting steamers of light draft to carry troops. Could get ocean liners, but troops would have to be shipped from New York, Philadelphia, Baltimore, or Fort Monroe, or lightered out to ships from the coast and also to shore at point of landing. What do you think of this? The artillery, cavalry, and transportation might go on the light-draft ships, as before indicated. General Lee reports a splendid camping ground at Jacksonville. Any troops belonging to his corps not with him should be ordered to him at once. It is the President's wish that two brigades be sent from the Second Corps for this expedition, and No. 2 would be Garretson's.

Still, the delay was deeply regretted, and I hope such can be avoided in the future."

I think our telegrams crossed in transit. One-half of the troops for No. 2 are now here, being fully equipped and drilling every day as artillery. Siege trains, balloons, heavy ammunition, commissary and quartermaster's stores are also here.

Would advise against changing base until after departure of No. 2. Wilson's division in best condition; can be brought from Chickamauga and the entire command shipped as soon as transports can be made available. Vessels drawing 21 feet of water can come to wharf and nine load at one time. Think these parties are mistaken as to Miami. I have their official reports, hence their favorable recommendation. It has been cleared for 5,000 troops, and additional ground will be cleared for any number. Its advantages are the cool ocean breezes, nearness to Gulf Stream and to Cuba, and perfect isolation from yellow fever, which is principal objection to Savannah, Jacksonville, and Mobile. Would much prefer large steamers, as the troops do not load down as does freight, and with lighters, or barge, they can be made available wherever required as soon as Nos. 1 and 2 can be secured. The large number of cavalry horses, train animals, and artillery can be moved over to Cuba, which will clear everything south of Chickamauga and west of the coast.

Many of the five regiments at Mobile are immunes, and I think would be safe at Mount Vernon, certainly until they are equipped; or, if desired, these can be ordered to Fernandina to report to General Lee.

Respectfully submitted.

Regular organizations furnish a remarkably fine training school for officers and all that can be so trained are already needed. Can not regular service be immediately supplied with all the junior officers the law allows, especially as the good of the service evidently demands it? Then additional second lieutenants can increase the numbers now so greatly needed. It must be evident to all now that we need a larger perfectly trained and equipped force, especially officers, and the best place for quick training is among the regulars. Washington, D. C., June 18, 1898.

The Honorable the SECRETARY OF WAR.

SIR: In order to take timely precaution against the infection of the commands by yellow fever, I desire to submit the following:

The troops at Jacksonville, Fla., should move to and take station at Fernandina, Fla.

To relieve the crowded condition at Chickamauga, the Third Division of the First Corps (comprising nine regiments of infantry) and four batteries of light artillery should be ordered to Fernandina.

The troops at Tampa, including the horses for the cavalry now with the first expedition, are equipped and ready to move as soon as transportation can be obtained. I therefore recommend that no change be made in that command.

The troops at Mobile should be moved to Mount Vernon, Ala., where they would be comparatively safe from yellow fever, and, as many of them are "immunes," they can be moved to Cuba as soon as equipped.

There should be 5,000 men sent to Miami, Fla., from Chickamauga, and in the course of two weeks 5,000 additional men can be sent to Miami from the same point.

The chartered steamers should be sent at once to Port Tampa.

HEADQUARTERS OF THE ARMY,
Washington, D. C., June 24, 1898.

The Honorable the SECRETARY OF WAR.

SIR: I have the honor to submit the following:

With the capture of Santiago de Cuba it is expected we will have several thousand Spanish prisoners, and with the capture of the second objective position, now under consideration, it is expected we will add to the number, making, it is hoped, in the aggregate at least 30,000 prisoners.

After the capture of the position next after Santiago de Cuba it would be, in my judgment, advisable to take some deep-water harbors on the northern coast of Cuba, which would be available, not only for our army, but also for the navy, as safe ports for our transports, supply ships, and naval vessels between Key West and Porto Rico. It is also important that we should select some point at which to disembark our mounted troops and light artillery, with which our Government is well supplied. We will have in a few weeks upward of 15,000 cavalry. This force, with the light artillery and a small body of infantry, will make a most formidable army corps with which to conduct a campaign in the interior of Cuba.

The most available point, it appears to me, would be the harbor of Nuevitas, which has 28½ feet of water. From there the command could move to Porto Principe, one of the principal cities in the Island of Cuba. Using that as a base, it could move through the rolling country, which is reported to be free from yellow fever, to Moron and Taguayabon, and thence to Villa Clara; or, by a more southern route, from Porto Principe to Ciego de Avila, thence to Spiritus, and thence to Villa Clara. A road could be built at the rate of 5 miles per day as that army corps marches; also, we could find two railroad bases between Porto Principe and Villa Clara.

To move the mounted troops over from Florida to Cuba and make this march would undoubtedly consume the time up to nearly the 30th of September.

This army corps would also have the assistance of all the available forces of Garcia and Gomez, and would by that time be occupying practically two-thirds of the Island of Cuba.

If no serious forces were encountered, this army corps could continue its march to the south side of Havana. If a large force of Spanish troops sufficient to check its march were moved to the vicinity of Villa Clara, then the entire army with

which we purpose to invade Cuba could be moved between the forces at Villa Clara and Havana, dividing the Spanish forces and defeating them in detail.

I make this suggestion as having three advantages: First, we could employ at reasonable compensation such prisoners as desired occupation in road building; second, we could move into the interior of Cuba our large cavalry command without serious molestation; third, we would be operating during the rainy or sickly season in the most healthful parts of Cuba, practically free from yellow fever, and at the same time be occupying a large portion of the enemy's territory.

If this proposition does not meet with favor, then, after the capture of Santiago de Cuba and other places to the east, we could move the entire force to the west of Havana and conduct the campaign from the deep harbors on that coast. My judgment, however, is decidedly in favor of the first plan of campaign.

Before reaching Villa Clara we would undoubtedly have upward of 50,000 prisoners, and if we could by judicious, humane treatment use them in a way that would be advantageous to themselves as well as to our interests I think it would be advisable. There would be one great danger in moving them to our own territory and establishing a large camp of prisoners, and that is that they would bring the germs of disease with them and spread them among our own people, as many Americans would have to be employed on the ships and railroads together with the guards necessary to control them.

Very respectfully,

NELSON A. MILES,
Major-General Commanding.

HEADQUARTERS OF THE ARMY,
Washington, D. C., June 24, 1898.

Lieutenant Joyce, of Colonel Lee's regiment, room 590, this building, says that the Spanish army have as follows:

10,000 men at Holguin,
12,000 men at Manzanillo, and
15,000 men at Santiago.

37,000 total.

He also states that they can march from Holguin to Santiago in four days, and from Manzanillo to Santiago in five days.

Major-General BROOKE,
Commanding United States Troops, Chickamauga Park, Ga.:

Referring to the Commanding General's order of June 13, he directs that that force of 15,000 infantry be prepared immediately, fully equipped for field service,

with twenty days' travel rations and 500 rounds ammunition per man. The Commanding General also directs that you order Major-General Wilson to proceed, with his personal staff, to Port Tampa, Fla., in order to inform himself regarding the arrangements for embarking his division. Acknowledge receipt.

Major-General BROOKE, *Chickamauga Park, Ga.:*

Having reference to your telegram of this date, concerning movement of troops of First Division, etc., you are informed that it is probable you will be called upon to leave for Tampa in week or ten days. Not probable earlier than a week. General Wilson will command one of your divisions. On your leaving, General Wade will be charged with completion of organization of troops left behind, which should be pushed with all vigor, as it is quite probable they too will follow in close order. This you will communicate to General Wade in confidence. Secretary War is gratified that ordnance equipments are coming in.

By order Secretary War.

ADJUTANT-GENERAL,
War Department, Washington, D. C.:

Replying to your telegram* of yesterday, depot quartermaster reports in the yards of the Florida Central and Peninsular Railroad 6 unloaded cars of military supplies, in the Plant System yards 29 cars, and Port Tampa City 52 cars. Of this latter some more than one-half are cars which have been expressly loaded and placed on a side track at Port Tampa to be loaded on transports. All cars being as rapidly unloaded as delivered by railroads. Some days there are unloaded as many as 70 cars. Yesterday but 13 cars were unloaded, because it was impossible to get the railroad company to place the cars for unloading. There are in corrals 1,811 unassigned mules. This includes mules for siege artillery, 184 wagons with mules and harness complete; 65 escort wagons and 91 army wagons not yet fitted with teams; 175 low trucks for artillery, with solid wheels. There are 12 pack trains complete. The following are assigned to troops of my command here: Twenty-two draft horses, 1,791 draft mules, 104 pack mules, 119 army wagons, 307 escort wagons, 15 Red Cross ambulances.

Daiquiri 23. Had very fine voyage, lost less than 50 animals, 6 or 8 to-day; lost more putting them through the surf to land than on transports. Command as healthy as when we left. Eighty men sick. Only deaths 2 men drowned in landing. Landings difficult. Coast quite similar to that in vicinity of San Francisco, and covered with dense growth of bushes. Landing at Daiquiri unopposed. All points occupied by Spanish troops; heavily bombarded by navy to clear them out. Sent troops toward Santiago and occupied Juragua City, a naturally strong

place, this morning. Spanish troops retreating as soon as our advance was known. Had not mounted troops or could have captured them—about 600 all told. Railroad from there in. Have cars and engine in possession. With assistance of navy disembarked 6,000 men yesterday and as many more to-day. Will get all troops off to-morrow, including light artillery and greater portion of pack train, probably all of it, with some of the wagons; animals have to be jumped to the water and towed ashore. Had consultations with Generals Garcia, Rader, and Castillo, 1 p. m. of 20th, 20 miles west of Santiago. These officers were unanimously of the opinion that landing should be made east of Santiago. I had come to the same conclusion. General Garcia promises to join me at Juragua City to-morrow with between 3,000 and 4,000 men who will be brought from west of Santiago by ships of the navy to Juragua City and there disembarked; this will give me between 4,000 and 5,000 Cubans, and leave 1,000 under General Rabi to threaten Santiago from the west. General Kent's division is being disembarked this afternoon at Juragua City, and will be continued during the night. The assistance of the navy has been of the greatest benefit, and enthusiastically given. Without them I could not have landed in ten days, and perhaps not at all, as I believe I should have lost so many boats in the surf. At present want nothing. Weather has been good. No rain on land, and prospects for fair weather.

Daiquiri 24. Further news from General Wheeler places our loss in this morning's affair about 10 killed and 40 wounded. Captain Capron, First United States

Volunteer Cavalry, killed. Wounded: Major Brodie, Captain McClintock, and Lieutenant Thomas, First United States Volunteer Cavalry; Major Bell, Captain Knox, and Lieutenant Byram, First United States Cavalry; Captain Knox seriously. Captain Wainwright, formerly reported wounded, is uninjured. The names of the others killed and wounded not yet known. The Spaniards occupied a very strong, intrenched position on a high hill. The firing lasted about an hour, and the enemy was driven from his position, which is now occupied by our troops, about a mile and a half from Sevilla. The enemy has retired toward Santiago de Cuba.

Caskets can be taken to graves, as there is a wagon road from this place to them. Steel caskets could be brought here and bodies put in them, but professional undertaker must do it. General Duffield's command ashore. I will not act hastily, though I believe I can take the place within forty-eight hours, but I fear at considerable loss of life. There is no necessity for haste, as we are growing stronger and they weaker every day. The health of the command is reported to me by the surgeon as remarkable. Outside of the wounded there are to-day less than 150 men sick. So far no wounded have died, and but two men of disease since leaving Tampa. Am very glad to know that tugs and lighters are on the way. Hospital steamer *Relief* is all that we need at present. Have temporarily taken two transports for this service. now would block the road. I have four light batteries at the front, and they are heavy enough to overcome anything the Spaniards have. If we have to besiege the town I will get the guns up. The advance picket is now within 2½ miles of Santiago. Officers making reconnoissances were within 1½ miles to-day and met with no opposition.

To the Honorable the SECRETARY OF WAR.

SIR: Referring to letter of instructions of the 26th instant, I have the honor to report that some of the forces are now already embarked and others will be ready as soon as transportation can be furnished; that, in my judgment, the entire command should be moved as rapidly as possible to Santiago de Cuba. If, on arrival at that place, they are not required, they should continue on to Porto Rico without delay. I am prepared to go by first opportunity, and have made all my arrangements accordingly.

Very respectfully,

NELSON A. MILES,
Major-General Commanding.

PORT TAMPA, FLA., *June 29, 1898.*
(Received 12.05 a. m., 30.)

The ADJUTANT-GENERAL, *Washington, D. C.:*

Hudson, with 950 Shafter infantry recruits and 5 officers, pulled out into stream about 7 p. m. First Illinois has property about loaded on *Gate City* and *City of Macon*, except transportation, which will have to be left. Colonel Rice reports water capacity of these transports so scant as to be unwise for this regiment to embark before morning. This will be accomplished as early as possible. These three transports will therefore sail direct for Key West to-morrow morning. No room for cavalry recruits. The remaining three transports will take artillery. The temper of the English crews of *Unionist* and *Specialist* have delayed the loading of guns, property, etc., as have the railroads in placing their cars of artillery material. However, this is nearly completed, and to-morrow morning the horses will be loaded and the troops embarked. Seventy men will go with each transport as guard for horses; the balance of artillerymen will go on *Comanche*. This command will probably sail to-morrow night.

For General Coppinger.

HEADQUARTERS OF THE ARMY,
Washington, D. C., July 1, 1898.

The Honorable the SECRETARY OF WAR.

SIR: As it may be several days before a convoy can reach Key West to accompany additional transports to Santiago de Cuba, and as it will be several days before a sufficient number of transports can reach Tampa to take the remainder

of General Snyder's division, I think the present a favorable opportunity to take and occupy the isle of Pines, for the following reasons:

First. It will stop the accumulation on that island of supplies for the Spaniards, and the supplies already there can be captured.

Second. It will be easily taken when, as is now the case, the attention of the enemy is turned to Havana, Santiago, and Porto Rico.

Third. It is said to have the most delightful climate in the West Indies, being entirely free from yellow fever. It can be made extremely useful for the establishment of a hospital and a camp of prisoners, and also, eventually, as a base for supplying the Cubans, and possibly for the cavalry operations on the main island of Cuba.

I think the one steamer now at Tampa can, with a battery of artillery and one regiment of infantry, take the island, land from two to six months' supplies, and return to Tampa inside of ten days, when the steamer would be ready to be used for any future military purpose.

WAR DEPARTMENT, *July 3, 1898.*

Major-General SHAFTER,

Commanding United States Forces, Cuba:

I waited with the President until 4 o'clock this morning for news from you relative to Saturday's battle. Not a word was received, nor has there been up to this hour, 11 a. m., except an account of the battle of Friday, upon which I congratulate you most heartily. I wish hereafter that you would interrupt all messages that are being sent to the Associated Press and others, and make report at the close of each day, or during the day if there is anything of special importance, at once. The *Relief* left New York yesterday. She has 17 surgeons aboard, and will come to you as quickly as possible.

The SECRETARY OF WAR, *Washington:*

Camp near Sevilla, Cuba, 3. We have the town well invested on the north and east, but with a very thin line. Upon approaching it we find it of such a character and the defenses so strong it will be impossible to carry it by storm with my present force, and I am seriously considering withdrawing about 5 miles and taking up a new position on the high ground between the San Juan River and Siboney, with our left at Sardinero, so as to get our supplies, to a large extent, by means of the railroad, which we can use, having engines and cars at Siboney. Our losses up to date will aggregate 1,000, but list has not yet been made. But little sickness outside of exhaustion from intense heat and exertion of the battle of the day before yesterday and the almost constant fire which is kept up on the trenches. Wagon road to the rear is kept up with some difficulty on account of rains, but I will be able to use it for the present. General Wheeler is seriously ill and will probably have to go to the rear to-day. General Young also very ill; confined to his bed. General Hawkins slightly wounded in foot during sortie enemy made last night, which was handsomely repulsed. The behavior of the regular troops was magnificent. I am urging Admiral Sampson to attempt to force the entrance of the harbor, and will have consultation with him this morning. He is coming to the front to see me. I have been unable to be out during the heat of the day for four days, but am retaining the command. General Garcia

reported he holds the railroad from Santiago to San Luis and has burned a bridge and removed some rails; also that General Pando has arrived at Palma, and that the French consul with about 400 French citizens came into his lines yesterday from Santiago. Have directed him to treat them with every courtesy possible.

Camp near Santiago, 3.—Lieutenant Allen, Second Cavalry, is just in from my extreme right, which is on the railroad running north from Santiago and which

overlooks the entire bay. Lieutenant Allen states that Cervera's fleet was in full view until nearly 10 o'clock this morning, when it proceeded down the bay, and shortly afterwards heavy firing was heard. Duffield, at Siboney, has just telephoned me that Captain Cotton, of the *Harvard*, just sent him word that Admiral Sampson had signaled Cervera had come out and had escaped and that he was in pursuit. The *Harvard* immediately left. The French consul informed General Garcia, into whose lines he went yesterday, that Admiral Cervera had stated that he would run out at 10 o'clock this a. m., and that was the hour Allen witnessed his departure. Cervera told such consul it was better to die fighting than blow up his ships in harbor.

Headquarters Fifth Army Corps, 3. The following is my demand for the surrender of the city of Santiago:

"HEADQUARTERS UNITED STATES FORCES,

"NEAR SAN JUAN RIVER, CUBA, *July 3, 1898—8.30 a. m.*

"*To the Commanding General of the Spanish Forces, Santiago de Cuba.*

"SIR: I shall be obliged, unless you surrender, to shell Santiago de Cuba. Please inform the citizens of foreign countries and all women and children that they should leave the city before 10 o'clock to-morrow morning.

"Very respectfully, your obedient servant,

"MAJOR-GENERAL, U. S. A."

Following is the Spanish reply, with which Colonel Dorst has just returned at 6.30 p. m.:

"SANTIAGO DE CUBA, *July 3, 1898—3 p. m.*

"*His Excellency the General Commanding Forces of United States*

"*near San Juan River:*

"SIR: I have the honor to reply to your communication of to-day, written at 8.30 a. m. and received at 1 p. m., demanding the surrender of this city; on the contrary case announcing to me that you will bombard this city and that I advise the foreign women and children that they must leave the city before 10 o'clock to-morrow morning. It is my duty to say to you that this city will not surrender and that I will inform the foreign consuls and inhabitants of the contents of your message.

"Very respectfully, JOSÉ TORAL,

"*Commander in Chief, Fourth Corps.*

The British, Portuguese, Chinese, and Norwegian consuls have come to my line with Colonel Dorst. They ask if noncombatants can occupy the town of Caney and railroad points, and ask until 10 o'clock of 5th instant before the city is fired on. They claim that there are between 15,000 and 20,000 people, many of them old, who will leave. They ask if I can supply them with food, which I can not do for want of transportation to Caney, which is 15 miles from my landing. The following is my reply:

"JULY 3, 1898.

"*The Commanding General Spanish Forces, Santiago de Cuba:*

"In consideration of the request of the consular officers in your city awarded the delay in carrying out my intention to fire on the city and in the interest of the poor women and children who will suffer very greatly by their hasty and in forced [enforced] departure from the city, I have the honor to announce that I will delay such action solely in their interest until noon on the 5th, providing during the interval your forces make no demonstration whatever upon those of my own.

"I am, with great respect, your obedient servant,

"W. R. SHAFTER,

"*Major-General, United States Volunteers.*"

I do not know that these extreme measures which I have threatened be justifiable under the circumstances, and I submit the matter for the consideration of the President. The little town of Caney will not hold 1,000 people, and great suffering will be occasioned and our friends, as we must regard the people referred to, and it is now filled with dead and wounded, the dead still unburied. The consuls tell Dorst that there are not to exceed 5,000 troops in the city. I can hold my present line and starve them out, letting the noncombatants come out leisurely as they run out of food, and will probably be able to give such as are forced out by hunger food to keep them alive. I await your orders.

W. R. SHAFTER,

The *Yale* and *Harvard* arrived and discharged troops. The *Yale* returned at once and the *Harvard* is still here. Had nothing to do with these transports, they being exclusively under the control of the Navy. The *Louisiana* arrived with mules and forage late on night of June 30 and was sent to Daiquiri that night, and discharged mules the following day; is discharging forage now. She will be returned soon as discharged. No vessels have been discharged of more than troops and animals, rations, forage, and ammunition.

Major-General SHAFTER, *Playa del Este, Cuba:*

The following has just been sent to General Coppinger, Tampa:

"Two ships, known as Nos. 20 and 25, will sail from New York this afternoon for Tampa. No. 20 has accommodation for 1,000 horses and 1,000 men, with forage and rations for the same, and capacity of 250 tons fresh beef. No. 25 has capacity for 800 horses, men, and forage and rations, and 250 tons fresh beef. The exact time of arrival is not known, but anywhere from four to five days. On their arrival the number of men and animals indicated will be placed aboard. The destination of these ships will be Santiago, unless otherwise ordered. Acknowledge receipt."

KEY WEST, FLA., VIA JACKSONVILLE,
July 4, 1898—8.18 p. m.

ADJUTANT-GENERAL, U. S. A., *Washington, D. C.:*

Transport *Comanche*, with 500 enlisted men of light artillery and 38 Signal Corps, arrived at Key West at noon. Transport *Specialist* is here also. Transport *Unionist* has been out of sight astern since sundown yesterday. As the *Unionist* carries only 300 horses and 75 enlisted men of the artillery, and all the guns, ammunition, and harness for the six batteries are on board *Specialist*, I request permission to start at once, under proper convoy, with *Comanche* and *Specialist*, to Santiago. Upon arrival I shall be able to land and thoroughly equip three light batteries and the guns of other three can be hauled into position if necessary. Assistant Surgeon Teneyck, the only medical officer on *Comanche* with 614 enlisted men, is sick. Request immediate detail of one of the medical officers at Key West as assistant to him, or, if found necessary, to be assigned in his place. At present rate of sailing the *Unionist* will probably not be in till very late to-night. An order for especial convoy will be necessary. Estimated speed of *Specialist* 8 knots, speed of *Comanche* 13 knots.

RANDOLPH, *Commanding.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 4, 1898.

Gen. WALLACE RANDOLPH, *Key West, Fla.:*

The Secretary of War directs that the recommendations contained in your telegram of this date be carried into effect as speedily as possible. Let the slow boat follow; as the Spanish navy has been destroyed she takes but little chance of trouble. You will go with all dispatch to the support of General Shafter; your presence there is needed. This will be an order on the commanding officer, Key West, to give you the services of a medical officer asked for. Acknowledge receipt and report hour of departure.

Secretary of the Navy has just informed me that orders will be given by Commodore Remey to furnish you with a fast convoy as requested.

General SHAFTER, *Playa del Este, Cuba:*

Reenforcements are being hurried to you. Randolph leaves Key West to-night with fast convoy. He has about 3,500 men, including the six light batteries from Tampa. The *St. Paul* will leave New York Wednesday evening with the Eighth Ohio Volunteers. The *Yale* and *Harvard* will take all the troops they can carry, sailing from Charleston. The day and hour of their departure will be communicated to you as soon as known, probably the 6th.

PLAYA DEL ESTE, VIA HAITI, *July 4, 1898—11.50 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

Headquarters Fifth Army Corps, in camp near Santiago de Cuba, 4. There appears to be no reasonable doubt that General Pando succeeded in entering Santiago last night with his force, said to be about 5,000 men. This puts a different aspect upon affairs, and while we can probably maintain ourselves, it would be at the cost of very considerable fighting and loss. General Lawton reports that General Garcia, who was to block entrance of Pando, informed him at 10 o'clock last night that Pando had passed in on Cobre road. Lawton says can not compel General Garcia to obey my instructions, and that if they intend to place themselves in any position where they will have to fight, and that if they intend to reduce Santiago, we will have to depend alone upon our own troops, and that we will require twice the number we now have. I sent message to Admiral Sampson, asking if he proposed entering the harbor so as to give us his assistance. Commodore Watson replies that he does not know Admiral Sampson's intentions since the destruction of the Spanish squadron, but does not himself think fleet should try to go into harbor of Santiago. This, under the circumstances, is not very encouraging. Have been expecting a division from Tampa and Duffield's second brigade from Camp Alger, but only a small number of recruits has appeared so far. We have got to try and reduce the town, now that the fleet is destroyed, which was stated to be the chief object of the expedition. There must be no delay in getting large bodies of troops here. The town is in a terrible condition as to food, and people are starving, as stated by foreign consuls this morning, but the troops can fight and have large quantities of rice, but no other supplies. There will be nothing done here until noon of the 5th, and I suppose I can put them off a little longer to enable people to get out. Country here is destitute of food or growing crops, except mangoes. Men are in good spirits and so far in good health, though it is hard to tell how long the latter will continue. I am sorry to say I am no better and, in addition to my weakness, can not be out on account of slight attack of gout, but hope to be better soon. Lieutenant Miley had interview with consuls this morning, and his report will be telegraphed immediately. I do not send this in cipher, as time is precious.

NAVY DEPARTMENT, *Washington, July 5, 1898.*

The following is a quotation from a telegram received 1.15 p. m. to-day:

"KEY WEST, FLA., *July 5, 1898.*

"NAVIGATION, *Navy Department:*

"General Randolph said necessary that transport *Specialist* go with *Comanche.* Accordingly, as all transports except *Catania* were ready, they sailed about 10 o'clock, *Machias* and *Wilmington* convoying *Comanche, Specialist, Gate City, City of Macon,* and *Hudson. Leyden* left at same time, convoying *Unionist,* a slower steamer than the others. The others will make their best fleet speed, about 10 knots, not delaying for the *Unionist* and *Leyden. Catania* is only transport left here. Her repairs are in hand. Time of completion not yet known. Will send here with special convoy.

The repairs herein referred to were, by request of the War Department, yesterday ordered to be made by the navy engineers at Key West as quickly as possible.

Headquarters Fifth Army Corps, near Santiago de Cuba. Navy should go into Santiago Harbor at any cost. If they do, I believe they will take the city and all the troops that are there. If they do not, the country should be prepared for heavy losses among our troops. After talking with the French consul myself, and Lieutenant Miley, with several others, I do not believe I will bombard the town until I get more troops, but will keep up fire on trenches. If it was simply a going out of the women, and to outside places where they could be cared for, it would not matter much, but now it means their going out to starve to death or be furnished with food by us, and the latter is not possible now. I should very much like the Secretary's views.

ADJUTANT-GENERAL'S OFFICE,
Washington, July 5, 1898—3.10 p. m.

Major-General SHAFTER, *Playa del Este, Cuba:*

Your telegram this date has been submitted to the President. After consideration, the Secretary of War directs me to say that it is evident from your several reports that you do not consider your force strong enough to make a successful

assault upon the Spanish army intrenched in Santiago. This being the case, it is the part of wisdom to await reenforcements, the embarkation of which you have already been advised. As you have already been advised, you must be judge of the time and manner of assault. The President has directed that you and Admiral Sampson have a conference and determine a course of cooperation best calculated to secure desirable results, with least sacrifice.

By command Major-General Miles:

H. C. CORBIN, *Adjutant-General.*

PLAYA DEL ESTE, *July 5, 1898—3.45 p. m.*

Gen. RUSSELL A. ALGER, *Secretary of War, Washington:*

Headquarters Fifth Army Corps, near San Juan River, Cuba, 4, 6 p. m. In accordance with your order I send a dispatch showing the situation at this time.

No firing on lines since 11 a. m. yesterday, and there will be none to-morrow; certainly not before 12 o'clock noon. I have quite a number of seriously wounded Spanish officers and I have proposed to send them in, which the Spanish general has apparently gladly accepted. Only the severely wounded will be sent. This will probably occupy to-morrow. I am told troop ships are in sight; if so, I will get the men up to-morrow. Lieutenant Miley, of my staff, had an interview this morning with several of the consular officers. His report is telegraphed, so you may know all the circumstances, and is as follows:

Memorandum of an interview between Mr. Robert Mason, British proconsul; M. Isidore Augustine, Swedish and Norwegian consul; Mr. Modesto Ros, Portuguese consul; Mr. Angel Navarro, secretary to Cuban governor of the province of Santiago, and first lieutenant of the Second Artillery, near Santiago de Cuba, July 4, 1898, at 9.45 a. m.

Lieutenant Miley met General Wheeler and Colonel Dorst on the American lines and proceeded with them, bearing a flag of truce, to a point from 500 to 600 yards in front of the lines, where they met the four first above-named gentlemen. It was explained to the consuls that Caney had been badly shelled in the last few days and that many wounded were still in the houses at that place, and also some of the dead unburied, but that any person leaving Santiago could go there if he wished to a limited few—3,000 or 4,000. General Shafter could furnish the rougher components of the ration, namely, bread, sugar, coffee, and bacon. Left impossible at present to render assistance to a greater number. He did not expect there would be such a great number to leave the city. He also stated that General Shafter had submitted the question of bombardment to his home Government and expected a reply to-day. The alternative being a very close investment and starving the garrison out, which could be easily done, as the Americans had a force several times stronger than the enemy. In the latter case the people who could get something to eat would probably stay in the city and come out gradually, as their provisions failed. By this time the general would undoubtedly be in a position to assist them, but not now, if all were forced out at once. The general therefore advised a short wait until he received orders from his home Government, relying on the fact that he will not throw shells into the city.

The British proconsul, speaking for the others, then explained the dreadful condition now existing among the inhabitants of Santiago. The condition has been gradually growing worse for the last three years. For the past two years no crops of any consequence have been raised. It would entail a dreadful hardship upon everyone if forced to leave the city, and day before yesterday the scenes in the streets and around the consulates were very distressing. It was then expected that the American fleet would attempt to enter the harbor and bombard the city. Mr. Mason and the other consuls insisted upon the impor-

tance of the use of the broad term noncombatants when designating the persons who could leave Santiago. They said that many inhabitants of Spanish birth and sympathies now engaged in civil pursuits would be glad to leave the city if given an opportunity by General Shafter and General Toral. He says there are about 15,000 or 20,000 women and children and foreigners and about 30,000 noncombatants. The secretary to the civil governor was also very anxious that the term noncombatants be used. The British consul submitted for the consideration of General Shafter the following proposition: First, whether the old and infirm and the sick could not be taken on board the Spanish merchant vessels now in and moored at a point not under fire; second, whether trains filled with noncombatants could not be run from Santiago through American lines and the empty trains returned; third, whether some guaranty of disposition of American troops could not be given for the safety of noncombatants who might leave the city for territory now occupied by the Cuban forces. The first and second propositions were accepted, the third General Shafter could not agree to, as he could not afford to expose his troops in isolated places, where they will be forsaken by the Cuban forces when attacked.

Your telegram concerning the Navy entering Santiago Harbor is received and your action thoroughly approved. The Secretary of War suggests that if the Navy will not undertake to break through, take a transport, cover the pilot house in most exposed points with baled hay, attach an anchor to a towline, and, if possible, grapple the torpedo cables, and call for volunteers from the Army—not a large number—to run into the harbor, thus making a way for the Navy. Before acting, telegraph what you think of it. One thing is certain: that is, the Navy must get into the harbor, and must save the lives of our brave men that will be sacrificed if we assault the enemy in his intrenchments without aid. This is strictly confidential to you.

She is said to be an excellent ship. I have directed my chief engineer to survey her at 6 o'clock this morning. From all accounts she should be bought and put in commission at once, particularly as she can carry horses and mules, of which the army at Santiago is short. Navy men say great confusion and inefficiency in all supply departments, except commissary, prevails there. Great lack of facilities for landing and for transportation to front. PLAYA DEL ESTE, *July 6, 1898—4.13 a. m.*

ADJUTANT-GENERAL, *Washington:*

Camp near Santiago, 5. I am just in receipt of a letter from General Toral, agreeing to exchange Hobson and men here; to make exchange in the morning. Yesterday he refused my proposition of exchange.

SHAFTER, *Major-General.*

PLAYA DEL ESTE, *July 6, 1898—4.20 a. m.*

ADJUTANT-GENERAL, *Washington:*

In camp near Santiago, 5. The *Iroquois* sailed two days ago with 300 wounded. *Cherokee* sails to-day with 325 wounded.

SHAFTER, *Commanding.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 6, 1898.

Major-General WILSON, *Charleston, S. C.:*

I am going now with your telegram to see Secretary War, who is at the White House, and try to have matter definitely determined. Until transportation reaches you, General Hains's brigade should go into camp.

By command Major-General Miles:

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 6, 1898.

Major-General BROOKE, *Chickamauga, Ga.:*

The transports for General Wilson's first brigade will arrive at Charleston as follows: The *Resolute* on Friday, with a capacity for one regiment; the *Duchess* Saturday, with capacity for one regiment; new steamer, known as No. 30, on Monday, with capacity for 1,350 men. The *Resolute* is a navy vessel, armed and equipped as such, and will be a convoy for the *Duchess* and steamer No. 30. This information should be telegraphed to commanding general of the brigade. There will be a delay in getting transportation for your second brigade, which had better remain at Chattanooga until further orders. It was intended that this brigade should go on the *Harvard* and *Yale*. The destruction of the Spanish fleet has thrown on their hands 1,300 or 1,400 prisoners, who will have to be taken north to Portsmouth, N. H.

Every effort is being put forth to secure transportation for Hains's brigade, and the moment it is secured you will be advised.

By command General Miles:

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 6, 1898.

Major-General WILSON, *Charleston, S. C.:*

In reply to your telegram of this date, the following was sent General Brooke this morning:

"The transports for General Wilson's first brigade will arrive at Charleston as follows: The *Resolute* on Friday, with capacity for one regiment; the *Duchess* Saturday, with capacity for one regiment; new steamer, known as No. 30, on Monday, with capacity for 1,350 men. The *Resolute* is a navy vessel, armed and equipped as such, and will be a convoy for the *Duchess* and steamer No. 30."

Every effort is being put forth to get the ocean transport to you. The capture of large number Spanish prisoners that had to be brought north makes delay, but this will be remedied as much as possible. In meantime your command had better go in camp. Hains's brigade will be forwarded soon as transportation can be obtained.

By command Major-General Miles:

H. C. CORBIN, *Adjutant-General.*

CHICKAMAUGA PARK, GA., *July 6, 1898—11.48 a. m.*

ADJUTANT-GENERAL ARMY, *Washington, D. C.:*

With a view to having railway transportation properly at hand to carry General Hains's brigade to Charleston, will you please inform me when transports will be ready to receive it.

JOHN R. BROOKE,
Major-General, Commanding.

ADJUTANT-GENERAL'S OFFICE,
Washington, July 6, 1898.

Major-General BROOKE, *Chickamauga Park, Ga.:*

By reason of disappointment in getting the Navy transports for the transportation of troops from Charleston, as mentioned in previous telegram of to-day, there will be a delay of some days in General Hains's brigade. Officers of the Department are now trying to get other transportation. The result of their efforts will be communicated to you soon as known.

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 6, 1898.

Major-General BROOKE, *Chickamauga Park, Ga.:*

The Chief of Ordnance reports as follows: Six hundred thousand cartridges were shipped to Charleston for General Wilson by express yesterday. Provision has been made for shipments from Tampa, which should give sufficient supply for all troops in Cuba.

H. C. CORBIN, *Adjutant-General.*

CHARLESTON, S. C., *July 6, 1898—10.31 p. m.*

ADJUTANT-GENERAL, *War Department, Washington, D. C.:*

I have arrived here with one battalion, and the rest of two regiments of my brigade are three hours behind me. General Wilson has part of his division here. He expects 5,000 men. I have orders to take the *Yale* and *Columbia.* I learn that he expects to use these transports. As part of my brigade sailed to-day on the *St. Paul* the remainder can be taken on these two transports. I request that I be allowed to proceed.

GARRETSON, *Brigadier-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 6, 1898.

Major-General WILSON, *Charleston, S. C.:*

It is the intention that General Garretson shall use the *Yale* and *Harvard* for the transportation of his brigade. Yours to follow on transports that should arrive as indicated in my telegram of a few minutes ago.

By command Major-General Miles:

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,

General GARRETSON,
Commanding forces aboard the Yale, Charleston, S. C.:

What hour will you sail?

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 6, 1898—2.30 p. m.

Maj. Gen. W. R. SHAFTER, *Playa del Este, Cuba:*

The Secretary of War is anxious to know what prospect there is of breaking through the mine. He would be very glad, even with a delay, to have cooperation

of the navy, thus saving many lives. The *St. Paul*, sailing from New York to-day, has nearly everything you ask for. The lighters, sent a long time since, ought to be with you by this time. We are trying to make arrangements for light-draft steam vessels for carrying orders, etc., to be sent you as quickly as possible. Can you not procure from the navy steam launches to aid you in landing supplies and carrying dispatches while we are getting crafts of our own for that object? It is expected you will communicate freely, setting forth any assistance that can be given you in the way of supplies of any kind.

By command Major-General Miles:

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,

General COPPINGER, *Tampa, Fla.:*

The steamers known as 20 and 25 left New York for Tampa yesterday morning. This should make them due at your port either the 8th or 9th, when they will be loaded as heretofore directed.

H. C. CORBIN, *Adjutant-General.*

CHARLESTON, S. C., *July 6, 1898—7.20 p. m.*

ADJUTANT-GENERAL, *Washington, D. C.:*

Arrived here at 3 to-day; find neither orders nor instructions; *Yale* lying outside bar, 9 miles away. Difficult, if not impossible, to load horses on her. No other transports in sight. Brooke reports no order yet to forward Hains's brigade, First Regiment. Ernst's brigade now arriving. All here by morning.

WILSON, *Major-General.*

PLAYA DEL ESTE, VIA HAITI, *July 6, 1898– 7.58 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

Siboney, 5, 7.29 a. m. I yesterday offered to return to the commanding officer of the Spanish forces a number of wounded officers and men left lying on the battlefield at Caney, the officers to give their paroles and the senior officer for the men. Did this, first, to get rid of the care of them; and second, to show the Spanish troops they were not to be killed by us, as they had been told by their officers would be the case. This morning I sent Lieutenant Brooke and Dr. Goodfellow with some ambulances to Caney for the wounded, and from there conducted them as far as they were to go. Four officers and 24 men were loaded and driven into the inner line of defenses, near the city. Large numbers of officers and soldiers gathered about the ambulances and assisted in removing the men. Two companies of troops were drawn up on either side of the road and arms were presented to the officers and their mounted escort. All of the officers gave their individual parole and desired to return. The men did not wish to go back, but were required to do so. I have just received a letter through a flag of truce from the general of the lines thanking me courteously for giving them their wounded. I am satisfied that it will tend more to create dissatisfaction in the ranks of the enemy than anything I could have done, as the soldiers said we were fighting the church and were going to kill them. There has not been a shot fired on the line to-day. I am simply making my lines stronger and hanging on. I shall expect many deserters, as a number of officers came out with the refugees last night, one of them a colonel, and two captains, who fought us on the 1st.

SHAFTER, *Major-General.*

PLAYA DEL ESTE, VIA HAITI, *July 6, 1898—8 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

Camp near Santiago, 5, 7.1 a. m. Send at once four hundred M fuses for 3.6-inch mortar and 8 fuse punches for shrapnel fuses for same mortar.

SHAFTER, *Major-General.*

PLAYA DEL ESTE, VIA HAITI, *July 6, 1898—9.47 p. m.*

ADJUTANT-GENERAL, *Washington:*

In camp near Santiago, 5. *Iroquois* already sailed for Key West. If *Cherokee* has not sailed, will have her go to Fort Monroe. Hereafter all wounded will be sent to Fort Monroe.

SHAFTER, *Commanding.*

EXECUTIVE MANSION,
Washington, D. C., July 6, 1898—10.41 p. m.

Major-General SHAFTER, *Playa del Este, Cuba:*

As the Senate may soon adjourn, the President requests that if you have any recommendations to make for promotions of officers in your command for distinguished services, you do so by telegram at the earliest possible date.

R. A. ALGER, *Secretary of War.*

EXECUTIVE MANSION,
Washington, D. C., July 6, 1898—11 p. m.

Major-General SHAFTER, *Playa del Este, Cuba:*

The New York Journal reports that 50 Spanish prisoners were turned over to the Cubans and by them killed. Is there any truth in the report? We can not believe it. Did you receive my dispatch of Saturday conveying the President's congratulations to you and your army?

R. A. ALGER, *Secretary of War.*

PLAYA DEL ESTE, VIA HAITI, *July 6, 1898—12.50 a. m.*

Hon. SECRETARY OF WAR, *Washington:*

Camp near Santiago, 5. I am feeling better; had hoped to be up this morning, but as everything quiet I will remain still. General Wheeler is feeble, but remains with the command. General Young leaves Key West to-day. General Hawkins slightly wounded in foot. All others well.

SHAFTER, *Commanding.*

PLAYA DEL ESTE, CUBA, *July 6, 1898—1 a. m.*

General MILES, *Washington:*

Guantanamo Bay, 30 miles from Siboney, most excellent landing place. American liners could probably come up to wharf 75 to 100 feet long. Beach perfectly smooth for landing small boats. No other safe harbor this side of Santiago. If plenty of lighters, can disembark at Siboney in good weather. Have wired Derby send you report on this subject. See long report from Colonel Humphrey to General Ludington.

ALLEN.

HEADQUARTERS OF THE ARMY,
Washington, D. C., July 6, 1898.

The Honorable the SECRETARY OF WAR.

SIR: Referring to my letter* of the 29th ult'mo, I have the honor to report that I expect to leave Washington not later than to-morrow night.

Very respectfully,

NELSON A. MILES,
Major-General Commanding.

WAR DEPARTMENT,
OFFICE OF CHIEF SIGNAL OFFICER,
Washington, July 6, 1898.

The SECRETARY OF WAR:

I inclose herewith for your information the text of Cervera's message to Blanco yesterday, which Blanco forwarded to Madrid:

"AMERICAN GOVERNMENT, PLAYA DEL ESTE,
"*American Flag Station, 4.*

"To the GENERAL IN CHIEF, *Havana:*

"In compliance with your orders I went out yesterday morning from Santiago de Cuba with all the squadron, and after an unequal combat against forces more than triple mine had all my squadron destroyed by fire. The *Teresa*, *Oquendo*, and *Viscaya* beached and the *Colon* fleeing, I accordingly informed the Americans and went ashore and gave myself up. The torpedo chasers foundered. I do not know how many people are lost, but it will surely reach 600 dead and many wounded. Although not in such great numbers, the living are prisoners of the Americans. The conduct of the crews rose to a height that won the enthusiastic plaudits of the enemy. The commander of the *Viscaya* surrendered his vessel. His crew are very grateful for the noble generosity with which they are treated. Among the dead is Villamil, and I believe Lazaga, and among the wounded Concas and Eulate. We have lost all and are necessarily depressed.

"CERVERA."

Very respectfully,

A. W. GREELY,
Brigadier-General, Chief Signal Officer.

Maj. Gen. JOHN R. BROOKE, *Chickamauga Park, Ga.:*

The following is the report of the Surgeon-General, as far as it relates to his department:

"I have the honor to state that the only deficiencies, so far as known to this office, in medical supplies for his command are in several articles of special manufacture, such as medical and surgical chests, field desks, pouches, litters, surgeons' field cases, and like articles, with which the command is already supplied partially and which are being shipped forward as rapidly as they can be obtained from the manufacturers. In a number of articles the amounts called for on the latest requisition from the supply officer, Chickamauga Park, are smaller than those given in General Brooke's telegram."

The failure to have tugs and lighters for use in handling the fleet is of so serious a nature that I must again refer to it. Transports go off miles from shore and there is no way of reaching them or compelling them to come in. It is a constant struggle to keep them in hand. Had it not been for the lighter *Laura* the army could not have moved. It is with the greatest difficulty that one day's food can be issued at a time.

ADJUTANT-GENERAL, U. S. A., *Washington:*

Had consultation with Sampson. Navy disinclined to force entrance except as a last resource. They will bombard the city, which is within easy range of their big guns, beginning at noon of the 9th, and if that is not effective, after twenty-four hours, will then force entrance with some of the smallest ships. I still have hopes they will surrender. Made a second demand on them yesterday, calling attention to the changed conditions because of the loss of the Spanish fleet, and offering to give them time to consult their home Government, which General Toral has accepted, asking that the British consul return to the city with employees of the Cable Company to permit him to do so. Meanwhile I hope my reenforcements will arrive. Not one in sight yet except the 200 recruits for the Second Infantry, who came a week ago. As a last resource I will try running in transports. I do not consider my force sufficient to warrant an assault on the city, though I believe it would be successful, but at a fearful loss. Of course it would be criminal to hope for the end to be gained, which is merely the capture of a few thousand men and when we see we are getting them by siege. Nothing has yet been seen of tugs, lighters, and launches promised ten days ago.

Major-General SHAFTER, *Playa del Este, Cuba:*

The *St. Paul* left New York yesterday with a regiment. Over 3,000 troops from Tampa should arrive to-day, besides 6 batteries of artillery. The *St. Paul* carries all the supplies, clothing, etc., that you need so badly. Two regiments will leave Charleston to-day, and Wilson's division will be pushed forward just as rapidly as transports can be had. The Navy has placed the four liners at our disposal now and we shall keep them going. Richard Harding Davis cables to New York Herald very severe criticisms of operations and exposure of men. He says that some of the men in the trenches have been without food for forty-eight hours and without tobacco. While the President believes it unjust, yet the country will of course be distressed by account he gives. How are you personally? Of course you are looking out for your right flank.

CHARLESTON, S. C., *July 7, 1898—5.11 p. m.*

H. C. CORBIN, *Adjutant-General, Washington, D. C.:*

Can you properly tell me why Garretson's brigade precedes Ernst's? It does not begin to compare with latter in either efficiency or discipline.

J. H. WILSON,
Major-General, United States Volunteers.

ADJUTANT-GENERAL'S OFFICE,
Washington, July 7, 1898.

Major-General WILSON, *Charleston, S. C.:*

In reply to your telegram asking why Garretson's brigade precedes Ernst's, the Secretary of War directs me to say that it is because Garretson's brigade was ordered first. One regiment of his brigade having left, it is desirable that he and the balance of the brigade should reach Santiago as nearly together as possible. You can be assured that every effort is being put forth to secure transportation for your command. Your request for your entire division to go will be submitted to the Secretary of War and the President, and as soon as decision is reached will be communicated to you.

By command of Major-General Miles:

H. C. CORBIN, *Adjutant-General.*

CHARLESTON, S. C., *July 7, 1898—5.17 p. m.*

H. C. CORBIN, *Adjutant-General, Washington, D. C.:*

Yale and *Columbia* can not take Garretson's brigade complete, but will leave behind 800 men. How will the latter be sent forward? Your arrangements for my two brigades will probably be sufficient. Arrangements to prepare *Rita* for service as transport ship are already in progress. Why can not it be arranged to let my entire division go forward? Surely supplies to complete its equipment can be

furnished by the time transports can be ready. Its strength, with the two battalions of recruits for Pennsylvania regiments coming forward, will be about 11,500. The proportion of given men would be pretty nearly as efficient as if entirely drilled and disciplined, as they would replace in fatigue and other detached service on equivalent number which would otherwise have to be taken from fighting line.

WILSON, *Major-General.*

[Telegram.]

WAR DEPARTMENT, *July 7, 1898—5.30 p. m.*

Major-General SHAFTER, *Playa del Este, Cuba:*

The President directs that you order transports to stand in by the shore and enforce demand, so that they may be able to get supplies more easily. We are distressed about the tugs and lighters, which were ordered long since and ought to have reached you before now. Your long dispatch concerning second demand on city received and approved. We will be very glad if you can finish up that work without another assault.

By order Secretary of War:

H. C. CORBIN, *Adjutant-General.*

Major-General SHAFTER, *Playa del Este, Cuba:*

One tug should reach you to-day. A large, powerful one leaves New Orleans to-night. Fifty laborers went on the *St. Paul*, leaving New York to-day, and stevedores are on boats going to you.

Headquarters Fifth Army Corps, Camp near Santiago, Cuba, 7. Please send some fast ship from nearest point with 100 stevedores, 100 drivers, and as many medicines and dressings as can be obtained. It is reported to me medicines are very scarce. Two steam launches should be bought. Too much trouble to get things from navy, and we have but partial control of them when we do get them. This is not a matter to be put off. Sent 90,000 rations ashore to-day.

SHAFTER, *Major-General.*

PLAYA DEL ESTE, *July 7, 1898—8.35 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

Headquarters Fifth Army Corps, near Santiago, Cuba. The hospital ship *Relief* just arrived with a large amount of medical stores. Want the teamsters, stevedores, and steam lighters as wired you, and the sooner they can be gotten here the better.

ADJUTANT-GENERAL, *War Department, Washington, D. C.:*

My brigade commissary, Captain Deming, with brigade horses and rations, is booked to sail from Newport News Saturday morning. He also has on board rations for my brigade. Can't she stop here and take the two remaining battalions of the Sixth Illinois.

GARRETSON, *Brigadier-General.*

MEMORANDUM FOR THE QUARTERMASTER-GENERAL.

Instructions will be given for the steamer *Duchess*, in touching at Charleston, to take on two battalions of the Sixth Illinois which were left by General Garretson, as the *Yale* and *Harvard* could not accommodate over 1,800 men.

CHARLESTON, S. C., *July 7, 1898—10.40 p. m.*

The SECRETARY OF WAR, *Washington, D. C.:*

Will sail to-morrow morning on the *Yale* and *Columbia* with 1,800 men, leaving two battalions Sixth Illinois here, for which have no transport. Delay caused by inability to procure necessary rations promptly. If possible, would like *Duchess* sent here for my remaining battalions of 800 men.

GARRETSON, *Brigadier-General.*

CHARLESTON, S. C., *July 7, 1898—11.31 p. m.*

ADJUTANT-GENERAL, *Washington, D. C.:*

The *Rita*, delivered to me to-day, will be ready to sail Saturday, which in my opinion is as soon as the *Yale* and *Columbia* can get off with their share of Garretson's brigade. The *Rita* can carry about 800 men and officers and 50 horses or mules. Shall I send her with balance of Garretson's brigade, about 800 men, which the *Columbia* and *Yale* can not carry? They are an undisciplined set and should be got rid of as soon as possible. It is announced that the *Resolute* is detained at Guantanamo, which I assume will still further delay the departure of my command. Have you any further information to impart?

Hon. R. A. ALGER, *Secretary of War, Washington:*

Camp near Santiago, 7. Perfect quiet to-day. At request of Spanish general employees of English cable company were sent in to him to telegraph his Government as to surrendering. Men in good spirits and are making themselves more secure every hour. Five days' subsistence on hand. Wounds are much less dangerous than similar ones made by caliber .45. Among the large number of wounded, very few amputations; perhaps ten will cover it. Am looking anxiously for reenforcements; they seem to be delayed. Garretson's brigade expected ten days ago. Do not expect much results from long-range firing, but do from course promised for second day. General health of the command is good. One hundred and fifty cases of fever, which runs its course in four or five days and is not serious. I am feeling much better.

Hon. R. A. ALGER, *Washington:*

Headquarters United States forces, Cuba, July 8. In response to the request of the President for recommending of officers who especially distinguished themselves in the battle of July 1 I have one special recommendation to make. I ask that John D. Miley, first lieutenant, Second Artillery, be made a brigadier-general of volunteers. To the military skill, personal bravery, and great energy of this officer I attribute the good start that gave the troops the first success and which resulted in victory. This officer is a man of such ability and force as to make him one of the most desirable appointments in the Army, and urge the appointment as the best of those I have recommended.

The *Rita* should sail as soon as possible with the 800 men of Garretson's brigade, without waiting for any horses other than any that you have there that can be sent along. Transport known as No. 30 sails this afternoon from New York. She has accommodation for 1,300 men, and should reach you early Sunday morning; she can also take regimental horses. The *Duchess* sails from Newport News to-morrow morning, and should reach you Sunday morning. These two should provide for Ernst's brigade. Please telegraph the number of officers and men in General Ernst's brigade. These, with the *Resolute*, which will be subject to your orders, will provide for your brigade. The *Resolute* should be there or arrive very soon.

It is possible that some of them may have been hungry, but on the night of the battle pack trains were sent and food distributed along the line. They were without tobacco for several days, as it was only by the greatest exertion that coffee, sugar, meat, and bread could be gotten out to these. They had full rations except for twenty-four hours, when there was no coffee. I will have careful inquiry made to see if in any isolated cases men were without food for forty-eight hours and the cause of it. No such cases have been reported to these headquarters. General Roy Stone has ordered me, in the name of General Miles, to suspend loading the *Rita* and directing that no troops be sent upon her, as he intends to take her for the purpose of loading her with black laborers for the engineer and quartermaster departments at Santiago, for which she is well adapted. Of course I shall suspend operations in regard to her until this order is confirmed by you. General Stone advises me that he will ask that a Clyde Line steamer be furnished for transporting remainder of Garretson's brigade to destination. Can you give me any information as to time of arrival of the *Resolute* or as to the other transport for Hains's brigade? Also advise me what I may expect in the way of transport for the two battalions which were to go on *Rita*.

PLAYA DEL ESTE, VIA HAITI, *July 9, 1898—9 p. m.*

SECRETARY OF WAR, *Washington:*

Headquarters Fifth Army Corps, near Santiago. I forwarded General Toral's proposition to evacuate the town this morning without consulting anyone. Since then I have seen the general officers commanding divisions, who agree with me that it should be accepted. First, it releases at once the harbor; second, it permits the return of thousands of women, children, and old men, who have left the town fearing bombardment and who are now suffering where they are, though I am doing my best to supply them with food; third, it saves the great destruction of property which a bombardment would entail, most of which belongs to Cubans and foreign residents; fourth, it at once relieves the command, while it is in good health, for operations elsewhere. There are now three cases of yellow fever at Siboney, in Michigan regiment; and if it gets started, no one knows where it will stop. We lose by this simply some prisoners we do not want and the arms they carry. I believe many of them will desert and return to our lines. I was

told by sentinel, who deserted last night, that 200 men want to come but were afraid our men would fire upon them.

Colonel BIRD,

Quartermaster-General's Office, Washington, D. C.:

I remain here for the day to engage 500 laborers. General Miles directs that these have precedence over troops. I expect to have them ready to sail to-morrow. Please advise me about transportation. What have you done about the big steam lighter? If ready, she might carry these laborers. What about vessels for Jacksonville to take lumber and landing boats, as per my telegram of yesterday? This freight is ready for loading.

ROY STONE,
Brigadier-General, United States Volunteers.

CHARLESTON, S. C., *July 9, 1898.*

General LUDINGTON,

Quartermaster-General, Washington, D. C.:

Please see my telegram of this morning to Colonel Bird. I find steamer *Rita* nearly ready to sail. She is just what is needed at Santiago; carries eight derricks, and will carry the negro laborers from here and a portion of the landing boats from Jacksonville. She will be able then to load and carry the timber from Daiquiri and Siboney for building the docks at Guantanamo, which were ordered some days ago by the Secretary of War. She will be invaluable in loading and unloading guns and other material. In view of this, I have used General Miles's orders to suspend loading her with troops, and respectfully ask the Secretary of War to confirm this arrangement and have her placed at my disposal. Colonel Derby writes that it is extremely difficult to obtain labor for dock building, etc., near Santiago, and this force will be of immediate service. Colonel Derby is General Shafter's chief engineer. I understand there are Clyde Line steamers which come here several times weekly, and I have told General Wilson that I would ask to have one of them secured for him if possible. The laborers are reporting rapidly, and I can take perhaps 600 or 700 by to-morrow morning. We can use some of them at night in intrenching.

ROY STONE,
Brigadier-General, United States Volunteers.

ADJUTANT-GENERAL'S OFFICE,

Brigadier-General STONE, *Charleston, S. C.:*

Your telegram, this date, to Major Bird has been submitted to the Secretary of War, who directs you to take the laborers in question to Jacksonville, where

In answer to your telegram, 5.20 p. m., asking for report of disposition made of steamship *Rita*, operations are suspended in regard to *Rita* in compliance to order made by Gen. Roy Stone in name of General Miles. General Stone intends using her for purpose of loading black laborers here for use in engineer and quartermaster's departments at Santiago. *Rita* is still at dock, and no portion of Garretson's brigade is on board. My command here consists of 2,405 enlisted men and 128 officers, being Ernst's brigade and my own staff.

Major-General SHAFTER, *Playa del Este, Cuba:*

In reply to your telegram recommending terms of evacuation as proposed by the Spanish commander, after careful consideration by the President and Secretary of War, I am directed to say that you have repeatedly been advised that you would not be expected to make an assault upon the enemy at Santiago until you were prepared to do the work thoroughly. When you are ready, this will be done. Your telegram of this morning said your position was impregnable and that you believed the enemy would yet surrender unconditionally. You have also assured us that you could force their surrender by cutting off the supplies. Under these circumstances your message recommending that Spanish troops be permitted to evacuate and proceed without molestation to Holguin is a great surprise and is not approved. The responsibility of destruction and distress to the inhabitants rests entirely with the Spanish commander. The Secretary of War orders that when you are strong enough to destroy the enemy and take Santiago that you do it. If you have not force enough, it will be dispatched to you at the earliest moment practicable. Reenforcements are on the way, of which you have already been advised. In the meantime nothing is lost by holding the position you now have and which you regard as impregnable. Acknowledge receipt.

J. H. WILSON, *Major-General, Volunteers.*

PLAYA DEL ESTE, VIA HAITI, *July 10, 1898—3.33 a. m.*

ADJUTANT-GENERAL, *Washington:*

Telegram to Colonel Allen of yesterday received. See my telegram of July 4 and 5 to General Miles, at Washington. Since then General Shafter has ordered the *City of Washington* and the *Stillwater* to be used as hospital ships, making four in all for that purpose. Understand they are to go north when full, and probably by that time other vessels will be taken for that purpose. Hospital ship *Relief* anchored in harbor yesterday. Understand she is to be kept here primarily for the sick. It is still exceedingly difficult to unload vessels sufficiently fast to supply the command with all the essentials required by them. Soon as tugs and lighters arrive the work will be greatly expedited. Was informed by General Shafter before reaching here that the supplies on vessels would be unloaded only to the extent of keeping the troops supplied for a few days in advance on actual necessities, it appearing probable that Santiago would fall, in which case vessels would be unloaded there and troops reembark and go elsewhere. With the limited facilities for unloading, however, it was found that troops could not be supplied for more than about three days in advance. So when orders reached me to unload vessels and send them to Port Tampa, it was impossible to proceed faster in that direction than had been done. Captains of vessels on being discharged requested permission to go directly to Port Tampa, saying that they could go south in perfect safety and make the trip in three days. I agreed with them in

this, but owing to the orders of the Secretary of War I referred the matter to General Shafter, who felt that he could not assume the responsibility for allowing them to proceed except as ordered. I expected some necessary delay at Guantanamo, and possibly the great delay there has been unavoidable. Fearing delay at Guantanamo would further jeopardize the condition of the sick and wounded, the *Iroquois* assumed the responsibility of directing them to proceed at once from this point to Key West, and subsequently gave the same orders to the *Cherokee*, sailing for Newport News. Regret apparent delay in other of your orders. Siboney is nothing like as well adapted to disembarking troops and supplies as Daiquiri, but that place, being 7 miles west, owing to lack of transportation, is used as little as possible. If the capture of Santiago is much delayed crib wharves should be built at Daiquiri and possibly here, though the American Iron Company, operating here for years, has found it impossible to build wharves that would resist surf, it not being practicable to go beyond its effect owing to the great depth of water. There is square timber and sufficient drift logs for constructing wharf, and almost all needed is small amount of heavy tire iron and carpenters' and blacksmith' necessary tools. Please show this telegram to the Quartermaster-General.

CHARLESTON, S. C., *July 10, 1898—1.40 p. m.*

Adjutant-General CORBIN, *Washington, D. C.:*

It has come to me from various sources that the troops operating near Santiago are very inadequately supplied with means of land transportation, and as my command will start from here with absolutely none, I feel it my duty to say that its arrival at the scene of action will add still further to the difficulties

which already beset the supply departments. Under such circumstances it seems to me that my command should not be put in the position of looking to any other command to supply its deficiencies. If any emergency arises for a compaign out of sight of the transports, we shall be paralyzed by the absence of mules, wagons, carts and aparejos. In view of the fact that the Government is amply able to supply all these articles and to transport them with the troops to the scene of action, I trust immediate provision will be made to that end. The *Rita* having been delivered to General Stone yesterday and by him returned to me last night, I have loaded her with two battalions of the Sixth Illinois and their supplies, and she will sail for Santiago this afternoon.

SECRETARY OF WAR, *Washington:*

Camp near Santiago, Cuba, 11. May I especially commend the three officers serving with me through this expedition to the favorable consideration of the Department? Despite various important applications and suggestions the obstacles in making the full use of my party, either for observation or other beneficial purpose, were such that special effort seems required to accomplish anything useful, and in the finest spirit and with my fullest consent and encouragement, Captain Alger, whom General Miles has directed to report to me for this expedition, took a rifle and joined the First Infantry, with General Shafter's consent, as the only method of getting ashore with the first landing party. His conduct and observations attract special attention and interest. I greatly regret that he is not with me now, but the day I landed General Shafter assigned him to General Duffield, I suppose under some authority of feelings of responsibility to higher authority, so his observations during this month are of operations in that section, and will especially cover the demonstration against Aguadores under General Duffield. Captain Rhoades began to note the operations of July 1 near the El Paso sugar plantation,

where General Shafter was to take his station. Despite a painful injury from his horse falling upon his leg, he kept on the field all day and night continuously and reported to me time again and again under fire with right wing, and getting under the fire of the enemy's pickets, always conducting himself as a gallant officer should. Lieutenant Foote accompanied me from start to finish with General Lawton turning movement against Caney, being of great service to General Lawton and myself, exposed to all the fire through which either of us were exposed, whether from blockhouse or pickets, by day or night, his sound judgment and fine courage and soldierly endurance were particularly displayed, and his artillery experience was fully utilized and, it is believed, aided in the final result. His appointment as a field officer in a volunteer regiment would give a field for his soldierly qualities that would be of benefit to the public service. Special attention is invited to his merit. The other two officers have received some recognition by selection for promotion.

Rained very hard last night and so far to-day. If it continues long, roads will be practically impassable. So far no attempt to enter the harbor by the navy. They should be required to make a determined effort at once. The slight bombardment has apparently had no effect on the town. "ESTEEMED GENERAL OF THE AMERICAN FORCES.

"SIR: I have the honor to insist upon my proposition to evacuate the Plaza and the territory of the division of Cuba under conditions hereinafter stated, for the Spanish arms trusting that your chivalry and sentiment as a soldier will make you appreciate exactly the situation, and therefore must a solution be found that leaves the honor of my troops intact; otherwise you will comprehend that I shall see myself obliged to now make defense as far as my strength will permit. I call the attention of your eminence to the advance of your troops by railroad, the movement of which I suppose you are ignorant, and I take that you will kindly order their return to their position during the time that the armistice is in existence.

Camp near Santiago, 12. The Spanish general to-day asked that some conclusion be reached that shall save his honor. Offers to surrender Santiago province, force, batteries, munitions of war, etc., all except the men and small arms. Under ordinary circumstances would not advise acceptance, but this is a great concession, and would avoid assaulting intrenching lines with every device for protecting his men and inflicting heavy loss on assaulting lines. The siege may last many weeks, and they have the provisions for two months. There are 20,000 starving people who have fled the city and were not allowed to take any food. The fortitude and heroism of the Army has been unsurpassed, and, under the circumstances, I concur with General Shafter and the major-general, and would request that discretion be granted as to terms, in view of the importance of other immediate operations in which both this part of the Army and Navy will participate. The very serious part of this situation is that there are 100 cases of yellow fever in this command and the opinion of the surgeon that it will spread rapidly.

ADJUTANT-GENERAL'S OFFICE,
Washington, July 13, 1898—3 p. m.

Major-General SHAFTER, *Playa del Este, Cuba:*

Secretary of War directs that as soon as the military situation admits of such action that troops should be withdrawn from proximity to the infected towns and encamped on high ground near the coast and within easy reach of their base of supplies. The camps should be well separated, and any regiment which remains in such fresh camp for five days without having any cases of yellow fever among the troops could be put on a transport, if desired, to return home or to go to some other point of active operations. If cases of yellow fever occur in any regiment camped by itself, they should at once be sent to the hospital established for the reception of such cases and the regiment should not be put upon a transport until at least five days have elapsed since the last case of yellow fever. In general, no cases of yellow fever and no suspicious cases of yellow fever should go upon the transports, as it is extremely important that these should not become infected. Maj. John Guiteras, surgeon, United States Volunteers, who is at Santiago, is an

expert with reference to the management of yellow-fever epidemics, and his advice should be carefully followed.

By order Secretary of War.

H. C. CORBIN, *Adjutant-General.*

WAR DEPARTMENT, *Washington, July 13, 1898.*

SIR: I have the honor to request that you order the fleet off Santiago to at once force its way into the bay, if possible, to aid the Army in the capture of Santiago and the Spanish army defending it.

The special reasons for immediate action are: First, the very heavy rains that are falling almost continuously have made the roads nearly impassable and threaten to cut off our supply of provisions for the Army in the trenches altogether; second, the rains are making the holding of our lines almost impossible, as the trenches are filled with water; third, the lives of our men are in great danger from yellow fever, which has broken out among our troops and is spreading rapidly, and, fourth, the character of the works of the enemy is such that to take them by assault would be a terrible sacrifice of life.

These conditions it is believed by the Major-General Commanding would be changed were the Navy in the bay to cooperate with the Army, and the capture of the city and the Spanish army thus made comparatively easy matter.

Very respectfully,

R. A. ALGER, *Secretary of War.*

The Honorable the SECRETARY OF THE NAVY.

WASHINGTON, D. C., *July 13, 1898.*

Major-General MILES,

Camp near Santiago, Playa del Este, Cuba:

You may accept surrender by granting parole to officers and men, the officers retaining their side arms, the officers and men after parole to be permitted to return to Spain, the United States assisting. If not accepted, then assault, unless in your judgment an assault would fail. Consult with Sampson, and pursue such course as to the assault as you jointly agree upon. Matter should now be settled promptly.

Have had an interview of an hour and a half with General Toral and have extended truce until noon to-morrow. I think it made a strong impression on him, and hope for his surrender. If he refuses I will open on him at 12 noon to-morrow with every gun I have, and have the assistance of the navy. Am ready to bombard the city with 13-inch shells. There is a good deal of nervousness throughout the army on account of yellow fever, which is among us certainly. STERNBERG, *Washington:*

Two hundred and fifty cases, 5 deaths. Still increasing. Camp established. Temporary detail of Gorgas necessary. Advise immediate outfitting two hospital transports. Not yellow. Full corps doctors, nurses, and large crews. Facilities for loading and unloading must be ample. Also one supply boat, not large; all with navy storm launches. Supplies must be in small packages for one man to handle. Mark continues. Send with supply boat double torney's supply of medicines and dressings, bedding and clothing for 10,000 patients; also 1,000 hospital tents, muslin, double, like Wyman's at Egmont Keys.

ADJUTANT-GENERAL'S OFFICE,
Washington, July 14, 1898—11.10 a. m.

Major-General WILSON, *Charleston, S. C.:*

Secretary War directs me to acknowledge receipt of your telegram of last night and to inform you that yellow fever is reported to be so bad at Santiago that no more troops will be sent there or to that neighborhood for the present. Your command will be a part of the Porto Rico expedition, which will sail in the near future, but date not yet fixed. In the meantime, the Secretary War desires your views as to best disposition to be made of troops now with you. You might sail to Fernandina or some other point on the coast and there await the assembling of the entire expedition, leaving your wagons and heavy freight on board and disembarking the animals and men and going into camp. It is thought the expedition will be under way in seven or eight days. The situation at Santiago is this: That there will be a surrender or an assault at noon to-day, but by reason of the sickness in that command, it is practically unavailable for any further field service at this time. This the Secretary of War desires for the information of yourself and your confidential staff officers. Early reply requested.

By order Secretary War:

ADJUTANT-GENERAL'S OFFICE,
Washington, July 14, 1898—12 noon.

General SHAFTER, *Playa del Este, Cuba:*

Your message referring to General Toral's last communication is received. The assistance of the United States to return the Spanish prisoners to Spain is a matter of detail which will require time, but will be done promptly and with the least possible delay. That can be arranged after surrender, which should be immediate on lines of instruction already given you.

By order of the Secretary of War:

H. C. CORBIN, *Adjutant-General.*

NAVY DEPARTMENT, *Washington, July 14, 1898.*

SIR: I have the honor to acknowledge the receipt of your communication of the 13th instant, requesting orders be issued by this Department for the fleet off Santiago to force its way into the bay, if possible, to aid the army in the capture of Santiago and the Spanish army defending it.

Before Santiago, July 14. General Toral formally surrendered the troops of his army, troops, and division of Santiago on the terms and understanding that

his troops would be returned to Spain. General Shafter will appoint commissioners to draw up the conditions of arrangements for carrying out the terms of surrender. This is very gratifying, as General Shafter and the officers and men of this command are entitled to great credit for the sincerity, fortitude, and in overcoming the almost insuperable obstacles which they encountered. A portion of the army has been infected with yellow fever, and efforts will be made to separate those who are infected and those free from it and to keep those which are still on board ship separated from those on shore. CORBIN, *Adjutant-General, Washington, D. C.:*

After as full an examination as I can make here through the superintendent of the light-house district and Coast Survey charts, I am persuaded that Charleston is the best harbor and has the best facilities for embarkation between here and New Orleans. The depth over the bar at low water is 20 feet and 3 inches, at Savannah about 17 feet, and at Fernandina about 15 feet. Captains of the transports say they can not enter last-named harbor. I have, however, sent an officer of the engineers to that place to get full particulars as to the harbor, camp grounds, shipping facilities, and water supply, and another to Newport News for the same purpose, and shall be prepared to report fully to you by Sunday; mean time transport No. 21 will not arrive here until Saturday, and can not be loaded so as to leave here before Sunday night or Monday morning. If I knew where the expedition spoken of in your telegram of this morning was likely to be assembled, it might facilitate my conclusions and operations, as Newport News will accommodate the largest steamers, without which it would be difficult to get transports sufficient. I am satisfied it is better than any place south of it. I do not think it would be wise, on account of its possible influence upon the troops, to return to Chickamauga.

WILSON, *Major-General.*

WASHINGTON, D. C., *July 14, 1898.*

Major-General MILES, *Cuba:*

The conditions are such on account of yellow fever that I have ordered all further shipment of troops to Santiago to cease. We are now arranging transportation for 25,000 men for Porto Rico. As soon as matters are settled at Santiago, I think you had better return and go direct with this expedition. Yellow fever breaking out in camps at Santiago will, I fear, deprive you of the use of all forces there. That, however, can be determined later. As soon as Santiago falls the troops must all be put into camps as comfortable as they can be made, and remain, I suppose, until the fever has had its run. It is a most difficult problem to solve, but we are sure you and General Shafter, with the aid of the surgeon in charge, will do all that can be done. Have ordered two immune regiments to Santiago, and they, with the colored regulars, it seems to me, will answer to garrison the places as long as our forces have to remain.

PLAYA, *July 15, 1898—4.10 p. m.*

ADJUTANT-GENERAL, *Washington:*

Headquarters near Santiago, 15. Sent you several telegrams yesterday, as did General Miles, in regard to surrender. General Toral agreed yesterday positively to surrender all the forces under his command in eastern Cuba upon a distinct understanding that they were to be sent to Spain by the United States; that this surrender was authorized by General Blanco, and that its submission to-morrow was merely formal. Commissioners to arrange details were appointed; Wheeler, Lawton, and Miley on part of United States. Points were immediately raised by Spanish commissioners. The discussion lasted until 10 last night. At last my commissioners think the matter will be settled to-day, and met at 9.30 o'clock this a. m. The great point with Spanish is that they may be allowed to carry their arms with them to Spain, marching out here and depositing them in my charge, but having them shipped with them to Spain. There are about 12,000 troops in the city and about as many more in the surrounding district; 25,000 in all will be transported. General Miles was present, and said the surrender was as absolute and as complete as possible. It can not be possible that there will be failure in completing arrangements. Water famine in city imminent. Have supply cut. This was to Lieutenant Miley by English commissioners. Will wire frequently when negotiations are progressing.

PLAYA DEL ESTE, *July 15, 1898—9 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

Headquarters near Santiago, Cuba, 15. I do not believe that Toral is trying to gain time in hopes of getting reenforcements. Cubans have forces in vicinity of all Spanish troops. Toral asked to send messages to Guantanamo and to Palmas to notify Spanish troops of condition. Wheeler, Lawton, and Miley are thoroughly convinced that they are earnest, and they have been in consultation with the Spaniards twenty-four hours. Am told by reliable persons of Santiago that the Spanish officers are greatly pleased at the thought of going home, but generals are afraid of the consequences with themselves unless terms of surrender are sanctioned by the Madrid Government.

The President and Secretary of War are becoming impatient with parley. Any arrangement that allows the enemy to take their arms had as well be abandoned once for all, as it will not be approved. The way to surrender is to surrender, and this should be fully impressed on General Toral. I send this as your friend and comrade, and not by authority, but you can be guided by it with entire safety. Forwarded your telegram last night as requested.

Colonel Black, en route to Santiago de Cuba on board *Lampasas*, has left the *Suwanee*, a lighter, which he considers very useful and very essential to Santiago, to be towed by a tug which I have chartered for the purpose. I am to start these boats out. The captain of the *Suwanee* states that you declined to furnish Colonel Black with convoy for these boats, which are very slow, on the ground that there were no light-draft convoys available. The captain of the lighter thinks that it was not understood what was desired, and says the northern coast of Cuba has a number of armed steam launches. The lighter and her tug are quite slow. A convoy drawing as much as 7 feet could go with these boats. In Colonel Black's absence I take the liberty of sending you this information, in case convoy drawing not more than 7 feet is now available for these boats, which will leave Port Tampa to-morrow, and the convoy could meet them at Key West Monday night.

ADJUTANT-GENERAL, U. S. A., *Washington:*

Headquarters near Santiago, 15. I do not entertain the proposition for the Spanish to retain their arms. They are to surrender them absolutely, immediately after articles of capitulation are signed, but they beg, as an act of consideration to them, that I will intercede with my Government that they be shipped with them to Spain. I regard this as a small matter that in no way binds the Government, but is one I would not let stand between clearing 20,000 Spanish soldiers out of Cuba or leaving them there to be captured later, and probably with much loss to ourselves.

Siboney, 16. The letter of July 14 instant is as follows (translation dated Santiago de Cuba, July 14, 1898):

"*General in Chief of the American Forces.*

"HONORED SIR: His excellency the general in chief of the army of the island of Cuba telegraphs from Havana yesterday at 7 p. m. the following: 'Believing that business of such importance as the capitulation of that place should be known and decided upon by the Government of His Majesty, I give you notice that I have sent the conditions of your telegram, asking an immediate answer, and enabling you also to show this to the general of the American Army to see if he will agree to await the answer of the Government, which can not be as soon as the time which he has decided, as communication by way of Bermuda is more slow than by Key West. In the meanwhile your honor and the general of the American Army may agree upon capitulation on the basis of repatriation, returning to Spain.' I have the honor to transmit this to you that in case you may think the foregoing satisfactory he may designate persons in representation of himself, who, with those in my name, may agree to clauses of the capitulation upon the basis of return to Spain, accepted already in the beginning by the general in chief of this army. Awaiting a reply, I am,

Very respectfully, your servant, JOSÉ TORAL, etc."

The positive statement of General Toral and the claims of the capitulation are such, and have been signed by both Spanish and American commissioners, that I think there can be no possible failure. It was a positive and gratifying surrender of a brave people on generous terms.

SHAFTER, *Major-General, Commanding.*

Terms of the military convention for the capitulation of the Spanish forces occupying the territory which constitutes the division of Santiago de Cuba, and described as follows: All that portion of the island of Cuba east of a line passing through Aserradero, Dos Palmas, Cauto Abajo, Escondida, Tanamo, and Aguidora, said troops being in command of Gen. José Toral, agreed upon by the undersigned commissioners: Brig. Gen. Don Federico Escario, lieutenant-colonel of staff; Don Ventura Fontan, and, as interpreter, Mr. Robert Mason, of the city of Santiago de Cuba, appointed by General Toral, commanding the Spanish forces on behalf of the Kingdom of Spain, and Maj. Gen. Joseph Wheeler, U. S. V.; Maj. Gen. H. W. Lawton, U. S. V.; and First Lieut. J. D. Miley, Second Artillery, A. D. C., appointed by General Shafter, commanding the American forces, on behalf of the United States:

1. That all hostilities between American and Spanish forces in this district absolutely and unequivocally cease.

2. That this capitulation includes all the forces and war material in said territory.

3. That the United States agrees with as little delay as possible to transport all the Spanish troops in said district to the Kingdom of Spain, the troops being embarked, as far as possible, at the port nearest the garrisons they now occupy.

4. That the officers of the Spanish army be permitted to retain their side arms and both officers and private soldiers their personal property.

5. That the Spanish authorities agree to remove, or assist the American Navy in removing, all mines or other obstructions to navigation now in the harbor of Santiago and its mouth.

6. That the commander of the Spanish forces deliver, without delay, a complete inventory of all arms and munitions of war of the Spanish forces in above-

described district to the commander of the American forces; also a roster of said forces now in said district.

7. That the commander of the Spanish forces, in leaving said district, is authorized to carry with him all military archives and records pertaining to the Spanish army now in said district.

8. That all that portion of the Spanish forces known as volunteers, mobilizados, and guerrillas who wish to remain in the island of Cuba are permitted to do so upon condition of delivering up their arms and taking a parole not to bear arms against the United States during the continuance of the present war between Spain and the United States.

9. That the Spanish forces will march out of Santiago de Cuba with honors of war, depositing their arms thereafter at a point mutually agreed upon, to await their disposition by the United States Government, it being understood that the United States commissioners will recommend that the Spanish soldier return to Spain with the arms he so bravely defended.

10. That the provisions of the foregoing instrument become operative immediately upon its being signed.

Entered into this 16th day of July, 1898, by the undersigned commissioners, acting under instructions from their respective commanding generals and with the approbation of their respective Governments.

The following has been received from the President, and is published for the information of the Army:

WASHINGTON, D. C., *July 16, 1898.*

General SHAFTER,

Commanding United States Forces, Santiago, Playa:

The President of the United States sends to you and your brave army the profound thanks of the American people for the brilliant achievements at Santiago, resulting in the surrender of the city and all of the Spanish troops and territory under General Toral. Your splendid command has endured not only the hardships and sacrifices incident to campaign and battle, but in stress of heat and weather has triumphed over obstacles which would have overcome men less brave and determined. One and all have displayed the most conspicuous gallantry and earned the gratitude of the nation. The hearts of the people turn with tender sympathy to the sick and wounded. May the Father of Mercies protect and comfort them.

WILLIAM MCKINLEY.

ADJUTANT-GENERAL OF THE ARMY.

SIR: I have the honor to recommend, at the request of the Supervising Surgeon-General, Marine-Hospital Service, that General Shafter be instructed to detail a suitable medical officer at Santiago de Cuba to supervise the disinfection of mail matter for the United States until the arrival of an officer of the Marine-Hospital Service, who is on his way for that purpose.

The necessary material for disinfection has been sent to the postal agent by the Marine-Hospital Service.

Very respectfully, C. H. ALDEN,
Assistant Surgeon-General, U. S. Army, Acting Surgeon-General.

I have the honor to so advise you, requesting you designate hour and place where my representatives should appear to compare with those of your excellency to effect the articles of capitulation on the basis of what has been agreed upon to this date in due time. I wish to manifestate to your excellency my desire to know the resolutions of the United States Government respecting the return of arms, so as to note on the capitulation; also the great courtesy and gentlemanly deportment of your great grace's representative and return for their generous and noble impulse for the Spanish soldiers will allow them to return to the Peninsular with

SANTIAGO DE CUBA, *July 16, 1898.*

To His Excellency the Commander in Chief of the American Forces:

MOST EXCELLENT SIR: I am now authorized by my Government to capitulate. I have the honor to so advise you, requesting you to appoint the hour and place where my representatives shall attend in order to confer with your excellency's representatives and draw up the articles of capitulation on the bases which have been agreed upon up to this time. At the same time I wish to express to your excellency my desire to be made acquainted with the determination of the United States Government respecting the return of arms, in order to note the same on the articles of capitulation; also to acknowledge your high grace's great courtesies and make response for your great generosity and consideration for the Spanish soldiers and (ask) that the latter may be allowed to return to the Peninsula with the arms that the American Army recognizes as having been defended in accordance with their duty.

JOSÉ TORAL,
Commander in Chief, Fourth Army Corps.

PLAYA, *July 16, 1898—3.52 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

Headquarters, near Santiago, 16. The conditions of capitulation include all forces and war material in described territory. The United States agrees with as little delay as possible to transport all Spanish troops in district to Kingdom of Spain, the troops, as far as possible, to embark near the garrison they now occupy. Officers retain their side arms, and officers and men retain their personal property. Spanish commander authorized to take military archives belonging to surrendered district. All Spanish forces known as volunteers, mobilizados, and guerrillas who wish to remain in Cuba may do so under parole during present war, giving up their arms. Spanish forces march out of Santiago with honors of war, depositing their arms at a point mutually agreed upon to await disposition of United States Government, it being understood the United States commissioners will recommend that the Spanish soldiers return to Spain with the arms they so bravely defended. This leaves the question of return entirely in the hands of the Government. I invite attention to the fact that several thousand surrendered, said by General Toral to be about 12,000, against whom a shot has not been fired. The return to Spain of the troops in this district—about 24,000, according to General Toral—in my opinion closes the war in Cuba. Not a word has been said about the parole of Spanish officers and men, as it did not seem possible to me that we should fight them in Spain, and once there it does not seem possible that they can ever return.

and together with such additional forces as may arrive will move when admiral is ready to Porto Rico. In the opinion of Admiral Sampson, Point Fajardo, Cape San Juan, is safe and best place to rendezvous transports with troops. Since all transports should be directed to that place, will telegraph to Charleston and Tampa before leaving Guantanamo. Will also telegraph you. Further, do not think any of the Santiago troops available at present. It is hoped that by moving them on high ground the fever may be stamped out. Doctors can not now be decided. I have the honor to announce that the American flag has been this morning, 12 noon, hoisted over the house of the civil government in the city of Santiago. An immense concourse of people present. A squadron of cavalry and a regiment of infantry presenting arms and band playing national air. Light battery fired salute, 21 guns. Perfect order is being maintained by municipal government. Distress is very great, but little sickness in town. Scarcely any yellow fever. A small gunboat and about 200 seamen left by Cervera have surrendered to me. Obstructions are being removed from mouth of harbor. Upon coming into the city I discovered a perfect entanglement of defenses. Fighting as the Spaniards did the first day, it would have cost 5,000 lives to have taken it. Battalions of Spanish troops have been depositing arms since daylight in armory over which I have guard. I hope vessels sufficient to carry 8,000 to 10,000 men will be sent as soon as possible, as the presence of prisoners is source of embarrassment. No sickness among them, and they should leave before any breaks out. General Toral formally surrendered the plaza and all stores at 9 a. m. American consul needed here.

Santiago, 17. I placed an officer and 20 men on board the captured gunboat *Alverado* this morning. Am just informed by General McKibbin, who is in charge of the city, that, upon representation made to him by Lieutenant Marble of the navy that I had arranged with Admiral Sampson for the transfer of gunboat to him, gave it into the possession of the navy, who immediately proceeded to sea with it, as I had given Lieutenant Reithers, the officer on board with prize crew, orders not to surrender it except upon my orders. I have not spoken to General McKibbin on the subject. I have wired to Admiral Sampson to please return it at once. The gunboat, I am told, is the property of an iron company; once was seized by Spanish while in port.

DEPARTMENT OF STATE,
Washington, July 18, 1898.

The Honorable the SECRETARY OF WAR.

SIR: At the request of the President I hand you the within instructions for the use of the commander in Santiago.

Respectfully, yours, WILLIAM R. DAY.

EXECUTIVE MANSION,
Washington, July 18, 1898.

The SECRETARY OF WAR.

SIR: The capitulation of Spanish forces in Santiago de Cuba and in the eastern part of the province of Santiago and the occupation of the territory by the forces of the United States render it necessary to instruct the military commander of the United States as to the conduct which he is to observe during the military occupation.

One of the important and most practical problems with which it will be necessary for him to deal is that of the collection and administration of the revenues. You will therefore at once arrange to collect customs duties and port charges on goods and ships entering Santiago or other ports or places coming under our control. For customs dues you will adopt the Spanish schedules as heretofore applied to Spanish products, whether the goods are shipped from the United States or other country.

You will abolish, also, $1 tax per ton on cargoes imported or exported; require every vessel entering to pay 20 cents per registered ton as port dues; collect present tax of 5 cents per gross ton on iron ore exported; collect charges as per export tariff schedule.

This order is subject to modification at a later date.

WILLIAM MCKINLEY.

EXECUTIVE MANSION,
Washington, July 18, 1898.

The SECRETARY OF WAR.

SIR: The capitulation of the Spanish forces in Santiago de Cuba and in the eastern part of the province of Santiago and the occupation of the territory by the forces of the United States render it necessary to instruct the military commander of the United States as to the conduct which he is to observe during the military occupation.

The first effect of the military occupation of the enemy's territory is the severance of the former political relations of the inhabitants and the establishment of a new political power. Under this changed condition of things the inhabitants, so long as they perform their duties, are entitled to security in their persons and property and in all their private rights and relations. It is my desire that the inhabitants of Cuba should be acquainted with the purpose of the United States to discharge to the fullest extent its obligations in this regard. It will therefore be the duty of the commander of the army of occupation to announce and proclaim in the most public manner that we come not to make war upon the inhabitants of Cuba, nor upon any party or faction among them, but to protect them in their homes, in their employments, and in their personal and religious rights. All persons who, either by active aid or by honest submission, cooperate with the United States in its efforts to give effect to this beneficent purpose will receive the reward of its support and protection. Our occupation should be as free from severity as possible.

Though the powers of the military occupant are absolute and supreme and immediately operate upon the political condition of the inhabitants, the municipal laws of the conquered territory, such as affect private rights of person and property and provide for the punishment of crime, are considered as continuing in force, so far as they are compatible with the new order of things, until they are suspended or superseded by the occupying belligerent; and in practice they are not usually abrogated, but are allowed to remain in force and to be administered by the ordinary tribunals, substantially as they were before the occupation. This enlightened practice is, so far as possible, to be adhered to on the present occasion. The judges and other officials connected with the administration of justice may, if they accept the supremacy of the United States, continue to administer the ordinary law of the land, as between man and man, under the supervision of the American commander in chief. The native constabulary will, so far as may be practicable, be preserved. The freedom of the people to pursue their accustomed occupations will be abridged only when it may be necessary to do so.

While the rule of conduct of the American commander in chief will be such as has just been defined, it will be his duty to adopt measures of a different kind if, unfortunately, the course of the people should render such measures indispensable to the maintenance of law and order. He will then possess the power to replace or expel the native officials in part or altogether; to substitute new courts of his own constitution for those that now exist, or to create such new or supplementary tribunals as may be necessary. In the exercise of these high powers the commander must be guided by his judgment and his experience and a high sense of justice.

One of the most important and most practical problems with which it will be necessary to deal is that of the treatment of property and the collection and administration of the revenues. It is conceded that all public funds and securities belonging to the government of the country in its own right, and all arms and supplies and other movable property of such government may be seized by the military occupant and converted to his own use. The real property of the state he may hold and administer, at the same time enjoying the revenues thereof, but he is not to destroy it save in the case of military necessity. All public means of transportation, such as telegraph lines, cables, railways, and boats, belonging to the state may be appropriated to his use, but, unless in case of military necessity, they are not to be destroyed. All churches and buildings devoted to religious worship and to the arts and sciences, all schoolhouses, are, so far as possible, to be protected, and all destruction or intentional defacement of such places, of historical monuments or archives, or of works of science or art is prohibited, save when required by urgent military necessity.

Private property, whether belonging to individuals or corporations, is to be

respected, and can be confiscated only for cause. Means of transportation, such as telegraph lines and cables, railways and boats, may, although they belong to private individuals or corporations, be seized by the military occupant, but unless destroyed under military necessity are not to be retained.

While it is held to be the right of the conqueror to levy contributions upon the enemy in their seaports, towns, or provinces which may be in his military possession by conquest, and to apply the proceeds to defray the expense of the war, this right is to be exercised whithin such limitations that it may not savor of confiscation. As the result of military occupation the taxes and duties payable by the inhabitants to the former government become payable to the military occupant, unless he sees fit to substitute for them other rates or modes of contribution to the expenses of the government. The moneys so collected are to be used for the purpose of paying the expenses of government under the military occupation, such as the salaries of the judges and the police, and for the payment of the expenses of the Army.

Private property taken for the use of the Army is to be paid for, when possible, in cash at a fair valuation, and when payment in cash is not possible receipts are to be given.

All ports and places in Cuba which may be in the actual possession of our land and naval forces will be opened to the commerce of all neutral nations, as well as our own, in articles not contraband of war, upon payment of the prescribed rates of duty which may be in force at the time of the importation.

The following is sent you for your information and guidance. It will be published in such manner, in both English and Spanish, as will give it the widest circulation in the territory under your control:

"The SECRETARY OF WAR.

"SIR: The capitulation of the Spanish forces in Santiago de Cuba and in the eastern part of the Province of Santiago, and the occupation of the territory by the forces of the United States as to the conduct which he is to observe during the military occupation.

"The first effect of the military occupation of the enemy's territory is the severance of the former political relations of the inhabitants and the establishment of a new political power. Under this changed condition of things the inhabitants, so long as they perform their duties, are entitled to security in their persons and property, and in all their private rights and relations. It is my desire that the inhabitants of Cuba should be acquainted with the purpose of the United States to discharge to the fullest extent its obligation in this regard. It will therefore be the duty of the commander of the army of occupation to announce and proclaim, in the most public manner, that we come not to make war upon the inhabitants of Cuba, nor upon any party or faction among them, but to protect them in their homes, in their employments, and in their personal and religious rights. All persons who, either by active aid or by honest submission, cooperate with the United States in its efforts to give effect to this beneficent purpose will receive the reward of its support and protection. Our occupation should be as free from severity as possible.

"Though the powers of the military occupant are absolute and supreme, and immediately operate upon the political condition of the inhabitants, the municipal laws of the conquered territory, such as affect private rights of person and prop-

erty and provide for the punishment of crime, are considered as continuing in force, so far as they are compatible with the new order of things, until they are suspended or superseded by the occupying belligerent; and in practice they are not usually abrogated, but are allowed to remain in force, and to be administered by the ordinary tribunals, substantially as they were before the occupation. This enlightened practice is, so far as possible, to be adhered to on the present occasion. The judges and the other officials connected with the administration of justice may, if they accept the supremacy of the United States, continue to administer the ordinary law of the land, as between man and man, under the supervision of the American commander in chief.

"The native constabulary will, so far as may be practicable, be preserved. The freedom of the people to pursue their accustomed occupations will be abridged only when it may be necessary to do so.

"While the rule of conduct of the American commander in chief will be such as has just been defined, it will be his duty to adopt measures of a different kind if, unfortunately, the course of the people should render such measures indispensable to the maintenance of law and order. He will then possess the power to replace or expel the native officials in part or altogether, to substitute new courts of his own constitution for those that now exist, or to create such new or supplementary tribunals as may be necessary. In the exercise of these high powers the commander must be guided by his judgment and his experience and a high sense of justice.

"One of the most important and most practical problems with which it will be necessary to deal is that of the treatment of property and the collection and administration of the revenues. It is conceded that all public funds and securities belonging to the government of the country in its own right, and all arms and supplies and other movable property of such government, may be seized by the military occupant and converted to his own use. The real property of the state he may hold and administer, at the same time enjoying the revenues thereof, but he is not to destroy it save in the case of military necessity. All public means of transportation, such as telegraph lines, cables, railways, and boats, belonging to the state may be appropriated to his use, but, unless in case of military necessity, they are not to be destroyed. All churches and buildings devoted to religious worship and to the arts and sciences, all schoolhouses, are, so far as possible, to be protected, and all destruction or intentional defacement of such places, of historical monuments or archives, or of works of science or art is prohibited, save when required by urgent military necessity.

"Private property, whether belonging to individuals or corporations, is to be respected, and can be confiscated only for cause. Means of transportation, such as telegraph lines and cables, railways and boats, may, although they belong to private individuals or corporations, be seized by the military occupant, but unless destroyed under military necessity are not to be retained.

"While it is held to be the right of the conqueror to levy contributions upon the enemy in their seaports, towns, or provinces which may be in his military possession by conquest, and to apply the proceeds to defray the expense of the war, this right is to be exercised within such limitations that it may not savor of confiscation. As the result of military occupation the taxes and duties payable by the inhabitants to the former government become payable to the military occupant, unless he sees fit to substitute for them other rates or modes of contribution to the expenses of the government. The moneys so collected are to be used for the purpose of paying the expenses of government under the military occupation, such as the salaries of the judges and the police, and for the payment of the expenses of the Army.

"Private property taken for the use of the Army is to be paid for, when possible

in cash at a fair valuation, and when payment in cash is not possible receipts are to be given.

"All ports and places in Cuba which may be in the actual possession of our land and naval forces will be opened to the commerce of all neutral nations, as well as our own, in articles not contraband of war, upon payment of the prescribed rates of duty which may be in force at the time of the importation.

"WILLIAM MCKINLEY."

General SHAFTER, *Santiago, Cuba:*

The following memorandum from the Secretary of the Treasury is sent to you for your information and guidance:

"You will at once arrange to collect custom duties and port charges on goods and ships entering Santiago or other ports or places coming under your control. For custom dues adopt Spanish schedules as heretofore applied to Spanish products, whether goods are shipped from United States or other country.

"Abolish $1 tax per ton on cargoes imported or exported. Require every vessel entering to pay 20 cents per registered ton as port dues. No charge for clearing. Collect present tax, 5 cents per gross ton, on iron ore exported. Collect charges as per export-tariff schedule. This order subject to modification later on. Shall send you expert customs officer soon as practicable. This order supplemental to the President's proclamation of this date."

Headquarters, near Santiago, Cuba, 19. It is now too late for Admiral Sampson to sign articles of capitulation. They were completed three days ago. Delivered

one to the Spanish commander; the other was forwarded by the hand of Colonel Astor to you. I did not sign them myself. They were only signed by the commissioners appointed to prescribe the details of the surrender. The surrender was made to me in person verbally and later by General Toral, declaring in the presence of myself and the general officers commanding here that he then and there surrendered the Spanish army and city of Santiago, represented by a detail of 100 men from the different regiments of his command. This surrender included the officers and men of the navy, who were a part of his command.

DEPARTMENT OF STATE,
Washington, July 19, 1898.

The Honorable the SECRETARY OF WAR:

SIR: I have the honor to inclose for your consideration copy of a letter from the chairman of the executive committee of the Red Cross. Mr. Barton states therein that the charter for the steamer *State of Texas* expired on the 5th instant, and that he has been notified by the owners that for any further use of the vessel he must pay $400 per day instead of $175, as under the charter agreed upon. He therefore asks that immediate facilities be afforded the *State of Texas* for discharging her cargo at Santiago, in order that she may be returned to New York and turned over to her owners.

I respectfully ask that you telegraph the necessary instructions to the general in command at Santiago to enable the Red Cross steamer to promptly leave that port after discharging her cargo of relief supplies.

WILLIAM R. DAY.

[Inclosure.]

THE AMERICAN NATIONAL RED CROSS,
58 Williams Street, New York, July 16, 1898.

Hon. WM. R. DAY, *Secretary of State, Washington, D.C.*

SIR: It seems that Mr. Schieren left Washington without getting my telegram sent to him on the 14th instant concerning the discharge of the steamship *State of Texas.*

I desired him to confer with you, with a view to getting your influence, through the Secretary of War or otherwise, affording the *State of Texas* some facilities in the way of lighterage or piers for discharging her cargo, in order that we might return her to New York. You will remember that her charter was made for thirty days, with the privilege of extension, the charter price being $175 per day. In consequence of the uncertainties confronting us, we have made three separate extensions, the last one expiring on the 5th instant, and the owners of the vessels notified us that, having granted these three extensions at the charter price—we had more than overdrawn our option of extension—for any further use of the vessel they must charge us at the rate of $400 per day. While we believe that some compromise can be made with them for the time subsequent to the 5th instant, we feel that it is extravagant for us to continue the vessel in our service, ven at the initial cost of $175 per day, although we telegraphed Miss Barton to keep the vessel regardless of price while she was of such immeasurable benefit to her. From the terms of the capitulation of Santiago, as reported, the Red Cross is permitted immediate entry into that harbor, and I beg to ask that you use your

influence in our behalf, to the end that there may be no unnecessary delay in permitting the *State of Texas* to enter and discharge.

Yours, very truly,

STEPHEN E. BARTON,
Chairman Executive Committee.

"In view of the occupation of Santiago de Cuba by the forces of the United States, it is ordered that postal communication between the United States and that port, which has been suspended since the opening of hostilities with Spain, may be resumed, subject to such military regulations as may be deemed necessary.

"As other portions of the enemy's territory come into the possession of the land and naval forces of the United States, postal communication may be opened under the same conditions.

"The domestic postal service within the territory thus occupied may be continued on the same principles already indicated for the continuance of the local municipal and judicial administration, and it may be extended as the local requirements may justify under the supervision of the military commander.

"The revenues derived from such service are to be applied to the expenses of conducting it, and United States postage stamps are therefore to be used.

These ships were private property; were taken possession of by the Navy and have been taken away with their crews, who claim not to have been in the military service. I think they are in Guantanamo. Their taking away was protested against by the consignors, but as they had been taken from the harbor I could do nothing. General Toral suggested to me the use of the ships. I think I can arm the volunteers with Mauser rifles; about 5,000 or 6,000 Spanish Mausers; about the same number Mauser Argentina and Remingtons. I think prospects of troops in the interior surrendering and coming in good. At San Luis, 20 miles from here, they declined, not believing Toral had surrendered, and insisted upon sending in to see for themselves. I have two troops of cavalry now in San Luis. ADJUTANT-GENERAL OF THE ARMY, *Washington, D. C.:*

Have seen to-day, for first time, criticisms of Davis, which are unjust and untrue. The outcome shows whether my conduct of the campaign was correct or not. I was prostrated by two days' riding in the intense heat, while I was perfecting my plans for the attack. These were carried out exactly as I had directed, and the result was success. Hence the criticism of Davis, therefore, shows only the folly of the writer. Officers and men were soaked to the skin for days, and they were out of tobacco part of the time, but they had full rations of bacon, hard bread, sugar, and coffee all of the time. Notwithstanding my weakness, I directed the campaign from beginning to end.

SHAFTER, *Major-General.*

SANTIAGO DE CUBA, *July 23, 1898.* (*3.14 a. m. July 24, 1898.*)

ADJUTANT-GENERAL OF THE ARMY, *Washington:*

Referring to the question of more immune regiments, I have to say I think there should be at least four to make this place secure against attack if the Holguin troops remain at that place. Should they go west the two regiments will be

sufficient, but there should be all the time one and I think better if two small ships of the Navy could remain here. This upon the supposition that the Fifth Corps is all removed. I fully appreciate the fact that everything that can be done for the comfort of the troops will be. The greatest need now is for hospital tents. I think at as early a day as possible the Fifth Army Corps should be rapidly moved to some point in the north. It can be done so quickly that but few would die in making the change, and once landed recovery would be speedy. Up to this time but comparatively few deaths.

ADJUTANT-GENERAL, U. S. A., *Washington:*

Headquarters Fifth Corps, 22. Cable about transports received. Some left to-day. Will telegraph in the morning.

SHAFTER, *Major-General.*

NAVY DEPARTMENT, *Washington, July 23, 1898.*

SIR: I have the honor to acknowledge the receipt of your letter of the 21st instant, communicating, for the information of this Department, a copy of a telegram sent Major-General Shafter, Santiago de Cuba.

Very respectfully,

JNO. D. LONG, *Secretary.*

The Honorable the SECRETARY OF WAR.

ADJUTANT-GENERAL'S OFFICE,
Washington, July 23, 1898.

General SHAFTER, *Santiago, Cuba:*

Of the transports with you, including those reported having left yesterday, we need room for 6,000 from Tampa, having no transportation for that number. You will then order all others to repair to New York as speedily as possible. We can handle the quarantine question better there than at Southern ports, and land troops there quite readily.

The Secretary of War asks for report on fever conditions to-day, and what progress is being made in getting troops to the high grounds, and how effective this is going to be. Would you advise sending more than the two immune regiments now on the way to you? The desire is to help you in every way possible. As soon as it can be done with safety, etc., it is the intention to bring the entire Fifth Corps north for rest and recuperation.

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 23, 1898.

Colonel KIMBALL, *Army Building, New York City:*

Secretary of War wishes you to see that the paymasters going to General Shafter have plenty of time on Monday to get their funds from the assistant treasurer on board.

H. C. CORBIN, *Adjutant-General.*

SANTIAGO DE CUBA, *July 23, 1898—6.28 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington, D. C.:*

Replying to telegram as to probable time of return of transports, I have to say that five have already gone and that Colonel Humphrey tells me that he can send three every two days. They will be unloaded just as fast as men can be made to do it. Fresh beef gives the greatest satisfaction so far. It is a perfect success. No vegetables to be had here. Please send plenty of onions and potatoes.

SHAFTER, *Major-General, Commanding.*

NEW YORK, *July 23, 1898—8.45 p. m.*

SECRETARY OF WAR, *Washington:*

The military authorities at Santiago having decreed the closing of the cable office at that place at 10 o'clock every night for the transmission of any Government matter, it is my duty to notify you of that fact so that your Department may know the reason why matter from your Department filed after 9.30 o'clock can not be forwarded until 9 o'clock the following morning.

GRANT SQUIRES, *Censor at New York.*

SANTIAGO DE CUBA, VIA BERMUDA, *July 23, 1898—10 p. m.*

Hon. R. A. ALGER,

Secretary of War, Washington, D. C.:

There is no objection to the New York Journal being represented here. Three of their men were arrested and sent out of Cuba for attempting to create disorder in the city by circulating and posting large pictorial posters headed "Remember the Maine." This action was so outrageous that I took the course that I did. Whenever the Journal sends respectable men here, they will be received and treated as all other correspondents are.

SHAFTER, *Major-General.*

SANTIAGO DE CUBA, VIA BERMUDA, *July 23, 1898—10.05 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington, D. C.:*

ADJUTANT-GENERAL, U. S. A., *Washington, D. C.:*

Major Webb, Thirty-third Michigan, is convalescent from an attack of yellow fever.

SHAFTER, *Major-General.*

SANTIAGO DE CUBA, *July 23, 1898—11.32 p. m.*

ADJUTANT-GENERAL OF THE ARMY, *Washington:*

The following men died at the yellow-fever hospital at Siboney to-day: Jack Donegan, civilian; Bert Louis, band, Seventh Infantry; Private Fred A. Percival, Company F, Thirty-third Michigan; and on the 21st, Sergt. J. Britton, Troop G, First Cavalry; William J. Howe, teamster; Patrick Sullivan, Company E, Seventh Infantry. No deaths at front have been reported as yet. Complete report will be sent in the morning. Dr. Pope was relieved by me to-day as chief surgeon, as he is

broken down. Major and Surgeon Havard takes his place. The situation is not alarming, though there are many sick with fever—about 1,500. Exact number will be given in the morning. Only a small part of these sick are down with yellow fever—about 10 per cent. Slight changes of all the troops have been made to get them on fresh ground, and the artillery and cavalry have been moved about 3 miles. It is out of the question to move any more troops away until the prisoners are started for Spain and until the railroad is repaired. So far everything is very quiet, but the Cubans are feeling very sore because they were not permitted to take part in the conference leading to the capitulation and because I will not permit them to go into the city armed. They expected and claim as their right to take possession of the city and control affairs. General Garcia has left for the interior with their force. Reported he is to join Gomez.

SHAFTER, *Major-General, Commanding.*

WAR DEPARTMENT, *Washington, July 23, 1898.*

General SHAFTER, *Cuba:*

The President has ordered the Navy Department to turn the two ships back to us that you captured at Santiago. We shall want men for them. Have you any men for that purpose? If not, we will have to ship crews from here. Of course we could not take the crew which has been exposed to yellow fever.

R. A. ALGER, *Secretary of War.*

WASHINGTON, D. C., *July 23, 1898—11.41 p. m.*

Major-General SHAFTER, *Santiago, Cuba:*

To insure the prompt dispatch of Government business, it is desired that the office at Santiago be kept open day and night.

R. A. ALGER, *Secretary of War.*

WAR DEPARTMENT, *Washington, July 23, 1898.*

General SHAFTER, *Cuba:*

The New York Journal is in terrible distress because of their exclusion from Santiago. I would like very much if representatives of that paper could be returned with your approval. What of the report of the assault of Sylvester Scovel upon you? If the report is true, he should receive severe punishment. Are you getting the troops back into the hills? Our ship at New Orleans for the two immune regiments has been laid up. They will not start from there until Monday. Can not some cover be found for those prisoners? We shall get ships to you to ship them as soon as possible. It may be a week before any of them arrive.

R. A. ALGER, *Secretary of War.*

SANTIAGO, VIA HAITI, *July 24, 1898—5.27 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

Number of new cases of fever of all classes for yesterday, approximately 396. Deaths not previously reported, Private Daniel A. Stone, Company D, First Illinois Infantry, typhoid fever, July 20. Sergt. J. Blair, regimental quartermaster, Twelfth Infantry, died July 22 of dengue fever and asthenia, and on July 23, of malarial fever, Privates William Peacock and Garatt Learneshock, both of Company E, Second Infantry.

SANTIAGO, VIA HAITI, *July 24, 1898—5.30 p. m.*

ADJUTANT-GENERAL OF THE ARMY, *Washington:*

The report of casualties in figures was sent you on July 10. A full report giving name, rank, and regiment of killed, wounded, and missing was forwarded by mail July 12, and the supplemental report, containing names of about 15 men that had not been included, was forwarded a few days later. I have the retained copies, but on account of uncertainty of mails I dislike to forward them.

SHAFTER, *Major-General, Commanding.*

SANTIAGO DE CUBA, VIA HAITI, *July 24, 1898—11.15 p. m.*

ADJUTANT-GENERAL OF THE ARMY, *Washington:*

Lieutenant Miley has just returned from San Luis and Palma Soriano, where he went four days ago to receive surrender of Spanish troops. The number surrendered was larger than General Toral reported. Three thousand and five Spanish troops and 350 volunteers guerrillas and volunteers gave up their arms, gave parole, and have gone to work. Three thousand stands of arms were turned in, loaded on ox carts, and started for the railroad, Spanish troops accompanying him to San Luis, and all apparently greatly delighted at the prospect of returning home. They were on the verge of starvation, and I have to send them rations to-morrow. If the numbers keep up as they have, there will be about 24,000 to ship away—nearly 12,000 here, 3,000 from San Luis, 6,000 from Guantanamo, and over 2,000 at Sagua and Baracoa.

SHAFTER, *Major-General, Commanding.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 24, 1898—11.15 p. m.

General SHAFTER, *Santiago:*

The casualty report in figures reached here to-day. That containing names will doubtless be along very soon. If not, will inform you.

H. C. CORBIN, *Adjutant-General.*

SANTIAGO DE CUBA, VIA HAITI, *July 24, 1898—9.46 a. m.*

SECRETARY OF WAR, *Washington:*

The exclusion of those three men of the Journal should not be revoked. One thousand prisoners war, and some of them in the town with the Cubans ready to make trouble. The action of these men deserved death. The Journal can send other men here if it chooses, and they will be treated with every courtesy. Scovel was abusive and insubordinate, refusing to obey order of one of my staff officers to leave the roof of building when officers were about to raise American flag, and had to be ejected. He then came to me and was very insolent in complaining to me of my staff officer's action, one word leading to another, until he struck at me, but did not hit me. I could have tried him and probably had him shot, if I desired, but I preferred to fire him from the island. A trial would only have given him the notoriety he seeks.

Have moved troops as much as I can, with 11,000 prisoners to guard and 2,000 more expected any hour. I have no cover except the bowers, which the prisoners put up themselves. Will see to-morrow if there are any extra shelter tents, and if so, issue them. They are no worse off than my men have been for a month. We are now getting tents off very fast, and I hope in the next three or four days to have my men much better protected. I hope you will authorize the subsistence

of Spanish officers as passengers. General Toral claims that it is from fifteen to seventeen days from here to Spain. I was of the opinion that it was not more than half of that. Have no men here for crews of captured vessels who have not been exposed to yellow fever, though I think the crews are all immunes, as is everyone who lives here. Will ascertain about it to-morrow.

SHAFTER, *Major-General.*

ADJUTANT-GENERAL'S OFFICE,

General SHAFTER, *Santiago:*

The report of casualties is of no value whatever, as the numbers are not at all interesting. It is the full name, rank, and regiment that is being called for impatiently from all parts of the country.

R. A. ALGER, *Secretary of War.*

WAR DEPARTMENT,
Washington, July 25, 1898.

General SHAFTER, *Santiago, Cuba:*

The *Berlin* sailed from New Orleans this morning with two regiments of immunes. All ships, including the *Berlin*, which come to Santiago hereafter must be rigidly guarded, so that by no possibility can anyone go aboard or near her or her crew and thus infect them with yellow fever. Otherwise our whole line of transportation will be tied up and we will be crippled beyond repair. See that the *Berlin* is discharged and sent immediately away, and put an officer in command who shall enforce this rule without any deviation whatever. Let none of the crews of any of these ships go ashore.

R. A. ALGER, *Secretary of War.*

WAR DEPARTMENT, ADJUTANT-GENERAL'S OFFICE,

SANTIAGO, VIA HAITI, *July 26, 1898—12.17 a. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

Press reports not true. I only know of three ships having arrived, one from Kingston, the others from the United States. The *Bratton* has sold its cargo. The other ship from New Orleans has sold only a part of it, and tells me he is going away to-night. I think he will sell before he leaves. The trouble is they did not expect to pay any duty and arrived here without any money. The Spanish customs as applied to Spanish subjects has only been collected and the 20 cents per ton as ordered by the Secretary. I discovered this morning an attempt on the

part of the municipal authorities to collect a local tax of 40 cents per 100 kilos, in this instance amounting to $2,500. I had already settled this matter by ordering its noncollection. The fact is, there is no money here to do business, and merchants are very timid about making purchases, fearing the effect of the Red Cross supplies, who really are feeding the town. The New Orleans man, for instance, brought 29 head of cattle, which he sold at $85 per head. The person buying kills one a day, selling the meat at 70 cents per pound. Of course only a few people buy. The first we were here people were starving to death, and I think a few now are from the effects of starvation. I am enforcing the orders strictly, but the ways of the Spanish officials are at times difficult to follow. I am positive, however, that the customs have been honestly administered.

General SHAFTER, *Santiago de Cuba:*

What disposition do you recommend to be made of the detachments of cavalry and recruits for regiments of your corps left at Tampa? Your order to the troops printed in the press of to-day is timely and received with favor by those in authority here. You are working on lines that give entire satisfaction.

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 26, 1898—10.35 a. m.

General SHAFTER, *Santiago:*

The press reports three ships having arrived at Santiago with merchandise and leaving without discharging their cargoes on account of heavy port duties. You were telegraphed that the tonnage charged for ships entering and clearing was 20 cents per ton each way; that is, a ship of 2,000 tons will be $40. The customs dues are to be exactly the same as charged to the Spaniards on any entries in Cuba, which varies very much from our own. Have you that list? Are there any articles in it that you find excessive and that you would recommend changed?

By order Secretary War:

H. C. CORBIN, *Adjutant-General.*

WAR DEPARTMENT, *July 26, 1898.*

Major-General SHAFTER, *Santiago, Cuba:*

In a cable this morning the following sentence was sent: "You were telegraphed that the tonnage charged for ships entering and clearing was 20 cents per ton each way; that is, a ship of 2,000 tons will be $40." Of course it is an error. The orders are that 20 cents shall be charged for tonnage one way. The $40, therefore, should be $400.

SECRETARY OF WAR, *Washington:*

The captains of the five ships returned here by Admiral Sampson last night desire to telegraph to Havana for the purpose of getting money with which to pay their crews. The claim is made, and is undoubtedly true, that these ships are the property of private persons, except one, the *Mexico*, which belongs to the Trans-Atlantic Company. SANTIAGO DE CUBA, *July 27, 1898—9.20 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

Referring to your telegram of yesterday as to duties, I give you Spanish duties collectible here on each 100 pounds of the articles that may be regarded as prime necessities, and suggest that this matter be submitted to the customs department and let them regulate it, although it seems to me that the tariff on salt meat and lard is pretty high, and perhaps on some other things: Rice, 55 cents; flour, 69 cents; potatoes, 24 cents; beans, 60 cents; lard, $2.90; bacon, $2.90; butter, $2.02; cheese, free; ham, $2.90; codfish, $1.14; condensed milk, $4.60; oil, $1.08; vinegar, 69 cents; wine, 69 cents; onions, 34 cents; garlic, 34 cents; soap, 23 cents; candles, $1.10; matches, $9.20; beef, preserved, $1.38; pork, preserved, $2.90; beef, canned, $4.60; fish, canned, 69 cents; vegetables, preserved, 64 cents; jerked beef, $1.82; corn meal, 69 cents; poultry, $4.60; eggs, $2.76; vermicelli, 92 cents; biscuits, ordinary, 32 cents; beer, 64 cents; oxen, each, $8; cows, each, $7; hogs, each, $5; calves, each, $6; sheep and goats, each, $1.50. It is important that customs officers come here as early as possible, and also for Guantanamo, where we have had several applications to transact business.

SHAFTER, *Major-General.*

WAR DEPARTMENT, *Washington, July 27, 1898.*

The Honorable the SECRETARY OF THE TREASURY.

SIR: The inclosed copy of cablegram from Maj. Gen. W. R. Shafter in reference to Spanish duties collectible at Santiago de Cuba is sent you for your information.

Very respectfully,

R. A. ALGER, *Secretary of War.*

WAR DEPARTMENT, *Washington, July 27, 1898.*

The Honorable the SECRETARY OF THE TREASURY.

SIR: For your information I inclose copy of a telegram received from Major-General Shafter, Santiago, Cuba, in reference to customs dues.

Very respectfully,

R. A. ALGER, *Secretary of War.*

SANTIAGO, VIA HAITI, *July 27, 1898—4.33 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

Having consulted Dr. Havard, chief medical officer, in regard to moving cavalry division, he states that he regards it as possible, practicable, and wise. In the division there are now but two, at most three, suspicious cases, and these can be disposed of, but the division would have to be isolated there; that the trip would have such a good effect on body and mind that their recovery would be very much hastened. Seventy-three new cases of fever in that division yesterday; 61 returned to duty. No death.

SHAFTER, *Major-General.*

SANTIAGO, *July 28, 1898—10.08 a. m.*

ADJUTANT-GENERAL OF THE ARMY, *Washington:*

Transports from Santiago are being unloaded just as fast as it is possible to do. Four transports, *Yucatan*, *Allegheny*, *Comal*, and *San Marcos*, leave for Tampa this morning. The *Segurança* will go to-morrow, and the *Miami* and *Matteawan*. Shall the last three go to Tampa or New York?

SHAFTER, *Major-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 28, 1898—10.20 a. m.

General SHAFTER, *Santiago:*

You should keep the cavalry division isolated and report from time to time its condition, Secretary War being inclined, if it can be done with due regard to the public health, to order it back.

By order Secretary War:

ADJUTANT-GENERAL, U. S. A., *Washington:*

Steamer *Port Victor* has just arrived, with 63 officers and men on board, of Signal Corps. They are not wanted here. What shall be done with them? Can send them on transport this afternoon to Tampa, if thought best. They will not be permitted to land. Orders of July 1 indicate they are to report to Major-General Miles.

SHAFTER, *Major-General.*

ADJUTANT-GENERAL'S OFFICE,

General SHAFTER, *Santiago de Cuba:*

Secretary War directs Signal Corps detachment be returned to Tampa.

CORBIN, *Adjutant-General.*

SANTIAGO, *July 28, 1898—4.23 p. m.*

ADJUTANT-GENERAL OF THE ARMY, *Washington:*

Replying to your telegram of yesterday, captured merchant ships can be used for transports. Have captain and chief engineer already engaged for each and on board with picked-up crew. Am using the *Thomas Brooks* to-day to send rations to Spanish prisoners at Guantanamo. Under date of 26th instant reported the number of crew required for each vessel.

SHAFTER, *Major-General.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

Gentlemen representing large sugar plantation at San Luis desire to purchase and pay for some subsistence stores for use of their laborers—400 people. Impossible for them to purchase these supplies here at present. It seems to me better to let them pay for them than to give them to them, as will be the case if they are not permitted to buy. Shall I do this?

SHAFTER, *Major-General.*

SANTIAGO, *July 28, 1898—4.54 p. m.*

ADJUTANT-GENERAL, *Washington:*

Headquarters Fifth Army Corps, Santiago de Cuba, July 28. The men's leggings are wearing out rapidly. Need 15,000 pairs for infantry.

ADJUTANT-GENERAL OF THE ARMY, *Washington:*

Santiago condition for the 27th: Total sick, 4,122; total fever, 3,193; new cases of fever, 822; cases fever returned to duty, 542; deaths, Private J. H. Farell, Company H, Ninth Massachusetts Volunteers, at Siboney, yellow fever; Private William H. Byers, Company G, Seventeenth Infantry, cerebral apoplexy.

SHAFTER, *Major-General.*

WAR DEPARTMENT, *July 28, 1898.*

General SHAFTER, *Cuba:*

Would it not be well to encourage your command by telling them they will be moved north as soon as the fever cases subside? It would stimulate them, it seems to me, and that frequently is a tonic. We have selected Montauk Point, Long Island, for your command when it can be moved. How many troops should be sent to take the places of your command? How many Spaniards have surrendered to date?

R. A. ALGER, *Secretary of War.*

SANTIAGO DE CUBA, *July 29, 1898—2.50 a. m.*

Hon. R. A. ALGER,

Secretary of War, Washington, D. C.:

Have the Sun of Saturday, July 23, in which comments are made as to my treatment of General Garcia. I desire to say that General Garcia was invited by me personally to go into the city of Santiago at the time I entered it, but he declined upon the ground that the Spanish civil officers were left in power. It was fully explained to him that those officials were continued in power until it was convenient to change them for others. General Garcia's assistance to me has been purely voluntary on his part, and he was told at the beginning that I did not exercise any control over him except such as he chose to give. The trouble with General Garcia was that he expected to be placed in command at this place; in other words, that we would turn the city over to him. I explained to him fully that we were at war with Spain, and that the question of Cuban independence could not be considered by me. Another grievance was that, finding that several thousand men marched in without opposition from General Garcia, I extended my own lines in front of him and closed the gap, as I saw that I had to depend on my own men for any effective investment of the place.

SHAFTER, *Major-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 29, 1898—9 a. m.

General SHAFTER, *Santiago de Cuba:*

Secretary of War authorizes you to sell subsistence stores to the gentlemen representing sugar plantation at San Luis, as per your telegram yesterday.

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 29, 1898—10.30 a. m.

General SHAFTER, *Santiago:*

Referring to your cablegram yesterday, send *Segurança*, *Miami*, and *Matteawan* to Tampa.

By order Secretary War:

H. C. CORBIN, *Adjutant-General.*

SANTIAGO, *July 29, 1898—1.35 p. m.*

ADJUTANT-GENERAL OF THE ARMY, *Washington:*

The supply of doctors is inadequate, and has been for some time. Men are suffering for proper medical attendance. Havard wired yesterday for 25. There should be 50, and they should be here within a week. Doctors themselves are rapidly falling sick, and I am having to take medical students and young doctors out of the ranks of volunteer regiments. The Surgeon-General does not seem to appreciate the situation. Daily reports show rapid increase of cases, but at the same time they are not severe; but it is only by prompt attention and care that serious sickness can be prevented.

SHAFTER, *Major-General.*

SANTIAGO, *July 29, 1898—1.48 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

There seems to be a great deal of fear on the part of Spanish and other permanent residents here that the city of Santiago is to be turned over to Cubans after the war, and many of them propose leaving; in fact, I am informed that the *Philadelphia* has full orders for its available room returning to New York. I have assured them that I did not believe the United States was going to relinquish their hold on Santiago or leave it without a stable and sufficient garrison and suitable government, but they seem to want other and higher assurances. Is the Government willing or prepared to give them it? Would do much to allay the alarm that is felt here.

SHAFTER, *Major-General.*

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY,
Washington, D. C., July 29, 1898.

To the Honorable the SECRETARY OF WAR.

SIR: I have the honor to acknowledge the receipt of your letter of the 27th instant, transmitting, for the information of this Department, copy of a cablegram received from Major-General Shafter, Santiago, Cuba, in reference to customs dues.

Respectfully, yours, O. L. SPAULDING, *Acting Secretary.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 30, 1898—12.30 a. m.

General SHAFTER, *Santiago:*

Replying to your telegram saying that there was great fear on the part of Spanish and other permanent residents that the city of Santiago is to be abandoned by our forces, I am directed by the Secretary of War to invite your attention to the President's proclamation. It is thought this makes the intentions of our Government quite clear.

H. C. CORBIN, *Adjutant-General.*

SANTIAGO DE CUBA, *July 29* (via Bermuda, July 30, 1898—2.30 a. m.).
ADJUTANT-GENERAL OF THE ARMY, *Washington, D. C.:*

Sanitary condition for the 28th: Total sick, 4,274; total fever, 3,406; new cases of fever, 696; cases of fever restored to duty, 590. Deaths: Private Michael McGoldrics, First Infantry, asthenia following malarial fever.

SHAFTER, *Major-General.*

SANTIAGO DE CUBA, VIA HAYTI, *July 30, 1898—10.45 a. m.*
ADJUTANT-GENERAL, U. S. A., *Washington:*

Made known Secretary's telegram that troops would go to Long Island as soon as fever subsided, and it had a very good effect on the men. Two regiments of immunes in addition to the two already sent will be sufficient to garrison this place and the surrounding towns, where insurgents are already behaving badly and where there is great and well-grounded fear of molestation. This force will be sufficient to defend the town, even if the Spanish troops at Holguin do not leave there or surrender. The count of prisoners has not yet been accurately made, but so far about 21,500 have surrendered and there should be 3,000 or 4,000 at Sagua and Baracoa. Will send transport around there to receive their surrender as soon as immunes arrive.

SHAFTER, *Major-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 30, 1898.

General SHAFTER, *Santiago, Cuba:*

The Surgeon-General fully appreciates the situation, and has sent immune doctors and nurses as rapidly as possible. Sixty-five doctors and 129 nurses already sent; more to follow.

Those soldiers who have recovered from fever should be detailed to assist at fever hospitals.

H. C. CORBIN, *Adjutant-General.*

NAVY DEPARTMENT,
Washington, July 30, 1898.

The Honorable the SECRETARY OF WAR.

SIR: I have the honor to transmit herewith the inclosed copy of a telegram, dated Playa del Este, the 28th instant, received on this date in the Department, from Rear-Admiral Sampson, concerning conditions existing at Guantanamo:

"PLAYA, *July 30, 1898.*

"SECRETARY OF THE NAVY, *Washington:*

"There are about 5,000 Spanish soldiers in Guantanamo and Caimanera, 1,700 of them sick. They have not yet been congregated in one encampment, as suggested by us, between two rivers on the north and west and Point Manati on the west

side of Joa. There are political prisoners still in jail in Guantanamo, kept there by order of General Pareja for their safety from the violence of the Spanish volunteers, who have already, it is said by Consul Brooks, attempted to take them from jail, being prevented only by a force of cavalry in the streets. By Pareja's energy these politicals are still under Spanish control and can not with safety be removed until the city is occupied by our forces or Cuban authorities. Steps should be taken, in interest of sanitation and humanity, and garrison be placed in Guantanamo so that the prosperity of the district may begin with the reopening of the port. Two lines of torpedoes have been removed from the channel in front of fort, and commercial vessels may now pass to Caimanera, but steps must be taken for organization. One hundred and sixty thousand rations arrived this morning from Santiago, but the master of the transport comes to me for orders, not knowing what to do with them. I hesitate to take any steps in these matters without request from the army, though most ready to assist if desired. Sent following to Shafter: 'Transport 31 arrived with 160,000 rations and requested directions. Have sent it to Caimanera. Is this what was desired, and can I do anything to aid your work in this vicinity?'"

Very respectfully,

JOHN D. LONG, *Secretary.*

WASHINGTON, *July 30, 1898—11.03 p. m.*

Major-General SHAFTER, *Santiago de Cuba:*

If the Eighth Ohio can be spared from your command, and your surgeon in chief advises that they can go to Porto Rico without danger of infecting the troops now there, I would suggest that said regiment be transported to Ponce, Porto Rico, to join Garretson's brigade, to which it belongs. What about reported political prisoners held at Guantanamo? They should be liberated if held for no other offense.

R. A. ALGER, *Secretary of War.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 31, 1898—10.15 p. m.

General SHAFTER, *Santiago de Cuba:*

The Secretary of War directs transports *Miami* and *Matteawan*, if not already sailed to Tampa, be sent to New York, as General Miles has sent some of his transports to Tampa.

H. C. CORBIN, *Adjutant-General.*

PLAYA, *August 1, 1898—11.10 a. m.*

ADJUTANT-GENERAL, *Washington:*

The *Louisiana* is ready to start for New York to-morrow. I desire to know if I can not send on her some of Wheeler's dismounted cavalry, which can be spared.

SHAFTER, *Major-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, August 1, 1898.

General SHAFTER, *Santiago, Cuba:*

The Secretary of War authorizes you to send some of Wheeler's dismounted cavalry on the *Louisiana* to New York, where they will be put in camp at Montauk Point. Great care should be had that no man infected with fever be sent. On the result of this shipment will depend further action in moving your command. Have a careful medical officer come with them.

H. C. CORBIN, *Adjutant-General.*

UNITED STATES CAMP, *Tampa, Fla., August 1, 1898—12.40 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington, D. C.:*

Dr. Armstrong, brigade surgeon, reports the *Santiago* arrived at Tampa with 160 convalescents, most of them from yellow fever; will be detained in quarantine at least seven days. It would have been much better to have expended this time in voyage to Northern port, where climate would benefit convalescents. Transports with such convalescents cause anxiety and danger to the South that should be avoided. Would urge War Department that no such transports from Cuba proceed to ports south of Delaware Breakwater until after October. (Signed Armstrong, major and brigade surgeon.) The chief surgeon concurs; so do I.

COPPINGER, *Major-General, Commanding.*

SANTIAGO DE CUBA, *July 30–August 1, 1898—1.56 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

It is impossible to render trimonthly reports for June. Many companies have had their records carried off on transports to the United States, and many are wholly without stationery. A full supply of such blanks should be sent.

SHAFTER, *Major-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, August 1, 1898.

General SHAFTER, *Santiago, Cuba:*

A full supply of blanks were mailed July 20 to headquarters Fifth Corps and to each division of the corps, including artillery brigades.

SANTIAGO DE CUBA, *July 30, 1898.*
(Via Bermuda, August 1, 1898.)

ADJUTANT-GENERAL, U. S. A., *Washington:*

The following ships have been sent north from this port since the 20th, to Port Tampa: July 20, *Aransas;* July 23, the *Clinton;* the 24th, the *Santiago;* 28th, *Comal, San Marcos, Allegheny,* and *Yucatan;* 30th, *Louisiana, Segurança, Knickerbocker,* and *Saratoga.* To Fort Monroe: the *Concho, Leona,* and *Rio Grande;* 23d, the *Alamo.* The *Iroquois* leaves for New York early to-morrow.

SHAFTER, *Major-General.*

SANTIAGO DE CUBA, *July 30, 1898.*
(Via Bermuda, August 1, 1898.)

ADJUTANT-GENERAL, U. S. A., *Washington:*

The following are all of the original ships in the harbor not yet unloaded: *Berkshire, Breakwater, Matteawan, Miami, Stillwater,* and *Vigilancia.* Work on these ships will be proceeded with as rapidly as possible.

SHAFTER, *Major-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, August 1, 1898—10.20 p. m.

General SHAFTER, *Santiago de Cuba:*

Bellinger, quartermaster, Tampa, reports as follows:

"*Yucatan* arrived at quarantine last night. Have just heard from the quarantine surgeon that there are about 150 convalescent soldiers at quarantine who came on board the *Santiago.* Reports these men as being almost without clothing and nearly starving; says that he is doing everything he can to look after them, feed them, and get them proper nourishment, but desires to know what will be done about clothing. Surgeon states their condition is horrible, but we are doing everything in the world to help them."

By order of the Secretary of War:

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, August 1, 1898—10.30 p. m.

General SHAFTER, *Santiago de Cuba:*

Severe criticisms are finding their way to print that the sick are being sent home not supplied with water and proper food. No ship with sick and wounded should be sent without an experienced commissioned officer in charge, one who will know before leaving that the ship is at least supplied with the necessities for the journey, including, of course, medicines.

ADJUTANT-GENERAL'S OFFICE,
Washington, August 1, 1898—10.30 p. m.

General SHAFTER, *Santiago de Cuba:*

Of course you need not send any wagon transportation with Wheeler's division coming home. The immune regiments will need it.

H. C. CORBIN, *Adjutant-General.*

WAR DEPARTMENT,
Washington, August 1, 1898.

General SHAFTER, *Cuba:*

Am informed there is a lot of old brass cannon, old style, at Santiago, captured by you. If so, send them to Fort Monroe. Also send a few Mauser rifles. The Omaha Exposition wants them. Also any captured flags you may have.

R. A. ALGER, *Secretary of War.*

WAR DEPARTMENT,
Washington, August 1, 1898.

General SHAFTER, *Cuba:*

The President has ordered an investigation made upon the *Seneca* and *Concho*. It seems they came away with patients, without attendance and medicine, and a shortage of water. There must be no more people shipped north without good attendance and ample supplies for any emergency. It should be a rare case that people not belonging to the Army should be given transportation.

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, August 2, 1898—1.15 a. m.

General SHAFTER, *Santiago de Cuba*:

Your telegram to-day reports *Berkshire*, *Matteawan*, *Miami*, *Stillwater*, and *Vigilancia*, as the only ships now with you of the original fleet. The list of vessels in the Quartermaster-General's Office has you also charged with the *Catania*, *Gate City*, *Gussie*, *Orizaba*, and *Manteo*. When can these vessels be discharged and sail for New York?

Can you spare the water boat *Kanawha* to go to Ponce with a load of water to relieve the *Maverick*, which should be discharged? Could you not spare one or two of the steam lighters *Bessie*, *Cumberland*, and *Laura*, also to go to Ponce?

When will *Mississippi* return to Tampa for a second load of beef? Beef for General Miles is being sent in transports that are carrying troops to him.

Port Victor should be returned, as soon as discharged, to Tampa for more beef and supplies; also the *Michigan*, which sailed for Santiago July 31. The *Mississippi*, *Port Victor*, and *Michigan*, are to form a regular line to carry beef and other stores to you, and they should be discharged and returned to Tampa as soon as practicable.

I am told that at any time an epidemic of yellow fever is liable to occur. I advise that the troops be moved as rapidly as possible whilst the sickness is of a mild type. With the departure of the first lot of prisoners all but a brigade can go, and now cavalry division can be spared.

Referring to occupation of Gibara, I recommend that at least a brigade of dismounted cavalry be sent to that place, and I would send them on the *Miami* and *Matteawan*, that can leave here to-morrow, or, at the latest, the day after. This will be a start toward getting the troops on their way home. I understand Gibara is a much healthier place than this. On account of the proximity of Spanish troops I would not advise sending a smaller force than that I have indicated. At the same time I can send some Cuban supplies from here and rations for troops. This will not materially delay the transports mentioned. Status of Cuban flag fully understood.

ADJUTANT-GENERAL, U. S. A., *Washington, D. C.:*

Referring to your telegram as to the *Seneca* and *Concho* coming away without attendants and medicines and short of water, the *Seneca* and *Concho* were ordered to stop at Siboney and report to Dr. La Garde to carry convalescents home. The question of their supply of water was one to be attended to by Colonel Humphrey, who tells me to-day that the captain did not ask for water. He did not personally inspect them. Dr. La Garde telegraphs me as follows: "Acting Assistant Surgeons Hicks and Birds accompanied *Seneca.* They were furnished such medicines as could be spared. There were convalescents and waiters enough to look after the sick on a short voyage. We did the best we could for them under the circumstances. *Concho* was accompanied by Surgeon Lesser, of the Red Cross, and four sister nurses. The same thing with regard to medicines and help was done for them. We were short of help and everything pretty much, but we did all we could for them." Surgeon La Garde has the reputation of being a very thorough and careful man and has been working under the most disadvantageous circumstances, but I have no doubt that he did the best he could, and in this connection I wish to say now that from the day this expedition left Tampa until to-day there has never been sufficient medical attendants or medicines for the daily wants of the command, and three times within that time the command has been almost totally out of medicines. I say this on the word of the medical directors, who have in each instance reported that fact to me; the last time yesterday, when the proposition was made to take medicines away from the Spanish hospital. I understand from the public prints that the Surgeon-General states that if the men came away unsupplied it was the fault of the commanding general. Such is not the case. It

is as La Garde says. Everything possible was sent with them. The matter of shortage of water is inexcusable. The chief quartermaster took it for granted, however, that they had sufficient water, or the masters would have called for more. Referring to the convalescents on the *Yucatan*, the same remarks apply as to medicines and attendants. There is no excuse for lack of food, as there has at all times been plenty of that. I have no doubt that many more were put on the ship than should have been, owing to the great desire to get home, as they had the fear of yellow fever and were almost wholly without hospital accommodation. The sick and wounded had only the clothing on that they wore into battle, and of course that was ragged and worn out by the time they reached home. There was none to issue them at the time they left, and their own extra clothing they could not get at. There has never been a case of suffering here that could be remedied by the means at hand that was not attended to. The surgeons have worked as well as any men that ever lived, and their complaint has been universal of lack of means and facilities. I do not complain of this, for no one could have foreseen all that would be required, but I will not quietly submit to having the onus laid on me for the lack of these hospital facilities. Secretary's letter, hands of Major Sniffen, given me to-day. Will reply fully to-morrow.

Referring to your telegram of yesterday in reference to transports, I have to say that the *Catania* and *Gate City* were not in the original fleet, and *Gussie* has not been here for weeks. Do not know where she is. *Orizaba*, loaded with siege guns, ammunition, engineering material, and forage for General Miles, will probably leave to-morrow. *Manteo* is not a transport, and has been used as a lighter. *Kanawha* can't be spared; she is the only boat here which can water vessels lying off the dock. Her anchors, chains, etc., are gone, and she could not go to sea. *Port Victor*, *Grand Duchesse*, and *Olivette* are here. It is uncertain how soon they can be unloaded, but work will be pushed. *Miami* and *Matteawan* now unloading; *Gate City* sails to-morrow; *Berkshire* and *Vigilancia* will be unloaded next. Sixteen ships have been sent back since July 20. *Port Victor* has 200,000 pounds of beef on board; 70,000 pounds coming off daily. No more can be taken, as there is no cold storage on shore, though one will be constructed soon. *Bessie* and *Underwriter* were sent here to go to join General Miles. Two lighters can be spared and will be sent with Colonel Humphrey, who is relieved to date to-morrow, to enable him to join General Miles.

Dr. La Garde, in charge of all hospitals in Siboney, telegraphs me this in reference to sending so few men on the *Relief* and putting men off of it on to transports, and I have no doubt that every word of it is gospel truth. The people on ships seem to be scared to death at the thought of yellow fever. La Garde says *Relief* refused from the beginning to take anything but wounded. She was so afraid of becoming infected toward the last that she hesitated to take anything. This is all the answer I know to give on the subject. She transferred some of the wounded we gave her to other transports before leaving.

ADJUTANT-GENERAL, U. S. A., *Washington:*

In reply to telegram this date, stating that it is deemed best that my command be moved to end of railroad, where yellow fever is impossible, I have to say that under the circumstances this move is practically impossible. The railroad is not yet repaired, although it will be in about a week. Its capacity is not to exceed 1,000 men a day at the best, and it will take until the end of August to make this move, even if the sick list should not increase. An officer of my staff, Lieutenant Miley, who has looked over the ground, says that it is not a good camping ground. The country is covered with grass as high as a man's head when riding a horse, and up in the hills there is no water and it will be required to pump water 2 miles. He also states that rainfall is twice as great as it is here and the soil is a black loam that is not suitable for camping. Troops that have been sent to that locality have been housed in barracks. In my opinion there is but one course to take, and that is to immediately transport the Fifth Corps and the detached regiments that came with it to the United States. If it is not done, I believe the death rate will be appalling. I am sustained in this view by every medical officer present. I called together to-day the general officers and the senior medical officers and telegraph you their views. There is more or less yellow fever in almost every regiment throughout the command. As soon as it develops they are sent to hospital, but new cases arise, not very many, it is true, and it is of a mild type, but nevertheless it is here. All men taken with it will, of course, have to be left and have to take their chances. Some will undoubtedly be taken sick on the ships and die, but the loss will be much less than if an attempt is made to move this army to the interior, which is now really an army of convalescents; at least 75 per cent of the men

having had malarial fever, and all so much weakened by the exposure and hardships which they have undergone that they are capable now of very little exertion. They should be put at once on all the transports in the harbor and not crowded at all, and this movement should begin to-morrow and be completed before the 15th. All here believe the loss of life by doing this will be much less than if more time is taken. If the plan is adopted of waiting until the fever is stamped out, there will be no troops moved from here until the fever season is past, and I believe there will then be very few to move. There are other diseases which are prevailing—typhoid fever, dysentery, etc., and severe types of malarial fever which are quite as fatal as yellow fever. The matter of moving this army has been placed before you, and you have the opinions of all commanding officers and chief surgeons, who fully agree with me as to the only course left open for the preservation of this army. There can be no danger to the people at home, and it seems to me that infected ships is a matter of small moment.

"The ADJUTANT-GENERAL FIFTH ARMY CORPS.

"SIR: The chief surgeon of the Fifth Army Corps and the chief surgeons of divisions consider it to be their imperative duty, after mature deliberation, to express their unanimous opinion that this army is now in a very critical condition. They believe that the prevalent malarial fever will doubtless continue its ravages and that its mortality will soon increase; that there is imminent danger that the yellow fever, now sporadic and of a mild type, may any day assume a virulent type and become epidemic. They unanimously recommend that the only course to pursue to save the lives of thousands of our soldiers is to transport the whole army to the United States as quickly as possible. Such transport they consider practicable and reasonably free from danger. The proposed move to the plateau of San Luis they believe dangerous and impracticable.

Following letter giving the views of the general officers of this command is sent for the consideration of the War Department:

"To Maj. Gen. W. R. SHAFTER, *Commanding United States forces in Cuba:*

"We, the undersigned general officers commanding various brigades, divisions, etc., of the United States army of occupation in Cuba, are of the unanimous opinion that this army must be at once taken out of the island of Cuba and sent to some point on the northern seacoast of United States; that this can be done without danger to the people of the United States; that there is no epidemic of yellow fever in the army at present—only a few sporadic cases; that the army is disabled by malarial fever to such an extent that its efficiency is destroyed and it is in a condition to be practically entirely destroyed by the epidemic of yellow fever sure to come in the near future. We know from reports from competent officers and from personal observations that the army is unable to move to the interior, and that there are no facilities for such move, if attempted, and will not be until too late. Moreover, the best medical authorities in the island say that with our present equipment we could not live in the interior during the rainy season without losses from malarial fever almost as badly as from yellow fever. This army must be moved at once or it will perish. As an army it can be safely moved now. Persons responsible for preventing such a move will be responsible for the unnecessary loss of many thousands of lives. Our opinions are the result of careful personal observations and are also based upon the unanimous opinion of our medical officers who are with the army and understand the situation absolutely. In addition to Hood's regiment, it is proposed to send four other immune regiments. Will five do the garrison duty required? Two liners have been ordered from Porto Rico. Counting these and the transports now with you, how many more transports will be needed? How many men will transports be required for, approximately? Of course, the returning transports bringing immunes will be available. You will begin the movement at once, using the ships you have to their limit, but not beyond; not to the extent of crowding. Of course, you will leave detail for caring for property and prisoners until immunes arrive.

Have any of the ships for Spanish soldiers arrived? Be sure and give me an early estimate of transportation required.

SANTIAGO, VIA HAITI, *August 4, 1898—4.17 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

Referring to inquiry of this day, I have to say that at least two brigades should be kept here until the bulk of Spanish troops are removed. In my opinion five regiments of immunes will be a sufficient garrison for this place. San Luis. Guantanamo, and the towns on the north coast which were surrendered—a battalion of four companies is sufficient for any of these places, except Santiago. The presence of troops will be sufficient to preserve order. The joy of the people is so great at feeling that they are secure that I make this small estimate. All the guerrillas are disarmed, and the only fear that the people apprehend is from the insurgents, and they (the insurgents) assure me that they will not interfere with any of them, though in many cases this promise will not be kept from inability to control the men. In think General Wood is by far the best man to leave in command of this post, and perhaps of the whole district. If he is not to have the entire command,

I would suggest Lawton as the only other man there in every way equipped for the position. The Twenty-fourth Infantry will necessarily have to remain, as it is now in the yellow-fever camp at Siboney; the Twenty-fourth Infantry has had a great deal of sickness, but it is now decreasing. I will answer more fully in reference to it when I can investigate its condition a little better. Have eight companies each of the Ninth and Tenth Cavalry, and they can stay here temporarily, I think, without great danger. Report of transports required will be made as early as possible. Embarkation will necessarily be slow, and, on account of so many men being sick, much more room will be required than when coming down. This matter will receive the closest attention. The joy of this army at receiving orders to return is intense. Twenty-seven hundred and eight Spanish prisoners sick; between 50 and 60 died yesterday in their hospital. So far, not a Spanish transport has arrived, but they are looked for hourly, and by no one with greater impatience than the Spanish troops themselves, who are the most orderly, tractable, and generally best behaved men that I have ever known. The strength of the command is about 18,500, but I doubt if there will be more than 17,000 to be transported at this time.

It is proposed to create a new military department, to be known as the Department of Santiago, to include all that portion of Cuba surrendered by General Toral and adjoining territory that may hereafter be surrendered. In selecting a department commander the President and Secretary of War naturally turn to the general officers serving with you, but in view of the letter signed by them hesitate to make a selection of one of them until you are heard from. As there will be two brigades, it is thought a department commander, with rank of major-general, and two brigadiers should be assigned. Your recommendation desired.

Have consulted Lawton about staying. He desires very much to do so. Will forward his letter by first mail. Wood also is perfectly willing to stay. They are the two best men in the army here. There should be three brigadiers, one for the town, General Wood, and one for each brigade. Young and active men should be sent. Suggest that the third battalion of Roosevelt's regiment be sent here, and that the horses of the four troops of the Second Cavalry be left for their use. I renew my recommendation that Major Miley be appointed brigadier and be assigned here. There is no more competent officer in this army. For the third I would recommend Ewers, Ludlow, or that Bisbee be promoted and given a brigade. He is also one of the solid men, and all of these officers are in comparatively good health. I believe it would be better to make these two promotions than to detail anyone.

The *Gate City* came here stripped of all its conveniences, carpets taken up, cushions off the seats, chairs taken out, no sheets, no blankets. It is an outrage that a ship in that condition should be sent here to carry troops and officers north. I am told this was done by orders given the ship in New York.

SHAFTER, *Major-General.*

MEMORANDUM FOR THE ADJUTANT-GENERAL.

QUARTERMASTER-GENERAL'S OFFICE,
Washington, D. C., August 7, 1898.

General Shafter's dispatch regarding the *Gate City* is a surprise to this office. This ship was chartered from the Ocean Steamship Company of Savannah, Ga., in the same condition she was used in their service for carrying passengers from Savannah to Boston. She went from Savannah to Fernandina, and after being there for a few days was sent to Tampa, at the suggestion of General Miles and contrary to my wishes. I desired that she should be sent north and equipped with ventilating apparatus, condensers, and proper equipment for transport service. General Miles insisted that this could be done at Tampa. The ship was sent and fitted out there. No orders were ever given by this office to take from the ship her equipment as a passenger steamer. If this was done, it was by order of the company's officers from New York, no doubt fearing the ship might be contaminated with yellow fever.

A telegram has been sent to the company, as follows:

"'The *Gate City* came here stripped of all its conveniences, carpets taken up, cushions off the seats, chairs taken out, no sheets, no blankets. It is an outrage that a ship in that condition should be sent here to carry troops and officers north. I am told this was done by orders given the ship in New York.'

"If such is the condition of this ship, orders must have been given from your New York office, as no such orders were given from here or our New York office. Consider that the ship, as she reported to General Shafter, was not in serviceable condition for transport service. The charter money will be held from time she reported in this unserviceable condition, and settlement will be made only in pro-

portion to number of troops they were able to carry on her after fitting her up as best they can in Santiago for trip north. It is to be hoped that you did not take same steps with *City of Macon.*"

SIR: In view of the natural inclination to take possession of all kinds of interesting relics in the shape of small arms, bronze cannon, flags, scrolls, and other paraphernalia likely to be found upon Spanish vessels, or in Spanish fortifications, especially in the old towns in Cuba, it is desirable that such collections should become the property of the Government.

You will direct that such articles when collected be, so far as possible, equitably divided with respect to numbers and value between the army and navy.

ADJUTANT-GENERAL OF THE ARMY, *Washington:*

In connection with my telegram of 3d instant and the letter of the general officers to me of same date, I have the honor to say that since then I have talked with the division commanders, and they join me in saying that the first report was made so strong because of the weakened and exhausted condition of the command, more than 75 per cent of which have been ill with a very weakening malarial fever, lasting from four to six days, and which leaves every man too much broken down to be of any service and in no condition to withstand an epidemic of yellow fever, which all regard as imminent, as there are more or less cases in every regiment here. For strong and healthy regiments coming here now and a little later, with plenty of tentage to cover them and not subject to any hardships and with plenty of nourishing food, the danger, in my opinion and that of the division commanders, would be reduced to a minimum. For days this command lay in trenches without shelter, exposed to sun and rain, and with only hard bread, bacon, and coffee, and these hardships account for its present condition, to none of which will troops coming now be subjected.

ADJUTANT-GENERAL, U. S. A., *Washington:*

In reference to building a hospital, I have had careful inquiry made and find there is very little lumber here and carpenters can not be had. The quickest way to build the hospital will be to have the lumber prepared and to ship it with all the necessary material and about 100 carpenters. General Wood tells me that the hospital here is one of the best in the world, and capable of accommodating 2,000 men. It has perfect modern cooking appliances and sterilizing plant, also isolation wards. Spaniards have had 3,000 sick in hospital; 1,100 taken out yesterday and to-day. Hospital ought to be vacated in two weeks. Has never been used for infectious diseases. We have plenty of hospital tents now. General Wood and Dr. Havard think Spanish hospital will be sufficient for all wants of command. Doctors tell me this hospital can be thoroughly cleaned in two or three days. Havard thinks 20 doctors enough, and 50 nurses. Army doctors preferred.

The following order issued to-day:

"By direction of the President a geographical military department is hereby established, to be known as the Department of Santiago, to consist of all that part of the island of Cuba and the islands and keys adjacent and belonging thereto as have or may hereafter come under the control of the United States. The headquarters of the department will be established in the city of Santiago.

"Maj. Gen. Henry W. Lawton, United States Volunteers, is hereby assigned to the command of the Department of Santiago.

"Brig. Gens. Leonard Wood and Ezra P. Ewers, United States Volunteers, will report to Maj. Gen. Henry W. Lawton, United States Volunteers, for duty in the Department of Santiago.

"The officers of the several staff departments now on duty with the general officers above named are temporarily assigned to like duties at their respective headquarters."

You will arrange with General Lawton for him to assume command at such time as you and he shall agree, it being understood that he will have control of only the troops sent to Santiago for garrison duty and the sick and convalescents of your command left there. It is expected that General Wood will be left in command of the city.

The Secretary of War directs that the following instructions be sent you:

"That medical officers of the United States Marine-Hospital Service be immediately detailed for duty at Santiago, and subsequently at other Cuban or Porto Rican ports under control of the United States forces, to carry out the requirements of the quarantine law of 1893, such officers to issue certificates and perform other duties of sanitary or port inspectors.

"That all sanitary matters pertaining to the condition of transports and crews be placed under the jurisdiction of the medical officers of the United States Marine-Hospital Service. Every vessel engaged in the transport service between the United States and Cuban or Porto Rican ports to carry a medical officer of the Army or of the Marine-Hospital Service, whose duty shall be that of sanitary inspector of the vessel, and who shall see that in a foreign port no material or person is taken aboard liable to convey yellow fever; to keep the crews of the transports under surveillance, and, on the return voyage, act as sanitary inspector.

"That there be placed at Santiago and chief ports, where practicable, a receiving ship for the recreation of those who take passage for ports in the United States. This ship would be practically a detention camp and quarantine station, and passengers seeking homeward voyage would be taken from this vessel after they had undergone a period of observation and disinfection of their effects.

"Surgeon Carter, United States Marine-Hospital Service, has been appointed sanitary inspector at Santiago."

HEADQUARTERS FIFTH ARMY CORPS,
Santiago de Cuba, August 1, 1898.
(Received August 11, 1898.)

MY DEAR GENERAL CORBIN: I inclose an order just received from General Miles, which I will obey, and send the man by the first opportunity. I don't think, however, that General Miles has any authority to divert any part of my command, and I would like to have a decision on the subject. He claimed to me, when I

had some communication with him on the subject, at the time he was making orders after he had left me and gone to Guantanamo, that as the Major General Commanding the Army he had a right to command any part of it, in any place it was, and by that authority he was issuing his orders. I don't wish to be small about anything, and I don't care to be raising questions, but I am either in command here or I am not, and if my command can be interfered with by similar orders to this there is no extent to which it may not go.

Sincerely, yours, WM. R. SHAFTER.

The Secretary of War directs that the following proclamation of the President be sent you for your information and guidance:

"BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

"A PROCLAMATION.

"Whereas by a protocol concluded and signed August twelfth, eighteen hundred and ninety-eight, by William R. Day, Secretary of State of the United States, and his excellency Jules Cambon, ambassador extraordinary and plenipotentiary of the Republic of France at Washington, respectively representing for this purpose the Government of the United States and the Government of Spain, the United States and Spain have formally agreed upon the terms on which negotiations for the establishment of peace between the two countries shall be undertaken; and

"Whereas it is in said protocol agreed that upon its conclusion and signature hostilities between the two countries shall be suspended, and that notice to that effect shall be given as soon as possible by each Government to the commanders of its military and naval forces:

"Now, therefore, I, William McKinley, President of the United States, do, in accordance with the stipulations of the protocol, declare and proclaim on the part of the United States a suspension of hostilities, and do hereby command that orders be immediately given through the proper channels to the commanders of the military and naval forces of the United States to abstain from all acts inconsistent with this proclamation.

"In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done at the city of Washington this twelfth day of August, in the year of our Lord one thousand eight hundred and ninety-eight, and of the independence of the United States the one hundred and twenty-third.

(Signed) "WILLIAM MCKINLEY.

"By the President:
"WILLIAM R. DAY,
"*Secretary of State.*"

Acknowledge receipt.
By order Secretary War.

The protocol provides:

1. That Spain will relinquish all claim of sovereignty over and title to Cuba.

2. That Porto Rico and other Spanish islands in the West Indies, and an island in the Ladrones, to be selected by the United States, shall be ceded to the latter.

3. That the United States will occupy and hold the city, bay, and harbor of Manila pending the conclusion of a treaty of peace, which shall determine the control, disposition, and government of the Philippines.

4. That Cuba, Porto Rico, and other Spanish islands in the West Indies shall be immediately evacuated, and that commissioners, to be appointed within ten days, shall, within thirty days from the signing of the protocol, meet at Havana and San Juan, respectively, to arrange and execute the details of the evacuation.

5. That the United States and Spain will each appoint not more than five commissioners to negotiate and conclude a treaty of peace. The commissioners are to meet at Paris not later than the 1st of October.

6. On the signing of the protocol, hostilities will be suspended, and notice to that effect will be given as soon as possible by each Government to the commanders of its military and naval forces.

Hon. R. A. ALGER, *Secretary of War, Washington:*

Recommend Sumner and Ludlow for promotion. Will give reasons for not recommending Sumner heretofore when I see you. All adverse criticism came from persons at latter's headquarters. Probably it is wise to make the recommendations you suggest in view of the fact that the war, so far as Spain is concerned, began and ended with the campaign in which these officers took part. There are some other officers—old and faithful men—who fought gallantly and who are richly deserving of consideration. Had intended to recommend them in my report, but will do so now. They are equally meritorious as those who have heretofore been made, and their promotion will give them the opportunity of going out of the service happy and contented men. I hope you will be able to bring it about. They are Lieut. Col. Charles D. Viele, First Cavalry; Lieut. Col. William Wherry, Second Infantry; Col. John Page, Third Infantry, if living; Lieut. Col. Gilbert S. Carpenter, Seventh Infantry; Lieut. Col. John H. Patterson, Twenty-second Infantry, dangerously wounded commanding his regiment; Lieut. Col. Aaron S. Daggett, Twenty-fifth Infantry. Each of these officers is deserving, and it seems to me that the promotion ought to go, in a great measure, to the men that did the fighting, and in this, I am sure, the Secretary will agree with me. There is one other officer whose promotion I again wish to renew—that of Maj. John D. Miley, assistant adjutant-general. This officer did as much, if not more, to bring about the successful result of the fight on the 1st and 2d of July as any officer in the com-

mand, and I think more so. He was fully apprised of my plan, and saw that it was carried out to the letter on the field. He is now, and has been since, engaged in most important and delicate duties in receiving surrender of outlying garrisons, and which have been performed in a most admirable manner. I also request that, as a personal favor to me, the appointment of Mr. Robert Sterling Clark to be captain and assigned to duty on my staff as my personal aid. Let me congratulate you, Mr. Secretary, on the firmness and directness with which you pursued the line of policy determined upon and which has resulted so gloriously for our country.

All of cavalry division, Kent's division, Lawton's division, except Seventh and First Infantry and sick and suspects of those commands, have already sailed, leaving Bates's division, Eighth Ohio Infantry, batteries of light artillery, one battery of heavy artillery, four troops of Second Cavalry, and two companies of engineers yet to go. If ships expected with immunes get here, as they ought to, to-day or to-morrow, will get the most of the command away within the next two or three days. All depends on the transports, and, as they have not arrived, can't closely approximate time.

Chief Signal Officer, 1 assistant, and detachment of 30 men will be sufficient for territory now occupied. Other staff officers necessary: Adjutant-general, inspector-general, chief quartermaster, chief surgeon, judge-advocate, clerks, and messengers; in fact, complete staff. I have only one aid, appointed yesterday. All others of my old staff sick and not capable of further service here. I believe all who have served here through campaign should go north and be replaced by others. This suggestion approved by General Shafter. Only competent and able officers should be sent. Duties will be onerous and important. Will King, Seventh Cavalry, come as aid, and will Brooke, Fourth Infantry, appointed aid, now north sick, return? If possible, inform me. COMMANDING GENERAL, DEPARTMENT OF SANTIAGO,
Santiago, Cuba.

Replying to your message for instructions, the President directs that you be informed that the United States is responsible for peace, and must maintain order in the territory surrendered and in your department, and must protect all persons and their property within said jurisdiction. Interference from any quarter will not be permitted. The Cuban insurgents should be treated justly and liberally, but they, with all others, must recognize the military occupation and authority of the United States and the cessation of hostilities proclaimed by this Government.

You should see the insurgent leaders and so advise them.

SANTIAGO DE CUBA, VIA HAITI, *August 16, 1898—8.03 p. m.*

H. C. CORBIN, *Adjutant-General, U. S. A., Washington:*

I have now about completed arrangements for an economical administration of the civil government of Santiago. I relieved the civil governor, with his large following, as superfluous, and the mayor's office, with his numerous boards. Councils have been cut down to a very reasonable number, but with still enough to conduct the business of the office. The courts are being rehabilitated. The minor courts are in operation, but the judges of the superior courts have all resigned, as they would not serve under the United States. I have not yet appointed their successors, as it is not an absolute necessity and I am not sufficiently acquainted with the men to make a judicious selection, but will do so soon. Mails, hospitals, and police have been thoroughly rearranged, cut down to the lowest limit. Police force has been reduced to 60 men instead of nearly 200 and placed under charge of the mayor instead of the civil governor of the territory. Heretofore the authority of the mayor and chief of police extended to towns 25 miles from here, but I have

confined them now to this municipality. The custom-house officials have been reduced in numbers about one-half and about 50 per cent of their pay. It is now working admirably, under Mr. Donaldson's management, as are all the other institutions except the superior courts. Large numbers of prisoners, held for political offenses and trivial criminal charges, some having been confined for years, were, after careful investigations by the judge-advocate and myself, set at liberty. Receipts of the custom-house a little over $20,000 on Friday and nearly $13,000 to-day, making a total of over $86,000 during month of August. I have asked no questions whatever, whether a man was a Cuban or a Spaniard. Most of the officials are Cuban officers, or Cuban born. I hope that in a short time things will quiet down. The whole trouble here is that there is nothing for men to do in the country. It has absolutely returned to its wild state and has got to be settled and made anew. The attitude of the pronounced Cubans is hostile. They so far show no disposition to disband and go to work, and until they do there will be trouble, for they have got to live, and they will have to live by robbery—there is no other way. A dual government can't exist here; we have got to have full sway of the Cubans. It is sincerely to be hoped that wise counsels will prevail among the Cubans and, as war is no longer possible to them except with ourselves, that they will resume their peaceful vocations and without delay, but it is hard for those who have been living by violence and without working to resume their former conditions. The immune regiments that have reached here are, I think, among worst that I have ever seen, being poor material, without discipline, vicious, and degraded. I think it will be necessary to muster them out as soon as danger from disease is over and replace them with better men.

SANTIAGO DE CUBA, *August 17, 1898.*

Tell President McKinley that I and the suffering reconcentrados appreciate beyond expression his kind consideration and promptness in placing the *Clinton* at my disposal to take supplies to Havana. She is partially unloaded, but on account of the simultaneous loading of the Spanish prisoners, our own sick, and returning troops, the rush of work, and the crowded condition of the wharves and warehouses with army supplies, *Clinton* will not be unloaded until Friday next.

It would then require until Tuesday night to load her with supplies. Might I earnestly and respectfully suggest that you direct that Major Osgood, commissary, who arrived on the *Clinton*, be directed to retain the supplies now on the ship which, in his opinion, can be well spared from the enormous supplies here, adding as much of ours as possible, and proceed with me, the Commissary-General approving, as the Government representative, to cooperate with me and give me authority to distribute these stores? I am authorized by Major Osgood to state that if he were instructed on Thursday morning to prepare the boat, he would have her ready to sail Friday morning, thus saving from four to five days' time, which means much to all and everything to many of this suffering humanity.

Major Miley has just returned from Baracoa and Sagua de Tanamo. At the two places there were 7,756 officers and men surrendered, 2,321 stands of arms, and 413,000 rounds of ammunition, 5 Krupp guns, ranging in caliber from 5 inch down to 2 inches. Troops were very short of food, but fifteen days' rations were given them by Major Miley, and a large amount of Red Cross supplies landed at the same time at both places. These troops knew nothing whatever of the destruction of Cervera's fleet, the fall of Santiago, or any later events. They accepted the situation, however, and appeared to be glad at the opportunity of getting home. Major Miley states that on the door of the commanding officer was posted a bulletin purporting to be a telegram from the naval commander at Manila, informing Sagasta of his great victory over Dewey at Manila and Sagasta's thanks to him for the same. Country in the vicinity of these towns in the same condition as that here—utterly destroyed and grown up. Inhabitants said that in eighteen months they would be able to harvest their crop of bananas, which is the principal product of Baracoa. A regiment of insurgents were found in the vicinity of each place, camped within a few hundred yards of Spanish troops calmly observing each other.

SANTIAGO DE CUBA, VIA HAITI, *August 17, 1898—5.24 p. m.*

H. C. CORBIN, *Adjutant-General, U. S. A., Washington:*

I have shown telegram in reference to Fifth Infantry to General Lawton, and he has seen my dispatch of yesterday in reference to Hood's and Sargent's regiments. General Lawton has no fears but that he can enforce discipline, and will apply disciplinary measures; but with green officers and men this is a matter of time, and meanwhile disorders individual in character are constantly occurring, which are mortifying and embarrassing to him and bring disgrace and discredit on the service. The Cubans if turned loose would not behave worse. He would like very much to have the Fifth Infantry for duty in this city, and I recommend that it be sent here. There is a vast amount of property here and a great deal of captured property, and in this, the third largest city of Cuba, it is absolutely essential that the troops of the United States be respected. It is stated in a daily paper here that General Gomez is expected in this vicinity soon, and Cuban soldiers are notified to meet him at Cobre, about 4 miles from here. It is also reported in the streets that General Garcia is coming with him. The assemblage of such a force may lead to complications of a grave character.

General SHAFTER, *Santiago, Cuba:*

Inform General Lawton that the Fifth United States Infantry has been assigned to Department of Santiago and will sail from Tampa for Santiago Friday and Saturday.

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, August 18, 1898.

COMMANDING GENERAL DEPARTMENT OF SANTIAGO,
Santiago, Cuba:

With the Fifth United States Infantry added to your department, have you immediate demand for more troops for garrison duty?

H. C. CORBIN, *Adjutant-General.*

SANTIAGO DE CUBA, VIA HAITI, *August 18, 1898—12.52 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

I think the transports from Tampa will take all the well men. *Olivette* and *Catania* or some other hospital ships should return at once for convalescents, of which there will soon be a large number.

SHAFTER, *Major-General.*

Official copy of foregoing telegram furnished the Quartermaster-General with following memorandum:

ADJUTANT-GENERAL'S OFFICE, *August 18, 1898.*

Official copy respectfully furnished the Quartermaster-General United States Army. The Secretary of War desires, until the sick of the Fifth Army Corps are brought away from Santiago, that arrangements be made for a vessel fitted to carry that class of soldiers to leave Santiago at least once a week.

H. C. CORBIN, *Adjutant-General.*

WAR DEPARTMENT, *August 18, 1898.*

Miss CLARA BARTON, *Santiago, Cuba:*

Clinton can not be used until unloaded. Stores aboard were sent on special request and are necessary for the comfort of officers and men at Santiago. The Government will send, as soon as ship can be loaded at Port Tampa, 2,000 tons of supplies for relief of destitute. This accomplishes same result and in shorter time. Will not this meet your wishes even better than recommended in your cablegram yesterday? Would it be asking too much for you to go to Havana to superintend the distribution of these stores? Under the law only the destitute and those in immediate danger of perishing can receive these supplies.

R. A. ALGER, *Secretary of War.*

SANTIAGO DE CUBA, VIA HAITI, *August 18, 1898—5.20 p. m.*

H. C. CORBIN, *Adjutant-General, U. S. A., Washington:*

Clinton can be unloaded to-morrow and will then be turned over to Miss Barton to carry her supplies to Havana, after which it will proceed to New Orleans for cancellation of charter.

COMMANDING OFFICER, TWENTY-THIRD KANSAS VOLUNTEER INFANTRY,
Topeka, Kans.:

Secretary of War directs that you proceed by rail with your regiment, fully armed and equipped, to New York City, in time to reach there next Wednesday, 24th instant, to embark upon a transport to be provided to take your command to Santiago, where, upon arrival, you will report to the commanding general, Department of Santiago, for duty. Communicate with the chief commissary at Omaha, Nebr., concerning your travel rations, and with the chief quartermaster at the same point for your transportation. Take every precaution for the comfort and convenience of your men, and sufficient stores of all kinds for the journey. Acknowledge receipt, and communicate to this office from time to time progress in execution.

General SHAFTER, *Santiago:*

All the troops have arrived in good shape, except those on the *Mobile*, which is reported to have been overcrowded. Ten deaths on the way. The Secretary of War directs that plenty of room be given on all transports.

H. C. CORBIN, *Adjutant-General.*

SANTIAGO DE CUBA, VIA HAITI, *August 20, 1898—11 50 a. m.*

H. C. CORBIN, *Adjutant-General, Washington:*

The Fifth Corps ambulance train has been in part unloaded for use here. With the returned garrison not more than 10 or 15 will be required, but there should be 2 or 3 in each place garrisoned to transport sick; and I suppose the whole 25 will not be too many and will have them unloaded here. There are 100 six and four mule wagons, which, of course, are a great many more than will be required. I think, however, they better be left here, as they can be shipped from here to other places in Cuba as well as from United States, and the grazing here is excellent. There are 8 fine pack trains fully equipped in this part of Cuba. Pack trains only are suitable for transportation. Wagons can only be used in the villages and in their immediate vicinity.

SHAFTER, *Major-General.*

ADJUTANT-GENERAL'S OFFICE,

ADJUTANT-GENERAL, *Washington:*

At least one large transport more will be needed for troops, and two others, carrying 300 or 400 each, can be used as soon as they get here. Surgeon reports to me to-night he has 400 convalescents now ready, and this number is being added to daily. They should be gotten away from here with the least practicable delay.

SHAFTER, *Major-General.*

SANTIAGO, VIA HAITI, *August 20, 1898—10.41 p. m.*

ADJUTANT-GENERAL, U. S. A., *Washington:*

Referring to your telegram about overcrowding the *Mobile*, her captain reported that, loaded as she was, going to Porto Rico he could carry 3,000 men, and that he could carry 2,000 comfortably, therefore did not consider a few less than 1,700 as too many. Ship was carefully inspected by a board of officers, and Dr. Ives, a member of the board, states it was not overcrowded. Accommodations for officers were, however, somewhat deficient. The large number of deaths can probably be accounted for by the fact that this brigade took nearly all their sick with them. Greatest care has been taken in this respect. Transports have been loaded with from 200 to 300 men less than the same ship brought down.

SHAFTER, *General.*

WASHINGTON, *August 20, 1898—11 p. m.*

Mr. W. J. COURCEY,
Adjutant-General's Office, Washington.

DEAR SIR: Before taking train for home it occurs to me to write, making one more request. I wish you would send an additional instruction to General Lawton, directing him to notify your office when A. B. Wallace, of Seventy-first New York, starts for home, what hospital ship he is on, and to what port she sails and probable date of arrival. I know you will do this, and thank you in advance. When you get the word, please telegraph me, so that I may arrange to meet the vessel.

Very truly, yours,

GEORGE WALLACE,
Freeport, Long Island, New York.

P. S.—Please drop me a line on receipt of this, so that I may know you have it.

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, August 21, 1898.

General SHAFTER, *Santiago:*

Referring to your cablegram of yesterday, in which you say at least one more large transport will be needed for troops, and two others, carrying 300 or 400 each, can be used as soon as they can reach you, the Quartermaster-General informs me that the *Berlin* sailed from New Orleans the 17th with Ninth United States Volunteers and should now be at Santiago. She can carry from 1,000 to 1,500 troops.

The *Knickerbocker*, capacity 700, and *Saratoga*, capacity 600, sailed from Tampa this morning with Fifth Infantry.

The *Florida*, capacity 400, sailed from Ponce for Santiago on the 18th.

The hospital ship *Missouri*, which can carry comfortably 400 convalescents and sick, is to sail from New York to-morrow afternoon, the 22d.

The *Segurança*, which can carry fairly comfortably 400 convalescents, is to sail from New York the 23d.

The *Vigilancia*, with Twenty-third Kansas, is to sail from New York the 24th.

H. C. CORBIN, *Adjutant-General, U. S. A., Washington:*

I recommend that all the Mauser rifles and the ammunition for the same be shipped to some arsenal in the north with as little delay as possible, to prevent rust. There are several millions of this ammunition, and probably 10,000 or 12,000 stands of these arms. Of course a large number of those turned in were Remington and another inferior weapon. The surrender at Baracoa shows a total of 23,726 surrendered, a little less than 3,000 of them being guerrillas and volunteers, leaving about my original estimate of 21,000 to be shipped. So far no sickness among incoming regiments.

SHAFTER, *Major-General.*

SANTIAGO, VIA HAITI, *August 22, 1898—9 p. m.*

H. C. CORBIN, *Adjutant-General, Washington:*

The *Berlin* has just arrived with the Ninth United States Volunteer Infantry on board. There are now plenty of transports here and in sight to take all the balance of the troops and a large number of convalescents. The Spanish prisoners will all be loaded by Saturday. Many are going on board to-day. I think I will leave either the afternoon of the 24th or the morning of the 25th.

ADJUTANT-GENERAL, U. S. A., *Washington:*

Sanitary report for August 22: Total sick, 1,101; total fever cases, 817; total new fever cases, 156; total fever cases returned to duty, 91. Deaths, August 20: Private C. W. Richardson, Company L, First Illinois Volunteer Infantry, dysentery; Private Michael O'Malley, Company K, Ninth Massachusetts Volunteer Infantry, pernicious malarial fever; Musician John Lymons, Company E, Thirty-fourth Michigan Volunteer Infantry, typhoid fever. August 21: Sergt. Henry Connors, Company G, Thirty-third Michigan Infantry Volunteers, typhoid fever following yellow fever; Private John Richards, Company C, Twenty-fourth Infantry, yellow fever; Private Sandy Smith, Company H, Twenty-fourth Infantry, yellow fever; Corpl. Charles A. Butcher, Company A, Tenth Infantry, typhoid fever.

ADJUTANT-GENERAL U. S. A., *Washington:*

No suitable horses here for cavalry purposes; those used for orderly service at brigade and division headquarters General Lawton wished to retain for same pur-

pose, so as to keep his cavalry intact. Moreover, they were probably not selected especially for cavalry service. General Lawton deems the captured ponies too light for the work which may be required of the cavalry.

H. C. CORBIN, *Adjutant-General, U. S. A., Washington:*

Not expecting any surplus of transportation home, I had prepared the *Mexico* to bring my headquarters and guard horses, etc , on, and had also loaded on it about ten or twelve large bronze cannon, very beautiful pieces of workmanship, which were captured here. As there is no expense at all attached to bringing it, I desire to know if it would be approved by the War Department.

SHAFTER, *Major-General.*

SANTIAGO, VIA HAITI, *August 22, 1898—10.36 p. m.*

Telegram just received. The *Berlin*, *Knickerbocker*, and *Saratoga* were not known to be coming here, as well as the *Missouri*, *Segurança*, and *Vigilancia*. These are all that will be required for troops, and also carry all convalescents. I think, however, it would be well to send the *Olivette* to take some of the most severe cases.

The following letter has just been received from the soldiers who are now embarking for Spain:

"To Major-General SHAFTER, *Commanding the American Army in Cuba.*

"SIR: The Spanish soldiers who capitulated in this place on the 16th of July last, recognizing your high and just position, pray that through you all the courageous and noble soldiers under your command may receive our good wishes and farewell, which we send them on embarking for our beloved Spain. For this favor, which we have no doubt you will grant, you will gain the everlasting gratitude and consideration of 11,000 Spanish soldiers, who are your most humble servants.

"PEDRO LOPEZ DE CASTILLO,
"*Private of Infantry.*"

Also the following letter addressed to the soldiers of the American Army:

"*Soldiers of the American Army:*

"We would not be fulfilling our duty as well-born men, in whose breasts there lives gratitude and courtesy, should we embark for our beloved Spain without sending to you our most cordial and sincere good wishes and farewell. We fought you with ardor, with all our strength, endeavoring to gain the victory, but without the slightest rancor or hate toward the American nation. We have been vanquished by you (so our generals and chiefs judged in signing the capitulation), but our surrender and the bloody battles preceding it have left in our souls no place for resentment against the men who fought us nobly and valiantly. You fought and acted in compliance with the same call of duty as we, for we all but present the power of our respective States. You fought us as men, face to face, and with great courage, as before stated, a quality which we had not met with during the three years we have carried on this war against a people without religion, without morals, without conscience, and of doubtful origin, who could not confront the enemy, but, hidden, spot their noble victims from ambush and then immediately fled.

This was the kind of warfare we had to sustain in this unfortunate land. You have complied exactly with all the laws and usages of war as recognized by the armies of the most civilized nations of the world, have given honorable burial to the dead of the vanquished, have cured their wounded with great humanity, have respected and cared for your prisoners and their comfort, and, lastly, to us whose condition was terrible, you have given freely of food, of your stock of medicines, and you have honored us with distinction and courtesy, for after the fighting the two armies mingled with the utmost harmony. With this high sentiment of appreciation from us all, there remains but to express our farewell, and with the greatest sincerity we wish you all happiness and health in this land which will no longer belong to our dear Spain, but will be yours, who have conquered it by force and watered it with your blood, as your conscience called for, under the demand of civilization and humanity, but the descendants of the Congo and of Guinea, mingled with the blood of unscrupulous Spaniards and of traitors and adventurers, these people are not able to exercise or enjoy their liberty, for they will find it a burden to comply with the laws which govern civilized communities.

"From 11,000 Spanish soldiers.

Telegram in reference to paymasters received. It was impossible to send them earlier unless a transport sent here for troops had been taken, and I thought it more important that troops should be moved than the paymasters. The *Orizaba*, which they are to go on, is now ready and can sail to-day. It has been delayed taking 350 tons of coal. Last night two of the paymasters, Thrift and Folger, were taken sick, and it is believed this morning they have yellow fever, which they undoubtedly took while stationed in the city here making payments. They have been removed to detention hospital. Under these circumstances, I am at a loss what to do about sending the ships to Porto Rico, though I do not believe there is any danger to be apprehended, certainly no more there than here. If transferred to the *Florida*, the only ship available, they will have to remain here two days, as boat has to be coaled. I await instructions.

I have to-day transferred all business relating to customs over to Major-General Lawton. There has been collected, with the exception of a small amount in July, $102,093.50. Salaries of officials and all expenses, including street cleaning, city officials, police, etc., have been paid to date, leaving over $90,000 in the treasury. The expenses of the custom-house have been cut down from $40,000 per annum to $28,000, and that in time can be materially reduced. These collections were all made under the minimum tariff, including a large reduction in tonnage. The economy and celerity which has characterized the business of the custom-house has been brought about in a great measure, under the supervision and good management of Mr. Donaldson.

HEADQUARTERS FIFTH ARMY CORPS,
Camp at Montauk Point, September 3, 1898.

MY DEAR GENERAL ALGER: I am very sorry not to be able to come to meet you and the President on your arrival this morning, but I am still in detention camp, and yesterday, for the first time, had considerable fever. I am feeling much better, however, this morning, though rather weak.

I hope you will find the appearance of everything here satisfactory. In a little drive I took the first day I came here it seemed to me an admirably well selected and arranged camp.

I hope to be out of detention to-morrow and take command.

Thanking you for your many kindnesses, and trusting that the President and yourself are very well, I am,

Faithfully, yours, WM. R. SHAFTER.

Hon. R. A. ALGER, *Secretary of War, etc.*

HEADQUARTERS FIFTH ARMY CORPS,
Montauk Point, Long Island, September 3, 1898.

MY DEAR GENERAL ALGER: I have just seen the New York World of to-day, in which it refers to an interview with me day before yesterday.

Every word which refers to charging incompetency or gross mismanagement of supply departments or that alleges that persons ordering the army to Cuba are responsible for present condition of army is absolutely false. I not only never said this, but entertain no such opinion. I only spoke to the reporter on the success of the campaign and the natural difficulties to be overcome.

I suppose, General, you have gotten used to newspaper lies by this time and can appreciate the situation. I am,

Very respectfully, WM. R. SHAFTER.

Cavalry Brigade, Huntsville, Ala.: Second United States Cavalry, Sixth United States Cavalry, and Tenth United States Cavalry.

Artillery battalion (two batteries, A and F, Second), attached to headquarters, Fourth Corps.

The movements involved in the above-directed reorganization and assignment will commence under the direction of corps commanders on October 27, 1898. As far as practicable they will be so timed that only one regiment shall reach a particular camp on the same day.

The commander of each corps will direct the officer who is to command any camp to be established under this order to proceed to the designated point, accompanied by one or more staff officers, for the purpose of making necessary preliminary arrangements for the reception of the troops, whom he should precede at least ten days. He will be furnished with the report and the information concerning the particular camp site submitted by the board of officers who recently considered the subject of the location of winter camps in certain of the Southern States. Requisition will be made upon the Quartermaster's Department for the flooring and boxing of tents. Those intended for the men will be erected according to a model to be supplied by the Quartermaster-General. Sufficient and proper hospital accommodation will be provided, and the necessary measures for placing the camp in good sanitary condition will be taken in advance of the arrival of the troops.

Corps commanders will recommend such new assignments of general officers as the provisions of this order may render necessary, or as they may deem to be for the best interests of the service. Assignments or transfers of general staff officers should also be recommended by them when considered advisable.

Orders for moving to the proper points organizations not brigaded but attached to army corps will be issued from the headquarters of the corps concerned.

It will be borne in mind that the troops who are to occupy the camps herein provided for are to be prepared and held in readiness for service in Cuba. They may be ordered to that island on short notice, either by regiments or brigades

By command of Major-General Miles:

CORRESPONDENCE RELATING TO PORTO RICO.

May, June, July, and August, 1898.

CORRESPONDENCE RELATING TO PORTO RICO, MAY, JUNE, JULY, AND AUGUST, 1898.

HEADQUARTERS OF THE ARMY,
Washington, D. C., May 26, 1898.

The Honorable the SECRETARY OF WAR.

SIR: I have the honor to submit the following:

As you are aware, the available force of the Regular Army, numbering some 17,000 men, has been ready for the field from the day that the Government decided to take war measures against the Spanish Government, and, as it will be remembered, my first purpose was to form a junction with Gomez's troops on the south coast of Cuba, in Santa Clara province. This movement was delayed, as the Navy reported that it could not well furnish the convoys and desired all of their available ships to meet the Spanish fleet. When it was reported that the Spanish fleet had returned to Cadiz, transports were gathered in the Gulf to move a portion of the Army to Cuba, and are now in readiness for that purpose.

In view of the fact that the Volunteer Army is neither equipped nor instructed, or even supplied with ammunition sufficient to fight a battle, I deem it advisable to suggest the use of the available force now on the Gulf in the following manner:

According to all accounts, the Spanish fleet is divided, a small portion being in Cuban waters and the remainder at Cadiz, on the coast of Spain. If the ships and torpedo boats under the command of Admiral Cervera have been inclosed in the harbor of Santiago de Cuba, I suggest that the military forces go at once to the assistance of the Navy, and by landing 15 miles east of Santiago de Cuba, at Baiquiri, move over the low mountains toward Santiago de Cuba, where, by placing the artillery in position, they can command the harbor of Santiago de Cuba, and with field and siege guns would be able to destroy the fleet by a plunging fire, or at least assist our navy in entering the harbor, thereby destroying or capturing the Spanish fleet as well as the garrison occupying that vicinity. We can also communicate with General Garcia, who has 8,000 men in Santiago de Cuba province, which would assist in the capture of the garrison. This might be considered the first movement.

Second. If it shall be found, before the above movements can be accomplished, that the Spanish fleet has escaped from Santiago de Cuba or shall have been captured by our fleet, it would be well, in my judgment, to capture the island of Puerto Rico by a combined attack of the Army and Navy with the least possible delay. Twenty-five thousand men of the Army, principally artillery and infantry, with the assistance of the fleet, will, in my judgment, be sufficient to capture that island.

While either of these movements is being accomplished additional arms can be sent to Lieutenant-General Garcia, who can equip 15,000 additional troops, making his army 23,000 men. He now practically has possession of the provinces of Puerto Principe and Santiago de Cuba.

When either of the two movements above indicated has been accomplished, our troops can occupy the harbors of Bahia de Nipe and Bahia de Banes. (This last-named harbor is now controlled by Garcia's troops.) Also the harbors of Pto. de Gibara, Pto. Padre, Pto. Maniti, Sabana la Mar, but more especially Pto. de Nuevitas, can be occupied. The capture of these ports will have to depend upon circumstances. The occupation of the last named and the railroad to Puerto Principe, one of the principal cities of Cuba, will furnish a most excellent base for the movement of the cavalry and a small force of light artillery in conjunction with the Cuban forces, moving thence west in the province of Santa Clara, where a junction could be made with Gomez's forces. Our forces would then be in possession of at least two-thirds of the island of Cuba, supported by all of the available forces of Garcia and Gomez. By that time our volunteer troops will be equipped and prepared to assume active operations for the complete occupation of the remainder of the island, either landing in the vicinity of Matanzas, Mariel, or Havana, as is deemed most expedient at that time. This, in my judgment would add to the greatest discomfort of the Spanish forces. It would unite all of the elements against the Spanish forces with the least exposure to fever, and during the rainy season can best be accomplished of any practicable military operations.

We will have a cavalry force much superior to the cavalry on the island, and it can be reenforced at any time it is deemed advisable.

Of course, our ships, which are necessary to accomplish the objects specified, should at all times have the safe convoy of the ships of the Navy.

Very respectfully,

NELSON A. MILES,
Major-General, Commanding.

Confidential.] HEADQUARTERS OF THE ARMY,
Washington, D. C., May 27, 1898.

The Honorable the SECRETARY OF WAR.

SIR: Referring to my letter of yesterday and to our consultation since, I desire to submit the following:

As we are now about to inaugurate active military operations in conjunction with the Navy, I think it would be advisable to load the transports at Tampa with a strong force of infantry and artillery, move them to Key West, and thence along the northern coast of Cuba, where they would have the full protection of Admiral Sampson's fleet until they reach Admiral Schley's fleet at Santiago de Cuba, and then by a combined effort of the Army and Navy capture the harbor, garrison, and possibly the Spanish fleet at that point.

If, before reaching Admiral Schley's fleet, it shall be found that he has already accomplished the above object, or that the Spanish fleet shall have escaped, I then urge the importance of a combined attack of the Army and Navy upon Puerto Rico. We will be able to land a superior force, and I believe that a combined effort will result in capturing the island, with its garrison, provided it is done before it can be reenforced from Spain. The distance from Key West to Puerto Rico is 1,040 miles, and from Cadiz, Spain, to Porto Rico it is 4,000 miles. The possession of Porto Rico would be of very great advantage to the military, as it would cripple the forces of Spain, giving us several thousand prisoners. It could be well fortified, the harbor mined, and would be a most excellent port for our Navy, which could be speedily relieved from any responsibilty in the charge of that port, as we could leave a sufficient garrison to hold it against any force that might be sent against it.

Then we should commence, in my judgment, a movement toward the west by capturing the ports along the northern cost of Cuba, at the eastern end, supplying the insurgents with abundance of arms and munitions of war, and as speedily as possible land our cavalry and sufficient light artillery to enable them to move from the harbor of Pto. de Nuevitas along the line of railroad to Puerto Principe. From that base our cavalry and light artillery, in conjunction with the forces of Lieutenant-General Garcia and General Gomez, should move west to near Santa Clara. These movements, in my judgment, can all be accomplished during the rainy season, through a country comparatively free from yellow fever, well stocked with cattle, and having grass sufficient for our animals. While this is being accomplished, our Volunteer Army will be prepared to land in the vicinity of Mariel, Havana, or Matanzas in sufficient force to complete the capture or destruction of the Spanish forces upon the island of Cuba. The advantage of this movement will be that the Army and Navy will act in concert and close unison; that it does not divide our Navy, and that it will utilize our most available military force in the best way during the time of the year when military operations are most difficult.

I believe that the entrance to the port of Cienfuegos can be obstructed or blockaded by one or two monitors to better advantage than to send the Army there, where it would have to meet a strong garrison, which is already there, and all the forces that can be quickly sent there by rail directly from Havana and Matanzas.

If the above plan is approved, troops could be ordered to embark on the transports immediately, and the purpose would be the occupation of Spanish territory, first by moving our troops as speedily as possible to Santiago de Cuba and Puerto Rico, and later to the north coast of Cuba, especially our cavalry, this military occupation to continue until hostilities cease.

Very respectfully,

NELSON A. MILES,
Major-General, Commanding.

SECRETARY OF WAR, *Washington, D. C.:*

Before this expedition sails I think it highly important that it should be definitely understood that position No. 2, mentioned in my letter of May 27, is to be captured by a combined attack of the Army and Navy, provided neither shall have received serious injury in the first movement, and that Port Banes, or Nipe, be considered the place of rendezvous after Santiago de Cuba shall have been taken. If it meets the approval of the Government, as soon as this expedition sails another can be immediately organized to reenforce the first and make sure of the capture of No. 2, and I request that transportation be immediately secured for at least 15,000 men.

Believe such a force can be ready as soon as sufficient transports could be gathered for (undutiful)* 23,000 volunteers. Will inform you definitely as soon as reports can be received as to exact condition of regiments and batteries. This corps has been organized and equipped in part for that purpose, and I believe it sufficient. I offer the following merely as a suggestion: To leave No. 1 safely guarded. This corps, with the combined assistance of the Navy, to take No. 2 first before it can be reenforced. In order to make sure of this, have it followed by (unbearable)† 22,000 additional volunteers as quickly as transportation can be secured, utilizing what transports are now engaged, any prize steamers now at Key West, and any Atlantic auxiliary cruisers that can be spared by the Navy. Such a force ought to sail in ten days. Leaving sufficient force to hold No. 2, the capture of No. 1 can then be easily accomplished and the troops then landed at any point that might be thought advisable.

Health of soldiers during period of preparation for second expedition is of the first importance, which must be kept constantly in mind. If, in your judgment,

Fernandina is better for the health of soldiers, make that the first point of concentration for second expedition. The President is most solicitous that during this hot season all the troops shall be stationed where they will have the best climate and sanitary conditions the South will afford. I have wired General Lee about a change of his troops, asking his advice. When will your second expedition be ready?

R. A. ALGER, *Secretary of War.*

TAMPA, FLA., *June 14, 1898.*

SECRETARY OF WAR, *Washington, D. C.:*

In my judgment, prudence and safety seem to dictate that the opinion of the highest medical military authorities and the experience of many years should prevail. It is well known that Jacksonville just at present, although not on the coast, is healthful; so is Tampa and Mobile. Colonel Greenleaf states in his report: "Experience has demonstrated the necessity for camping troops in such places as may be made safe against the introduction of this disease (yellow fever), and I recommend that provision be made as soon as possible for transporting the troops now at Jacksonville (which would be a place of exposure should the disease advance from its present location) to Fernandina, and that other troops be transferred to Miami."

He states his opinion is formed after consultation with yellow fever experts, including Marine-Hospital Service.

It will be an imperative necessity to move those troops at once should yellow fever approach Florida, and it should be commenced now.

The troops at this place would have gone with first expedition had there been transportation, and have for days been working to get ready for expedition No. 2. In fact, these and a division at Chickamauga are the only troops ready. Other troops, not ready or required for immediate field service, can be sent to General Lee at Fernandina.

I think it of the highest importance that the troops be placed in the three healthful camps of instruction—Chickamauga, Fernandina, and Miami—away from infected cities, as soon as possible, and the available force immediately equipped for active service.

Is there objection to troops at Mobile going to Mount Vernon?

I am informed that the Atlantic liners when loaded draw from 26 to 30 feet; when light from 10 to 12 feet. These would be most useful, as they can be loaded by means of lighters at many ports, and can go to ports having sufficient water to unload, or with barges unload at others. They would be invaluable when we move the cavalry and trains, and I hope they will be secured as rapidly as possible. Understand prize steamers will be sold in New York and Key West on 27th, and hope they may be secured. Our greatest expense and difficulty will be with water transportation. Should the expedition that has gone encounter storms and be obliged to close ports and hatchways I fear result may be serious. Everything should be done to accommodate the troops.

In reply to your telegram, transportation should be furnished for 30,000 men and 3,300 animals. Men on battle ships use hammocks. I believe that hammocks for men can be utilized on transports if frameworks are put up so that they can swing them tight and strong. This will enable them to take them down during day and clean the decks. Please telegraph this to Major Summerhayes and see if he can not have it done. Hammocks ought not to take up more space than wooden bunks if the frameworks are properly constructed. Appliances for seasickness, life preservers, condensers, and fans for forcing fresh air to the lower decks should be amply provided, otherwise there is going to be great suffering, and troops will be unable to fight when they land. Am very anxious to have large steamers for troops and cattle ships (American liners) for transporting animals. Shall be glad to have the steamers as fast as they are chartered and fitted up sent to Port Tampa, including those at Fernandina, as commence loading munitions of war and stores as soon as they arrive. The Honorable the SECRETARY OF WAR.

SIR: Regarding the second expedition, it should be composed, in my judgment, of two small divisions of General Coppinger's corps, now at Tampa, and General Wilson's division from Chickamauga. These troops are the most available.

General Schwan's division, now at Miami, Fla., formerly belonging to General Coppinger's corps, should be transferred to General Lee's corps. This practically disposes of all the troops belonging to General Coppinger's command.

I at one time suggested a change, but as it may cause some feeling and embarrassment, I think that, under all the circumstances, it will be best to let General Coppinger go as corps commander, reinforced by General Wilson's division, which should be increased to 15,000 men, and which is in the best condition of any command at Chickamauga.

If this suggestion is not approved, I see no other way than to direct that Generals Coppinger and Wade exchange positions.

SIR: By direction of the President an expedition will be organized with the least possible delay under the immediate command of Major-General Brooke, U. S. Army, consisting of three divisions taken from the troops best equipped in

the First and Third Army Corps, and two divisions from the Fourth Army Corps, for movement and operation against the enemy in Cuba and Porto Rico. The command under Major-General Shafter, or such part thereof as can be spared from the work now in hand, will join the foregoing expedition, and you will command the forces thus united in person.

Transports for this service will be assembled at Tampa with the least possible delay. The naval forces will furnish convoy and cooperate with you in accomplishing the object in view. You will place yourself in close touch with the senior officer of the Navy in those waters, with the view to harmonious and forceful action.

Estimates will be made by you immediately on the several staff departments for the necessary supplies and subsistence, such estimates to be submitted to the Secretary of War.

For the information of the President, copies of all orders and instructions given by you, from time to time, will be forwarded on the day of their issue to the Adjutant-General of the Army. Also daily report of the state and condition of your command will be made to the Secretary of War direct.

NELSON A. MILES,
Major-General Commanding.

HEADQUARTERS OF THE ARMY,
Washington, D. C., July 5, 1898.

The Honorable the SECRETARY OF WAR.

SIR: I do not wish to be misunderstood in regard to my two notes sent you this morning. You informed me that you had three propositions to make in regard to Santiago. I replied that I would be glad if any one of them could be executed; and certainly no one could be more gratified than myself to hear that our navy had entered the harbor of Santiago to silence the batteries that are now turned upon our brave officers and men. It so happened that on returning to my office, one of my staff officers volunteered his services, without the least knowledge of what you had said to me, for the very enterprise which was suggested in one of your propositions, and I sent notice of this to you for personal information.

I also informed you that in case it should not be thought advisable to adopt the suggestions as indicated in your memorandum, I had another to suggest, having in mind at the time the language of General Shafter's dispatch of last night referring to the number of troops required, viz: "We will require twice the number we now have;" also, "If we have got to try and reduce the town now that the fleet is destroyed, which was stated to be the chief object of the expedition, there must be no delay in getting large bodies of troops here;" and also realizing the fact that much time would be necessary to get 20,000 more troops to that place, it occurred to me that should it not be thought advisable to continue operations against the garrison at Santiago, it would be a good time to move on to Porto Rico, the capture of which place seemed to me of great importance at this time.

These notes were addressed to you with the expectation that if they were of any service and met your approval, you would make such use of them as you thought advisable, but not otherwise, and I request that this communication be forwarded to the President in order to dispossess his mind of what must be a misapprehension.

Very respectfully,

NELSON A. MILES,
Major-General, Commanding.

HEADQUARTERS OF THE ARMY,

The Honorable the SECRETARY OF WAR.

SIR: As the object for which the army was sent to Santiago de Cuba has been accomplished, viz, the forcing of the Spanish fleet out of the harbor and its destruction by the navy, I deem the present time most favorable for proceeding immediately to Porto Rico. I consider it of the highest importance that we should take and keep that island, which is the gateway to the Spanish possessions on the Western Hemisphere, and it is also important that our troops should be landed there as early as possible during this month. There are now about 4,000 men on transports at Key West, approximately 7,000 will soon be at Charleston, S. C., and there are already 20,000 at Santiago. If this force is not sufficient, the transports can return for more if required.

The ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

Snag boat *Suwanee*, Otto Bie, master, leaves Tampa to-day in tow steamer *Tarpon* for Santiago under hurry orders from major-general commanding. To make voyage safely must choose time for crossing, and can't accompany transports. Light-draft naval convoy earnestly requested, to permit taking shelter

along coast where necessary. Arrive Key West Tuesday. Telegraphic instructions about convoy can be sent to Captain Bie through depot quartermaster Key West.

ADJUTANT-GENERAL'S OFFICE,

Captain BIE:

(Through depot quartermaster, Key West, Fla.)

It is not possible to furnish convoy for light-draft vessels. The Navy Department informs this office that since the destruction of the Spanish fleet there is little danger. In view of this fact the Secretary War directs that the transports in question proceed at once and without convoy.

ADJUTANT-GENERAL'S OFFICE,

Lieutenant-Colonel BLACK, *Chief Engineer, Port Tampa, Fla.:*

The following telegram has been sent Captain Bie, through depot quartermaster, Key West:

"It is not possible to furnish convoy for light-draft vessels. The Navy Department informs this office that since the destruction of the Spanish fleet there is little danger. In view of this fact the Secretary War directs that the transports in question proceed at once and without convoy."

WASHINGTON, D. C., *July 14, 1898.*

Major-General MILES, *Cuba:*

The conditions are such, on account of yellow fever, that I have ordered all further shipment of troops to Santiago to cease. We are now arranging transportation for 25,000 men for Porto Rico. As soon as matters are settled at Santiago, I think you had better return and go direct with this expedition. Yellow fever breaking out in camps at Santiago will, I fear, deprive you of the use of all forces there. That, however, can be determined later. As soon as Santiago falls, the troops must all be put into camps as comfortable as they can be made, and remain, I suppose, until the fever has had its run. It is a most difficult problem to solve, but we are sure you and General Shafter, with the aid of the surgeon in charge, will do all that can be done. Have ordered two immune regiments to Santiago, and they, with the colored regulars, it seems to me, will answer to garrison the places as long as our forces have to remain there.

R. A. ALGER, *Secretary of War.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 14, 1898—11.10 a.m.

Major-General WILSON, *Charleston, S. C.:*

Secretary of War directs me to acknowledge receipt of your telegram last night, and to inform you that yellow fever is reported to be so bad at Santiago that no more troops will be sent there or to that neighborhood for the present. Your command will be a part of the Porto Rico expedition, which will sail in the near future, but date not yet fixed. In the meantime the Secretary War desires your

views as to best disposition to be made of troops now with you. You might sail to Fernandina or some other point on the coast and there await the assembling of the entire expedition, leaving your wagons and heavy freight on board and disembarking the animals and men and going into camp. It is thought the expedition will be under way in seven or eight days. The situation at Santiago is this: That there will be a surrender or an assault at noon to-day; but by reason of the sickness in that command it is practically unavailable for any further field service at this time. This the Secretary of War desires for the information of yourself and your confidential staff officers. Early reply requested.

By order Secretary War:

SECRETARY OF WAR, *Washington:*

Camp Santiago, 14.—Your second dispatch received. Have already anticipated in part. Was giving directions for separating the troops that have been infected, and kept the troops that came on *Yale*, *Columbia*, *Duchess*, and part of those on *Comanche* ready to disembark at Cabanas and on west side, where I had made all arrangements for putting the troops in on that side of the harbor and opening the entrance to the bay in conjunction with Admiral Sampson. I will now keep these troops away from the infected district, and will probably let them go ashore at Guantanamo. Other vessels en route will go into the harbor at Guantanamo. Presume that will be a good rendezvous, at least for the troops coming from Tampa. They could come in on the south side and go into safe harbor. Will consult with admiral with regard to the rendezvous of troops at Porto Rico or one of the islands immediately adjacent thereto. Will keep you fully apprised of any important information.

SECRETARY OF WAR, *Washington:*

Daiquiri, July 15.—We will have to depend largely on unskilled troops and siege artillery for troops now here and en route. Please send in following order engineer corps from Tampa; dock construction corps, with laborers; signal corps at Tampa; Nineteenth and Eleventh United States Infantry and Fifth United States Cavalry at Tampa; full allowance of transportation for all commands; 800 pack mules, complete; 2 light batteries at Tampa, Captain Macomb, commanding officer; also 2 batteries, 3.6 inches; 6 mortars, 3.6 inches; 2 batteries 5-inch siege guns; six 7-inch siege mortars; 12 siege howitzers, 7-inch, all with ammunition; also horses and harness for siege artillery now here, all under command of General Rodgers, now at Tampa. Send small dynamite guns, 400 freight travois, with saddle. All infantry to be armed with smokeless powder arms, and also arms to be shipped sufficient to supply all troops that are sent, and have them sent with Springfield rifles; also an abundant supply of medical stores, ambulances, tents, and hospital supplies.

Aguadores Bridge, Cuba, 16th.—Enemy having surrendered, all now ready to move direct to Porto Rico. Have consulted with Admiral Sampson this morning and will gather all troops now on transports, some 3,000, in harbor of Guantanamo, and, together with such additional forces as may arrive, will move when admiral is ready to Porto Rico. In the opinion of Admiral Sampson, Point Fajardo, Cape San Juan, is safe, and best place to rendezvous transports with troops. Since all transports should be directed to that place, will telegraph to Charleston and Tampa before leaving Guantanamo. Will also telegraph you. Further, do not think any of the Santiago troops available at present. It is hoped that by moving them on high ground the fever may be stamped out. Doctors can not now be decided. The Medical Department are exerting every effort. Telegraphed you yesterday concerning troops and appliances, and to avoid mistakes would request that it be repeated back. Your proposition to go to Porto Rico with 3,000 troops now afloat at Santiago does not seem best, in view of the fact that you could not be reenforced for a week or ten days.

About 12,000 troops will start this week to join you at such point as you and Sampson may designate. Nipe is suggested by the Secretary of Navy and his board, in which I concur. We can land and take position to cover the deployment of the troops as fast as they arrive. After consultation with Admiral Sampson, that place was considered best. SECRETARY OF WAR, *Washington:*

On board U. S. S. Yale, Guantanamo, July 18, 1898.—Your telegram was not received until 6 o'clock yesterday, forty-eight hours ago, when the surrender of the Spanish forces was an accomplished fact. I notified Admiral Sampson that I was authorized to organize and take an expedition to Porto Rico and desired the cooperation of the Navy. Last night I sent a telegram saying that I was ready to go with 3,000 men and desired an escort to cover debarkation. No replies have been received to either of these communications. As the enterprise is so important and time valuable I think it advisable that some naval officer, with whatever vessels may be spared, be ordered to report at once to act under the general direction of the Commanding General of the Army. The experience of the last few weeks should not be repeated.

I am taking part of Garretson's brigade, comprising Sixth Massachusetts and Sixth Illinois, with artillery. These have not been on shore. Am also taking General Henry and staff; also Captain Alger. The balance of Henry's division is on shore, and so much infected that it can not be moved to Porto Rico with safety. I think that by changing the camps to fresh ground almost daily, and through the rigid and earnest efforts of the Medical Department and all officers and men, the fever may be controlled. As soon as the regiments are free from the disease nearly all can be moved to places of safety. Will communicate later.

MILES, *Major-General, Commanding.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 18, 1898—1.10 p. m.

Major-General MILES,

On board Yale, Guantanamo, Playa:

In reply to your telegram of this date, the Secretary War directs you land troops now on *Yale* and other transports at such points in Porto Rico as you may designate. He gives you the fullest discretion, but your determination of time and place of such landing should be made with full knowledge that reinforcements can not reach you from five to seven days from this date. Admiral Sampson will be ordered to give you such assistance as you and he may regard as necessary. The Secretary War further directs that, on your landing on the island of Porto Rico, that you hoist the American flag. Ernst's brigade, from Charleston, should sail to-day, and so should the troops from Tampa; so that it is quite possible that by your leaving orders at Santiago, or giving them direct, that these reinforcements may reach you earlier than herein stated, but the Secretary of War and the President did not think it well for you to consider them sure at an earlier date.

Gen. H. C. CORBIN, *War Department, Washington, D. C.:*

Ohio cavalry now completely equipped; general impression prevails here and at Tampa that we are side tracked and will not be moved. Please have us ordered out with any expedition, anywhere, mounted or dismounted. Hayes just wired from Santiago that he expects us in Porto Rican expedition, with assistance and supplies for him. Are we going?

DAY, *Lieutenant-Colonel.*

PLAYA, VIA HAITI, *July 18, 1898.*
(Received 5.08 p. m.)

SECRETARY OF WAR, *Washington:*

Your telegram received. Going to Nipe will cause delay. Admiral Sampson has just notified me that he hopes to be able during the day to make detail of ships to cover landing in addition to the 3,000 troops now here which I am anxious to disembark. There are six or eight ships en route from Tampa that can follow us to Porto Rico. With this strong infantry and artillery force in addition to

the assistance of the Navy I feel fully competent to take and occupy commanding position until additional forces arrive, and would be glad to go at once; if any unforeseen event should occur making it unadvisable to land on the main island I can land the force on Brat Island and release the transports. I request authority accordingly.

MILES, *Major-General Commanding.*

PLAYA DEL ESTE, VIA HAITI, *July 18, 1898.*

SECRETARY OF WAR, *Washington:*

The great speed of the four American Atlantic liners, their carrying capacity for troops and immense cold storage accommodations for fresh meat, vegetables, etc., render them invaluable for use as transports, and I hope that these steamers will be continued under direction of Secretary of War for transporting troops and supplies; their mission as war ships is perhaps ended and their use would save many valuable lives and great expense. Siboney is a hotbed of yellow fever and for some time free intercourse was allowed between town and transports. Yellow fever cases have been taken off three transports. This is one reason why I am anxious to move to Porto Rico the troops now on uninfected steamers.

Major-General MILES,

On board Yale, Guantanamo:

After a conference of the President, Secretaries of War and Navy this morning, telegram was sent you directing you to land troops now on *Yale* and other transports at such place in Porto Rico as you may determine upon. Like telegram was sent Admiral Sampson. It is desired to know if the same has been received by you.

SECRETARY WAR, *Washington:*

Regarding your telegram of yesterday, I think it important to go direct to Point Fajardo, Cape De San Juan. All appliances for the expedition should be sent there, if not already en route to Santiago. Tugs, lighters, construction corps, engineer corps, under Colonel Black at Tampa. General Stone's boats now at Jacksonville—artillery, cavalry, siege train, and infantry, ample hospital supplies and appliances, and ambulances. Full transportation for all the organizations should all be directed to go to Porto Rico; also officers to establish depots of quartermasters, commissary, and ordnance supplies, and quartermasters' funds to the extent of $100,000 for hire of native transportation and purchase of horses should be sent. Troops from the North have been heretofore sent, and I would suggest that Kiefer's division from Miami, Fla., or troops from Texas, Louisiana, Mississippi, Alabama, Georgia, and Florida be sent as a part of the command at Porto Rico. Paymasters with ample funds should be sent at once to Santiago and Porto Rico. A strong, fast, seagoing dispatch boat should also be sent to Porto Rico.

Question can be decided in Washington; and hope, considering all things, it will be decided for us to go to Point Fajardo, Cape de San Juan, at once. It would be better to rendezvous at Crab or Vieques Island, 20 miles away from Cape de San Juan, than to go to harbor of Nipe. It might take some time to take that place on account of mines. General MILES,

On Board Yale, Playa del Este:

It is evident from your several telegrams that the following has not reached you:

"In reply to your telegram of this date, the Secretary War directs you land troops now on *Yale* and other transports at such points in Porto Rico as you may designate. He gives you the fullest discretion, but your determination of time and place of such landing should be made with full knowledge that reenforcements can not reach you from five to seven days from this date. General WILSON, *Charleston, S. C.:*

General Miles was instructed yesterday to land the command with him at such place on Porto Rico as he might determine. It is feared that the cablegram has not reached him, otherwise you would have had orders. The Secretary War directs that you place your men and everything with you on board, and to inform this office at the earliest hour at which you can sail. Then, if orders have not reached you from General Miles, instructions will be given from here. Your early departure is very desirable. Acknowledge receipt.

Hains' wagon transportation now arriving here. Can all be embarked by to-morrow. Have notified Miles and asked for his opinion as to the number of days' delay to be expected. Hope some definite answer can be given, because my command should either go to sea shortly or go into camps in the country. CORBIN, *Adjutant-General, Washington, D. C.:*

Please inform me at once whether it is the intention to have the troops at this point mentioned in your telegram of the 16th instant to Coppinger, transported as

an expedition, all leaving at the same time. There are not enough transports here for all the troops mentioned by you, and it is a question whether precedence should be given to Schwan's brigade, the light artillery, and the pack train over cavalry. It is necessary to know this specifically in order that the assignment of transports may be made intelligently.

RODGERS, *Senior Officer.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 19, 1898—3 p. m.

General RODGERS, *Port Tampa, Fla.:*

Troops should leave as they are ready. Since the destruction of the Spanish navy there need be no waiting for convoy. Precedence should be given Schwan's brigade, light artillery, and pack train. The assignment of transports should be made accordingly, and the transports gotten under way as soon as possible Ships having stores belonging to troops at Santiago should stop there and discharge, going or returning. The point of landing of expedition will be Point Fajardo, as fixed by General Miles. Get under way for that point as soon as possible.

My supplies and wagons of Ernst's brigade will all be on board to-night. Hains's wagon transportation, now arriving, will be loaded, and whole command will be ready to go to sea to-morrow afternoon. I assume, however, from Miles's dispatch from Playa del Este, July 18, received here at 9 p. m. yesterday, that some delay on part of the navy has occurred, and that I am expected to hold my command in readiness to sail when he orders it. General WILSON, *Charleston, S. C.:*

General Miles directs that you start your troops for Point Fajardo, Cape San Juan, at the earliest time practicable.

Washington, July 19, 1898.

Major-General WILSON, *Charleston, S. C.:*

Secretary War directs that you sail for Point Fajardo, Porto Rico, just as soon as you can get away, but the *Duchess* should go by the way of Santiago and discharge such supplies as she has for General Shafter. Failing in this she should go to Santiago after your troops leave her at Fajardo, as she has stores badly needed by the command under General Shafter. You are charged with seeing that she gets to Santiago as soon as possible and yet transport your troops.

expedition. They should have not less than 300 tons in addition to that which is going on the *Massachusetts*. It is hoped that you and Colonel Hecker will be able to charter a steamer, if only for one trip, for this purpose, or, if a ship is going, to save 300 tons' space.

The *Nueces* and *Lampasas* came in last night with engineer corps, artillery train, and 600 troops. There are now ten transports here, ready to move to Porto Rico, including four batteries light artillery and siege artillery, and other en route. General MILES, *Playa, Cuba:*

The Secretary of the Navy has again given instructions to Sampson to give you immediate assistance to enable you to land and remain in Porto Rico. The Secretary War directs that as soon as transports are discharged you order them to

Have just arrived at camp and find that the Chesapeake and Ohio have as yet assembled no rail transportation for Hains's brigade and other troops to go with it to Newport News; neither has the company's agent communicated when it could be assembled. I wish to also call attention to the fact that the route these troops are to take is about 240 miles longer than the direct route and consumes about eight hours more in time. I wish also to say that no contract to ship troops from Battlefield Station should be made, as such shipments materially interfere with incoming supplies. Troops shipped from here should go either from Ringgold or Rossville.

Troops of my command sailing to-day as follows: *Transport No. 30:* Myself, 19 staff, 27 enlisted orderlies, clerks, etc., 45 officers, 1,153 enlisted men of the Third Wisconsin. Transport *La Grand Duchesse:* General Ernst, 7 staff, 14 enlisted orderlies, clerks, etc., 41 officers, and 1,132 men of Second Wisconsin. *Transport 21:* Col. Willis J. Hulings, with 32 officers and 767 [men] of Sixteenth Pennsylvania; also Companies D and M, Sixth Illinois, 6 officers and 195 men, who were left here by Garretson's brigade for lack of shipping accommodations. Five officers and 53 men

of Fourth Company, United States Volunteer Signal Corps, attached to my command, and 6 officers, 6 hospital stewards, and 60 enlisted men of hospital and ambulance corps are divided among the three transports. My reserve ammunition consists of 1,093,000 rounds, besides what is carried on the person—about 50 rounds per man. Sick left in hospital as follows: Sixteenth Pennsylvania, 21 men; Second Wisconsin, 2 officers and 76 men; Third Wisconsin, 2 officers and 62 men; Signal Corps, 2 men.

ADJUTANT-GENERAL'S OFFICE,
Washington, July 20, 1898.

Maj. Gen. JOHN R. BROOKE,
Commanding Camp George H. Thomas, Chickamauga Park, Ga.:

Referring to so much of your telegram of July 19 as relates to your request to take with you the troop of the Sixth Cavalry at Chickamauga and company of light infantry, on account of the limited number of regulars going to Porto Rico, Secretary of War directs that in obedience to your request you take with you said troop and said company of infantry and arrange for their transportation and subsistence; also Signal Corps, hospital corps, and four light batteries.

By order of the Secretary of War:

H. C. CORBIN, *Adjutant-General.*

CHICKAMAUGA PARK, GA., *July 20, 1898.*
(Received 8 p. m.)

ADJUTANT-GENERAL ARMY, *Washington, D. C.:*

Your telegram regarding the troop of cavalry, company of infantry, signal corps, hospital corps, and four light batteries received. I would further say that the Third Brigade of the First Division, to which I have transferred Brigadier-General Grant, is ready and can move at any time. Following this, the Second and Third divisions are both ready to move. General Poland commands the Second Division and General Sanger the Third Division. I would like to have instructions in regard to shipping points for the two divisions herein mentioned. Please give me this information. There seems to be a hitch in the transportation of Hains's brigade to Newport News, which I have reported earlier to-day, and which does not seem to be straightened yet. It should receive attention at Washington.

ADJUTANT-GENERAL'S OFFICE,

Mr. GREGORY, *Chesapeake and Ohio Railroad, Washington:*

The following telegram has just been received from General Brooke, Chickamauga:

"Have just arrived at camp and find that the Chesapeake and Ohio have as yet assembled no transportation for Hains's brigade and other troops to go with it to Newport News; neither has the company's agent communicated when it could be assembled. I wish to also call your attention to the fact that the route these troops are to take is about 240 miles longer than the direct route and consumes about eight hours more in time. I wish also to say that no contract to ship troops from Battlefield Station should be made, as such shipments materially interfere with incoming supplies. Troops shipped from here should go either from Ringgold or Rossville."

This is a great disappointment to the Secretary of War, and if arrangements are not made at once with the Quartermaster's Department for proper transportation by your line the movement will have to be made by other lines that can furnish the transportation. It is imperative that these troops leave to-morrow for Newport News.

PLAYA DEL ESTE, *July 20, 1898.*
(Received 11.07 p. m.)

SECRETARY WAR, *Washington:*

Admiral Sampson came on board the *Yale* this morning. He had not at that time seen the order of Secretary Long. He was furnished a copy of it, and after sending to his flagship found the order there. I asked him to give us as strong a force of the Navy as possible in the movement against Porto Rico. He said he would inform me later. At 5 o'clock he came on board, and stated that he would furnish, to assist our landing, the *Yale* and *Columbia.* These are the two ships with which we left Charleston, S. C. He said that the *Columbia* would take three or four days to coal. He also stated that he would give us the *Cincinnati*, but does not know where she is. Also quote the *New Orleans.* If she is now at San Juan, quote. If the *New Orleans* is not at San Juan, there is nothing to prevent the small Spanish gunboats coming out of that harbor and attacking the transports en route, and it is highly important that she should remain, blockading that harbor while we land at Point Fajardo, Cape San Juan. This assures but two vessels to cover our landing, and these are loaded with troops. The *Columbia* and *Yale* could not silence a piece of artillery on shore without risking the lives of from 300 to 1,500 of Garretson's brigade on board. This, in my judgment, is not in accordance with the order of Secretary Long—to give such assistance as is necessary for landing—or in accordance with your telegram of the 18th. I think you and the President should be apprised of the fact that, while these 10 transports, loaded with troops and munitions of war, are waiting here, a great portion of the American Navy [are] within cannon shot of this place, and some of them actively engaged bringing into this harbor vessels which were captured by and surrendered to the Army. There are battle ships enough here to enable us to land within cannon shot of the city of San Juan. I request that positive orders be given to the Navy to cover the landing of at least 10,000 troops on the island of Porto Rico without delay, as that number will be there within a week.

NELSON A. MILES, *Major-General Commanding.*

EXECUTIVE MANSION, *Washington, July 20, 1898.*

Hon. JOHN D. LONG, *Secretary of the Navy.*

SIR: I hand you a dispatch just received from General Miles. It is evident to me from this dispatch that Admiral Sampson is not proposing to furnish such assistance as I have heretofore directed. He should send enough ships, and strong enough, as will enable General Miles to land his troops in safety at Point Fajardo, Cape San Juan, and to remain so long as their assistance is needed.

General Wilson has already sailed from Charleston, with orders to proceed to Point Fajardo. If your convoy is delayed he will reach Point Fajardo without any protection whatever, which must not be permitted. Wilson can not be reached by wire. He has no guns on his ships. The Secretary of War says that

General Wilson is due to arrive at Point Fajardo in three or four days. Prompt action should be taken to give General Wilson protection on his arrival there. It seems to me a cruiser or battle ship, or both, should be detailed for this duty.

Please see that the necessary orders are issued at once.

"Admiral SAMPSON,

"*Commanding North Atlantic Squadron.*

"SIR: I am informed by my Adjutant-General that you have designated the *Yale* and *Columbia* as ships to render the assistance for landing of the troops and for maintaining their landing, and also the *Cincinnati*, the whereabouts of which I understand is not known, and the *New Orleans*, if it is at San Juan. If the latter vessel is not at San Juan it ought to be and remain there, otherwise that port is left open with nothing to prevent the Spanish gunboats known to be there from coming out and capturing our transports now en route to Cape San Juan. Second, since it is not known where the *Cincinnati* is it may or may not be of any assistance. Third, the *Columbia* and *Yale* could not silence a battery of light artillery on shore without jeopardizing the lives of the 300 to 1,500 troops on

board. In view of the above facts I have to inform you that I do not consider the force above mentioned available or sufficient to cover the landing of some 10,000 men now en route to Cape San Juan, and I beg leave to request that an additional and ample force be immediately ordered to those waters.

"Very respectfully, NELSON A. MILES,

"*Major-General Commanding U. S. Army.*

"SIR: Referring to your letter of this date, the *Cincinnati* is ordered by telegraph here. She is either at Key West, or within easy reach from there, on the Havana blockade. The *Annapolis*, *Wasp*, and *Leyden*, ordered to attack Port Nipe, have been ordered to Cape San Juan to assist in the expedition. The *Gloucester* will be added. Three monitors will join the expedition. The *Cincinnati*, *Yale*, *Columbia*, *Annapolis*, *Wasp*, *Gloucester*, and *Leyden* are amply sufficient to cover the landing of 10,000 men at the point named without the monitors. The first four are capable of silencing anything short of heavy guns in position.

"Very respectfully,
"W. T. SAMPSON,
"*Rear-Admiral, U. S. Navy,*

HEADQUARTERS FIRST ARMY CORPS AND CAMP GEORGE H. THOMAS,
Chickamauga Park, Ga., July 21, 1898.

The ADJUTANT-GENERAL, U. S. ARMY,
Washington, D. C.

SIR: In further consideration of the Porto Rican expedition which was directed in the letter from the Secretary of War to Major-General Miles dated June 26 last, and the subsequent telegraphic and written correspondence on the subject, and the recent verbal consideration given to it while in Washington, I wish to say further in regard to this matter that the troops composing the First Corps were set aside to comply with that portion of the instructions to General Miles referring to troops from this camp. These three divisions, numbering about 32,000 men, are fully equipped, and for the time of their service are well instructed and should be maintained as an organization wherever their services may be required.

Giving expression to the thoughts suggested by the conversation with the President, I would say that the number of troops necessary for the carrying out of the purposes then expressed will be fully all of this corps, and possibly considerably more, to the end that the presence of large numbers would conduce to the speedy solution of the problems which are known to face us on that island. By this I mean that with a force of this kind I have no doubt that the United States would be able to accomplish the purposes outlined by his excellency with the least effusion of blood.

I would therefore urge that this matter receive that attention which it seems to me the gravity of the situation demands, and also as being the expression of one who, in all probability, will be called upon to execute the purposes of the Government in that island.

I would ask that I be advised of the decision which may be arrived at in this matter at the earliest possible moment.

Very respectfully,

JOHN R. BROOKE, *Major-General, Commanding.*

TAUNTON, MASS., *July 21, 1898.*

Major-General CORBIN, *War Department, Washington.*

MY DEAR GENERAL: The First Massachusetts Artillery U. S. Volunteers, Third Battalion, Battery I, is now stationed at Fort Warren. As it has been pretty generally conceded that there is nothing to keep them at their present situation now, and as they are very anxious to get into active service, I have to ask that you will assign them to duty as a part of the Porto Rico expedition. This battalion comes from my own district from which, so far, no troops have been ordered South. If it is possible for you to give them active service I hope you will do so. They are a splendid set of fellows and there are none better in the land.

I remain, yours, very truly,

WM. C. LOVERING.

They can go either as infantry or artillery.

PLAYA DEL ESTE, VIA HAITI, *July 21, 1898.*
(Received 6.03 p. m.)

SECRETARY OF WAR, *Washington:*

Guantanamo Bay, July 21.—In order to avoid conflict of authority or misunderstanding, general directions were given General Shafter to be executed under his orders and supervision as follows: All regimental property and stores needed with his command were to be unloaded without delay at Santiago; such transports as were required for hospital ships would be selected; those loaded with troops and supplies for Porto Rico were to go there, and all others as fast as emptied returned to Tampa; tugs, lighters, and appliances for disembarking troops and commissary and quartermaster stores not required at Santiago were to be forwarded to Porto Rico; quartermaster transportation wagon and pack trains not required at Santiago to be also forwarded to Porto Rico. On completion of such duties Colonels Humphrey and Weston to be sent to Porto Rico. This left the whole matter under the direction and supervision of General Shafter, and it was also left to his option to determine when the services of officers named could be spared. As the Spanish prisoners have their own commissaries and quartermasters, General Shafter can issue to them stores in bulk for from five to ten days at a time. There is no liability of their going away, as without arms they would be in danger of the Cubans and they could not go by sea, hence they will require but a small guard. There is not a single regiment of regulars or volunteers with General Shafter's command that is not infected with yellow fever, from 1 case in the Eighth Ohio to 36 cases in the Thirty-third Michigan. After consulting with best medical authorities it is my opinion that the best mode of ridding the troops of the fever will be as I have directed, namely, the troops to go up as high as possible, selecting fresh camp every day. If this does not check the spread of the disease, only way of saving a large portion of the command will be to put them on transports and ship them to the New England coast to some point to be designated by the Surgeon-General. Colonel Greenleaf, surgeon in chief, believes the disease comes from occupying houses, shacks, and blockhouses that have been occupied by yellow-fever patients, although I had given positive directions prohibiting this before the troops landed. This was the case with the building occupied as post-office, one occupied by correspondents, and those occupied by the Thirty-third Michigan. In one blockhouse at Aguadores, where the Spaniards usually kept a guard of 9 men, there originated 37 cases resulting in death during the past year.

Guantanamo Bay, 21.—I hope you will order enough 30-caliber rifles sent to Porto Rico by first steamer to arm Sixth Massachusetts, Sixth Illinois, and all other regiments that have started with Springfields for Porto Rico; also put 30-caliber rifles in hands of troops before they leave, with belts and ammunition. I will order all the ammunition from Shafter's corps, except 100 rounds per man; that will give me a reserve of 3,500,000 rounds. I know you will forward troops as rapidly as possible. Would like the organizations sent as nearly complete as possible—that is, the transportation belonging to the commands, sufficient amount of forage for animals, and complete rations. The latter is very important—to keep complete rations together rather than shipped in bulk. I would like cavalry in addition to the Fifth United States. If available, those Western cavalry regiments could be sent with their horse equipments, and horses purchased on the island of Porto Rico upon which to mount them.

(Received 2.05 p. m.)

Gen. H. C. CORBIN,
Adjutant-General's Office, Washington, D. C.:

First section, with General Hains, arrived 12.30. As it is impossible to get any transport off to-night, General Hains's preference was to go into camp, which really is best thing to do, as troops will be more comfortable in camp than they would in cramped quarters aboard the transports. Other sections coming along twenty to thirty minutes apart. General Brooke, on last section, will not arrive until to-morrow morning. I find by putting 1,300 men each on *St. Paul* and *St. Louis* we will be short space for about 150 men. Of course more men can be put on the *St. Louis* and *St. Paul*, or, what I think would be better, the *Seneca* can be ordered here from New York to take the 150, and reduce the number to be put aboard the *Massachusetts* and *Roumania*, making the men all round more comfortable. I have wired Colonel Bird suggesting this. I return to Old Point Comfort this afternoon, and take a boat for Washington to-night.

The *St. Paul* will be ready to sail from Newport News Tuesday. Do you not think it would be well to have a regiment of your next brigade ordered there in time to embark and sail as soon as possible? If you approve, issue the order; or perhaps it would be better to order the entire brigade to get under way as soon as possible and camp at Newport News and embark as transports are ready. Mr. J. J. HENNA, *No. 8 West Fortieth Street, New York City.*

SIR: I have the honor to acknowledge the receipt of your communication of the 23d instant to the honorable the Secretary of War, inclosing correspondence between yourself and General Miles relative to the return of yourself and party of about forty to the Island of Porto Rico, and, in reply thereto, to inform you that the Secretary grants permission for yourself and party to return to your homes by accompanying one of the expeditions; but this permission does not in any way imply that any of the party will be employed as "commissioners, guides, scouts," or in any other capacity, and no claims whatever for compensation as such will be entertained, unless specially ordered by General Miles or the Secretary of War.

With assurances of high regard, I am, yours, very respectfully,

H. C. CORBIN, *Adjutant-General.*

(Correspondence follows.)

WASHINGTON, D. C., *June 20, 1898.*

Gen. NELSON A. MILES, *Washington, D. C.:*

DEAR SIR: In view of the projected invasion of Porto Rico by the American Army, and authorized by a number of Porto Ricans now residing in the United

States, I come to offer the services of the entire board of directors of the revolutionary party of the island, of which I have the honor of being president, and a contingent of about forty natives, to accompany the expedition about to be sent, in the capacity of commissioners, guides, scouts, interpreters, and soldiers. In coming to offer our services, we are only moved by a sense of duty toward the country where we were born, and to the one that gave us hospitality and citizenship, as well as by the conviction that the influence we will exercise over our compatriots on our arrival in the island could not but quickly satisfy them that the purpose of the American invasion is to redeem the natives from the ignominious yoke of the tyrant, and not to conquer them with the sword and enslave them again under another flag and master, as the Spaniards would have them believe—thus facilitating and making victory easy for the American arms instead of having to meet resistance and unnecessary shedding of blood on both sides.

As I informed you in our interview this morning that it will take a couple of weeks at least in which to organize our men, I would pray you to let me know at your earliest convenience your decision on the subject.

I have the honor to be, very respectfully, yours,

J. J. HENNA.

P. S.—Kindly forward answer to No. 8 West Fortieth street, New York.

Dr. J. J. HENNA, *8 West Fortieth Street, New York:*

Replying to your excellent letter of yesterday, I should be very glad to have you and such members of the board of directors as can come here not later than Thursday or Friday prepared to leave from Newport News Saturday. How long they will be delayed en route is impossible to say; it depends on circumstances. In order to be sure of being in time, I would advise that you be here as indicated, or at Newport News Saturday to go on the steamer that leaves that port. There will, however, be other steamers leaving Newport News in about a week or ten days destined for the same place. You can exercise your own judgment in determining time of your departure, according to above-indicated plans.

The manifesto proposed, a copy of which is in your possession, expresses our sentiment and plan of action. We did not consider ourselves justified in publishing it for distribution on our arrival at the island without your authority, but will follow your suggestions on the matter.

Should you consider it unnecessary to wait for an answer from General Miles, kindly inform us where to report for duty.

ADJUTANT-GENERAL, *War Department, Washington, D. C.:*

Telegram No. 2 just received. I need transports enough to carry Fifth Infantry, strength to-day, 750 officers and men, 25 4-mule wagons complete, and 8 horses; Fifth Cavalry, 1,082 officers and men, same number horses, 46 mules, wagons complete; Southern brigade, 3,246 officers and men, 327 mules, 35 horses, 75 wagons, and brigade headquarters. I know nothing of the capacity of Shafter's transports. You do not mention General Rodgers's siege artillery, part of which awaiting shipment under your previous orders.

(Received 8.05 p. m.)

ADJUTANT-GENERAL ARMY, *Washington, D. C.:*

Your telegram regarding two batteries of Pennsylvania artillery at Newport News to go to Porto Rico and other matters contained therein is received. The transportation now provided will be very much crowded, and I do not think they can go with this part of the expedition. The *St. Paul* and *Seneca* have not yet arrived. I have inspected the *Roumania, Massachusetts,* and *City of Washington* and think arrangements for the men and animals very much contracted, though it is possible they may get through without serious injury resulting. I will telegraph General Wade to send Grant's brigade and the battalion Sixteenth Infantry attached to it here at once, to go into camp and await transports. I would again remind you that the Second and Third Divisions are all ready to move, and that a brigade should be ready here to take Grant's brigade's place, and so on through the list until all have gone, unless it be thought wise to send troops to Savannah or Brunswick and load troops from these points. In connection with this I would say that the transportation bringing Hains's brigade and my headquarters and the batteries here has not been a success. It is a long distance out of the way, and the railroad did not seem to have transportation of its own and was not fully equal to the increased service. The train on which I was bringing my headquarters here was forty-eight hours coming from Chickamauga.

ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

One troop Fifth Cavalry left on *Morgan* for Porto Rico to-day. The regiment is in readiness to embark as soon as transports arrive. Require two large ships to transport regiment, 1,000 men and horses and 250 mules and wagons. This is the third time the regiment has been under orders to embark on transports, and in behalf of the officers and men I urgently request that the steamer *Michigan* and one other large transport expected to reach Port Tampa to-morrow may be assigned to take us to Porto Rico without further delay.

General BROOKE, *Newport News, Va.:*

Associated Press reports following by way of St. Thomas:

"The United States expedition under the command of Maj. Gen. Nelson A. Miles, commanding Army of United States, which left Guantanamo Bay during the evening of Thursday last, July 21, was landed here—Port of Guanica—safely to-day, after a skirmish with a detachment of the Spanish troops and a crew of 30 belonging to the launch *Funistas*, auxiliary gunboat *Gloucester*, formerly Mr. J. Pierpont Morgan's steam yacht *Corsair*. Four Spaniards were killed and no Americans were hurt. The troops were pushed forward promptly in order to capture the railroad leading to Ponce, which is only about 10 miles east of this place."

Secretary of War is doubtful in his mind as to the truth of this report, but it may be so and is sent to you for your information. Of course, if you fail to connect with General Miles at Fajardo, you will have to look for him elsewhere on the coast. Doubtless he has left instructions at Fajardo for you. We are trying to get him by cable, asking him to do so if he has not already.

SECRETARY WAR, *Washington:*

Circumstances were such that I deemed it advisable to take the harbor of Guanica first, 15 miles west of Ponce, which was successfully accomplished between daylight and 11 o'clock. Spaniards surprised. The *Gloucester*, Commander Wainwright, first entered the harbor; met with slight resistance; fired a few shots. All the transports are now in the harbor, and infantry and artillery rapidly going ashore. This is a well-protected harbor; water sufficiently deep for all transports, and heavy vessels can anchor within a few hundred yards of shore. The Spanish flag was lowered and the American flag raised at 11 o'clock to-day. Captain Higginson, with his fleet, has rendered able and earnest assistance. Hope to move on Ponce in a few days, that being the largest city in Porto Rico. Notification has been sent to transports going to Cape San Juan, and all transports and supplies should be directed to this port or Ponce until further notice. Troops in good health and best spirits. No casualties.

HEADQUARTERS FIRST ARMY CORPS,
Newport News, Va., July 26, 1898.

Gen. H. C. CORBIN,

Adjutant-General U. S. Army, Washington, D. C.

GENERAL: We are here doing our best to get away to sea, as you know by my telegram. There is a hitch in the arrival of the *St. Louis* and the *Seneca*, and there is a great deal to do in getting aboard the troops and the ammunition. Everything is here now except the batteries from Chickamauga. Their ship is assigned to them and they go aboard as soon as they can do so. The other ships are loading their baggage and supplies, and the men will go aboard as soon as matters are arranged in that line. They will be the last to go.

I wish to say now again to you that I made the request that the three divisions of my corps be sent to Porto Rico. You will remember I did this verbally, and I have done so in writing. I would now say that if I have done anything thus far which is worthy of any consideration I have not a higher present ambition than to have my whole corps under my command. Will you please say this to the Secretary and the President and ask them to permit this corps to come to me and to serve under my command in Porto Rico. If you get this in time to telegraph me, do so, acknowledging its receipt and anything else you may have to say. I do not now anticipate getting away before to-morrow afternoon or evening. It is a slow job, but I have avoided confusion thus far.

I am, very truly, yours,

JOHN R. BROOKE, *Major-General, Commanding.*

P. S.—I would say further that I fear we underestimate the Spanish force in Porto Rico.

NEW YORK, *July 26, 1898.*

Hon. THOMAS C. PLATT, *49 Broadway, New York City.*

MY DEAR SENATOR PLATT: I have been asked by several friends of the Sixty-ninth Regiment to write to you for the purpose of enlisting your good offices toward securing the regiment an opportunity of going to the front.

It is unnecessary for me to recall to you the distinguished reputation which this regiment won during the rebellion.

Upon the declaration of the present war it was the first New York regiment to answer the President's call and to volunteer to a man for active duty, without any conditions whatever.

For over two months the 1,300 men which compose the regiment have been held at Tampa, Fla., and yesterday, instead of being ordered on the Porto Rico expedition, they were transferred to a new camp at Fernandina, Fla.

The military authorities have declared that the Sixty-ninth Regiment is in discipline, efficiency, and morale the equal, if not the superior, of any regiment in the service. Its lieutenant-colonel is one of the crack officers of the Regular Army, and under the circumstances it is very natural that a great deal of irritation should prevail among the members of the regiment and its friends at its protracted detention in camp.

The Tammany politicians are spreading a rumor through the city that the regiment is being unjustly discriminated against.

I have too much confidence in the Administration to give any credence to such

a base supposition, but I would very earnestly urge upon your part the advisability of making an earnest effort with the War Department to have the regiment immediately assigned to the front.

Any action upon your part will be very gratifying to myself, personally, and to thousands of friends of the regiment in this city, and I shall see that the members of the regiment are made acquainted with your kindness in the matter.

I beg to remain, very respectfully, yours,

T. ST. JOHN GAFFARY.

Referred to the Secretary of War for his consideration.

ADJUTANT-GENERAL ARMY, *Washington, D. C.:*

Your several telegrams received last night. Under present conditions it seems to me that I should push on with what force I can put on the fast ships and get to General Miles as soon as possible. Unless otherwise ordered, I will go on, leaving the slower ships to come on as fast as they can. I hope to be able to get away this evening with the *St. Louis* and *St. Paul;* and expect the batteries on the *Roumania*, and the *Massachusetts* with its lading, and possibly the *City of Washington*, will be able to start. The *Seneca* is held for, to me, unaccountable reasons by the quarantine officer. I could send aboard the troops designated for it by lighters. If that would meet the views of the Department, please advise me.

The lightering from here to opposite Fortress Monroe has been very slow work, but all the supplies of ammunition and subsistence are now on board or going on board, and the troops are moving. There is difficulty attending so long a distance of lightering, as you may well imagine. Every day and hour since our arrival has been devoted to pushing the work. The difficulties attending the loading of troops from these docks, which are crowded with merchandise, is very great and should receive attention, so that in any further movement there may be more space given to loading ships. I hope to be off myself with the *St. Louis* this morning. I understand about the conditions as related by you in the peace negotiations. Good-by.

President WILLIAM MCKINLEY, *Washington, D. C.:*

The Fifth Volunteers, flower of Illinois, first responding to call, National Guards from Springfield, Jacksonville, Peoria, Quincy, and Decatur, taken from train at Chickamauga yesterday to make way for two Kentucky regiments, beg to go to front immediately. I urge request be granted. Regiment and friends are heartbroken.

RICHARD YATES.

SPRINGFIELD, ILL., *July 28, 1898.*

Gen. R. A. ALGER, *Secretary of War, Washington, D. C.*

DEAR GENERAL: I this morning sent the President a telegram, of which I inclose a copy.

The feeling throughout this vicinity is that through some inadvertence our regiment is not receiving the recognition it is entitled to. As I was for five years a member of this regiment I take the liberty to ask you to do whatever is possible to enable them to go to the front. Their relatives and friends throughout this section are greatly disappointed at the failure of the regiment to go to the front. As I understand it, the regiment has been twice turned down for other regiments.

Respectfully, yours,

RICHARD YATES.

SECRETARY OF WAR, *Washington, D. C.:*

Port Ponce, Porto Rico, July 28, 1898, 1.30 a. m.—On the 26th garrison had a spirited engagement on skirmish line. Our casualties, 4 wounded; all doing well. Spanish lost 3 killed, 13 wounded. Yauco occupied yesterday. Henry's division there to-day. Last evening Commander Davis, of the *Dixie*, moved into this port, followed by Captain Higginson with his fleet early this morning. General Wilson, with Ernst's brigade, now rapidly disembarking. Spanish troops are retreating from southern part Porto Rico. Ponce and port have population 50,000, now under American flag. The populace received troops and saluted the flag with wild enthusiasm. Navy has several prizes; also 70 lighters. Railway stock partly destroyed, now restored; telegraph communication also being restored; cable instruments destroyed; have sent to Jamaica for others. This is a prosperous and beautiful country. The army will soon be in mountain region; weather delightful; troops in best of health and spirits; anticipate no insurmountable obstacle in future. Results thus far have been accomplished without the loss of a single life.

Our people in Illinois are quite exercised over the apparent unfair treatment by the Department of the Fifth Illinois, now at Chickamauga, Ga. This is one of the best equipped regiments in the service. It is our home regiment. It includes the Governor's Guards. Most of the officers and a large per cent of the men have served from four to twenty years in the National Guard. It was the first regiment on the ground at Chickamauga. It has been twice disappointed by breaking camp under orders to move, losing and giving away all their accumulation of camp equipment, tent floors, etc., then ordered to return. Our people are feeling

sore over this treatment. While I sympathize with this feeling, I am not willing to believe that it was intentional on the part of the Department. I sincerely hope that you will manage to send this regiment, and at once, on the Porto Rico expedition.

I am advised this division has been longer at Chickamauga than any division there. I have no personal information, but give you that which has come to me from those in position to know. I am pleased to present the matter to you for your favorable consideration if entirely consistent with the public service. Our people are very grateful to you for your recent kindness. General MILES, *Ponce, Porto Rico:*

Secretary of War directs me to inform you that the following transports left Newport News for Porto Rico July 28:

St. Louis, with Third Illinois, 1,173 men, 46 officers, and General Brooke and staff.

Roumania, with four batteries (Rodney's battalion), about 19 officers and 700 men, 16 guns and caissons, 4 battery wagons, 331 horses, 72 mules, reserve ambulance, signal corps and hospital wagons and stores, artillery ammunition, rations for men, about thirty days' forage for 1,000 horses.

Massachusetts, with reserve ambulance corps, hospital corps (men and horses), headquarters First Army Corps; Troop H, Sixth Cavalry; Troops A and C, New York Volunteer Cavalry; City Troop, Pennsylvania Cavalry; Company F, Eighth Infantry; total, 43 officers, 1,130 men, 1,005 horses and mules.

Seneca, with part Fourth Pennsylvania, 611 men, small-arms ammunition, rations for men and additional commissary stores, wagons and equipage signal corps, 29 ambulances, and various small stores.

City of Washington, with part of Fourth Pennsylvania, 612 men, cargo of commissary stores (overflow of *Massachusetts*), small-arms ammunition, and rations for men.

St. Paul, with Fourth Ohio, 44 officers, 1,211 men, battery dynamite guns, Brigadier-General Hains and staff, Porto Rican Commission, newspaper correspondents, and transients joining Army in Porto Rico.

General Grant's brigade follows from Newport News, and will sail Monday or Tuesday. General Shafter is sending the transports rapidly to Tampa. Troops from there should be under way in considerable numbers by middle of the week, unless we are embarrassed by the quarantine regulations, which are giving us trouble all along the line.

Governor JOHN R. TANNER, *Springfield, Ill.:*

Replying to your telegram asking that the Fifth Illinois Volunteer Infantry be sent to Porto Rico, you are informed that it was no fault of the regiment or anyone connected with it that it was not sent. The facts are that the First, Third, and Sixth Regiments of Illinois Volunteers were in, or ordered to, active service when it was noted by the Department that other States had none, notably your neighbor, Indiana,. In view of this fact the commanding general at Chickamauga was ordered to substitute an Indiana for an Illinois regiment, and in the exercise of this discretion he selected the Fifth. This may be and doubtless is a hardship for the regiment. It had to be done, however, to give scant justice to the State of Indiana, and you will say it is but fair.

HEADQUARTERS OF THE ARMY,
Port of Ponce, Porto Rico, July 30, 1898.

The Honorable the SECRETARY OF WAR, *Washington, D. C.*

SIR: This command was made up of detachments of troops sent from Santiago, Tampa, Charleston, and Newport News, and it was not intended at first to make more than a rendezvous for the purpose of organizing the command at Guantanamo, or one of the islands near Cape San Juan. On the representation of one of the naval officers, however, Point Fajardo was selected. It was later found that this point was more of an open roadstead than a safe harbor, and, further, that it was well known that we were to land there, the Spaniards being thus enabled to concentrate their forces in that vicinity before our arrival. In addition to this, I

found later that the road was not suitable there for wagons or artillery. Before leaving Guantanamo, however, I had expected lighters, steam tugs, etc., to be sent from Santiago, and also a construction corps from New York. None of these arrived, nor did we meet them, as expected, in the Windward Passage. This left the command without lighters and no wagon transportation. The above are some of the reasons why I decided to take the harbors of Guanica and Ponce, where we were least expected, and from which latter point there is a macadamized road, which cost the Spanish Government millions of dollars, and over which it is only 70 miles to San Juan.

We have now landed in a perfectly healthy country, well settled, and where, if necessary, a large amount of beef can be obtained and also transportation, and under the circumstances, in my mind, much more suitable and more important, in a strategic way, than the other point, besides ample time will be furnished here for thoroughly organizing the expedition before the march, and for creating a favorable impression upon the people. Every precaution has been taken to notify transports coming to proceed to this point, a large number of which have arrived.

Marching across the country, rather than under the guns of the fleet, will have in every way a desirable effect upon the inhabitants of this country. At least four-fifths of the people hail with great joy the arrival of United States troops, and requests for our national flag to place over public buildings come in from every direction.

I have the honor to be, very respectfully, your obedient servant,

I respectfully protest against sending Vermont troops to Porto Rico, unless their services are actually needed there. Those of us who bid our sons godspeed when they enlisted in their country's service were prepared for any sacrifice they might make, even to life itself, and are now of the same mind; but when the war is over we feel their places will be at their homes and in their wonted places of business. An excursion to Porto Rico after the war is over will not add to their honor nor to the honor of Vermont.

Four-fifths of the people are overjoyed at the arrival of the army; 2,000 from one place having volunteered to serve with it. They are bringing in transportation, beef, cattle, and other needed supplies. The custom-house has already yielded $14,000, which is the only public funds we have for paying the necessary expenses. As soon as all the troops are disembarked they will be in readiness to move. Please send any national colors that can be spared to be given to the different municipalities. I request that the question of the tariff rates to be charged in the parts of Porto Rico occupied by our forces be submitted to the President for his action. The previously existing tariff remaining meanwhile in force. GENERAL ORDERS, No. 111.

WAR DEPARTMENT,
ADJUTANT-GENERAL'S OFFICE,
Washington, August 2, 1898.

The commanding officers of the following regiments U. S. Volunteer Infantry will report to Major-General J. F. Wade, U. S. Volunteers, War Department, Washington, District of Columbia, by telegraph, for instructions and orders:

First Rhode Island, First North Carolina, First New Hampshire, First New Jersey, Second Texas, First Maine, Fourth Missouri, First Alabama, First Vermont, First West Virginia, First Connecticut, Third Tennessee, Twenty-second New York, First Arkansas, Fifty-second Iowa, Third Virginia, First Delaware, and First Maryland.

These regiments will be organized into brigades, as follows:

1st Brigade—First Rhode Island, Fourth Missouri, Twenty-second New York.
2d Brigade—First North Carolina, First Alabama, First Arkansas.
3d Brigade—First New Hampshire, First Vermont, Fifty-second Iowa.
4th Brigade—First New Jersey, First West Virginia, Third Virginia.
5th Brigade—Second Texas, First Connecticut, First Delaware.
6th Brigade—First Maine, Third Tennessee, First Maryland.

Major-General Wade, U. S. Volunteers, is, by direction of the Secretary of War, assigned to command of these brigades and will conduct them to Porto Rico. On

his arrival there he will report to Major-General John R. Brooke, U. S. Army, for duty with the forces under the immediate direction of the Major General Commanding the Army.

The commanding generals of the several army corps in which these regiments are now serving are enjoined to give General Wade every possible assistance in the movement herein ordered.

These regiments are detached from the corps with which they are now serving for this campaign only, at the termination of which they will be returned to their respective corps. They will be accounted for on all returns as on detached service.

On completion of this service General Wade will resume command of the Third Army Corps.

By order of the Secretary of War:

H. C. CORBIN, *Adjutant-General.*

DEPARTMENT OF STATE, *Washington, August 2, 1898.*

To the Honorable the SECRETARY OF WAR.

SIR: I have the honor to inclose herewith a copy of a note of the 28th ultimo from the French ambassador, who states that the consul of France at San Juan, Porto Rico, has telegraphed him that, at the joint request of the consuls, the Captain-General has recognized in writing the neutrality of a place outside the city where foreigners have taken refuge, and that as soon as the United States forces make their appearance a notification of this humane arrangement will be given to the general in command.

The French ambassador states that he brings this matter to our knowledge in order that such instructions may be sent to General Miles as may be thought proper.

Respectfully, yours, WILLIAM R. DAY.

[Inclosure.]

EMBASSY OF THE FRENCH REPUBLIC IN THE UNITED STATES,
Washington, July 28, 1898.

Mr. SECRETARY OF STATE:

The consul of France at San Juan de Puerto Rico telegraphs me that, at the joint request of the consuls, the Captain-General has recognized in writing the neutrality of a point selected outside of the city where the foreigners have taken refuge.

Our consul adds that, as soon as the Federal vanguard shall make its appearance, he intends to notify the general commanding the American army of this humane arrangement.

I have the honor to bring this fact to your knowledge in order that you may be able to send General Miles such instructions as you may think proper.

Be pleased to accept, Mr. Secretary of State, the assurances of my very high consideration.

SECRETARY OF WAR, *Washington:*

At the time of the arrival of the army in Porto Rico American money was at a premium—125 per cent; it afterwards fell to 2 for 1, and has since gone down to premium 75 per cent, resulting, in my judgment, from the fact that customs dues are fixed in Porto Rican money and only Porto Rico money received. This, in my judgment, is wrong, and I have directed that American money be received for customs dues at a premium of 100, which, considering the condition of the two Governments, would seem but fair, until I can obtain further information or authority from Washington. I request that the rate of exchange be fixed by the Government with the least possible delay, as it would greatly facilitate public and private business.

I also recommend that the manufacture of Springfield rifles, .45-caliber ammunition, all white canvas tentage, and black leather equipments of every description be discontinued, as they are obsolete, and should not be a part of the army equipment.

Colonel Humphrey, at Santiago de Cuba, August 2, cables as follows:

"After all the fresh beef was taken from the *Mississippi* I sent to report to General Miles, to unload the mules there and return to this point. No time was lost by this, inasmuch as no further work on her cargo at this port was possible for a week. The *Port Victor* is in the same position, so will be the *Olivette* and *Michigan* when they come. I am of the opinion that more supplies are coming here than are needed, but, of course, I do not know what is proposed in the near future; can not say as to that."

JOHN ADDISON PORTER:

Peace negotiations find the Yale Battery still at Niantic without orders to move even to a camp of instruction. Worse than that, the reliable information reaches here, confidentially, that a batch of mustering-out rolls have been received here. Five or six weeks after the Yale Battery was organized an emissary came from the corresponding organization in Pennsylvania, which was then neither recruited nor equipped in anything like the shape of the Yale Battery, and tried to seduce some of the best Yale men from the Connecticut battery. Twitchell and other Yale boys stood by their ship. Now the Pennsylvania battery goes to Porto Rico, while these boys have the prospect of being sent home from the Niantic railroad station; yet the Yale men who make the life and soul of this battery offered two separate organizations of 70 and 173 men, respectively, many days before the first call came. The governor's mistakes can not account for this remarkable and exasperating treatment. Men of the finest spirit, intelligence, enthusiasm, and ability are being treated like dogs, and Connecticut and Yale are sore at heart. For two months they have been waiting to see these boys given a chance to fight. I can not refrain from laying these facts before you.

Adjutant-General CORBIN, *War Department, Washington, D. C.:*

Can you not arrange it to include Light Battery A, of Connecticut, in the very next expedition that leaves this country. They are organized under the first-class—in fact, they are made up largely of Yale students and graduates who offered two separate organizations many days before the first call for troops was issued. They have been drilling three months at Niantic. The light battery itself, of which the Yale boys now form nearly a half, has a famous record in the civil war, and is very dear to the hearts of Connecticut people. Between the interest in them and the interest of the Yale boys, the State, and thousands of other people outside of the State, have grown from uneasiness and anxiety to a mood of indignant protest that they should be so long ignored. One battery, which was organized after the plan which the Yale boys first proposed and in which they were refused, is now at the front in Manila. Other organizations recruited since then, and which have tried to steal their members from them, are going, or have gone, to the front. People up here can not understand it, and have requested me to petition you in the most urgent way that this state of affairs [be] remedied.

Adjutant-General of the Army, Washington, D. C.

SIR: I have the honor to request that if possible the First Maine Volunteer Infantry may be one of the organizations going with General Wade to Porto Rico as reenforcements to General Miles's army.

Maine has taken great pride in furnishing the Government with troops of the best material and with thorough equipment. On all sides the First Maine was reported to be one of the very best regiments among those organized by the States.

The Maine detachment of the signal corps was exceptional in its personnel and equipment. The batteries here, awaiting orders, are as good in material and equipment as the best.

Maine, having thoroughly done her part, is extremely anxious to be represented at the front, and if it is possible to give the First Maine Volunteer Infantry its opportunity in Porto Rico, I trust that you will do so.

Yours, very respectfully,

JOHN T. RICHARDS, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE, *Washington, August 5, 1898.*

General MILES, *Ponce, Porto Rico:*

The condition of General Shafter's command is so afflicted with malarial fevers that the Secretary of War has ordered all the troops that took part in the Santiago campaign to be taken to Montauk Point, Long Island. He directs that you send all available transports now with or that may come to you to Santiago to help in this work. General Shafter reports 3,778 sick with different kinds of fevers; as yet very few clearly defined cases of yellow fever. It is hoped that the troops will get away before it becomes pronounced or epidemic. Six of the immune regiments will be sent to Santiago for garrison duty and a new military department created consisting of the territory surrendered by the terms of the capitulation.

Major-General BRECKINRIDGE, *Chickamauga Park, Ga.:*

The Secretary of War directs that when the regiments ordered to General Wade's command are moved that one-half of the wagon transportation will probably be taken; but further than getting regiments in condition to move, no steps will be taken until further orders, as the transportation to move General Shafter's army to Montauk Point exhausts our resources in that direction.

General GRANT, *Newport News, Va.:*

Secretary War thinks you should proceed to join General Miles along with your troops going on the *Obdam.* The rest of your brigade may be detained several days at Newport News. It is impossible to fix the exact date when transports can be furnished you, as it is considered the first importance to get General Shafter's army out of Santiago. That part of your brigade left behind should be given in charge of an experienced officer, who will look after the discipline and comfort of the remaining portion of your brigade until transports can arrive to take it to you.

General MILES, *Ponce, Porto Rico:*

A part of General Grant's brigade sailed from Newport News yesterday. Thirteen hundred more will sail to-morrow. The Fifth United States Cavalry and First Ohio are waiting for the two transports. You were authorized by wire yesterday to send them. The Secretary War desires an early report of how many more troops, if any, you require to prosecute the campaign in Porto Rico. He wishes to hurry forward every man you require, but no more than you need.

SECRETARY OF WAR, *Washington:*

General Brooke reports Hains's Brigade, Fourth Ohio, Third Illinois, captured Guayamo yesterday. Slight skirmish with enemy in and about town. Enemy's strength estimated about 500. Not ascertained that any of enemy were regulars. Resistance not strong. Private John O. Cordner wounded below knee; C. W. Riffee, both legs below thigh; S. W. Wolcott, in right foot; none serious; all Fourth Ohio. One Spaniard killed, 2 wounded, as far as known.

ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

The *Obdam* is reported to you as having a capacity for 1,300 men. I have had a survey of her made, which shows that she should carry but 600. By crowding, some 150 more might be accommodated. To carry more than 750, soldiers will have to occupy the unused coal bunkers and other parts of the ship intended for freight, where there is neither light nor ventilation. To do so would endanger the health and lives of the men, and, in event of a storm, the probable loss of the ship. I think a half regiment is all that should be loaded. Shall I act on my own judgment or take a full regiment? I am ready to march my men aboard now.

GRANT, *Brigadier-General.*

TAMPA, FLA., *August 7, 1898.*
(Received 3.37 p. m.)

ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

The Secretary of War having stopped the further shipment of the siege train to General Miles, I now request instructions as to the disposition to be made of the batteries serving with the train, the ordnance material, and quartermaster's transportation. There are about 1,800 men, 1,300 animals, and a large amount of artillery material collected here. A considerable time will be necessary to complete the shipment of the command. After consulting with General Coppinger and the chief surgeon, I report that the condition of health of the men and animals requires their removal at once from the south, and if it is considered advisable to maintain any portion of this siege train for service or future instructions, I am of the opinion that the interests of the service will be subserved by moving it to a point at least as far north as Washington. The chief surgeon Fourth Army Corps informs me that the sanitary conditions at Jacksonville, Fernandina, or other points along Gulf or South Atlantic coast would not afford relief from conditions existing here; also that there are many cases of typhoid fever in camp, and, although it is the healthiest camp at Tampa, a rapid depletion of the command may be expected from this disease, if not from infection. General Coppinger has authorized me to fully represent this matter, and early action is requested.

General Schwan's command is marching around the west end of Porto Rico. General Henry, with Garretson's brigade, is moving across, via Adjuntas and Utuado, to Arecibo, thence to San Juan. General Brooke has one brigade between Guayama and Cayes; General Wilson, with Ernst's brigade, is at Coamo. American flag is floating in nearly all the principal places in Porto Rico. A small fort has been built at the entrance of Guanica Bay, which I hold. Respectfully recommend be named Fort Capron, in honor of Captain Capron. Would recommend that no more troops or laborers be sent to Porto Rico.

ADJUTANT-GENERAL, U. S. A., *Washington:*

When Sixth Massachusetts Infantry was ordered to be ready to disembark near the entrance of Santiago Harbor Colonel Woodward feigned sickness. At Guanica, when his regiment was ordered ashore, he again feigned sickness and went on hospital ship. Was examined by Colonel Greenleaf, chief surgeon, who pronounced him well and ordered him off the ship. During this time seven companies of his regiment were engaged in sharp encounter under command of General Garretson. Colonel Woodward was ordered before examining board and tendered his resignation. Its acceptance will save expense of court-martial. The lieutenant-colonel of same regiment is incompetent. He remained in his tent while part of his regiment was engaged. He was within sound of the fight and did not even assemble balance of regiment to reenforce part engaged if it should have been necessary. Acceptance of resignations of both these officers would benefit the service.

It is reported that a number of Porto Ricans are now serving life or shorter term sentences in Spanish military prison, or penal settlements in Spain, Africa, and elsewhere beyond the limits of Cuba and Porto Rico, for purely political offenses against the Spanish Government. I am fully convinced that Sampson has sent orders to the commander of this fleet, soon as army leaves south coast, to take his fleet, go round to San Juan, and demand the surrender of the capital or bombard the city and not to waste ammunition on any of the batteries. First. To bombard a city containing innocent women and children would be a violation of the first order of the President. Second. It is an interference with the work given the army by the President. I ask that any such action be suspended. After we have raised the flag over all the principal cities and arrived at San Juan, any aid by the navy against land batteries, entrenchments, or fortifications would be advisable, but not against a city of noncombatants. The control of all military affairs on the land of this island can be safely left to the army.

From my personal observation, and from all I have learned since, allow me to make the following suggestions to avoid trouble in the future, that only immune troops be sent to Santiago; and I think two regiments infantry, two batteries of light artillery, and one troop cavalry will be ample. The guns and horses are already there. It is true many have enlisted as immunes who are not such. These, if sent, will contract fever and soon demand removal, hence I advise that rigid inspection of all officers and soldiers be made and only those who are strictly immunes be sent. Colored men from the Gulf States take the fever, but the percentage of mortality is much less.

There are at present about 250 cases typhoid fever in army of invasion this point. Thomas, Chickamauga, Ga. Second and Third Regiments Wisconsin Volunteers furnished largest contingent, followed by Sixteenth Pennsylvania and Second Massachusetts. Camp Alger comes next; fewest cases from Tampa. Typhoid fever indigenous in Ponce to some extent throughout entire year, and from the large number of infected cases extra precaution will become necessary to prevent further spread of the disease among our troops. In view of great prevalence of the disease in Camp George H. Thomas, it appears to me Medical Department of the Army should recommend immediate evacuation of the camp.

HEADQUARTERS ORGANIZATION COMMITTEE,
LAFAYETTE POST REGIMENTS OF VOLUNTEERS,
New York, August 11, 1898.

Maj. Gen. NELSON A. MILES,
Commanding U. S. Army, Porto Rico.

MY DEAR GENERAL MILES: As advised by the Adjutant-General, Lafayette Post has determined to supply the public schools of Porto Rico, as far as practicable, with the United States flag. Comrade Allen C. Bakewell, our junior vice-commander, has kindly volunteered to visit Porto Rico in the discharge of this duty. I have asked him to undertake correspondence with yourself to get an idea from you of the numbers and sizes necessary. Our advices from the War Department are your (Gilmore) telegram—about 540 public schools and some 30 or 40 private schools.

Comrade Bakewell will ask your advice as to sizes, and forward you with this two samples of bunting flags and two samples of silk flags. If you would kindly suggest which, if either, of the sizes would be best for the purposes, the idea being to place the small silk flag inside the schools, with possibly the Constitution of the United States printed in Spanish and English languages interlined, and possibly, also, a portrait or likeness of President McKinley.

If you will write to Adjutant-General Corbin about the sizes desirable we will endeavor to start our comrade with a limited number to commence operations with in the territory or towns under your control and forward to him the additional quantity required. It may be that you will undertake to relieve him of the detail, and prefer to have it done by military authority through army officers proper.

Major Bakewell will go in his uniform and act as a volunteer aid without pay on your staff, if this is acceptable to you, and possibly bring another comrade, who will come under like conditions.

If this programme is agreeable to you, will you kindly wire Adjutant-General Corbin to so advise Major Bakewell and myself, and we will put the matter under way at once. Major Bakewell's address is 1 East Forty-first street, New York City.

A copy of this letter has been forwarded to Adjutant-General Corbin so that he will understand your dispatches on the subject, and it will of course be honored and approved at headquarters in Washington.

While our post expects to bear all the cost of providing the flags and material, and our comrades to serve without pay, we should naturally look for such transportation about and through the country and return as the Government and yourself can furnish, probably without expense to the Government.

I shall address the Adjutant-General on this subject and be assured of his views before your reply reaches me.

I congratulate you on your very successful campaign and the undoubted benefits both to Porto Rico and the United States to result.

I am, very truly, yours,

DANIEL BUTTERFIELD,
Commander Lafayette Post.

P. S.—Major Bakewell will in person write you for such further information as may occur to him desirable for the discharge of his duty. (With this letter.)

The ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

Reference being had to your telegram of the 12th instant and the suggestions of the Chief of Ordnance that the ordnance property pertaining to the equipment of the siege artillery be turned into Rock Island, I am decidedly of the opinion that this property should first be turned in to Lieutenant-Colonel Thompson at Port Tampa. The circumstances under which it was ordered to and received at Tampa and delivered at this camp and urgently ordered hence to Santiago and Porto Rico before the verification or receipt of invoices involve a serious problem of accountability, and the most direct way of solving this problem is to return the property to the officer to whom it was originally invoiced, and who has the facilities for storing, packing, and shipping it to Rock Island. The wagons and transportation should be turned in to the depot quartermaster here. I recommend that Batteries H and K of the Second Artillery, H and K of the Seventh, D of the Fourth, and M of the Fifth be dismounted and ordered to their former stations at once. I recommend that Battery D of the Fifth Artillery be equipped with four siege rifles, and E of the Sixth with four siege howitzers, and ordered to the station recommended for them as instruction batteries for the siege artillery service, and that Battery B, Fifth Artillery, which is now in Porto Rico equipped with six siege mortars, be made, upon its return, the instruction battery with these pieces. The composition of the armament should be uniform in each battery, and not mixed, as suggested by the Chief of Ordnance. There are seventy-four light artillery recruits of Second and First Artillery, and a similar number of unassigned light artillery recruits, here. Instruction as to their disposition should be sent. Field officers should be ordered to their respective stations.

HEADQUARTERS OF THE ARMY,
OFFICE OF THE CHIEF OF ARTILLERY,
Tampa, Fla., August 14, 1898.

Lieut. Col. FRANK G. SMITH, *Sixth Artillery,*
Commanding Siege Artillery, Camp Rodgers, Tampa, Fla.

SIR: Under special telegraphic instructions of the 13th instant from the Secretary of War the following movements of troops and disposition of property will be made with as little delay as possible:

1. The following batteries of your command now serving as siege artillery are hereby dismounted, and, under such instructions as you may give, will turn in the

armament and ordnance property pertaining to their equipment as siege artillery to the depot ordnance officer at Port Tampa, Fla., or as may otherwise be directed from this office, and they will then proceed to and take station at the posts designated opposite their respective names, viz:

Battery H, Second Artillery, to Fort Trumbull, Conn.; Battery K, Second Artillery, to Fort Constitution, N. H.; Battery D, Fourth Artillery, to Fort McHenry, Md.; Battery M, Fifth Artillery, to Fort Hancock, N. J.; Battery H, Seventh Artillery, to Fort Adams, R. I.; Battery K, Seventh Artillery, to Fort Totten, N. Y. All public animals, the harness, wagon transportation, and other quartermaster property pertaining to the equipment of the above-named batteries as siege artillery will be turned in to the depot quartermaster, Tampa, Fla.

2. Batteries K, Fifth Artillery, and E, Sixth Artillery, will remain mounted as instruction batteries in siege artillery service, and will proceed to Washington Barracks, D. C., and there take station.

Battery K, Fifth Artillery, will be equipped with a battery of four 5-inch siege rifles complete, and Battery E, Sixth Artillery, with a battery of four 7-inch siege howitzers complete, each battery to be provided, in addition, with artillery harness supplied from that now on hand in the siege train.

Each battery will retain six 6-mule wagons for the transportation of platforms and six 6-mule wagons for the transportation of ammunition.

You will give orders for the transfer of such armament and equipment from that now on hand in the siege train as is necessary to carry out these instructions. All surplus armament and ordnance property pertaining to these batteries will then be turned in to the ordnance officer at Port Tampa, Fla. All surplus public animals, wagons, and harness, and surplus quartermaster property pertaining to these batteries will be turned in to the depot quartermaster at Tampa, Fla.

3. The property pertaining to the quartermaster, commissary, medical, and ordnance departments of your command will be turned in, under your direction, to their respective depots at Tampa, Fla., and the officers on duty with those departments will then report to the senior officer of their respective departments on duty at Tampa, Fla., for further instructions.

You will arrange for the movement of the batteries with the least delay practicable and in the order which will best satisfy the existing conditions of health.

4. The quartermaster's department will furnish the necessary transportation for the above movements and the commissary department will furnish the necessary subsistence.

5. You will order all officers under your command remaining on duty at Camp Rodgers, after the execution of these orders, to proceed to their respective stations and report for duty, and you will then proceed to join your proper station.

The travel enjoined is necessary for the public service.

Very respectfully,

JOHN I. RODGERS,

Fire returned, thought with effect; none of our men hurt; Spanish forces, numbering about 1,500, heading for Lares and Penino. Received surrender of commanding officer, Colonel Soto, sick in cottage near, attended by two Spanish surgeons. Have directed they be sent Mayaguez, held as prisoners or paroled, as you determine. Shall close my command here and be governed in movements to-morrow by reports expect to receive during night; probably march Lares. Roads most difficult; camp near Las Marias."

"After sending dispatch last evening company Eleventh Infantry brought 40 prisoners, including battalion commander and lieutenant; also number Spanish soldiers wounded yesterday. Cavalry scouring country toward Lares for fugitives. Deserters from Spanish column, which has been thoroughly disorganized and demoralized by pursuit. Prisoners report our fire yesterday very effective and well directed.

Please notice on map our troops occupy best part of Porto Rico. They are moving in such strong columns in concert that nothing could check their progress. They would have occupied the entire island within four days if they had not been stopped by order to suspend hostilities. "Request that light-house tender be sent immediately to buoy harbor. Important, in order to protect cable lines as well as to mark dangerous and uncharted shoals. Require two first-class cans, two first-class nuns, and one third-class nun, all with complete equipment. If answer is affirmative, cable company will probably loan buoys temporarily. Acknowledge.

CHIEF OF ORDNANCE U. S. ARMY, *Washington, D. C.:*

Have been sick in bed with malaria and fever, but have gotten up to go to siege artillery camps. Your telegram says General Rodgers has been telegraphed to ship all guns of siege train to Watervliet Arsenal; carriages, machines, and implements to Rock Island, and ammunition to Dover powder depot. General Rodgers writes that he has orders from the Secretary of War, through military channels, to cause all siege material to be turned in to me, and orders to give officers and men to assist me in preparing it for shipment, loading, and work connected with its removal from Tampa. I am personally not able to do this work and have no men competent to properly check this siege material. Besides, the value and importance of these stores demand the constant presence of an officer to check same to prevent loss and discover shortage and make proper certificates as to same. Even if well and I could do this work, 9 miles away, I would have to leave depot practically unattended to for some time, and the depot work at present demands all my time. I have sent Binderwald, who will hire carpenters, laborers, procure lumber, nails, and other material to assist in preparing stores for shipment and loading stores. General Rodgers has his two volunteer ordnance officers, volunteer quartermaster, regimental quartermaster, and apparently plenty of men. Under these circumstances recommend that Secretary of War be requested to direct Maj. John L. Chamberlain, chief ordnance officer, U. S. Volunteers, on duty as ordnance officer of siege train, to receive these stores from the captain of batteries and invoice them to Northern arsenals. I will give him every assistance in my power. I have receipts from ordnance officers of siege train for all important parts of this material and almost all other unimportant articles except some that was rushed off on first expedition to Cuba. It will be absolutely necessary to have this property thoroughly checked in order to determine each captain's property responsibility and prevent confusion in the settlement of returns due to the great haste with which this siege train has been equipped. Lieutenants MacNeal, Hunter, McGlachlin, Todd, and Major Chamberlain have successively been detailed as ordnance officer during the short time the siege artillery has been organizing. Major Townsley, chief ordnance officer, is also in camp. Please answer quickly.

GILMORE.

ADJUTANT-GENERAL'S OFFICE,
Washington, August 22, 1898—10 p. m.

Major-General MILES, *Ponce, Porto Rico:*

Secretary of War directs that transport *Massachusetts* sail from Ponce direct to New York, without going to Santiago. Shafter reports that he has sufficient ships.

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, August 23, 1898—12.45 p. m.

COMMANDING GENERAL, *Ponce, Porto Rico:*

The Secretary of War directs the Pennsylvania and New York Volunteer Cavalry be sent home on first returning transports for muster out. Pennsylvania troops to Mount Gretna; New York to Hempstead. Report day of sailing.

H. C. CORBIN, *Adjutant-General.*

PONCE, *August 23, 1898.*
(Received 2 p. m.)

SECRETARY WAR, *Washington:*

Severe rains; sickness increasing; many volunteers have strong reasons for going home; steamers returning empty; ask authority to grant leave absence and furlough to one-third command, and furnish transportation to place of muster. These men will rejoin when required; this very important request; reply soon. This plan could be applied to all commands.

MILES, *Major-General Commanding.*

ADJUTANT-GENERAL'S OFFICE,
Washington, August 23, 1898—4.30 p. m.

General MILES, *Ponce, Porto Rico:*

The volunteers will be reduced by the muster out of entire regiments, amounting in numbers to about 100,000 men. For this reason the Secretary of War does not approve your request to furlough one-third of the volunteer troops in Porto Rico. Volunteer cavalry of New York and Pennsylvania should be sent home on first returning transport.

By order Secretary War:

H. C. CORBIN, *Adjutant-General.*

PONCE, *August 24, 1898.*
(Received 10 a. m.)

SECRETARY OF WAR, *Washington:*

General Shafter cables has transports enough to move troops north. Transports here can be used to transport third of this command home. One battalion from each regiment volunteers, leaving strongest here. Think course very advisable. Shall it be done?

MILES.

PONCE, *August 24, 1898.*
(Received 12.10 p. m.)

ADJUTANT-GENERAL, *Washington:*

Transport *Aransas* left here to-day for New Orleans.

GILMORE, *Brigadier-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, August 24, 1898—12.30 p. m.

General MILES, *Ponce, Porto Rico:*

You will return to the north such troops of your command as are not needed in Porto Rico, and can use transports now at your disposal for this purpose. Every provision should be made for the comfort of returning soldiers; adequate supplies of every kind, with medical officers to attend the sick, should be detailed. You will determine what troops shall return and what remain. The destination to which your ships should sail will be given later in the day, after conference with Surgeon-General and quarantine authorities. The point selected will be the one that will give the least delay in disembarking.

By order Secretary War:

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, August 24, 1898—12.45 p. m.

General MILES, *Ponce, Porto Rico:*

Troops in Porto Rico whose services are no longer needed there will be sent home, as directed in previous cable of to-day. Transports carrying them should sail for New York. There will be less detention there than any other point. This after conference with the highest medical authorities. Please give instructions to have departure of each ship reported by cable.

By order Secretary War:

H. C. CORBIN, *Adjutant-General.*

PONCE, VIA BERMUDA, *August 24, 1898.*
(Received 7.22 p. m.)

SECRETARY OF WAR, *Washington:*

Under plan to reduce by muster out I suggest that advantage be taken of empty transports returning to send back all volunteer light batteries and the Fourth Pennsylvania, Sixth Illinois, Second Wisconsin. That would leave one regiment each from Pennsylvania, Massachusetts, Illinois, Wisconsin, Ohio, Kentucky, First United States Volunteer Engineers, one battalion provisional engineers, and regular troops, which will be ample.

MILES.

ADJUTANT-GENERAL'S OFFICE,
Washington, August 24, 1898—Midnight.

Major-General MILES, *Ponce, Porto Rico:*

Your suggestion of returning all volunteer light batteries and the Fourth Pennsylvania, Sixth Illinois, Second Wisconsin is approved by the Secretary of War. The return of the New York and Pennsylvania cavalry should be among the first to come.

H. C. CORBIN, *Adjutant-General.*

WAR DEPARTMENT, QUARTERMASTER-GENERAL'S OFFICE,

ADJUTANT-GENERAL'S OFFICE,
Washington, August 30, 1898—1 p. m.

COMMANDING GENERAL, *Ponce, Porto Rico:*

The three infantry regiments, batteries, and troops ordered home, under General Wilson, should sail direct for New York. Date of sailing of each transport, number of officers and men aboard each will be reported by cable. Regiments on their arrival will be routed to their homes, where they will be given sixty days' furlough, at expiration of which time they will be mustered out of service. New York cavalry will go to their armory in New York City. Philadelphia troop to their armory in Philadelphia. Transportation will await arrival of volunteer regiments in New York to conduct them to their homes; hence importance of knowing exact number on board each ship and organizations to which they belong. Acknowledge receipt.

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE, *Washington, August 30, 1898.*

COMMANDING GENERAL, UNITED STATES FORCES, *Ponce, Porto Rico.*

SIR: The War Department has been advised by the Acting Postmaster-General that Maj. James E. Stuart, Charles F. Trotter, John M. Masten, William Mooney, and M. A. MacDonald, of the Post-Office Department, have been detailed as a committee to proceed to Porto Rico for the purpose of examining into and reporting upon the conditions, operations, and requirements of the postal service on that island, both within the territory occupied by the military forces and, as far as practicable, throughout the island.

The Acting Postmaster-General thinks it may possibly be necessary for this committee to have a military escort at times, and that it will certainly be necessary for them to have the assistance of the military commanders in the matter of transportation.

The Secretary of War, therefore, commends these gentlemen to your kindly offices, and directs that you cause necessary orders to be issued that will furnish them transportation and military escort, and to take such other measures as in your judgment will facilitate the carrying out of their mission.

Very respectfully,

H. C. CORBIN, *Adjutant-General.*

CORRESPONDENCE RELATING TO CHINA RELIEF EXPEDITION, MAY 30, 1900, TO JUNE 1, 1901.

[A portion of this correspondence was furnished by the State and Navy Departments, and is here introduced for continuity of narrative. The most of it relates to incidents occurring before the arrival of troops of the Army.]

TONG KU, CHINA. (Received May 30, 1900.)

SECRETARY OF NAVY, *Washington:*

Hundred men landed and sent to Tientsin yesterday. Fifty of these go to Pekin this day. Other nations landing men.

KEMPFF.

TONG KU, CHINA. (Received June 3, 1900.)

SECRETARY OF THE NAVY, *Washington:*

The *Newark* has landed force to protect American interests. In deference to the understanding with the Chinese Government, 56, May 31, to Pekin. The English fleet landed force. The French fleet landed force. The Russian fleet landed force. The United States fleet landed force. The Austrian Pekin. The injury to American citizens or interests slight. The British Admiral, the Russian Admiral, the Chinese Admiral, 20 men-of-war here. Crops are likely to fail, thereby causing very probable trouble in the future. Our force under the charge of McCalla.

KEMPFF.

TAKU, CHINA. (Received June 5, 1900.)

SECRETARY OF THE NAVY, *Washington:*

Situation is most critical. The Russian force has commenced engagement. I have landed force of 50 seamen more. Have requested *Helena* sent immediately, or some other vessel maximum draft 11 feet. Battalion of marines considered necessary. American gunboat useful as temporary base inside.

KEMPFF.

NAVY DEPARTMENT,
Washington, June 5, 1900.

KEMPFF, *Taku, China:*

Cooperate Conger for protection of American interests. *Helena* has been ordered to join you.

LONG.

MANILA. (Received June 6, 1900.)

SECRETARY OF THE NAVY, *Washington:*

Kempff reports condition of affairs are very disturbed at Tientsin and persistently asks for reenforcements. I can not supply them. Affairs in the Philippines are considered paramount. I fear he is cooperating foreign powers to an extent incompatible with interests of the American Government. I have advised him to withdraw all excepting force for protection of American interests.

REMEY.

NAVY DEPARTMENT,
Washington, June 6, 1900.

REMEY, *Cavite:*

Send *Helena* or other light-draft ship to Kempff with additional marines for landing. Keep in touch with North China situation and cooperate where necessary.

LONG.

TONGKU, CHINA. (Received June 7, 1900.)

SECRETARY OF THE NAVY, *Washington:*

Railroad communication is interrupted between Pekin and Tientsin. Will act in concert with naval forces foreign nations for the protection of American interests should it be found necessary. A meeting was held foreign senior naval officers, British battle ship, to-day to discuss united action if necessity compels. Gunboat, marines required.

KEMPFF.

TONGKU, CHINA. (Received June 8, 1900.)

British, Russian, Chinese admirals and 20 war ships here. Crops likely to fail, causing probably more trouble in the near future. Our landing force under McCalla. June 5 situation more critical. Russian force began fighting. I landed 50 more men. Have requested *Helena* be sent immediately protect interests, or vessel like her. Consider battalion marines necessary. Need gunboat as base inside. June 6 Tientsin-Pekin railway cut. Will act concert naval forces other powers to protect interests if necessary. Meeting foreign senior naval officers to-day. Present: English, French, German, Austrian, Italian, Japanese, and American. Arrange for combined action to protect life and property if required. Nine hundred men ashore; 25 war ships here.

KEMPFF.

NAVY DEPARTMENT,
Washington, June 8, 1900.

REMEY, *Manila:*

Send *Helena* or other suitable vessel to Kempff. Report action. *Solace* will return via Yokohama, Guam, and Honolulu, and bring back officers for retirement, sick who must return, and short-time officers and men. Acknowledge.

HACKETT.

CAVITE. (Received June 8, 1900.)

SECRETARY OF THE NAVY, *Washington:*

The *Helena's* machinery is not in fit condition. Propeller shaft is broken. The *Nashville* leaves to-day for Taku; 30 marines, 2 lieutenants, according to your telegram June 6. The *Newark* has 25 marines from *Oregon* and authorized to draw

upon ships Shanghai for more. Insurgents active Southern Luzon and Samar. At the request of governor I am trying to send more vessels as early as possible. Cavite peninsula as far as Dalahacan Isthmus will be returned control of Navy. The Army will be removed. Will be replaced by marines at my request.

REMEY.

NAVY DEPARTMENT,
Washington, June 9, 1900.

REMEY, *Manila:*

Department has ordered *Monocacy* to join Kempff. Does not wish other naval vessel withdrawn from Philippines.

HACKETT.

NAVY DEPARTMENT,
Washington, June 11, 1900.

REMEY, *Manila:*

Send by *Solace* immediately all dispatch to Kempff 100 marines, arranging, if practicable, that after landing *Solace* shall continue homeward voyage as previously ordered.

LONG.

TONGKU, CHINA. (Received, June 11, 1900.)

SECRETARY NAVY, *Washington:*

In case all communication Pekin cut, not able to go alone. If other nations go will join to relieve Americans pending instructions. Situation serious. Battalion marines from Manila has been urgently requested. Answer.

KEMPFF.

NAVY DEPARTMENT,
Washington, June 11, 1900.

KEMPFF, *Taku:*

Remey has been ordered to send 100 marines by *Solace*.

CROWNINSHIELD.

TONGKU, CHINA. (Received June 11, 1900.)

SECRETARY NAVY, *Washington:*

Forces landed by different nations opening communication Pekin. Americans joined.

KEMPFF.

TONGKU, CHINA. (Received June 13, 1900.)

SECRETARY NAVY, *Washington:*

Twenty-five hundred men on road to Pekin relief legations. One hundred Americans; English and Russians large majority. All nations here represented. Viceroy Tientsin gave permission to go there; railroad being repaired as forces advance. Russians now sending soldiers from Port Arthur with artillery.

KEMPFF.

ADJUTANT-GENERAL'S OFFICE,
Washington, June 14, 1900.

MACARTHUR, *Manila:*

If required, how soon could you send regular regiment to Pekin?

CORBIN.

NAVY DEPARTMENT,
Washington, June 15, 1900.

KEMPFF, *Taku, China:*

Do you want more ships or men? What force is in Pekin? What communication have you with Conger?

LONG.

NAVY DEPARTMENT,
Washington, June 15, 1900.

REMEY, *Manila:*

Hold *Solace* on station until further orders.

LONG.

MANILA. (Received June 16, 1900—9.15 a. m.)

ADJUTANT-GENERAL, *Washington:*

Force in Philippines has been disseminated to limitation of safety; concentration slow to avoid evacuation of territory now occupied, which would be extremely unfortunate. Have not cared to emphasize this feature of situation. Loss of a regiment at this time would be a serious matter, but if critical emergency arises in China can send a regiment two days' notice.

MACARTHUR.

ADJUTANT-GENERAL'S OFFICE,
Washington, June 16, 1900.

MACARTHUR, *Manila:*

The Secretary of War directs that you send a regular regiment [of] infantry to Taku, China, with tentage, wagon transportation, and thirty days' subsistence, medical stores and medical officers, and ample ammunition and such rapid-fire guns you think desirable. If you are not sure of the tact and judgment of the commanding officer with regiment, select an officer especially qualified, a general officer if it need be. Instruct the officer in command to confer with Admiral Kempff, now at Taku, and to report to American minister at Pekin, for protection of American legation and lives and property of American citizens in China. Transport should sail as soon as possible. Acknowledge receipt and report action. Eight troops Sixth Cavalry now en route to San Francisco and will sail for Manila at once.

CORBIN.

MANILA. (Received June 17, 1900—10.10 a. m.)

ADJUTANT-GENERAL, *Washington:*

Ninth Infantry, Liscum, ordered Taku, on *Logan;* transportation [on] *Port Albert;* probably start 24th; typhoon delays movement; importance celerity understood; will make all effort to expedite.

MACARTHUR.

CHEFOO, CHINA. (Received June 17, 1900.)

SECRETARY OF THE NAVY, *Washington:*

Taku forts fired on foreign vessels about 12.45 a. m., June 17. Surrendered to the allied forces at 8 a. m. The British admiral at Tientsin.

TAUSSIG.

NAVY DEPARTMENT,
Washington, June 17, 1900.

YORKTOWN, *Chefoo:*

Acknowledge following message and take to Kempff without delay. Keep Department informed of situation, by frequent telegrams, by using a vessel to carry dispatches, if necessary. What force in Pekin? How many men have you on shore? Do you want more ships or men? Have you any communication with Conger, Pekin, or landing force?

LONG.

CAVITE, P. I. (Received June 18, 1900—9.40 a. m.)

BUREAU OF NAVIGATION, *Washington:*

Taussig cables that Taku forts fired upon foreign gun vessels and then surrendered to allied forces morning of June 17. Kempff asks instructions about joining other powers who are taking united action in demanding that Taku forts be turned over to them to secure favorable termination of trouble. Will Department instruct Kempff through Taku at Chefoo and give me the same information?

REMEY.

NAVY DEPARTMENT,
Washington, June 18, 1900.

Admiral KEMPFF, *Taku (via Chefoo):*

Department desires you to understand that it directs the protection of American national interests as well as of the interests of individual Americans. Whatever you do, let the Department know the plan of the concerting powers in regard to punitive or other expeditions or other measures, and keep it informed of the force that you will require, in order that this Government may properly discharge the obligations which its large interests put upon it. Inform Department also of date when any movement will take place. Remey has been ordered to prepare reenforcements and to send *Oregon* to you at once.

HACKETT.

NAVY DEPARTMENT,
Washington, July 13, 1900.

REMEY, *Manila:*

Following telegram sent to Kempff: "Department desires you to understand that it directs the protection of American national interests as well as of the interests of individual Americans. Whatever you do, let the Department know the plan of the concerting powers in regard to punitive or other expeditions or other measures, and keep it informed of the force that you will require, in order that this Government may properly discharge the obligations which its large interests put upon it. Inform Department also of date when any movement will take place. Remey has been ordered to prepare reenforcements." You will prepare two or three light-draft vessels and the *Alava* or other transport for orders to Taku, and direct *Oregon* to proceed there at once.

HACKETT.

TONGKU, CHINA. (Received June 18, 1900.)

SECRETARY NAVY, *Washington:*

Battle yesterday between Chinese and Boxers near Tientsin. Large number of Boxers expected to reach Tientsin to-morrow.

KEMPFF.

CHEFOO, CHINA. (Received June 18, 1900.)

SECRETARY OF STATE, *Washington:*

REMEY, *Manila:*

Kempff has been directed to act in concurrence with forces of other powers so as to protect all American interests.

HACKETT.

NAVY DEPARTMENT,
Washington, June 20, 1900.

KEMPFF (care United States consul), *Chefoo:*

What American and what other force is there in Pekin?

HACKETT.

NAVY DEPARTMENT,
Washington, June 20, 1900.

YORKTOWN, *Chefoo:*

Unless you carry dispatches from Kempff containing full information as to situation Taku and Pekin you will, yourself, cable Department all information that you have in plain language except those parts absolutely necessary to be secret. Information particularly desired as to American and other forces in Pekin.

HACKETT.

CHEFOO, CHINA. (Received June 20, 1900.)

SECRETARY OF STATE, *Washington:*

Discovered all telegrams for north held by Chinese post here; demanded those for our officials. Telegraph (office) gave copies yours 15th for Conger, Secretary of Navy for Kempff, one 15th, two 18th; also one from Remey hold *Solace;* have sent all to Kempff by *Phœnix* to-day. There is no communication north except naval; advise Secretary of the Navy send telegrams my care; otherwise delivery doubtful. I have chartered small steamer, leaving noon for Yangchiakou, rescue American, British missionaries. French consul from northwest Shangtung, Hogan, British mission, Tsangchow, looted. Chinese general conveyed missionaries place unknown; critical interior here; governor leaving Chinan for Techow; Chinese ships left south; troops leaving; Russians continue landing Taku; nothing heard of Pekin force six days. Are you sending ships Chefoo?

FOWLER.

CHEFOO, CHINA. (Received June 20, 1900.)

SECRETARY OF THE NAVY, *Washington:*

Taku forts captured by other foreign powers. Heavy firing heard Tientsin evening 17th. *Monocacy* fired on by Taku forts; no warning. Did not join in protocol demanding temporary possession of forts, as this was, in my judgment, not required at that time. Making common cause with foreign forces for general protection. Three hundred American troops ashore. Four hundred and thirty foreign troops Pekin May 31. About 3,000 Russian, English, German just arrived. Six thousand men ashore now; entirely inadequate. Consider one brigade necessary to properly represent our Government. State of war practically exists. Legation or relief forces not heard from one week. Request *New Orleans*, 2 surgeons, 150 extra men various ratings, complete ships' complements. Request *Castine* replace *Nashville* here; dispatch duty.

KEMPFF.

ADJUTANT-GENERAL'S OFFICE,
Washington, June 22, 1900.

MACARTHUR, *Manila:*

If needed, can you, without detriment to the work in hand, spare another regiment for China; and how soon could you send it? Liscum should understand that he will probably have to march from Tientsin to Pekin, and should be equipped and supplied accordingly. When will he leave for Taku? Quartermasters and commissaries going to China should be supplied with sufficient funds to meet all probable needs.

CORBIN.

CHEFOO, CHINA. (Received June 22, 1900.)

SECRETARY OF THE NAVY, *Washington:*

Additional to *Oregon* and army brigade, request *Monadnock* and all marines Cavite. Force 430 Pekin. No communication Conger. Two telegrams, 18th, received. Twenty thousand Russians reported coming toward Pekin from Manchuria. One thousand British due from Hongkong. Two hundred British, 1,000 Russians, go Tientsin to-day. In absence of instructions have acted in accordance with Department's wishes expressed in telegram since 17th.

KEMPFF.

MANILA. (Received June 23, 1900—4.30 a. m.)

ADJUTANT-GENERAL, *Washington:*

ADJUTANT-GENERAL, *Washington:*

Another regiment can not be spared for China. At this moment troops are urgently needed in Camarines, Samar, Mindanao. As a purely military proposition Ninth Infantry can not be sent as ordered without risking material interests here. As a consequence of persistently following a policy of dissemination this army now widely scattered is uniformly weak everywhere, and the strain on the troops has reached the full limit. The archipelago is overrun, but not a single province reached has been pacified. In sentiment the natives are a unit against us, but are prepared to accept our ascendency if asserted with sufficient force. Time is operating in our favor and a pro-American party attached to us by motives of self-interest is slowly emerging from the mass. We are now on the very verge of a favorable crisis and the most inspiring events may reasonably be expected in the near future if the military pressure can be maintained, which will be impossible if troops are detached from here to China. Every able-bodied soldier who leaves this army at present weakens the military situation. The detachment of regiments jeopardizes the entire enterprise.

COMMANDING GENERAL, DEPARTMENT CALIFORNIA,
San Francisco, Cal.:

Secretary War desires me to communicate to you that the Japanese Government has consented for use of Nagasaki as distributing point for China. For the present transports of the regular line sailing to Manila will go via Nagasaki with mixed loads for China and Manila. China troops, passengers, and freight will be unloaded at Nagasaki. General MacArthur has informed War Department that *Indiana* and *Flintshire* will be retained at Taku to run between Taku and Nagasaki to carry troops and supplies from Manila ships to China ports. Arrangements will be made to have these ships at Nagasaki on arrival of the transports en route from San Francisco to Manila, so that troops and supplies can be loaded on them by lighters. If this is not feasible, arrangements will be made to have stores unloaded and cared for by Major Hyde in storehouses hired for that purpose. Under circumstances, troops, passengers, stores, etc., either for Manila or China, will therefore be loaded on the regular transports sailing to Manila, the transport quartermaster being instructed that all stores, troops, and passengers for China are to disembark at Nagasaki either on transports waiting for them there or to be cared for ashore until transport arrives. This does not include the freight ships loaded entirely with Manila freight. You will continue to send them via Honolulu unless other instructions are given. Acknowledge receipt and inform me if there is any difficulty in carrying out these instructions and if they are clearly understood.

Conference admirals 13th instant, it was suggested that each government give orders forbidding trading with Chinese in arms and ammunition, and that consuls be directed scrutinize cargo invoices of steamers of their nationality.

To-day hope to get wounded from Tientsin either in hospitals at Taku or aboard *Solace.* Communication very uncertain. Following casualties apparently confirmed: Marines—Captain Davis killed; Captain Lemly, Lieutenants Butler and Leonard wounded. Army—Colonel Liscum killed; Majors Regan and Lee, Captains Noyes, Brewster, and Bookmiller, Lieutenants Naylor, Lawton, Hammond, and Waldron wounded. Total killed and wounded reported, 775; Russians and Japanese lost heavily; our total loss reported 215; about 40 were marines; but numbers believed exaggerated. Have officer on shore especially to get authentic numbers and names, which will be promptly telegraphed. City and forts now in hands of allies. Admiral Seymour returned to fleet; ranking officer ashore is Admiral Alexieff, at Tientsin.

Dispatch of yesterday in reference to orders for transports transferring troops at Nagasaki, etc., received. I have consulted with the officers in charge of the transport department, and they inform me that there will be no difficulty whatever in carrying out the instructions referred to, and they are clearly understood. I take the liberty of inviting attention of the Department to the desirability of substituting the *Sumner* for the *Logan* in the run between Manila and China on account of the limited coal and carrying capacity of the *Sumner*, which fits her better for shorter runs than it does for the long passage, she having to reduce materially her trip carrying capacity to have coal enough on board for the trip from here to Nagasaki. The *Californian*, which sailed yesterday with freight for Manila, went via Honolulu and the *Sumner* direct to Nagasaki.

SHAFTER, *Major-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 19, 1900.

General CHAFFEE:

(Care Hyde, Nagasaki.)

Secretary War directs that you proceed at once with transport *Grant*, Sixth Cavalry, and marines to Taku, China, and take command of American land forces, which will be an independent command known as the China relief expedition. You will find there the Ninth and Fourteenth Infantry, one battery of the Fifth Artillery, and one battalion of marines. *Sumner* sailed from San Francisco July 17 with Second Battalion of Fifteenth Infantry and recruits to capacity of vessel. Reenforcements will follow to make your force in the immediate future up to 5,000, and very soon to 10,000. Full supplies, including heavy clothing, are on the way. After unloading at Taku the supplies carried by *Grant* for your forces, send *Grant* immediately to Manila. Horses for Sixth Cavalry sailed as follows: *Leelanaw* from San Francisco, July 1, via Honolulu for Kobe; *Conemaugh* from San Francisco, July 1, direct to Kobe; *Lennox* from Portland, July 6, direct to Kobe. Do not wait for them, but direct that they follow you to Taku without delay. Manila will be your principal base. Arrangements have been made with Japanese Government for using Nagasaki as secondary base and transshipment of stores coming from this country when necessary. Immediately upon arrival at Taku report arrival, and as soon as practicable thereafter cable your views of situation and supplies. Under one hundred and twenty-second article of war your command will include marines on shore. Confer freely with admiral in command of fleet. Complete understanding and cooperation between the two services is enjoined by the President, and message to that effect has been sent admiral in command naval force. Reports now indicate that American minister with all the legation have been destroyed in Pekin. Chinese representative here, however, insists to the contrary, and there is, therefore, a hope which you will not lose sight of until certainty is absolute. It is the desire of this Government to maintain its relations of friendship with the part of Chinese people and Chinese officials not concerned in outrages on Americans. Among these we consider Li Hung Chang, just appointed Viceroy of Chili. You will to the extent of your power aid the Government of China or any part thereof in repressing such outrages and in rescuing Americans, and in protecting American citizens and interests, and wherever Chinese Government fails to render such protection you will do all in your power to supply it. Confer freely with commanders of other national forces, act concurrently with them, and seek entire harmony of action along the lines of similar purpose and interest. There should be full and free conference as to operations before they are entered upon. You are at liberty to agree with them

from time to time as to a common official direction of the various forces in their combined operations, preserving, however, the integrity of your own American division, ready to be used as a separate and complete organization. Much must be left to your wise discretion and that of the admiral. At all times report fully and freely to this Department your wants and views. The President has to-day appointed you major-general of volunteers. Qualify and mail oath of office. Acknowledge.

Important General Chaffee with Sixth Cavalry reach Taku and Tientsin without delay at Nagasaki. Will be necessary under the circumstances *Grant* to coal at Nagasaki, go to Taku, discharge Sixth Cavalry, and proceed immediately Manila. She has large quantities stores for you. Transport *Hancock* will leave San Francisco July 28, and transport *Meade* August 1, with troops and stores. Both touch Nagasaki for further orders. Should condition in China prove no more troops are needed they will go direct Manila. You will be notified any change. Question transports meeting these two vessels Nagasaki will be decided by future events. It is proposed to send siege battery China. Chief of Ordnance reports 4 siege guns and 2 howitzers in Manila. Telegraph if serviceable and available.

The Honorable the SECRETARY OF WAR.

SIR: Referring to your letter of the 17th instant, requesting this Department to obtain information from the consul of the United States at Chefoo, China, as to the disposition of three cablegrams intended for the commanding officer, Ninth United

States Infantry, at Tientsin, I have now the honor to apprise you of the receipt of a telegram from Mr. Fowler of the 19th instant, reading as follows:

"19th. All telegrams for north sent daily by first war ship to Remey unopened. Sent two for commanding officer Ninth hour ago; one for Liscum two days ago; dates unknown. Advise telegrams bear my address only, then name officer for whom intended."

I have the honor to be, sir, your obedient servant,

ADJUTANT-GENERAL, *Washington:*

Transport *Grant* ordered Taku without delay Nagasaki. Four siege guns and 2 howitzers, carriages, platform, everything is complete and serviceable, available for China; 400 shell for howitzers; 800 for siege guns.

MACARTHUR.

ADJUTANT-GENERAL'S OFFICE,
Washington, July 20, 1900.

MACARTHUR, *Manila:*

The President has appointed Chaffee a major-general of volunteers and assigned him to command of the relief expedition in China, which will constitute an independent command. The troops sent from your division will be reported as on detached service and will be returned to you as soon as the work in hand will admit. Supplies for that army will devolve largely on your staff officers for the present, and you are charged with supervisory control to the end that all the wants of Chaffee's army are promptly met. Secretary War enjoins upon you that sufficient transports be assigned to meet every emergency in the way of supplies from Manila direct. Secretary War notes with pleasure your proffer of services, but is of the opinion that the importance of the work that you have in hand is so great that your presence in Manila is demanded by the best interests of the service. The following officers will be ordered to report to General Chaffee on first transports leaving Manila: Lieut. Col. Joseph T. Dickman, Twenty-sixth Infantry, and Maj. Charles H. Muir, Thirty-eighth Infantry. They will be for such staff duty as he may assign them, and will at the same time note the organization and general workings of the different forces comprising the allies. Reports of observations will be forwarded by mail direct to this office. Having reference to previous cables, you will prepare plans for forwarding additional force, but none will be put under way until further instructed. Unless conditions that are imperative demand it, none will be sent.

The Honorable the SECRETARY OF WAR.

SIR: I have the honor to inform you that the Chinese minister this morning handed me a copy of the following cablegram from Director-General Sheng at Shanghai, dated July 23, 1900, retransmitted by the Chinese minister at London and received by Minister Wu on the night of the same day:

"News from Pekin of 22d day of sixth moon, corresponding to July 18, says Wen Jui, by direction of the Tsung li Yamen, went to see the various foreign ministers and found not one of them harmed. Jung Lu proposes to memorialize Imperial Government to supply them with provisions at once and then devise plan to detail troops to escort them to Tientsin. Would fighting cease (on part of foreign troops) if the ministers could be escorted out of Pekin?"

The information has been given to the press, but the bracketed sentence has not been made public here.

We are all awaiting impatiently arrival of reenforcing army. When are you coming? All legations have been blockaded since 1st last month, and since the 20th we have been attacked continually night and day by the Chinese soldiers from more than 10 encampments. By a supreme effort we are still defending. We are daily awaiting with the greatest anxiety arrival of reenforcing army, and if you can't reach here in less than a week's time it is probable that we will be unable to hold out any longer. Emperor and Empress Dowager appear to be still at Pekin. Were our reenforcements to arrive, very probable that they would flee to Wan Shoshan. ADJUTANT-GENERAL, *Washington:*

Yangtsun, 8th. Not possible negotiate for coal this vicinity now; Kaiping mines cut off by destruction railway Tongku north. Mines 25 miles west [of] Pekin supply ample coal that place, ordinary conditions prevailing; transportation by camel, but all industries cease near line of march; inhabitants flee for their lives; homes generally burned. If our troops camp about Tientsin can store six months' supplies there and Tongku, if Germany does not demand, which she probably will, buildings claimed by her, now occupied by us in Tientsin. If necessary to construct storehouses for our use will do so with native labor and material; suggested, however, than 300 large paulins be supplied to cover stores in emergency. Impossible to say where camp will be. If in Pekin may be able to find storage facilities there probably, but not certain; can not answer inquiry about condition not yet developed. Can not winter Pekin unless railway is rebuilt; this promised by Russian commanders; suggested Government Washington urge importance of this matter diplomatically. To all troops of powers reported as to arrive winter in this section, railway must be rebuilt at once to Pekin. Will need pack train, ten wagons, one ambulance each squadron [of] cavalry; eight wagons and ambulance each battalion [of] infantry. General CHAFFEE,

Commanding United States Forces, Pekin, via Taku:

Four afternoon, August 23. Your dispatch of August 15 received. Secretary of War directs me to say no more troops will be sent you. Those under way will be ordered to Manila, leaving you about 5,000 effectives, including marines.

Following statement of American policy was communicated to all the powers by circular letter July 3:

"The purpose of the President is to act concurrently with the other powers: First, in opening up communication with Pekin and rescuing the American officials, missionaries, and other Americans who are in danger; secondly, in affording all possible protection everywhere in China to American life and property; thirdly, in guarding and protecting all legitimate American interests; and fourthly, in aiding to prevent a spread of the disorders to the other provinces of the Empire and a recurrence of such disasters. It is, of course, too early to forecast the means of attaining this last result; but the policy of the Government of the United States is to seek a solution which may bring about permanent safety and peace to China, preserve Chinese territorial and administrative entity, protect all rights guaranteed to friendly powers by treaty and international law, and safeguard for the world the principle of equal and impartial trade with all parts of the Chinese Empire."

We desire to withdraw all troops from China as soon as practicable, but attainment of ends specified requires that occupation of Pekin should continue for the present, and that you should with the troops under your command do your share toward maintaining the status quo and preserving order. We wish no aggressive action unless that be necessary for defensive purposes. We have no report yet of arrangements for bringing inmates of legation to the coast. It seems as if this should be done as promptly as consistent with safety to all women, children, and men not charged with official duties and in fit condition to perform them, but whether this ought to be done you and Conger can best judge. Give us timely notice to provide transportation for them from Taku to Japan or this country. Li Hung Chang, as plenipotentiary of China, now asks cessation of hostilities and appointment of envoy to conduct negotiations.

We have answered as follows:

"While the condition set forth in the memorandum delivered to the Chinese minister August 12 has not been fulfilled, and the powers have been compelled to rescue their ministers by force of arms, unaided by the Chinese Government, still this Government is ready to welcome any overtures for a truce and invite the other powers to join when security is established in the Chinese capital, and the Chinese Government shows its ability and willingness to make on its part an effective suspension of hostilities there and elsewhere in China. When this is done, and we hope it will be done promptly, the United States will be prepared to appoint a representative to join with the representatives of the other similarly interested powers and of the authoritative and responsible Government of the Chinese Empire to attain the ends declared in our circular to the powers of July 3, 1900."

Show this to Conger.

WAR DEPARTMENT,
Washington, August 28, 1900.

The ACTING SECRETARY OF STATE.

SIR: In a dispatch received from General Chaffee last evening he states that he has received no advices since the 14th of August. The Department would be pleased if you would make inquiry by telegraph of our representative at Chefoo, China, the disposition he has made of messages to him for General Chaffee, sent from here: One on August 9, one on August 10, one on August 11, one on August 12, two on August 14, one on August 16, one on August 18, and one on on August 21, in order that we may have some trace of the disposition of these messages.

I have the honor to be, sir, very respectfully,

H. C. CORBIN,
Adjutant-General, for the Secretary of War.

DEPARTMENT OF STATE,
Washington, August 28, 1900.

The SECRETARY OF WAR.

SIR: I have the honor to acknowledge the receipt of a letter from your Department of the 28th instant, stating that General Chaffee informs you that he has received no advices since the 14th instant. You therefore request that a telegram be sent to the consul of the United States at Chefoo, inquiring as to the disposition of certain messages.

In accordance with the request, the following telegram has been forwarded to Mr. Fowler:

"What disposition have you made War Department messages to Chaffee, one August 9, two August 10, one 11th, one 12th, two 14th, one 16th, one 18th, one 21st?"

I have the honor to be, sir, your obedient servant,

ALVEY A. ADEE,
Acting Secretary.

WAR DEPARTMENT,
Washington, August 29, 1900.

The SECRETARY OF THE NAVY.

SIR: In view of the uncertainty surrounding telegraphic communication with General Chaffee, the Department would be pleased if you would telegraph to the commander of the naval forces at Taku, making inquiry as to the disposition of messages received at that station for General Chaffee. and what facilities or arrangements are made for forwarding messages to Pekin.

I have the honor to be, sir, very respectfully,

ELIHU ROOT,
Secretary of War.

CHEFOO, CHINA. (Received August 29, 1900—11.05 a. m.)

SECRETARY OF STATE, *Washington:*

Twenty-ninth. Received following messages: One dated August 9, only one 10th, one 11th, 12th, 13th, three 14th, one 16th, 18th, 19th, two 21st. Transmitted originals first war ship, via Remey, sending copy following ship; those 21st telegraphed Pekin, forwarding originals immediately. Have copies, also admiral's receipts. Chaffee telegraphed 19th acknowledgment; also that he had sent admiral many messages to me for transmission. Having received none, inquired admiral, who replied as army telegrams not addressed my care, had instructed senior officer forward.

FOWLER.

WAR DEPARTMENT,
Washington, August 30, 1900.

The ACTING SECRETARY OF THE NAVY.

SIR: As the Government has been much embarrassed by the nondelivery of dispatches between Washington and Pekin, the Secretary of State, by my request, sent, on August 28, to the consul at Chefoo the following dispatch:

"What disposition have you made War Department messages to Chaffee, one August 9, two on 10th, one 11th, one 12th, two 14th, one 16th, one 18th, one 21st?"

He now sends me the consul's answer, a copy of which I inclose. It would appear by this answer that General Chaffee has sent to Admiral Remey many messages for transmission to the consul at Chefoo, which the consul has never received, and that the only response which the consul receives to his inquiry of the admiral is that, as the dispatches were not addressed to the [consul's] care, he had instructed the senior officer to forward. General Chaffee would appear to have relied upon the admiral to cause his dispatches to the War Department to be forwarded, and the admiral seems to have given instructions regarding them which have not been effective.

I should be glad if you would instruct Admiral Remey to take sufficient interest in the matter to ascertain whether this be the fact; and if so, what the difficulty is which has prevented the consul from receiving these dispatches.

Very respectfully,

ELIHU ROOT,
Secretary of War.

NAVY DEPARTMENT,
Washington, August 30, 1900.

The Honorable the SECRETARY OF WAR.

SIR: I have the honor to quote below a message sent Rear-Admiral Remey at Taku:

"Have all messages transmitted by Chaffee to War Department, through you, since August 15, been placed on the wires? If so, when and by whom? Secretary of War thinks messages from Chaffee to War Department should go through consul at Chefoo. Were War Department messages to Chaffee, dated one August 9, two 10th, one 11th, one 12th, two 14th, one 16th, one 18th, one 21st, forwarded to him and by what means?"

I am, sir, with great respect,

Acting Secretary.

ADJUTANT-GENERAL, *Washington:*

Written report of operations up to relief of legations will be forwarded as soon as possible. Present conditions are that hostilities have practically ceased. Only occasional shots fired from cover on small party repairing telegraph line and foraging. No considerable body Chinese troops or Boxers discovered here or along line of communication. Sir Robert Hart and other long residents here believe Chinese will gather in large force about Pekin before Christmas unless Chinese Government be established soon, which will be able to check movement. We hear Li Hung Chang has full power, but he is not here. Will United States keep military force here until terms of peace are arranged? Troops now in China, about 5,000 fully effective. Sixth Cavalry, Light Battery F, Fifth Artillery, Battalions Third Artillery, Ninth Infantry, Fourteenth Infantry, 1,000 marines, I think ample force for United States unless political reason not apparent to me demands larger force. Shall take 5,000 as basis of my requirements for supplies. If troops remain must winter in tents,

and conical wall tents will be required, one tent ten men. Escort wagons, mentioned in [cablegram] of 18th, will be required immediately. Have mules for same been shipped? No more pack trains required; wagon transportation best. Water falling in river rapidly. Must soon haul supplies 40 miles. Satisfied railroad will not be required before river freezes.

Humphrey left San Francisco August 21 with complete inventories. Secretary War directs me inform you strong probability you will be withdrawn from Pekin and winter at Tientsin. Entire withdrawal from China possible; can not be decided until after diplomatic consultation, now proceeding slowly. Date and number all your dispatches in cipher in body of dispatch. 1,000 men, that will fit into bottom of Sibley stoves to burn coal. Send 750 soon as possible. Have 34 mule wagons. Require in addition 30 per 1,000. Need no more pack trains. Require forage for 1,100 horses, 250 mules. Have sent 41 Americans; remaining here 54 Americans, including minister and family. These can be sent to Tientsin short notice. Situation about as reported in cable August 28 and 29. Probable that Russian, German, French forces remain full strength; perhaps Japanese also. Taku to Pekin, Japanese, 22,000 Russian, English, German, 15th; here and to arrive, French 10, British 5, American 5. Native converts should be moved to other points, Shanghai perhaps. If all American and English troops withdrawn our missionaries seem unwilling converts remain under other circumstances; about 1,200 converts this vicinity. Must advance supplies rapidly as possible while river can be used, therefore difficult to be ready to withdraw on short notice and same time prepare to stay here. Shall order to Pekin supplies end October, also tents and clothing. Nights growing cool for men on ground. Baroness von Ketteler leaves two days, escorted by Germans; she is well. Pekin, September 16. Have now at Pekin one month's supply, and in consequence of your cable September 12 have suspended movement of supplies here pending your further advice. This suspension can not stand long [if] remain here more than a month. Water in river will gradually fail from now to end of October, rendering passage more difficult and slow and reducing carrying capacity. Do not understand from your message that it is probable we withdraw from China, but from Pekin only; therefore, if all troops now in China remain, it seems impossible to avoid occupation Pekin because of the necessity for cover, the facilities for which are greater at Pekin [than] elsewhere. To avoid further crowding Pekin, have had in mind a division of my force between Pekin, Yangtsun, Tientsin; at the latter place leaving one battalion only, because ground Tientsin low, damp, [and] unsuitable. Other commanders no instructions, but they assume ——— some at least of their troops remain Pekin during winter. I state this as indicating what is to be ascertained here, not knowing of course the action being taken by the Powers and the United States. Only one regiment Russian troops retired toward Tientsin yet moved. (Have troops of other powers done so?) Condition of Chinese some better; gardeners entering the city freely, relieving the distress prevailing some days ago. Slight resumption trade, other [conditions] very fair, rendering the situation quiet. Have inspected preparations under way at Tongku for storage of supplies. When completed will have sufficient and good for winter supplies 5,000 men at expense about $16,000. All complete by middle of November. Am anxious regarding preparations for winter and getting winter clothing to Pekin for men. Time left to accomplish all that must be done extremely short to be * * * supplies of all kinds for troops to winter at Pekin should be delivered there before end October in quantity to last all winter if possible to do it. Can deliver supplies by river to Tientsin up to middle November. On examination of ground at Yangtsun, conclude to camp Second Brigade near Tientsin. Will have to buy steam pump tank with heater and about two miles of pipe to supply water for camps. Probable expense water $1,000. Japanese moving large quantity stores to Pekin. Seeming more than needed for one month. Russian legation leaves for Tientsin 27th. Reported Russian troops withdrew from there except about 1,000, beginning 27th. Only recommendation can make is that our troops camp here and at Pekin if remain in China. Would keep at Pekin all there now if supplies can be started at once. French, German, and British troops continue to arrive. In consequence assume interests of United States require our troops remain until negotiations completed. Pekin, October 8. Current report Russia has transferred control railroad from Tientsin to Yangtsun to Germans yesterday to make repairs, assisted by other powers. Was unable to consult Count Waldersee [until] eight days ago, when called expressly to do so. He is in Tientsin. The most certain, effectual, and soonest service to Pekin would be obtained if whole road—material and machinery—were put into hands of old management. Service to the military more equitable than now, or possible, when managed by one or more military directors. Have joined Japanese and English commanders in telegram to Count Waldersee favoring restoration of road from Shan-hai-kuan to Pekin to old management, represented by Kinder, superintendent, and ask diplomatic assistance. Minister Conger has cabled. Any arrangement which will result in a business proposition, Kinder would soon have his old men at work; large quantity buried material would be removed. Rolling stock toward Shan-hai-kuan and repair machinery would be made available for use at important points where needed. Am not disposed to incur any expense for repair unless assured of fair treatment regarding service to be rendered as a right, instead of courtesy, as heretofore. Do not know what purpose in view by others in holding contract of road, but action is detrimental to efficient service and obstacle to quick repair. ADJUTANT-GENERAL, *Washington:*

October 12. Expedition about 4,000 strong leaves here for Pao-ting-fu to-day; cooperating force about 7,000 from Tientsin; ordered by Field Marshal Waldersee; purpose movement not apparent; certainly not defensive proposition in my opinion. United States troops will not participate in movement; Japanese troops from here probably move with Tientsin column, as Japanese minister is opposed to movement as being contrary instructions his government. Result is likely to postpone, for considerable time, arriving at condition for negotiation with Chinese representatives. My opinion to cause delay of negotiation is real object of expedition to Pao-ting-fu, although it is reported that there are three Belgian engineers in danger at Cheng-ting-fu, which is 50 miles south of Pao-ting-fu. Two American officers accompany expedition. There is unconfirmed report that Li Hung Chang has ordered Chinese troops to withdraw Pao-ting-fu if any foreign troops approach place. Have not heard of any hostile Chinese movement or force of any consequence for a month. All such reported have been found on examination to amount to practically nothing. Occasional shots are fired, if not at, to frighten foraging parties of two or three men by villagers. Do not hear of soldiers being killed or wounded by these real or supposed Boxers. Order has gradually improved along our line communication since indiscriminate firing by troops has been stopped. In Pekin Chinese are very orderly; returning to business where protected, notably in Japanese and American section.

Under my instructions, August 23, I can not take part in any movement which, in my judgment, has tendency to promote rather than allay hostilities and unquiet in surrounding country. Have not placed my force under orders of field marshal for reason that from my instructions United States does not wish its troops to engage in offensive work. Li Hung Chang arrived Pekin yesterday; he calls on me this afternoon. Have ordered Humphrey to Shan-hai-kuan to effect arrangements for landing stores there during winter if necessary. Our winter stores, arrangements for quartering and sheltering troops promptly arriving in Tung-chow.

The SECRETARY OF WAR.

SIR: Referring to the communication of November 10 of the Adjutant-General of the War Department to this Department, inclosing a copy of a cable message received from General Chaffee concerning the use of the *New Orleans* for mail boat during the winter, this Department finds it practicable to order the *New Orleans* to carry the mails between Shan-hai-kuan and Chefoo until other arrangements be made, and deems that arrangement more satisfactory and economical than to have her go to Nagasaki for a similar purpose. It is understood that mails are received at Chefoo with sufficient frequency to make this arrangement as satisfactory as if the *New Orleans* were to proceed to Nagasaki, for in case she were to proceed to Nagasaki the length of the trip to go and return would prevent a very frequent service.

If the War Department accepts this suggestion the Department will issue the necessary orders.

His plan evident corner coined silver, all of which must be imported. Chief surgeon recently lost 10½ per cent, and rate constantly raising. Paymaster should be prepared to pay in gold to meet requirements law, and as protection to officers and men against extortion, exchange at once for Mexican two for one, which understand is value now in Manila, thus making same gold available for next and subsequent payments. Fifty thousand gold and two hundred fifty thousand Mexican, with plenty Mexican fractional currency, required to protect interests. Paymaster should be prepared to issue check also, if desired. Unless above method be adopted I fear our gold will be forced nearly to value of Mexican silver before spring. Demands other nations quite as great as ours, and bank hoards Mexican to enhance value. No doubt of putting railroad, excepting bridge, in order if were in hands of English. Was informed by Reid international pier costing $200,000 to be built Ching-wan-tao; intention to build pier by Christmas, extending it to 14 feet water; my opinion pier will not be built by that time, and fear pier will not stand unless built and protected in substantial manner; not possible this season year. Informed General Reid we desired to share due proportion expense construction pier for reception mails, etc. Shan-hai-kuan not even roadstead, and Ching-wan-tao little better, but ice at latter place has not, in past season, prevented landing Chinese mails, whence it is carted to railroad 6 miles distance for dispatch Tientsin, Pekin. Mr. Drew, chief customs and imperial posts Tientsin, informed me will be impossible for him to land our mail Ching-wan-tao, but he will establish station there and maintain surfboat for landing mails and Chinese cart transfer [it] to railroad and over break

in same. Mail, American force, China, should be sent Shanghai for Chinese imperial mail, to be transferred from Shanghai to Chefoo. Imperial posts intend send two mail per week Chefoo, Ching-wan-tao; other nations will look after transportation their own mail to latter point, and better United States charter vessel for that purpose and other necessary work between Ching-wan-tao, Nagasaki, in which case, necessary construct station Ching-wan-tao with six months' supply, post-office and quartermaster agent and supply surfboat with crew, and messenger transporting mails to railroad. Recommends that chartered vessel run between Nagasaki, Ching-wan-tao; vessel 14 feet draft, loaded 8 or 9 feet, light, 11.012 or 12 knots speed, with accommodations few first-class passengers. Informed such vessel can be secured Shanghai or Hongkong. If we could get mails with regularity to Chefoo think steamer would carry them from there Ching-wan-tao, but can not estimate cost now, in which case we still obliged maintain postal station Ching-wan-tao with facilities landing and caring for our own mails. Reported Russians leaving and British to have control railroad; if this be fact, problem delivery mail after landed easily solved. End report. Wish our mail sent Nagasaki and semimonthly service, by our own vessel there, to Ching-wan-tao. ORGANIZATION OF THE ARMY

DURING THE

WAR WITH SPAIN,

1898.

THE ORGANIZATION OF THE ARMY DURING THE SPANISH-AMERICAN WAR.

By section 9 of the act approved April 22, 1898 (General Orders, No. 30, 1898), it was provided "That in time of war, or when war is imminent, the troops in the service of the United States, whether belonging to the Regular or Volunteer Army or to the militia, shall be organized, as far as practicable, into divisions of three brigades, each brigade to be composed of three or more regiments; and whenever three or more divisions are assembled in the same army the President is authorized to organize them into army corps, each corps to consist of not more than three divisions."

Under date of May 7, 1898, by direction of the President (General Orders, No. 36, 1898), seven army corps, comprising both the regular and volunteer branches of the Army, were constituted, to be numbered successively from one to seven; their several headquarters and the location thereof, as well as the generals appointed to command them, to be announced in orders thereafter.

On April 15, 1898, the regiments of the Regular Army, with few exceptions, were ordered to proceed to designated points in the South—namely, Chickamauga, Ga.; New Orleans, La.; Mobile, Ala., and Tampa, Fla.

On April 23, 1898, the troops assembled in the Chickamauga National Park, which had been designated Camp George H. Thomas, were constituted a provisional army corps, under the command of Maj. Gen. John R. Brooke, U. S. Army.

Under date of May 16, 1898 (General Orders, No. 46, 1898), and agreeably with the orders of the President of May 7, the troops in the Department of the Gulf were constituted the First Army Corps, under the command of Maj. Gen. John R. Brooke, U. S. Army; Maj. Gen. William M. Graham, U. S. Volunteers, was assigned to the command of the Second Corps, with headquarters at Falls Church, Va.; Maj. Gen. James F. Wade, U. S. Volunteers, to the Third Corps, with headquarters at Chickamauga, Ga; Maj. Gen. John J. Coppinger, U. S. Volunteers, to the Fourth Corps, Mobile, Ala.; Maj. Gen. William R. Shafter, U. S. Volunteers, to the Fifth Corps, Tampa, Fla.; Maj. Gen. James H. Wilson, U. S. Volunteers, to the Sixth Corps, at Chickamauga, Ga; Maj. Gen. Fitzhugh Lee, U. S. Volunteers, to the Seventh Corps, at Tampa, Fla. On June 21, 1898 (General Orders, No. 73, 1898), the forces comprising the Philippine expedition, under the command of Maj. Gen. Wesley Merritt, U. S. Army, were constituted the Eighth Corps.

FIRST ARMY CORPS.

This corps was made up of the troops assembled in the provisional army at Camp George H. Thomas, Chickamauga Park, Ga., and Maj. Gen. John R. Brooke, U. S. Army, assigned to command by orders of May 1, 1898, assuming command May 16. He was relieved by Maj. Gen. James F. Wade, U. S. Volunteers, July 23, 1898, and the latter by Brig. Gen. R. T. Frank, U. S. Volunteers, who retained command until the arrival of Maj. Gen. J. C. Breckinridge, U. S. Volunteers, August 2, 1898.

In July, 1898, the First Division, under Maj. Gen. James H. Wilson, U. S. Volunteers, was detailed for duty in Porto Rico, and on August 21 and 22 the Second Division was sent to Lexington, Ky., and the Third to Knoxville, Tenn., General Breckinridge establishing his headquarters at Lexington.

On October 20, 1898, Maj. Gen. James H. Wilson relieved General Breckinridge of the command of reorganized First Corps (see General Orders, No. 163, 1898), and the troops were moved to camps in the South, General Wilson making his headquarters at Macon, Ga., the distribution being as follows:

FIRST DIVISION.

Headquarters at Macon, Ga.

First Brigade, Atlanta, Ga.: Thirty-first Michigan, Fourth Tennessee, and Sixth Ohio.

Second Brigade, Macon, Ga.: Third U. S. Volunteer Engineers, Second Ohio, and Sixth Virginia.

Third Brigade, Macon, Ga.: Tenth U. S. Volunteer Infantry and Seventh U. S. Volunteer Infantry.

SECOND DIVISION.

Headquarters at Columbus, Ga.

First Brigade, Columbus, Ga.: First West Virginia, One hundred and sixtieth Indiana, and Third Kentucky.

Second Brigade, Americus, Ga.: Eighth Massachusetts, Twelfth New York, and Third North Carolina.

Third Brigade, Albany, Ga.: Second Missouri, Third Mississippi, and First Territorial U. S. Volunteer Infantry.

By orders of the War Department dated December 30, 1898, General Wilson was ordered to prepare certain of his command, including his headquarters, for service in Cuba. He sailed from Savannah January 7, 1899, arrived at Matanzas, Cuba, January 10, and the remainder of the corps, with the exception of those regiments mustered out of service, were, during the latter part of December, 1898, and January, 1899, distributed in the provinces of Matanzas and Santa Clara.

By General Orders, No. 8, January 16, 1899, the First Corps was discontinued, and the few troops remaining in the United States belonging to that corps were assigned as separate brigades of the Second Army Corps.

The following was the organization at the end of each month:

SECOND ARMY CORPS.

This corps was made up of the troops assembled at Falls Church, Va., to which Maj. Gen. William M. Graham, U. S. Volunteers, was assigned by orders of May 16, 1898 (General Orders, No. 46, 1898), assuming command May 23, 1898, and announcing the official designation of the camp as Camp Russell A. Alger (General Orders, No. 1, Second Army Corps, May 23, 1898).

By orders of the following day the troops on duty at this point were organized into a First Division composed of three brigades, as hereinafter described; three remaining regiments remained unattached and reported to corps headquarters.

By orders of May 29, 1898 (General Orders, No. 7, Second Army Corps), the Second Division was organized, composed of three brigades of three regiments each, and by orders of June 9, 1898 (General Orders, No. 17, Second Army Corps), the Ninth Massachusetts Volunteer Infantry and Thirty-third and Thirty-fourth Michigan Volunteer Infantry were constituted a separate brigade.

The Third Division was never fully organized. On June 7, 1898, Brig. Gen. Francis L. Guenther, U. S. Volunteers, was assigned to command, but never exercised it.

On June 9 the separate brigade was assigned as the First Brigade, Third Division, and on August 2, 1898, a Second Brigade was organized composed of the First Connecticut Volunteer Infantry and the Third Virginia Volunteer Infantry. The First Brigade left Camp Alger for Santiago de Cuba, June 22 and 24, and the troops of the Second Brigade were returned to their states for muster out September 7 and 8.

It having been determined in the latter part of July to discontinue Camp Alger, a new site for a camp was selected near Middletown, Pa., which was designated Camp George Gordon Meade. The Second Division of the corps commenced to move about August 2, and early in September the remainder of the corps had left Camp Alger and were located at Middletown.

General Graham was relieved November 2, 1898, by Maj. Gen. Samuel B. M. Young, U. S. Volunteers, and the troops were moved to camps in the South, General Young making his headquarters at Augusta, Ga., the distribution being as follows:

FIRST DIVISION.

Headquarters at Augusta, Ga.

First Brigade, Augusta, Ga.: Tenth Ohio, First Maryland, and Thirty-fifth Michigan.

Second Brigade, Summerville, S. C.: Fourteenth Pennsylvania, Third Connecticut, and Ninth Ohio (battalion).

Third Brigade, Augusta, Ga.: Thirteenth Pennsylvania, Eighth Pennsylvania, and Fifteenth Minnesota.

SECOND DIVISION.

Headquarters at Greenville, S. C.

First Brigade: Two hundred and third New York, Second West Virginia, and Fourth New Jersey.

Second Brigade, Spartanburg, S. C.: Fourth Missouri, Fifth Massachusetts, and Two hundred and first New York.

Third Brigade, Columbia, S. C.: First Rhode Island, Second Tennessee, and First Delaware.

THIRD DIVISION.

Headquarters at Athens, Ga.

First Brigade, Athens, Ga.: Fifteenth Pennsylvania, Third New Jersey, and Two hundred and second New York.

Second Brigade, Athens, Ga.: Third Georgia and Twenty-second New York.

By orders of the War Department dated November 4, 1898 (General Orders, No. 176, 1898), the Second Army Corps was directed to hold itself in readiness to proceed to the island of Cuba, with headquarters at Habana; First and Second Divsions at Habana; Third Division at Mariel.

This order for service in Cuba was not carried out, and by General Orders, No. 8, January 16, 1899, the troops at Macon, Ga., and the troops at Albany, Ga., were made a separate brigade of the Second Corps, under the command of Brig. Gen. William J. McKee, U. S. Volunteers; and the Second U. S. Infantry, Third Alabama, Second Arkansas, and Fourth Wisconsin Volunteers, a separate brigade of the Second Army Corps, under the command of Brig. Gen. Royal T. Frank, U. S. Volunteers.

By General Orders, No. 21, February 1, 1899, the Second Army Corps was ordered to be reorganized and consolidated into two camps, one at Augusta, Ga., and one at Greenville, S. C., the corps to consist of three separate brigades.

General Young remained in command until May 3, 1899, when, by General Orders, No. 87, of that date, the Second Corps was discontinued, all of its subdivisions having been disbanded.

The following was the organization at the end of each month:

May 31, 1898.

THIRD ARMY CORPS.

This corps was made up of the troops assembled in the provisional army at Camp George H. Thomas, Chickamauga Park, and by General Orders, No. 46, May 16, 1898, Maj. Gen. James F. Wade, U. S. Volunteers, was assigned to its command, which he assumed May 26, 1898.

The corps consisted of two divisions, the First under the command of Brig. Gen. Louis H. Carpenter, U. S. Volunteers, and the Second under the command of Brig. Gen. Charles E. Compton, U. S. Volunteers.

The First Division consisted of three brigades; the First under the command of Brig. Gen. Frederick D. Grant, U. S. Volunteers; the Second, Col. Charles S. Bills, Second Nebraska Volunteer Infantry; and the Third, Col. Osmond D. Clark, First Vermont Volunteer Infantry.

The Second Division also had three brigades; the First, under the command of Col. Elias Chandler, First Arkansas Volunteer Infantry; the Second, Col. Milton Moore, Fifth Missouri Volunteer Infantry; and the Third, Col. Lucius Kendall, First Maine Volunteer Infantry.

On June 1, 1898, the First and Second brigades of the First Division, and the Second Brigade of the Second Division, were disintegrated by the departure of the greater portion of their strength for Tampa, Fla., to join the Santiago expedition, then under course of organization.

July 30, 1898, the Sixth U. S. Volunteer Infantry reported for duty with the First Division, and was assigned to the Second Brigade.

July 31, General Wade relinquished command of the troops assembled at Camp Thomas to Brig. Gen. Royal T. Frank, U. S. Volunteers, who, upon the arrival of Maj. Gen. Joseph C. Breckinridge, U. S. Volunteers, August 2, assumed command of the Third Corps, to which he was assigned, by direction of the President, September 4, 1898.

The operations of this corps during its two and one-half months' service at Chickamauga Park were limited to completing its equipment, instruction, drill, and training.

By orders of August 28, 1898, the corps was ordered to move its camp from Chickamauga Park to Anniston, Ala., but by the time it was fully under way for its new camp it had been reduced to a very few regiments, the rest having been ordered home for muster out, and those remaining were consolidated into a first division.

The Third Army Corps was discontinued by General Orders, No. 163, October 7, 1898, and such of its regiments as had not been mustered out were transferred to the Fourth Corps.

The following was the organization at the end of each month:

May 31, 1898.

FOURTH ARMY CORPS.

This corps was made up of the troops assembled at Mobile, Ala., under telegraphic instructions of April 15, 1898, and which, by General Orders, No. 25, April 23, 1898, had been designated the First Independent Division under the command of Brig. Gen. John J. Coppinger, U. S. Army, who arrived at Mobile, April 19, 1898, where the organization of the corps was begun. By General Orders, No. 46, May 16, 1898, General Coppinger had been appointed major-general, U. S. Volunteers, and was assigned to the command of the Fourth Corps; and there was but one division, to which Brig. Gen. John C. Bates, U. S. Volunteers, was assigned to command, composed of two brigades, each of two regiments of U. S. Infantry, a third brigade, composed of the First and Second Texas and the First Alabama, and a cavalry brigade, composed of regular cavalry, under the command of Maj. Henry E. Noyes, Second U. S. Cavalry.

During the month of June the corps was moved from Mobile to Tampa, Fla.; on June 20 the First Division changed station from Mobile to Miami, Fla., and on the 27th of that month it was transferred to the Seventh Army Corps, and a Second and Third Division were formed; the Second under the command of Brig. Gen. Simon Snyder, U. S. Volunteers, the First Brigade being composed of the Eleventh and Nineteenth U. S. Infantry, the Second Brigade of the Second New York, First District of Columbia, and Fifth Maryland, and the Third Brigade of the First Ohio, Third Pennsylvania, One hundred and fifty-seventh Indiana, and First Illinois; the Third under the command of Brig. Gen. Jacob Kline, U. S. Volunteers, composed of two brigades, the First comprising the First Florida, Fifth Ohio, and Thirty-second Michigan, and the Second of the Second Georgia, Third Ohio, and Sixty-ninth New York.

During the month of July the Second Division was increased by the Fifth U. S. Infantry to the First Brigade, the First Florida and Second Georgia to the Second Brigade; the Second New York being transferred to the Third Division. During this month the regular regiments of the corps assembled at Tampa were embarked with General Shafter's expedition, and the troops remaining were moved to Fernandina, Fla., commencing July 20.

On August 11 the corps was ordered to Huntsville, Ala., and General Coppinger having been retired from the Army, Maj. Gen. Joseph Wheeler, U. S. Volunteers, was designated to command the corps, October 13, 1898, serving with it until December 3, 1898.

On the 21st of October, 1898, the corps was reorganized under the command of Maj. Gen. Joseph Wheeler, U. S. Volunteers, there being two divisions; the First

under the command of Brig. Gen. Robert H. Hall, U. S. Volunteers, composed of the First, Eighth, Tenth, Fifteenth, and Sixteenth U. S. Infantry, Sixty-ninth New York, and First Florida; the Second under the command of Brig. Gen. Royal T. Frank, U. S. Volunteers, composed of the Second U. S. Infantry, Third Alabama, Second Arkansas, Fourth Kentucky, Third Tennessee, and Fourth Wisconsin.

In November Maj. Gen. Adna R. Chaffee relieved General Hall from the command of the First Division, and on December 14, 1898, General Wheeler was relieved by Brig. Gen. Abraham K. Arnold, U. S. Volunteers, who, on the 20th of that month, was relieved by Maj. Gen. Henry W. Lawton, U. S. Volunteers, who retained command until December 29, when the command devolved upon Brig. Gen. Royal T. Frank, U. S. Volunteers, the senior officer present, and the headquarters were moved to Anniston, Ala.

By General Orders, No. 8, January 16, 1899, the Fourth Corps was discontinued; the Second U. S. Infantry, Third Alabama, Second Arkansas, and Fourth Wisconsin being constituted a separate brigade of the Second Army Corps under the command of General Frank.

FIFTH ARMY CORPS.

By telegraphic orders of April 15, 1898, for the assembling on the Gulf coast of all available regular troops, the Fourth, Fifth, Sixth, Ninth, Thirteenth, Seventeenth, and Twenty-first regiments of infantry were ordered to proceed to Tampa, Fla., and Brig. Gen. James F. Wade, U. S. Army, assigned to their command. Subsequently (April 29) Brig. Gen. William R. Shafter, U. S. Army, who had been assigned to command of the troops at New Orleans, was directed to proceed to Tampa and assume command of all troops at that point.

By telegraphic orders of May 10, 1898, General Brooke was directed to send from Chickamauga to Tampa the Second, Seventh, Eighth, Twelfth, and Sixteenth regiments of infantry.

On May 15 the Seventy-first New York and Second Massachusetts Infantry were ordered to join the troops at Tampa, and by General Orders, No. 46, of the following day (May 16) the troops at Tampa were constituted the Fifth Army Corps and Maj. Gen. William R. Shafter, U. S. Volunteers, assigned to command. Between that date and the 25th of that month the troops at Tampa had been increased by the First, Third, Sixth, Ninth, and Tenth regiments of cavalry, 10 batteries of light artillery, 4 batteries of heavy artillery, 2 companies of engineers, and the following volunteers: Second Illinois, Second Wisconsin, First North Carolina, Fifth Iowa, Thirty-second Michigan, Third Ohio, Second Georgia, and Fifth Ohio; a total strength of approximately 1,061 officers and 16,482 enlisted men. On the afternoon of June 7 the command was reenforced by the Fifth Cavalry and Eleventh and Nineteenth Infantry.

By telegraphic orders of May 31 General Shafter was directed to proceed with his command on transports to the vicinity of Santiago de Cuba, and on June 8, preparatory to departure, the transports were loaded with the following troops: First, Second, Third, Fourth, Sixth, Seventh, Eighth, Ninth, Tenth, Twelfth, Thirteenth, Sixteenth, Seventeenth, Twentieth, Twenty-first, Twenty-second, and Twenty-fourth regiments of infantry, two dismounted squadrons of four troops each from the First, Third, Sixth, Ninth, and Tenth U. S. Cavalry, and First U. S. Volunteer Cavalry, one squadron Second Cavalry, light batteries E and K, First Artillery; A and F, Second Artillery; heavy batteries G and H, Fourth Artillery; Companies C and E, Engineers; Seventy-first New York and Second Massachusetts, making a grand total of 773 officers and 14,564 enlisted men, but it was not until June 14 that the movement commenced, at which time the strength of the command had been increased to 815 officers and 16,072 enlisted men.

On the morning of the 22d of June the Army commenced to disembark at Daiquiri, province of Santiago, Cuba; it was continued during the day and night of the 23d, and by the evening of the 24th the disembarkation of the command was practically completed.

On June 23 the Thirty-third Michigan and one battalion of the Thirty-fourth Michigan sailed from Newport News, followed on the 26th by the other two battalions of the Thirty-fourth Michigan and the Ninth Massachusetts. On June 30 the First Illinois Infantry sailed from Tampa to join the command at Santiago, followed on July 3 by the First District of Columbia Volunteer Infantry; and the Sixth Massachusetts and Sixth Illinois sailed from Charleston, S. C., on the 8th and 10th, respectively

The command participated in engagements at Las Guasimas, June 24, El Caney July 1, San Juan, July 1–3, Santiago, July 3; after which it moved forward to the city of Santiago, which surrendered on July 17.

Owing to the prevalence of disease, which affected the whole Army, it was decided to withdraw the troops to the United States; and Montauk Point, Long Island, having been decided upon as a rendezvous, the return was commenced August 7 and completed by August 24, when General Shafter with his staff sailed for the United States.

The Fifth Army Corps was discontinued by General Orders, No. 163, October 7, 1898.

May 31, 1898.

August, 1898	1,109	20,761
September, 1898	218	5,136

[NOTE.—The Sixth Army Corps was never organized.]

SEVENTH ARMY CORPS.

The Seventh Army Corps was organized May 27, 1898, at Tampa, Fla., from the Third and Fifth Ohio, Second Georgia, First Florida, and Thirty-second Michigan Volunteers, then in camp at Palmetto Beach, Tampa, Fla., and the First North Carolina, Second and Fourth Illinois, First Wisconsin, and Fiftieth Iowa Volunteers, then in camp at Jacksonville, Fla., Maj. Gen. Fitzhugh Lee, U. S. Volunteers, having assumed command on the preceding day, and in accordance with General Orders, No. 46, A. G. O., 1898, the troops at Tampa were constituted the First Division, under the command of Brig. Gen. Guy V. Henry, U. S. Volunteers, with two brigades; the troops at Jacksonville were made the Second Division, under the command of Brig. Gen. Abraham K. Arnold, U. S. Volunteers, also of two brigades. General Lee having been authorized to establish his headquarters at Jacksonville, the corps removed to that place May 21, with the exception of the First Division, which remained at Tampa.

During the month of June, 1898, the corps was increased by the arrival of the Second New Jersey Volunteers, which was assigned to the First Brigade of the Second Division, and by the Second and Fourth Virginia, and Forty-ninth Iowa Volunteers, which were made a Third Brigade of the Second Division, under the command of Brig. Gen. Henry C. Hasbrouck, U. S. Volunteers. At the same time the First Division was transferred to the Fourth Army Corps and its place taken by the First Division, Fourth Army Corps, Brig. Gen. Theodore Schwan, U. S. Volunteers, then at Miami, Fla., composed of the First Alabama, First Louisiana, First Texas, forming the First Brigade, under the command of Brig. Gen. Loyd Wheaton, U. S. Volunteers; the Second Alabama, Second Louisiana, and Second Texas, the Second Brigade, under the command of Brig. Gen. William W. Gordon, U. S. Volunteers. This division was later (July 31) transferred from Miami to Jacksonville. The Third Division was organized under the command of Brig. Gen. Lucius F. Hubbard, U. S. Volunteers, composed of the Second Mississippi, Third Nebraska, First South Dakota, and Second U. S. Volunteer Cavalry.

During the month of August, 1898, the corps was increased by the assignment of the Fourth U. S. Volunteer Infantry, and Second New Jersey Volunteers, the former

to the First Division and the latter to the Second Division, and the One hundred and sixty-first Indiana, First South Carolina, and Sixth Missouri to the Third Division.

On October 8, 1898, orders were issued to move the corps to Savannah after suitable camps had been prepared, and subsequently by General Orders, No. 171, October 21, 1898, the corps was reorganized: The First Division, Brig. Gen. Loyd Wheaton, U. S. Volunteers, made up of the First Texas, Second Louisiana, and Third Nebraska (First Brigade); Ninth Illinois, Second South Carolina, and Fourth Illinois (Second Brigade). The Second Division, Maj. Gen. Francis V. Greene, U. S. Volunteers, One hundred and sixty-first Indiana, Second Illinois, and First North Carolina (First Brigade); the Fourth Virginia, Forty-ninth Iowa, and Sixth Missouri (Second Brigade), and the Seventh and Eighth U. S. Cavalry, forming a cavalry brigade.

By General Orders, No. 184, December 13, 1898, General Lee, with the Seventh Corps, was assigned to the immediate command of all troops in the province of Habana. General Lee arrived at Habana December 14, and during the months of December and January all of the Seventh Corps, as above constituted, was embarked from Savannah on transports for Cuba and distributed in the province of Habana; the first division under the command of Maj. Gen. J. Warren Keifer, U. S. Volunteers, and the second under the command of Brig. Gen. Abraham K. Arnold, U. S. Volunteers.

The volunteer troops having been mustered out of service by General Orders, No. 87, May 3, 1899, and all the divisions thereof having been disbanded, the Seventh Army Corps was discontinued.

EIGHTH ARMY CORPS.

The destruction of the Spanish fleet in the harbor of Manila, P. I., having created in that quarter of the globe unforeseen conditions consequent upon the war with Spain, and the inability of the naval commander to hold the city of Manila, were possession to be at once secured, the most available troops then on the Pacific coast were ordered to Manila.

On May 25, 1898, the First California, Second Oregon, battery of California Artillery, and five companies of the Fourteenth U. S. Infantry, all under the command of Brig. Gen. Thomas M. Anderson, U. S. Volunteers, sailed on the *Australia*, *City of Pekin*, and *City of Sydney*, followed on June 15 by the Tenth Pennsylvania, First Colorado, First Nebraska, four companies Eighteenth and four companies Twenty-third U. S. Infantry, and Batteries A and B, Utah Artillery, on the *China*, *Zealandia*, *Colon*, and *Senator*, under the command of Brig. Gen. Francis V. Greene, U. S. Volunteers; and by General Orders, No. 73, June 21, 1898, all of the troops comprising the Philippine expedition were constituted the Eighth Army Corps, under the command of Maj. Gen. Wesley Merritt, U. S. Volunteers, who sailed on June 29 on the *Newport* and arrived at Manila July 25, 1898. With the expedition under the command of General Merritt was sent the First North Dakota, Thirteenth Minnesota, First Iowa, First Wyoming, Astor Battery, four companies Eighteenth and four companies Twenty-third U. S. Infantry, and four batteries Third U. S. Artillery, also Company A, Engineer Battalion.

On the arrival of General Merritt these troops were organized into two divisions; the first under the command of Brig. Gen. Thomas M. Anderson, U. S. Volunteers, and the second under Brig. Gen. Arthur MacArthur, and although the corps was increased in strength by subsequent accessions, it remained with two divisions during its existence.

Major-General Merritt sailed for the United States on August 30, 1898, and was relieved by Maj. Gen. Elwell S. Otis, U. S. Volunteers, and on the return to the United States of General Anderson he was succeeded by Maj. Gen. Henry W. Lawton, U. S. Volunteers, in command of the First Division, and on the death of the latter in action at San Mateo, P. I., December 19, 1899, by Brig. Gen. Robert H. Hall, U. S. Volunteers, and the latter in January, 1900, by Maj. Gen. John C. Bates, U. S. Volunteers.

The two divisions of the Eighth Army Corps, as a rule, consisted of two brigades each; a third brigade was made for both divisions in March, 1899, and in January, 1900, a fourth brigade was added to the Second Division.

By General Orders, No. 49, April 13, 1900, the Eighth Army Corps was discontinued.

The following was the organization at the end of each month:

HEADQUARTERS OF THE ARMY,
Washington, D. C., May 3, 1898.

The Honorable, the SECRETARY OF WAR.

SIR: I have the honor to recommend that Gen. Thomas M. Anderson be sent to occupy the Philippine Islands, in command of the following troops: Two battalions Fourteenth Infantry; two troops Fourth Cavalry; one regiment of infantry, California Volunteers; two batteries heavy artillery, California Volunteers; one regiment of infantry, Oregon Volunteers; one regiment of infantry, Washington Volunteers; the troops to go with all the necessary appliances, supplies, and equipment.

Very respectfully,

NELSON A. MILES,
Major-General Commanding U. S. Army.

EXECUTIVE MANSION, *Washington, May 4, 1898.*

The troops designated by General Miles, if approved by the Secretary of War, should be assembled at San Francisco, Cal., for such service as may be ordered hereafter.

W. McK.

The above is only carrying out verbal instructions heretofore given.

To the SECRETARY OF WAR.

VANCOUVER BARRACKS, WASH., *May 7, 1898.*
(Received 2.50 p. m.)

ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

Band, Companies C, D, E, and F, Fourteenth Infantry, Major Robe commanding, leave to-night for San Francisco. Oregon and Washington Volunteers will be forwarded there by battalions as fast as mustered.

MERRIAM, *Brigadier-General.*

WAR DEPARTMENT, PAYMASTER-GENERAL'S OFFICE.
Washington, May 10, 1898.

The ADJUTANT-GENERAL OF THE ARMY.

SIR: I have the honor to request that Maj. C. H. Whipple and Maj. C. E. Kilbourne, paymasters, be relieved by telegraph from their station at Portland, Oreg., and ordered to proceed to San Francisco and thence to the Philippine

Islands with the expedition now being organized; also that Maj. J. S. Witcher, paymaster, be relieved by telegraph from duty at San Francisco and ordered to Portland, Oreg., for duty as chief paymaster.

Very respectfully,

T. H. STANTON,
Paymaster-General U. S. Army.

ADJUTANT-GENERAL'S OFFICE,
Washington, May 10, 1898.

Maj. C. H. WHIPPLE, *Paymaster:*

(Through Headquarters Department Columbia, Vancouver, Wash.)

You are relieved from duty at Portland, Oreg., by the Secretary of War, who directs, as necessary for public service, that you proceed to San Francisco, Cal., and report in person for duty to the commanding officer of the expedition now being organized to proceed to the Philippine Islands, and that you accompany that expedition.

By command of Major-General Miles:

SCHWAN, *Assistant Adjutant-General.*

(Same as above to Maj. C. E. Kilbourne.)

ADJUTANT-GENERAL'S OFFICE,
Washington, May 10, 1898.

Maj. J. S. WITCHER, *Paymaster:*

(Through Headquarters Department California, San Francisco, Cal.)

You are relieved from duty at San Francisco by the Secretary of War, who directs, as necessary for the public service, that you proceed to Portland, Oreg., and report by letter to the commanding officer, Department Columbia, for duty as chief paymaster of that department.

By command of Major-General Miles:

SCHWAN, *Assistant Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, May 11, 1898.

General OTIS, *Denver, Colo.:*

General Merritt has been assigned to the command of an expedition for the Philippine Islands. It will consist of two and possibly three divisions, which will be designated as the First Army Corps. The question of assignment of general officers is now under consideration, and the Secretary of War bids me say that if agreeable you will be sent second in command. Your pleasure in premises desired at earliest possible moment. Please acknowledge receipt.

H. C. CORBIN, *Adjutant-General.*

DENVER, COLO., *May 11, 1898.*
(Received 10.35 p. m.)

The ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

Am prepared to respond to any assignment which authorities may make. This in reply to telegram of this date concerning proposed expedition to Philippine Islands.

OTIS, *Major-General, U. S. Volunteers.*

WAR DEPARTMENT, ADJUTANT-GENERAL'S OFFICE,
Washington, May 12, 1898.

Maj. Gen. WESLEY MERRITT, U. S. Army,
Commanding Department of the East,
Governors Island, New York Harbor.

SIR: On being relieved from the command of the Department of the East, by direction of the President you are assigned to the command of the expedition being sent to the Philippine Islands. You will repair to San Francisco, Cal., and assume command of and organize troops assembling there. You will be accompanied by your authorized aids. General staff officers will be assigned you hereafter. The travel enjoined is necessary for the public service.

Very respectfully,

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, May 12, 1898.

General OTIS, *Denver, Colo.:*

Secretary War directs that you repair to San Francisco, and until General Merritt arrives there, that you assume command of all troops assembling at that place and to assist in their organization and equipment as rapidly as possible. It is uncertain as to time that General Merritt will arrive, but as you are near, it is suggested, agreeable to your telegram of last night, that you proceed at once. General Merritt is now here, and is gratified that you are willing to go with him.

H. C. CORBIN, *Adjutant-General.*

NAVY DEPARTMENT,
Washington, May 12, 1898.

SIR: Referring to your letter of the 11th instant, concerning the steamship *City of Pekin* to be used for transporting troops and stores to the Philippine Islands, I have to transmit herewith the following copy of a telegram, dated the 11th instant, received in this Department from the commandant of the navy-yard, Mare Island, Cal.:

"Provision can be made for 1,200 men and 75 officers, including naval contingent, two officers in a room; allowance also made for camp equipage and rations for troops for six months. Weights will be as follows: Coal, 2,000 tons; officers, men, camp equipage, and six months' rations, 700 tons; leaving 1,300 tons for ammunition, stores, and other naval supplies. If troops are to be sent away, quartermaster should make immediate arrangement for same, as at least four days will be required to fit bunks.

KIRKLAND."

This Department is desirous of expediting the departure of the *City of Pekin* as much as possible. She will be convoyed by the cruiser *Charleston*, and will probably be the first vessel to arrive at the Philippine Islands. I have the honor to request that you inform me, at the earliest possible date, how many men your Department desires to send by this vessel, and also what date they will be ready to embark, and I have also to request that the earliest practicable date be fixed for the embarkation of these men.

Very respectfully,

JOHN D. LONG, *Secretary.*

The Honorable, the SECRETARY OF WAR.

ADJUTANT-GENERAL'S OFFICE,
Washington, May 12, 1898.

COMMANDING GENERAL, DEPARTMENT COLUMBIA,
Vancouver Barracks, Wash.:

The steamer *City of Pekin* has been chartered for use in carrying troops and freight to the Philippine Islands. She will sail from either Portland or Seattle direct for the Philippines, and has accommodations for 1,200 men and 75 officers. Could either the Washington or the Oregon regiment be put in readiness to take advantage of this transportation, say, within six or ten days; or, in brief, how soon could they go? Acknowledge receipt.

H. C. CORBIN, *Adjutant-General.*

WAR DEPARTMENT,
Washington, May 12, 1898.

Mr. SECRETARY:

Referring to my request, as approved by the President and yourself in conversation this morning, I desire to have organized one battery of six Hotchkiss mountain guns, manned by the selection of 100 noncommissioned officers and men from the Eighth United States Cavalry, now stationed at Forts Meade, Robinson, and Washakie, who have had experience in handling and packing this peculiar weapon, with First Lieutenant Farrand Sayre, Eighth United States Cavalry, to command.

With great respect, your obedient servant,

W. MERRITT, *Major-General.*

The Honorable, the SECRETARY OF WAR.
(Through the Adjutant-General.)

PHILADELPHIA, PA., *May 12, 1898.*
(Received 7.42 p. m.)

The ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

Please telegraph me the present address of General Otis.

MERRITT, *Major-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, May 12, 1898.

General MERRITT, *Governors Island, New York Harbor:*

General Otis is at Denver, Colo.

GOVERNORS ISLAND, N. Y., *May 13, 1898.*
(Received 11 a. m.)

ADJUTANT-GENERAL ARMY, *Washington, D. C.:*

Please hold the order relieving me here till I have a chance to communicate with the Secretary of War, for the present.

W. MERRITT,
Major-General Commanding.

ADJUTANT-GENERAL'S OFFICE,
Washington, May 13, 1898.

Maj. Gen. JOHN R. BROOKE,
Chickamauga Park, Battlefield Station, Ga.:

With approval Secretary War Major-General Commanding directs that you cause to be shipped six Hotchkiss mountain guns, with everything complete, including sufficient amount of ammunition for each gun, to the depot quartermaster, San Francisco, for use of General Merritt's command,

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, May 13, 1898.

General MERRIAM,
Commanding Department Columbia, Vancouver Barracks, Wash.:

Secretary War is anxious to have reply to my telegram last night concerning troops for the *City of Pekin*. Yesterday the President assigned General Merritt to the command of expedition to the Philippines. Major-General Otis will go second in command. It is desired that you lend every assistance possible to the commanding generals of the two departments, and the authority given you heretofore in connection with organization of volunteers, to hasten the outfit of this expedition. It is now thought that it will probably consist of about 12,000 men, or one army corps. The Quartermaster's, Ordnance, and Subsistence departments have been directed to assemble in San Francisco sufficient stores to meet the demands of volunteers, who are not expected to arrive in anything like complete working order. The Thirteenth Minnesota left last night. Barring want of some articles of clothing, they are in fairly good condition. The General Commanding the Army would like for you to repair to San Francisco soon as possible and give the organization of these troops your personal attention. any way until the arrival of Generals Merritt and Otis, and then cooperate with them as heretofore stated. Acknowledge receipt.

H. C. CORBIN, *Adjutant-General.*

OFFICE OF CHIEF OF ORDNANCE,

COMMANDING GENERAL, DEPARTMENT OF THE COLUMBIA,
Vancouver Barracks, Wash.:

There are sufficient supplies at Benicia Arsenal, Benicia, Cal., for completing the equipment of the Washington or Oregon regiment for passage on steamer *City of Pekin*, mentioned in Adjutant-General's telegram of yesterday. As the use of these stores would affect supply collected for another purpose, request that if requisition is made it be sent to this office, that the order to Benicia may be telegraphed from here.

FLAGLER, *Chief of Ordnance.*

ADJUTANT-GENERAL'S OFFICE,
Washington, May 14, 1898. (Received 4.45 p. m.)

Major-General OTIS, *Headquarters, Denver, Colo.:*

The Secretary of War directs, if possible, that you reach San Francisco by Monday night, in order to sail on the *City of Pekin*, which will carry the First Regiment California Volunteers and four companies of Fourteenth United States

Infantry, amounting in all to 1,200 men. On arrival at the Philippines you will confer with Admiral Dewey with view to occupying such part of the islands as you may be able to do with this force until the arrival of other troops, which will be put under way in very near future. Acknowledge receipt.

By command Major-General Miles:

ADJUTANT-GENERAL, U. S. ARMY,
Washington, D. C.:

Telegram this day relative to embarkation of troops on *City of Pekin* just received. Bearing on this subject following telegram has just been sent to General Merriam at Portland. Captain Ruhlen, who in company with Captain Long and Commander Gibson, of the Navy, and general manager Pacific Mail Steamship Company, inspected *City of Pekin*, *City of Sydney*, and *Australia* to-day, reports that vessels can not possibly be ready to sail before Friday, May 20, but may be able to leave Saturday. Captain Ruhlen says to facilitate matters and prevent further delay it is necessary to know designation of commands and number of men to go on each vessel, also if artillery or cavalry horses are to go. Number of animals must be known, because thus far no arrangements have been made on any vessels for live stock. Space for stock on three vessels named very limited, and must necessarily take up nearly all deck room now allotted to me for exercise.

FIELD,
Acting Assistant Adjutant-General,
In absence of Department Commander.

EXECUTIVE MANSION,
Washington, May 14, 1898.

MY DEAR SIR: The President has just received the inclosed letter from General Merritt, and directs me to say that he would be glad to have you read it and that he wishes to talk with you about it.

Very truly, yours,

JOHN ADDISON PORTER,
Secretary to the President.

Hon. R. A. ALGER,
Secretary of War.

[Inclosure.]

HEADQUARTERS DEPARTMENT OF THE EAST,
Governors Island, New York City, May 13, 1898.

To His Excellency WILLIAM MCKINLEY,
President of the United States.

MR. PRESIDENT: As I promised yesterday in my interview with you, I have the honor to furnish the following as my estimate of troops necessary to constitute an expedition to the Philippines with a fair chance of success after arriving there.

In this connection I desire to point in very emphatic terms to the fact that the volunteers from the Northwest are not as well drilled or disciplined as those from any State in the East or interior. For that reason I urgently request the number of regular troops I have asked for. I feel that I would be doing the country, the force in Manila Harbor, and myself a great injustice to attempt to carry out your wishes with a smaller force or one differently constituted. I make this representation because I feel sure, Mr. President, that you will consider it in all its bearings, after which I am thoroughly willing to leave the matter in your hands and to cheerfully obey your instructions.

In the above connection I desire to call your attention to the fact that an immense volunteer reserve can be advanced to perfection as soldiers day by day here, and are within supporting distance of any force operating against Cuba or Porto Rico, should it be necessary, while the command that goes to the Philippines must depend on itself in the face of casualties from sickness or other causes

and can not be readily reenforced. If I neglected to represent this matter to you fully and freely, I would feel that I had failed in an important duty.

It is my purpose later to ask for the general and staff officers necessary for the command.

With great respect, your obedient servant,

WESLEY MERRITT, *Major-General.*

Estimate of composition of a field force of 12,000 effectives for the Philippine expedition.

Regulars:	
Four regiments infantry	4,800
Two squadrons cavalry	800
Two field batteries	350
One mountain battery	100
	6,050
Volunteers:	
Six regiments infantry	7,200
One squadron cavalry	400
Two field batteries	350
One mountain battery	100
	8,050
Two companies of engineers (regulars)	300

All appliances, including mines and instruments to work them.

Necessary men of Hospital Corps and Signal Corps.

Total, 14,400 men, supposing every organization full.

This would give about 12,000 effectives on landing and taking the field. It is agreed that these must go in two detachments, about one-half at a time.

The ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.*

SIR: I inclose copy of letter written to the President on May 13, which explains itself. This letter was written for the reason that, on the President's invitation, I was to put before him what was wanted, in my opinion, for the expedition to the Philippines.

Since posting the letter it has occurred to me that your office should have a copy of it, and I accordingly inclose a copy.

Very respectfully, your obedient servant,

W. MERRITT,
Major-General, Commanding.

(Inclosure is found on pp. 643 and 644.)

HEADQUARTERS DEPARTMENT OF THE EAST,
Governors Island, New York City, May 15, 1898.
(Received May 16, 1898.)

His Excellency WILLIAM MCKINLEY,
President of the United States.

SIR: Since my letter to you of May 13, I have been studying the problem before me with all the assistance I can get from my staff and from men who have lived in the Philippine Islands.

To the list submitted on the 13th of necessities for the expedition, I desire to add: One siege battery, fully manned and equipped; an ordnance detachment of 2 officers and 25 men, with necessary tools.

The question of trains must necessarily be postponed until more definite information can be had, but present information indicates that it will be imperative to carry with the expedition an advance guard pontoon train and all the draft animals for artillery and trains. The most suitable horses and mules can be purchased on the Pacific coast.

I need hardly urge the importance of my learning at the earliest possible moment what Admiral Dewey reports of the military situation, and if cable communication can not be had with him at an early date it seems to me that a dispatch should be got to him from Hongkong in order to obtain answers to the following inquiries:

First. What is the total strength of the Spanish forces in the island?

Second. How much of this force is in or about Manila?

Third. What proportion of the troops is Spanish and what native?

Fourth. What amount and caliber of field artillery have they?

Fifth. Can we operate field artillery, or will mountain artillery alone be practicable?

Sixth. What number of horses can be had in or near Manila? What work are they equal to?

Seventh. What food supplies is it imperative to bring?

Eighth. Will bridge trains be needed, and how much?

I have been in consultation with an intelligent physician who has passed much time in the eastern country, including the Philippines, and I am convinced that the expedition must be fitted out very carefully with reference to the conditions to be met there. These conditions are not the same as those obtaining in Cuba. If the Quartermaster's Department has no reliable man to furnish this information, I can send such a man to Washington.

There is urgent necessity that the chiefs of the staff departments be appointed at once to assist in organizing and equipping their specialties. They will need time to get information of the conditions and to study their respective problems. We are going too far from our base to permit of any guesswork.

The following list of staff officers is given as being those that I would select, but any capable men, chosen by their respective chiefs, would be agreeable to me:

Adjutant-general, Col. J. B. Babcock.

Inspector-general, Col. R. P. Hughes.

Judge-advocate, Col. John W. Claus, or Capt. Francis J. Kernan.

Chief quartermaster, Col. J. G. C. Lee, or Col. J. W. Pope.

Chief engineer, Col. G. W. Goethals, or Col. H. M. Chittenden.

Chief surgeon, Col. J. Van R. Hoff, or Maj. C. E. Woodruff.

Chief commissary, Col. David R. Brainard,

Chief signal officer, Maj. R. E. Thompson.

Chief paymaster, Col. F. M. Coxe, or Maj. G. R. Smith, or Maj. J. L. Bullis.

Ordnance officer, Capt. W. A. Simpson, Seventh Artillery, and Lieut. L. M. Fuller, Ordnance Department.

Personal staff as now constituted, with Lieut. C. S. Babcock as additional aid.

I do not yet know whether it is your desire to subdue and hold all of the Spanish territory in the islands, or merely to seize and hold the capital.

It seems more than probable that we will have the so-called insurgents to fight as well as the Spaniards, and upon the work to be accomplished will depend the ultimate strength and composition of the force.

With great respect, your obedient servant,

W. MERRITT, *Major-General, U. S. Army,*

HEADQUARTERS OF THE ARMY,
Washington, D. C., May 16, 1898.

The Honorable, the SECRETARY OF WAR.

SIR: I have the honor to submit the following: In order to make the United States force as strong and effective as possible, with a view to its maintaining our possession and our flag on the Philippine Islands, and at the same time relieve our navy as speedily as possible, I suggest that the command sent there consist of the Fourteenth and Fifteenth United States Infantry, two squadrons Fourth Cavalry, one battery of heavy artillery from the Seventh, and two batteries of light artillery from the Seventh, and in addition 12,975 volunteers from California, Colorado, Kansas, Montana, Nebraska, Oregon, Utah, Washington, North Dakota, South Dakota, Idaho, Wyoming, Minnesota, already designated. I also recommend that two 12-inch guns, two 10-inch guns, with disappearing carriages, and eight mortars, to be dismounted, also two 8-inch guns now at Benicia Barracks—all to be placed on board ships at San Francisco and sent to Manila, there to be mounted as speedily as possible for the defense of that harbor, and used together with any rapid-fire guns that can be spared from the fleet now at that place. When this is accomplished the fleet can be released for

more important service. The guns and mortars referred to should be replaced as soon as possible by others sent to San Francisco from the gun foundries and arsenals on the Atlantic coast.

Very respectfully, yours,

NELSON A. MILES,
Major-General, Commanding.

ADJUTANT-GENERAL'S OFFICE,

COMMANDING GENERAL, DEPARTMENT EAST,
Governors Island, New York:

Recommendations of Major-General Commanding Army concerning composition of expedition to Philippine Islands this day referred to you by Secretary War for remark.

SCHWAN, *Assistant Adjutant-General.*

[First indorsement.]

WAR DEPARTMENT, ADJUTANT-GENERAL'S OFFICE,
Washington, May 16, 1898.

Respectfully referred to Maj. Gen. W. Merritt, U. S. Army, Governors Island, N. Y., for an expression of his opinion on the subject contained herein, and for any suggestions he may desire to make.

By order of the Secretary of War:

H. C. CORBIN, *Adjutant-General.*

[Second indorsement.]

HEADQUARTERS DEPARTMENT OF THE EAST,
Governors Island, May 17, 1898.

Respectfully returned to the Adjutant-General of the Army.

I consider the composition of the force outlined by the Major-General Commanding the Army as unsuited to the ends to be accomplished, and insufficient in efficiency for the expedition to the Philippines.

Two regiments of regular infantry, two-thirds of a regiment of regular cavalry, and two light batteries is a very small proportion of the 42 regular regiments in the Army when the work to be done consists of conquering a territory 7,000 miles from our base, defended by a regularly trained and acclimated army of from 10,000 to 25,000 men, and inhabited by 14,000,000 of people, the majority of whom will regard us with the intense hatred born of race and religion.

Besides, if I am not greatly mistaken, the suggested command is only on paper, as the Fourteenth Infantry is only partially available. My letters of May 13 and 15 give the composition and minimum strength of the regular force I deem necessary.

W. MERRITT,
Major-General, Commanding.

[Third indorsement.]

HEADQUARTERS OF THE ARMY,
Washington, D. C., May 18, 1898.

Respectfully submitted to the Secretary of War.

The reference to the Spanish troops is believed to be very much exaggerated. No reports have been received thus far that there is anything like the number indicated in the above indorsement, while the population of that territory is probably nearer one-half the number stated. The number of troops already ordered to the Philippine Islands is three times as many as Admiral Dewey called for.

The force ordered at this time is not expected to carry on a war to conquer an extensive territory, and the chief object of the within letter was to suggest a means of quickly establishing a strong garrison to command the harbor of Manila, and to relieve the United States fleet under Admiral Dewey with the least possible delay. This, in my judgment, is of preeminent importance. The troops mentioned in the within letter as available to send to that department number 15,425. The Tenth Pennsylvania Volunteers, ordered to-day, will be approximately 1,000 more. These troops, in my judgment, are all that would be advisable to send to the Philippine Islands at this time. If it be deemed advisable to send additional regiments, they can be sent from New Orleans or Tampa, but the force now ordered to be sent is, as already indicated, 10,000 more than will be required for the purpose. It is, however, in my judgment, of the highest importance that orders should be sent to place the six high-power guns and eight 12-inch mortars, with at least 50 rounds of ammunition per gun and mortar, on vessels at San Francisco, and possibly Puget Sound, with the least possible delay, and sent to the harbor of Manila and mounted as speedily as possible. It may be advisable to send additional guns. These orders should be sent by telegraph, and the Engineer and Ordnance Departments should be directed to expedite the work by every possible means.

NELSON A. MILES,
Major-General, Commanding.

DEPARTMENT OF STATE,
Washington, May 17, 1898.

The Honorable, the SECRETARY OF WAR.

SIR: I have the honor to transmit herewith for your information copies of three dispatches from the consul at Manila, dated February 22, March 19, and March 27, 1898, respectively, relative to the political situation in the Philippine Islands.

Respectfully, yours,

THOS. W. CRIDLER,
Third Assistant Secretary.

[Inclosure No. 1.]

No. 9.] CONSULATE OF THE UNITED STATES,
Manila, Philippine Islands, February 22, 1898.

Hon. THOS. W. CRIDLER,
Third Assistant Secretary of State, Washington, D. C.

SIR: Without specific instructions it seems my duty at this critical period to inform the Washington Government somewhat as to the political conditions here. But as I have been here less than a month vigilance has not overcome all difficulties, and the rigid censorship of the press in general and the suppression of such publications as uttered the truth have made news gathering onerous.

I have before me a lengthy dispatch giving dates of many warlike and political matters, with rumors, observations, and conclusions, but deem it wise to write more briefly to-day, to bide events and wait specific instructions from you.

Peace was proclaimed, and since my coming, festivities therefor were held, but there is no peace and has been none for about two years. Conditions here and in Cuba are practically alike. War exists, battles are of almost daily occurrence, ambulances bring in many wounded, and hospitals are full. Prisoners are brought here and shot without trial, and Manila is under martial law.

The Crown forces have not been able to dislodge a rebel army within 10 miles of Manila, and last Saturday, February 19, a battle was there fought and 5 dead left on the field. Much of such information is found in my longer dispatch referred to, and which is at your command.

The governor-general, who is amiable and popular, having resigned, wishes credit for pacification, and certain rebel leaders were given a cash bribe of $1,650,000 to consent to public deportation to China. This bribe and deportation only multiplied claimants and fanned the fires of discontent.

Insurgents demand fewer exactions from Church and State, a half of public offices, and fewer church holidays, which seriously retard public business.

A republic is organized here as in Cuba. Insurgents are being armed and drilled, are rapidly increasing in numbers and efficiency, and all agree that a general uprising will come as soon as the governor-general embarks for Spain, which is fixed for March.

While some combatant regiments have recently been returned to Spain, it was for appearance only, and all authorities now agree that unless the Crown largely reenforces its army here it will lose possession.

Command me for any desired information.

Your obedient servant, OSCAR F. WILLIAMS, *Consul.*

[Inclosure No. 2.]

CONSULATE OF THE UNITED STATES,
Manila, Philippine Islands, March 19, 1898.

Hon. THOS. W. CRIDLER,
Third Assistant Secretary of State.

SIR: Matters are in a serious state here. I have daily communication by cable and letter with Commodore Dewey, but we pass letters by British and other shipmasters and by private parties, because cables and letters are tampered with.

Insurrection is rampant, many killed, wounded, and made prisoners on both sides. A battle ship, the *Don Juan de Austria*, sent this week to the northern part of Luzon to cooperate with a land force of 2,000 dispatched to succor local forces overwhelmed by rebels.

Last night special squads of mounted police were scattered at danger points to save Manila.

I caution Americans against bearing arms in violation of local law, although threats have been made by Spaniards that all Americans would soon have their

throats cut. Certain ones are so frightened as to frequently come to my consulate and hotel, and spies watch all my movements.

Yesterday I examined stock of an American who had been threatened and abstracted his ledger. To-day his inventory and accounts were placed in my safe. To-day two others came to me to send their effects to some American ship lying in the bay, and I have so planned.

I have no instructions from you as to these delicate complications, but so far have gotten on well. I fly our flag all the time; give double hours to the consulate, and have notified Americans that they can find me all the time at the consulate, or at my hotel, or on the path between. We have many holidays, but I keep open consulate every day, including Sundays, so Americans may find me.

Rebellion never more threatening to Spain. Rebels getting arms, money, and friends, and they outnumber the Spaniards resident and soldiery probably an hundred to one.

Report says that holy week the insurgents plan to burn and capture Manila. But if so you will learn it by wire before you receive this dispatch.

My March quarterly reports may be delayed or captured. If no trouble thwarts my work, all reports from here will be sent by first mail after March 31, but my consular agents at Cebu and Iloilo are both absent, and hence I may not receive their reports for transmission as early as I send my own.

All news comes indirect from Washington. I hear nothing as to relations between United States and Spain, and depending upon unofficial reports I must act as if peace reigned. I can only assure you of vigilance and loyalty, await your instructions, and remain,

Your most obedient servant,

OSCAR F. WILLIAMS,
Consul.

Special.] CONSULATE OF THE UNITED STATES,
Manila, Philippine Islands, March 27, 1898.

Hon. THOS. W. CRIDLER,
Third Assistant Secretary of State, Washington, D. C.

SIR: Because of having given daily information to Commodore Dewey as to disturbances here I have assumed that he informed the Washington Government, and I have written little on war matters.

Cuban conditions exist here possibly in aggravated form. Spanish soldiers are killed and wounded daily, despite claimed pacification, and the hospitals are kept full.

The majority of casualties are reported from the ranks of the native insurgents and the cruelties and horrors of war are daily repeated.

Cavite is the naval port of Luzon, situated about 8 miles across the bay from Manila and about 20 miles distant by way of bay shore and public highway, and last Thursday, March 24, a Crown regiment of natives, the Seventy-fourth, stationed there, was ordered to advance against native insurgents near by. The regiment refused to obey orders, and eight corporals were called out and shot to death in presence of the regiment, which was again ordered to advance and threat made that a refusal would be death to all. All did refuse and were sent to barracks to await sentence. On the morning following, Friday, March 25, the entire regiment, with arms and equipments, marched out of the barracks and deserted in a body to the insurgents, saying they were willing to fight the foreign enemies of Spain but would not fight their friends.

Since beginning this dispatch I learn of the desertion to the insurgents of another entire regiment. These are said to be the severest setbacks received by Spain during the two years' insurrection here.

On Friday morning, March 25, a church holiday, a meeting of natives was being held near my consulate in Manila, the natives being unarmed. The building was surrounded by police and military, the meeting broke up, 12 natives wantonly shot to death, several wounded, and 62 taken prisoners. Saturday morning, March 26, the 62 prisoners were marched in a body to the cemetery and shot to death, although it was shown that several were chance passers-by or employees in ships adjoining—not being in attendance at the meeting.

It was cold comfort to the widows and orphans of innocent men to have Spanish officers present them the mangled corpses of husbands and fathers.

Such horrors, usually on a smaller scale, but at times attended by greater disregard for modern rules of war, occur almost daily; and the piteous cry goes up, "Will it ever stop?"

The Crown forces are now building a cordon of small forts on city's outskirts for defense against provincial natives, who are expected to soon attack Manila. In fact, two detectives and one messenger have come to me this evening with information that attack was to be made to-night, and everybody is anxious, as 8,000 native insurgents are encamped only 5 miles away.

The insurgents seem to lack arms and organization, but, so far as I can learn, outnumber the Spanish forces and inhabitants twenty to one. Arms are being obtained and organization slowly effected, and all classes fear the near future. It is said that the only reason why Manila has not been taken and burned is because a vast majority of its population is in perfect accord with the insurgents.

Because of anxiety among Americans and my wish to keep in reach of all demands I keep the consulate open double hours and on all holidays and Sundays, with biggest flag flying, so any needing a refuge may find it.

Barbarities are reported as daily practiced, such as placing prisoners and suspects in black hole dungeons in the walls of old Manila, so placed that with rise of tide prisoners are drowned. Several hundred reported to have so perished.

Cruelties too horrid for an official report are detailed to me every day, and it seems that the cry of outraged humanity would soon compel Spain to abolish Middle Age methods of warfare.

Christian nations are such only in name when such atrocities as daily blacken the calendar are known to be perpetrated here and no effort made to protect the weak.

There is to-day no Christian nation. Policy and mock diplomacy govern all, and the vilest cruelties of war are added to the mangling of old men, women, and children to make full the measure of iniquity.

The American Indians would not permit one of their tribes to practice such barbarities. Why should so-called Christian nations decline to call a halt upon Spanish outrages?

All information as to defenses of Manila has been sent to Commodore George Dewey, at Hongkong.

For fear of confiscation this dispatch and other mail goes by messenger to Hongkong, to be there mailed.

Cable is cut in three places. I keep copies of dispatches, etc., but at present for reasons they are not copied on the register at consulate.

I remain, sir, your most obedient servant,

OSCAR F. WILLIAMS,
United States Consul, Manila.

ADJUTANT-GENERAL'S OFFICE,
Washington, May 17, 1898.

COMMANDING GENERAL, UNITED STATES TROOPS, *Tampa, Fla.:*

Secretary War directs as necessary for public service that Lieutenant-Colonel Babcock, assistant adjutant-general, proceed to San Francisco, Cal., for duty as

adjutant-general of the Department of the Pacific (General Merritt), to whom he will report by letter for instructions. Adjutant-General appreciates your action in waiving your prior claim to Colonel Babcock, and requests that you designate someone of the recently nominated lieutenant-colonels and assistant adjutants-general of volunteers as your adjutant-general.

The COMMISSARY-GENERAL, U. S. ARMY,
Washington, D. C.:

Army and Navy officers going on *Pekin* report that the charter does not provide messing or room attendance for officers. The general manager Pacific Mail says he will not subsist officers or furnish room attendance unless all expenses first guaranteed. I report this as a matter of information to be laid before the Secretary. Pacific Mail willing to do all above if guaranteed by Government and officers are willing to pay cost. Can not such arrangement be made?

QUARTERMASTER-GENERAL, *Washington, D. C.:*

City of Sydney is equipped and will be coaled ready to load Saturday. Everything possible has been quickly done to make her comfortable. Steamship authorities heartily cooperating. Recommend steamship company should cook and serve rations for troops and furnish bill of actual expenses to Government; Government to supply rations. The company insists upon this, and that Government should guarantee payment of board of officers, either through commissary or otherwise. Is it intended that *City of Sydney* should stop at Honolulu? Provisions of charter not known.

QUARTERMASTER-GENERAL, *Washington, D. C.:*

Australia will be equipped and coaled ready to load Saturday. Everything possible has been done to make her comfortable for long journey. Extra ventilation, lighting, lavatories, berths, galleys, life-preservers, and tanks for water have been placed. Ship carries 1,200 tons coal, which includes 500 tons in ballast. She should stop at Honolulu for coal and water. Is it intended by charter that the company should furnish and cook rations for troops at 60 cents per day, or shall troops furnish, cook, and serve their own rations? This is important. Requirement of charter not known here.

MEMORANDUM FOR THE SECRETARY OF WAR TO TAKE TO THE CABINET MEETING.

Herewith contains all the information it is possible to furnish from the office of the Adjutant-General upon the questions submitted by General Merritt—from 1 to 9. The Secretary of the Navy has cabled Commodore Dewey to get this information, but it will require a week or ten days.

MAY 25, 1898.

ADJUTANT-GENERAL:

Let this be referred to General Merritt for his information.

R. A. ALGER, *Secretary of War.*

SPANISH TROOPS IN THE PHILIPPINE ISLANDS.

According to the latest authentic sources of information the Spanish troops in the Philippine Islands are the following:

	Officers.	Men.		Horses.
		White.	Native.	
7 regiments of infantry	372		11,368	
15 "expeditionary" battalions	461	20,149		
1 cavalry regiment	31		453	249
1 expeditionary squadron	11	161		126
2 artillery regiments	61	2,196		104
1 ordnance detachment	4	72		
1 regiment of engineers	31		1,266	
3 tercie of guardia civil (gendarmery)	155		3,530	26
Carabineros (custom guards)	14		415	
Train			15	88
Sanitary detachment	4	245		
Total	1,144	22,823	17,047	593

Grand total, 41,014 officers and men.

The "expeditionary" battalions are those which were organized in Spain and sent to the islands to assist in the suppression of the insurrection.

In estimating the present strength of these troops it is well to take account of a statement contained in the Spanish press during the month of March. This statement announced the return of a battalion of marine infantry from the Philippine Islands, with a total strength of 322 officers and men out of an original 800. It is of course not improbable that some troops suffered more than others, but there can be little doubt that the Spanish contingent of the army in the Philippines, as given above, may be safely cut down 50 per cent or more, and these troops probably do not number more than 10,000 men to-day.

No data are available regarding the native troops. It is known that some of them joined in the insurrection, but it is not known how far their defection spread. These natives probably never were very loyal to Spain and are no doubt a questionable element of strength of the Spanish army at this time.

The organizations that make up the above force are the following:

(1) Regimiento de Legazpi, No. 68, Colonel ———; headquarters at Jolo; in the field in Luzon and Mindanao, and detachments in Carolina and Paragua Island.

(2) Regimiento de Iberia, No. 69, Colonel Real; headquarters at Zamboanga; in the field in Mindanao and Manila.

(3) Regimiento de Magallanes, No. 70, Colonel Camiña; headquarters at Manila; in the field in Luzon.

(4) Regimiento de Mindanao, No. 71, Colonel Lasala; headquarters at Iligan; at Manila, and in the field in Mindanao.

(5) Regimiento de Visayas, No. 72, Colonel Seijas; headquarters at Manila; at Manila, and in the field in Mindanao.

(6) Regimiento de Jolo, No. 73, Colonel ———; headquarters at Manila; in the field in Luzon and Mindanao.

(7) Regimiento de Manila, No. 74, Colonel Pazos; headquarters at Manila; in the field in Luzon and Mindanao.

The expeditionary battalions are called "Battalones cazadores expedicionarios," expeditionary rifle battalions; there are 15 in all. In addition to this infantry there were three battalions of marine infantry, all of which have returned to Spain since January 1, 1898, in a most deplorable condition.

The cavalry regiment is called "Regimiento caballeria de Filipinas," and has its headquarters at Manila, where the squadron above enumerated as "expeditionary" is also located. This last-named squadron is called the "Escadron de Lanceros Expedicionario," No. 1. Whether it actually is a lancer squadron, as the name would imply, is not known.

Of the two artillery regiments one is a fortress artillery regiment, stationed at Manila, and probably badly cut up by the fire of the United States squadron in the naval battle of Manila. The other regiment is a mountain artillery regiment, organized by royal order of July 1, 1896, and its organization is unknown, but, judging from the small number of guns of a caliber suitable for the field, it contains but few batteries; it is not unlikely that in view of the subsidence of the insurrection the organization was never completed.

The artillery material sent to the Philippine Islands up to May 1, 1897, in connection with the insurrection is as follows (according to official Spanish statements): 6 guns, compressed bronze, caliber 9 cm.; 6 guns, steel, long, caliber 8 cm.; 6 guns, steel, short, caliber 8 cm.; 2 guns, compressed bronze, caliber 12 cm.; 4 guns, field, caliber 57 mm.; 2 howitzers, compressed bronze, caliber 15 cm.; 2 mortars, compressed bronze, caliber 15 cm.; 4 mortars, compressed bronze, caliber 9 cm., and approximately 10,000 rounds of artillery ammunition.

Small arms: 24,521 Mausers, caliber 7 mm.; 478 Mauser carbines, caliber 7 mm.; 18,000 converted Remingtons, model 1871-89; 100 carbines, model 1871, Remington; 2,302 machetes, model 1881; 980 cavalry sabers, model 1895; 300 sabers for foot troops, model 1879; 120 lances.

Ammunition: 15,486,750 rounds Mauser, caliber 7 mm.; 33,500,000 rounds Remington, model 1871-89; 66,000 rounds revolver ammunition, Lefaucheux (rim-fire pattern); 200,000 rounds revolver ammunition, Smith; 20,000 pounds of powder and supply of reloading materials.

Question 2. It is impossible to tell how many of the Spanish troops are now near Manila. It is safe to say none can get there now that were not there before the destruction of the Spanish fleet. Probably Admiral Dewey could get a definite answer from the insurgents, with whom he is, no doubt, in communication.

Question 3. The proportion of white troops to natives is given in answer to Question I. If the natives have all remained loyal to Spain they outnumber the white troops at this time probably 2 to 1.

Question 4. The answer to this question is contained in the answer to the first question.

Question 5. It is difficult to answer this question, on account of lack of definite information of a topographical character. All maps and charts are extremely defective, except for coasts. However, the whole surface of the Philippine Islands is essentially mountainous, the only plains being alluvial districts at the rivers' mouths and in the spaces made by the intersection of the ranges. The highest mountain is estimated at from 8,800 to 11,000 feet. Only natural roads exist, rough, stony, and in very bad condition, except in Luzon and Cebu, where there are some highways. During the rainy season the inundations of the rivers make traveling in the interior almost impossible. Roads are neglected on account of the great number of water ways in the archipelago. On the whole, it would seem as though mountain artillery would be better than field artillery. The Spaniards, however, have some field artillery, as mentioned elsewhere.

Question 6. No specific information on this subject exists in this office. Many horses are raised in the two northernmost islands, 30 miles from Luzon, and, according to one of the authorities, horses are found in all of the islands. In the island of Panay there is a celebrated breed of horses. In time of peace draft horses are more or less plentiful in Manila, but are now probably an article of food.

Question 7. Rice is the staple food, though frequently the supply is not equal to the demand. Potatoes, pease, and even wheat are raised in the higher localities. Buffalo are found everywhere in number, both wild and domesticated, As communication with the interior will be more or less difficult, it would be best to take along a full supply of the United States Government ration as now fixed for service in Cuba.

Question 8. While the mountain torrents could probably not be bridged by ordinary pontoon bridges, there is plenty of wood on the banks with which to bridge these streams, with men familiar with this work. During the rainy season, however, large tracts of low-lying regions are known to be covered with water, and in this case a large bridge train would be very useful. Then there is also to be considered that the city of Manila is divided into two parts by the river Pasig, and occasions might arise when a pontoon bridge train would be necessary to establish communication between the two cities.

The above contains all the information this office can give on the questions submitted to the President by General Merritt.

SAN FRANCISCO, CAL., *May 18, 1898.*
(Received May 19, 1898—6.45 a. m.)

ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

Have to-day examined conditions and made careful inquiry into work of supply departments in fitting out expedition. Have inspected the three vessels already chartered and casually the troops which have arrived. The vessels secured are

the *City of Pekin*, *City of Sydney*, and the *Australia*. The two first are in about the same stage of preparation; should be ready to load on Saturday. Galleys and bunks should be complete on Friday. The *Australia* should be ready for troops on Monday. These vessels can not carry any quartermaster's transportation (animals and wagons). Will have these vessels inspected to ascertain if seaworthy and in good sanitary condition. Their carrying capacity when crowded will not be over 175 officers and 2,500 men, independent of Navy contingent which goes on *Pekin*. Plans of all decks of these vessels will be furnished me as soon as carrying arrangements completed. No other vessels suitable for the transportation of troops can be secured by Government at present. Those sailing from this port are the *Ohio*, the *Senator*, the *China*, the *Colon*, the *St. Paul*, the *Columbia*, and *State of California*. The *Ohio* is en route for Seattle, and advertised to leave that port for Alaska June 15. The *Senator*, *St. Paul*, *Columbia*, and *State of California* can not be chartered; available only by seizure. The *China*, from Hongkong, will reach this port about June 2 and the *Colon*, from Panama, about May 24; the *Conemaugh*, not suited for troops but adapted for animals and freight, now en route to Seattle. Any of these vessels if secured must be put in condition for troop transportation, and it is doubtful if troops could be sent in them from this port in less time than four weeks, present absence of vessels considered. The *Pekin* is to take on eighty odd officers and men of Navy and a large tonnage of naval stores, etc., and doubtful if more than single full regiment of troops of army can be safely transported. Vessel has made no provision for messing officers and will not unless high rate stipulated for and money guaranty. Troops present and intended for embarkation are band and four companies Fourteenth Infantry (9 officers and 276 men), two regiments and two battalions of California infantry (thirty-four companies in all), two companies of California heavy artillery, giving for California nearly 3,000 officers and men. First Oregon Regiment, twelve companies, arrived this afternoon. A regiment from Minnesota, Nebraska, Kansas, Colorado, each, and the Wyoming battalion will arrive on or before the 20th instant. None of the troops are properly equipped, but a few can be made available for service in distant country with means at hand. Articles of ordnance, tentage, and light clothing especially needed. Some of the California troops have old .50-caliber Springfield muskets. I have not assumed command here of incoming troops in obedience to my orders of the 12th instant, and I am at a loss to understand that it is the intention of the authorities that I, with staff and not to exceed an infantry regiment of untrained troops, proceed to the Philippines and occupy such parts of the islands as I may be able until other troops are sent to that distant point. I might be of service in putting the troops here in condition. I request immediate instructions.

ADJUTANT-GENERAL, *War Department, Washington, D. C.:*

I hear from General Otis that he has asked if he should proceed to the Philippines on the *Pekin* or remain in San Francisco temporarily. By all means he should remain in San Francisco. I can't see that there is any reason for a general officer going with these first troops.

W. MERRITT, *Major-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, May 19, 1898.

Gen. E. S. OTIS, U. S. Army, *San Francisco, Cal.:*

Your telegram of last evening has been submitted to the Secretary War and by him to the President. After full consideration of situation it has been decided that it is not necessary for you to embark with the troops first going to the Philippines, but that Brig. Gen. T. M. Anderson go in your stead. The Secretary War further directs you assume command of all troops assembling in San Francisco for Philippine expedition. This of course will not mean that you are to assume command of either military departments. The ships *Australia*, 2,755 tons, the *City of Sydney*, 3,000 tons, and the *Centennial*, 2,100 tons, have been chartered for the expedition for the Philippines. The *Zealandia*, 2,500 tons, will arrive in San Francisco May 27. Mr. Huntington offers the *China*, 5,000 tons, to arrive May 27, and the *Colon*, 2,600 tons, to arrive in San Francisco May 23. All the above steamers have been chartered except *China* and *Colon*. Secretary War desires report from you as to largest number troops that can be accommodated on these ships, after which it may be deemed advisable, even necessary, to press into service the ships named in your telegram. Arrangements for the messing of officers will be made in best way to meet interests of all concerned. It is desirable that you confer with Mr. Huntington to ascertain from him whether it is not possible to get charter of other ships. Also desirable that you make frequent reports upon situation and progress until General Merritt's arrival. Acknowledge receipt.

By command General Miles:

In obedience to your telegram 19th, Acting Hospital Steward Thomas D. Hare, Whipple Barracks, and Acting Hospital Steward Shelby G. Cox, Fort Bayard, have been ordered by telegraph to San Francisco to report to general commanding Philippine expedition. Chief surgeon department recommends that Hospital Steward Land, on furlough until September 6th (last address Oroville, Cal.,) have his furlough revoked by Adjutant-General Army, by telegraph, and be ordered to report in like manner at San Francisco.

In absence department commander—

ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

Preparations on steamer *City of Pekin* progressing as rapidly as possible. Promised that she will be ready for troops on Saturday. Bunks and galleys to be completed to-morrow. Sanitary board of medical officers called this morning to determine number of troops that can be safely transported under existing necessities. Reports at length, fixing number at 1,000 in steerage; number could be increased 200 if upper deck used, which is not practicable. The Navy contingent and First California number 59 officers and 1,041 enlisted men, all that can with any prudence be transported by *Pekin*. Can not obtain plans of decks until to-morrow afternoon, after completion of bunks, but doubt if that number can be provided with bunks. Vessel's tonnage, 4,000 tons dead weight, and with coal and naval stores already taken and to be taken on after leaving dock only about 6,000 tons can be loaded for Army; may be necessary to reduce subsistence stores. Both vessels, *City of Sydney* and the *Australia*, will be ready to load on Saturday; both now as far advanced as *Pekin*. Have deck plans of *Sydney;* can not take more than 800 men, and them closely packed. The *Australia* may be able to transport 600 men. Will make further examination to-morrow and will endeavor to have sanitary inspection of both *Sydney* and *Australia* made. Those two vessels would transport the battalion of Fourteenth Infantry and the regiment of Oregon volunteers now here and in fair shape. Will make further suggestions when more definite information obtainable. I still await further instructions.

DEAR GENERAL: The officers and men of the Fifteenth Pennsylvania Volunteers desire to be ordered to the Philippines. They are a splendid regiment, as well drilled as regulars. I would be gratified to learn, should you determine to send any more volunteers from the East to the Philippines, that the Fifteenth had been selected.

Telegram directing that I remain here temporarily, received. Will send First California Volunteers by steamer *City of Pekin*, which, with Navy contingent, will require all vessel's space. It is well outfitted, and will have six months' supply from all supply departments. This freight, together with personal baggage of

troops, will fully meet carrying capacity of vessel. The three vessels, *City of Pekin*, *City of Sydney*, and the *Australia*, should sail together, as reported in my dispatch of last night. All equally prepared, and together will transport 2,500 men, with their officers, although crowded. Can send out, besides First California, the battalion of Fourteenth Infantry, and another regiment of volunteers, increased by necessary detachments. Suggested in telegram of last night that First Oregon be sent, but several cases of measles developed and isolated camp ordered. First Colorado, of full regimental strength, well equipped, well officered, and having superior medical officers. will arrive in morning, and I suggest that it be placed on vessel as soon as practicable. Will not delay *Pekin* materially. If plan approved, will use some discretion in matters. Have telegraphed General Anderson to be here Sunday morning.

ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

Telegram this date approving suggestions received. *City of Pekin*, with naval contingent, First California Volunteers, hospital detachment, with six months' supplies and baggage of troops, will be loaded to full capacity. Vessel will take troops on board, proceed to Mare Island, take on 400 tons navy ammunition, and can then clear. She should be ready to go to Mare Island early Monday morning. In meantime First Oregon Volunteers and battalion of Fourteenth Infantry, nearly 1,400 enlisted men, and possibly increased by detachments, will take *City of Sydney* and the *Australia* and join *Pekin* Tuesday morning, 24th instant, when all vessels depart. All organizations properly equipped and supplied for six months. Navy finished loading *Pekin* this evening, except Mare Island freight and army freight, about 600 tons, loaded to-morrow, and troops follow next day. Commander Gibson, who goes in charge of *Pekin*, has instructions to proceed to Honolulu, and from there proceed to Philippines under orders of commanding officer of cruiser *Charleston*, still here being repaired. *Charleston* will not make more than 9 knots an hour from Honolulu, while *Sydney* and *Australia* can make about 14. This will greatly delay progress of troops. If convoy by *Charleston* not necessary, the three vessels should be permitted to proceed together to Philippines at usual rate of speed. They are coaled for full distance. Can not naval authorities modify Commander Gibson's instructions in this respect?

Have assumed command of troops. Mr. Huntington left city Wednesday for the East. Will confer with his representative to-morrow about steamers *China* and *Colon*. Will report number of troops that can be transported by vessels, as directed in telegram of yesterday.

DEPARTMENT OF STATE,
Washington, May 21, 1898.

The Honorable, the SECRETARY OF WAR.

SIR: By direction of the Secretary of State I have the honor to inform you that a telegram has been received from the consul at Hongkong, China, dated May 19, 1898, in the following words:

"This answers Long's cable to Dewey. From best information obtainable Dewey can not reply under a week. Twenty-one thousand Spanish troops, of which 4,000 natives, 2.000 volunteers. All but 1,000 at Manila. They have 10 mountain guns, no large field artillery, proven last rebellion not practicable. Plenty good ponies 12 hands high. No food Philippines but rice. Large supply rifles should be taken for insurgent allies."

Respectfully yours,

ALVEY A. ADEE,
Second Assistant Secretary.

Official copy respectfully referred to Major-General W. Merritt, U. S. Army, commanding Department of the Pacific, San Francisco, Cal., for his information.

Please state whether the Hotchkiss guns sent to San Francisco for the Philippine expedition were mountain guns with pack saddles.

H. C. CORBIN, *Adjutant-General.*

WASHINGTON, *May 21, 1898.*

ADJUTANT-GENERAL, U. S. ARMY.

SIR: I desire to call your attention to the fact that, as the Fifteenth Infantry is not to accompany me on the Philippine expedition, one regular regiment to replace the same be ordered to San Francisco for the expedition. Either the Fourth or the Twentieth would be satisfactory to me, or any other regiment that can better be spared. No orders as yet have been received with reference to the Third Artillery, now at San Francisco, which, I understand, is to accompany my expedition. It should be recruited to war strength. In this request is only considered the batteries that will probably accompany me, as the two at San Diego and Fort Canby will probably not be sent.

In the matter of the Fourth Cavalry, there are four troops at the Presidio and four troops in Washington and Idaho.

I take it for granted, from conversation already had, that these will accompany the expedition, and it is with a view to this that I ask that Major Kellogg, who is a ranking major, be sent with the command.

The matter of machine guns has been called to my attention as being most important on the mission that I am to undertake. Of the Gatling guns, model 1883, there are, as I learn from the Ordnance Department, 6 at Springfield Armory, and corresponding carriages for these 6 guns at Rock Island Arsenal. I should like to have these batteries sent. Of Gatling guns, model 1881, there are 7 guns at Springfield Armory, 4 carriages at Rock Island Arsenal, and 3 carriages at Allegheny Arsenal. I should be glad to have these also sent. There are 2 guns and carriages at the Presidio of San Francisco of the Gatling type, with long barrels; 1 gun and carriage at Angel Island, San Francisco Harbor. This makes a total of 16 guns and carriages, which would be eminently useful to me with my command. It is understood that 6 Hotchkiss guns, 1.65-inch caliber, with carriages and pack outfits complete, have been ordered from Chickamauga to San Francisco for the use of this expedition. If this has not been done I hope it will be attended to. I desire especially to call attention to the necessity for the additional infantry regiment for which I have asked. If this is sent the regular troops at my disposal will be less than those originally promised, namely, 5,000.

Very respectfully,

W. MERRITT, *Major-General.*

WASHINGTON, D. C., *May 21, 1898.*

The ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.*

SIR: In addition to the troops applied for this morning I should like two companies of engineers to report for duty to me at San Francisco. A consultation with the Chief of Engineers results in his statement that he has at least 60 men at

Willets Point, and Lieutenant Echols, well instructed, who could be sent to me. If I can not do better I should be glad to have these. I fear it is futile to apply for Griffin's entire organization of engineers, but if it is possible to get them in shape before the last expedition leaves I should be glad to have them.

In conversation with the President yesterday he was very much impressed with the advantage that would result from having mines, submarine, and appliances on hand at Manila. If these can be furnished I request that it may be done. An ordnance detachment of mechanics is, in my opinion, especially necessary. It is also important that a siege battery should be sent with the command, and this I consider rather more important than the two regular light batteries applied for in my first estimate, which I am willing should not be sent at present.

Very respectfully,

W. MERRITT, *Major-General, U. S. Army.*

WASHINGTON, D. C., *May 21, 1898.*

The ADJUTANT-GENERAL, UNITED STATES, *Washington, D. C.*

SIR: I find, in my letter of this date, that I omitted to mention the general officers who are, in my opinion, necessary to the success of my expedition. Otis and Anderson are already in San Francisco and have received the necessary orders. I should like, in addition, to have four other general officers, and I request them in the following order: Brig. Gen. George W. Davis, Brig. Gen. A. R. Chaffee, and if Col. Edwin V. Sumner, Seventh Cavalry, is appointed to a brigadier-generalcy, as I recommend, I would also like to have him.

If the President appoints general officers from civil life I should be particularly glad to have Col. F. V. Greene, of the Seventy-first New York, and Colonel Garretson, of Ohio, to report to me. These officers, as I understand it, have expressed a willingness to go.

If the officers above named, in addition to Otis and Anderson, can not join me I request that at least four others be sent with me, and leave the selection to yourself.

Very respectfully, W. MERRITT, *Major-General, U. S. Army.*

WASHINGTON, *May 21, 1898.*

ADJUTANT-GENERAL, U. S. ARMY.

SIR: The following officers for service on my staff, who have not yet been ordered and whose services I consider essential, are reported, as you requested, in order that you may give the necessary orders in the case: Judge-advocates, Crowder and Kernan; attending surgeon, Woodruff; ordnance officers, Simpson and Sturgis; engineers, Bement and Potter, of the engineers.

I also desire that Dr. Bourns be appointed a division or brigade surgeon and accompany my command. He is a citizen from Georgia.

It would be greatly in my favor if Major Kellogg could be ordered with the battalions of the Fourth Cavalry that are going. I should like also to have young Babcock, who has just graduated from the Academy, and whose father is assistant adjutant-general of the expedition, be appointed as an additional aid.

Very respectfully,

W. MERRITT, *Major-General.*

SAN FRANCISCO, CAL., *May 21, 1898—11.20 p. m.*

ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

Have seen vice-president of Pacific Mail Steamship Company, from which *City of Pekin* and *Sydney* chartered, about charter of steamers *China* and *Colon*, and he

informs me that he has received proposition from Assistant Secretary of War, which he has answered. The three vessels, *Pekin*, *Sydney*, and *Australia*, will be prepared to depart on Tuesday, transporting the navy contingent, the First California and the First Oregon regiments of volunteers, an officer and 50 men detached from the battalion of heavy artillery California Volunteers, which includes all members who have any knowledge of the service of artillery, and the battalion of the Fourteenth Infantry; in all, 125 officers and nearly 2,400 men. These are all that can be safely transported. Delay may be caused by failure to receive the contracts of charter of *City of Sydney* and *Australia*. Copies must be furnished the captains of vessels before sailing, and they have not been received. If not received I would suggest that I may be authorized to direct new charter parties to be made here in accordance with the charter party of *Pekin*, which would be satisfactory except as to *Sydney*, wherein owners would require that deck stores be furnished by Army, which would not amount to $500. I would further suggest that on each vessel, *Sydney* and *Australia*, an officer of the Navy, chosen from those taking passage on *Pekin*, be detailed to direct those transports, sailing on same, and to represent the Army in same way as Commander Gibson represents the Navy. This I thought might be arranged through conference of Navy and War Department authorities, and would be of great benefit should emergency arise.

SAN FRANCISCO, CAL., *May 21, 1898.*
(Received May 22, 1898—6 a. m.)

ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

The speed of vessels *Pekin*, *Sydney*, and *Australia* reported by me last evening as about 14 knots is the best speed of vessels and can not be maintained without great consumption of coal, leaving little in bunkers upon arrival at Manila. Careful consideration of the subject by Commander Gibson and captain of *Pekin* has resulted in following conclusion, viz: That an average run of 12 knots would cover the distance in twenty-five days, and with 11 knots in a little more than twenty-six days. That it would be prudent and in the interests of good seamanship to call at Honolulu with all three ships and take on coal, which would not require more than two days: this to meet any unexpected emergency from the enemy or the elements. Coal in two of the vessels constitute the ballast, and good supply must be kept on hand. Will leave this subject to the discretion of navy officers.

SIR: I have the honor to report that I arrived at Portland, Oreg., this morning, and have complied with the telegraphic instructions of the Adjutant-General of the Army, dated 10th instant.

Very respectfully,

ADJUTANT-GENERAL'S OFFICE,
Washington, May 23, 1898.

Gen. E. S. OTIS, *San Francisco, Cal.:*

The Secretary of War directs that General Anderson, or the senior officer of the troops sailing on the *Pekin*, *Australia*, and *Sydney* for the Philippines, on arrival will confer fully with Admiral Dewey as to whole situation and dis-

pose of the troops so as to have them under the protection of the guns of the Admiral's fleet until the arrival of the main force of the army under General Merritt and General Otis. Importance of the speedy return of transports going with these troops should be kept in view. This instruction is not intended to deprive General Anderson of the fullest discretion after consultation with Admiral Dewey. Hearty cooperation with the senior officer of the Navy is enjoined. He must, however, be governed by events and circumstances of which we can have no knowledge. The President and Secretary of War rely upon the sound judgment of the officer in command. Acknowledge receipt.

City of Pekin with troops on board, consisting of 11 officers and 76 enlisted men of the Navy, 50 officers and 970 men of the First California, is about to leave dock to anchor in bay and take on 400 tons of ordnance and ordnance stores. It will require at least twenty-four hours to load these stores. The *City of Sydney* and the *Australia* are nearly loaded. They will take on to-morrow the Second Oregon (50 officers and 965 men), the band and five companies of the Fourteenth Infantry (9 officers and 340 men), and detatchment of California Heavy Artillery (1 officer and 50 enlisted men). General Anderson is here and will embark on *Australia* with staff. *City of Sydney* and *Australia* will then join *City of Pekin* in bay, when all vessels will sail together under modified instructions received by Commander Gibson, of the Navy. The entire force, Navy and Army combined, will exceed 2,500; accurate numerical strength later. Vessels should leave port to-morrow evening or early Wednesday morning. Nothing yet heard of charter parties for steamers *City of Sydney* and *Australia.* Will telegraph more accurate details later, and will report strength of forces now encamped here, independent of departing troops. Will furnish General Anderson written instructions to govern him en route and after arrival at destination.

The troops now in camp and intended for expedition, First California, Second Oregon, Fourteenth United States Infantry, and detachment of California Heavy Artillery. Already shipped are Seventh California, First Colorado, Thirteenth Minnesota, First Nebraska, Twentieth Kansas regiments, averaging 47 officers and 968 enlisted men, having a total of 236 officers and 4,842 enlisted men. Also here in camp a battalion of California Heavy Artillery, two battalions Idaho, one battalion Wyoming, and the Utah Artillery, numbering 63 officers, 1,464 men; total, all told, 299 officers, 6,306 enlisted men. Tenth Pennsylvania Regiment will arrive to-day. Of these troops the Colorado, Minnesota, and Nebraska regiments are in fair condition; need to be outfitted with certain necessary stores not yet received, but arrive in two or three days. These regiments are being inspected to ascertain what ordnance necessary. They can be placed in condition to sail early next week. All other infantry organizations can not be put in condition in less than two weeks. Carefully inspected yesterday by an officer of my staff. The Utah Battery, if it had horses and harness, could leave at any time. The great obstacle to moving is vessel transportation. Only one small vessel chartered; full capacity, 800 men; and she can not discharge freight upon arrival and be put in condition to transport troops before the 31st instant. Have reported on this subject. Quartermaster making every effort here and not meeting with much success. Think seizure only possible solution.

SAN FRANCISCO, CAL., *May 26, 1898.*

ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

Will report number and kind of troops for coast defenses in a day or two. The greatest need is competent staff officers to replace those ordered east and west from both departments and who were familiar with local conditions. Clerks and messengers also taken away, and still we have our full share of war preparations.

ADJUTANT-GENERAL'S OFFICE,

Major-General MERRIAM, *San Francisco, Cal.:*

Your statement that the number of your staff officers and clerks is insufficient is fully appreciated here. Steps will be taken to remedy this as soon as possible. It is the same everywhere. The staff for an army of 25,000 does not fill the needs of an army of 250,000.

NAVY DEPARTMENT, *Washington, May 27, 1898.*

SIR: I have the honor to transmit herewith, for your information, the following copy of an extract from a dispatch, dated the 24th instant, received in this Department from Rear-Admiral Dewey, U. S. Navy, commanding the United States naval forces on the Asiatic Station:

"Organizing forces near Cavite, and may render assistance that will be valuable. I do not consider submarine mines practicable here on account of great depth and width of bay and entrance. If attacked by superior force, the squadron will endeavor to give good account of itself."

Very respectfully,

JOHN D. LONG,
Secretary.

SIR: I have the honor to transmit herewith a translation of a cipher dispatch, dated the 25th instant, at Cavite, received in this Department from Rear-Admiral George Dewey, U. S. Navy, commanding the United States naval force on the Asiatic Station, containing certain information obtained at the request of the War Department.

Very respectfully,

JOHN D. LONG, *Secretary.*

The Honorable, the SECRETARY OF WAR.

[Inclosure.]

HONGKONG, *May 27, 1898.*

SECRETARY OF NAVY, *Washington:*

CAVITE, May 25.—The following is information required for General Merritt:

FIRST. Between 35,000 and 40,000 Spanish troops of all kinds in Philippine Islands.

SECOND. Fifteen thousand at Manila.

THIRD. About 60 per cent Spanish.

FOURTH. Seven 8-centimeter and two 12-centimeter field guns at Manila; can not ascertain number outside.

FIFTH. Light field guns best.

SIXTH. Nearly impossible to get horses near Manila.

SEVENTH. All supplies must be brought.

EIGHTH. Bridge train not necessary.

Cavite now in my possession. Would be excellent base. Plenty forage and water to be had. Very difficult to obtain coal of any kind. Rainy season will shortly begin. Climate extremely hot. The discipline and efficiency of the Spanish troops is very low.

DEWEY.

Inclosure (copy of foregoing dispatch).

WAR DEPARTMENT,
Washington, May 28, 1898.

Maj. Gen. WESLEY MERRITT, U. S. Army,
Commanding Army of Occupation to the Philippines,
Washington, D. C.

GENERAL: The following instructions of the President are communicated to you for your information and guidance:

EXECUTIVE MANSION,
Washington, May 19, 1898.

To the SECRETARY OF WAR.

SIR: The destruction of the Spanish fleet at Manila, followed by the taking of the naval station at Cavite, the paroling of the garrisons, and acquisition of the control of the bay, have rendered it necessary, in the further prosecution of the measures adopted by this Government for the purpose of bringing about an honorable and durable peace with Spain, to send an army of occupation to the Philippines for the twofold purpose of completing the reduction of the Spanish power in that quarter and of giving order and security to the islands while in the possession of the United States. For the command of this expedition I have designated Maj. Gen. Wesley Merritt, and it now becomes my duty to give instructions as to the manner in which the movement shall be conducted.

The first effect of the military occupation of the enemy's territory is the severance of the former political relations of the inhabitants and the establishment of a new political power. Under this changed condition of things the inhabitants, so long as they perform their duties, are entitled to security in their persons and property and in all their private rights and relations. It is my desire that the people of the Philippines should be acquainted with the purpose of the United States to discharge to the fullest extent its obligations in this regard. It will therefore be the duty of the commander of the expedition, immediately upon his arrival in the islands, to publish a proclamation declaring that we come, not to make war upon the people of the Philippines nor upon any party or faction among them, but to protect them in their homes, in their employments, and in their personal and religious rights. All persons who, either by active aid or by honest submission, cooperate with the United States in its efforts to give effect to this beneficent purpose will receive the reward of its support and protection. Our occupation should be as free from severity as possible.

Though the powers of the military occupant are absolute and supreme and immediately operate upon the political condition of the inhabitants, the munici-

pal laws of the conquered territory, such as affect private rights of persons and property and provide for the punishment of crime, are considered as continuing in force, so far as they are compatible with the new order of things, until they are suspended or superseded by the occupying belligerent; and in practice they are not usually abrogated, but are allowed to remain in force and to be administered by the ordinary tribunals substantially as they were before the occupation. This enlightened practice is, so far as possible, to be adhered to on the present occasion. The judges and the other officials connected with the administration of justice may, if they accept the authority of the United States, continue to administer the ordinary law of the land as between man and man, under the supervision of the American commander in chief. The native constabulary will, as far as may be practicable, be preserved. The freedom of the people to pursue their accustomed occupations will be abridged only when it may be necessary to do so.

While the rule of conduct of the American commander in chief will be such as has just been defined, it will be his duty to adopt measures of a different kind if, unfortunately, the course of the people should render such measures indispensable to the maintenance of law and order. He will then possess the power to replace or expel the native officials in part or altogether, to substitute new courts of his own constitution for those that now exist, or to create such or supplementary tribunals as may be necessary. In the exercise of these high powers the commander must be guided by his judgment and his experience and a high sense of justice.

One of the most important and most practical problems with which the commander of the expedition will have to deal is that of the treatment of property and the collection and administration of the revenues. It is conceded that all public funds and securities belonging to the government of the country in its own right, and all arms and supplies and other movable property of such government, may be seized by the military occupant and converted to the use of this Government. The real property of the state he may hold and administer, at the same time enjoying the revenues thereof, but he is not to destroy it save in the case of military necessity. All public means of transportation, such as telegraph lines, cables, railways, and boats belonging to the state, may be appropriated to his use, but unless in the case of military necessity they are not to be destroyed. All churches and buildings devoted to religious worship and to the arts and sciences, all schoolhouses, are, so far as possible, to be protected, and all destruction or intentional defacement of such places, of historical monuments or archives, or of works of science or art, is prohibited, save when required by urgent military necessity.

Private property, whether belonging to individuals or corporations, is to be respected, and can be confiscated only as hereafter indicated. Means of transportation, such as telegraph lines and cables, railways, and boats, may, although they belong to private individuals or corporations, be seized by the military occupant, but unless destroyed under military necessity are not to be retained.

While it is held to be the right of a conqueror to levy contributions upon the enemy in their seaports, towns, or provinces which may be in his military possession by conquest, and to apply the proceeds to defray the expenses of the war, this right is to be exercised within such limitations that it may not savor of confiscation. As the result of military occupation the taxes and duties payable by the inhabitants to the former government become payable to the military occupant, unless he sees fit to substitute for them other rates or modes of contribution to the expenses of the government. The moneys so collected are to be used for the purpose of paying the expenses of government under the military occupation, such as the salaries of the judges and the police, and for the payment of the expenses of the army.

Private property taken for the use of the army is to be paid for, when possible, in cash at a fair valuation, and when payment in cash is not possible receipts are to be given.

In order that there may be no conflict of authority between the Army and the Navy in the administration of affairs in the Philippines, you are instructed to confer with the Secretary of the Navy, so far as necessary, for the purpose of devising measures to secure the harmonious action of these two branches of the public service.

I will give instructions to the Secretary of the Treasury to make a report to me upon the subject of the revenues of the Philippines, with a view to the formulation of such revenue measures as may seem expedient. All ports and places in the Philippines which may be in the actual possession of our land and naval forces will be opened, while our military occupation may continue, to the commerce of all neutral nations, as well as our own, in articles not contraband of war, and upon payment of the prescribed rates of duty which may be in force at the time of the importation.

WILLIAM MCKINLEY.

Very respectfully,

R. A. ALGER, *Secretary of War.*

Gen. H. C. CORBIN, *Washington.*

MY DEAR GENERAL: Since I talked to you to-day I have learned to my very great chagrin that an officious friend of mine had telephoned Senator Hanna that I did not want to go to the Philippines with General Merritt, and asked the Senator to use his influence to have the order changed. I do not know whether this caused the Secretary to change the order or not, but if it did I am extremely mortified, and want him and you to know that it was done entirely unknown to me and unwarranted by me. It causes me extreme annoyance to be apparently guilty of such an unsoldier-like proceeding. I do not care particularly for the detail, to be sure, but I would have gone to the end of the earth before I would have asked, directly or indirectly, for the change of an order.

Will you kindly show this letter to the Secretary of War, so that he may understand my feelings in the matter?

With many thanks for your kind messages of congratulation, I am,

Yours, sincerely,

G. A. GARRETSON.

The ADJUTANT-GENERAL, *War Department, Washington, D. C.:*

In reply to your dispatch of to-day, the additional force should be sent from States having their troops in best order for immediate shipment. The greatest difficulty to contend with here is want of organization. The addition of the Twentieth and Fifteenth regiments of infantry would be of greatest value. Some of the unorganized volunteers would have a better chance to become efficient in posts now occupied by the Fifteenth Infantry than they would have if shipped immediately on a long voyage. This request for an increase to the regular force for the expedition is in keeping with the promise made to me by the President and Secretary of War when the organization of the Philippine expedition was put under discussion.

MERRITT, *Major-General.*

MEMORANDUM MADE BY COLONEL CARTER.

Major-General Miles stated to Colonel Carter, May 30, afternoon, that he did not think it advisable to send any of the Third Artillery on the Philippine expedition. That it could not be spared from Pacific coast. Two squadrons of the Fourth Cavalry to accompany expedition, but should not take their horses, because there is nothing for them to eat there and would probably die on the way over. Two light batteries of the Seventh Artillery detailed for the expedition in accordance with the General's wishes. Did not think the Fourth and Twentieth or any other regular infantry regiment should be moved to go with that expedition. He has no suggestion to make as to what volunteer regiments should go in place of the Fourth and Twentieth, if any were sent.

Secretary of War directs that on Tuesday morning the composition of General Merritt's forces, as far as determined, including the general officers detailed thereto, be reported to him, showing exactly what expedition now consists of and what is necessary to complete it up to 20,000 men.

Replying to inquiry of Secretary of War, I hesitate to take with command all the animals that will probably be needed, as well-informed persons tell me they probably will not stand the climate and other changed conditions. The cavalry horses of the squadrons of Fourth Cavalry which accompany the expedition, two animals to each gun and caisson taken, and not to exceed 50 wagons and teams in the quartermaster's department, and say 25 horses to be purchased here to provide for contingencies, should, in my opinion, be taken.

Major-General MERRITT, *San Francisco, Cal.:*

After careful consideration Secretary War directs but one battalion of four companies of Third Artillery be detailed for expedition to Philippines. Thinks that four troops of Fourth Cavalry, dismounted, are all that can be spared. If, however, after conferring with General Merriam, he feels he can spare eight troops, you will be instructed to order them to report to you. It is not thought any horses should be taken for cavalry. The artillery and cavalry organizations going with you will be filled to maximum before leaving—cavalry to 100 per troop and artillery to 200 men. Are you able to report that any volunteer regiment in your command can be sent to relieve the Fifteenth Infantry? In meantime we are making efforts on this side of continent to secure services of volunteer regiments in order that Fifteenth may come to you, which will be recruited to maximum before sailing. General MacArthur will be ordered to report to you. General Gilmore will remain on duty with General Miles, and Secretary War, for reasons that will occur to you, does not care to order General Hall before first ascertaining that these services will be agreeable to him.

Referring to your telegram relating to the Fourth Cavalry and Third Artillery, General Merriam tells me he could spare the eight troops probably, certainly six troops, of the Fourth Cavalry. In regard to taking this cavalry dismounted, I am of the opinion that it would be feasible and very desirable to take the serviceable horses now with the cavalry command—say forty or fifty horses to the troops.

Major-General MERRITT, *San Francisco, Cal.:*

Referring to your telegram of May 30 concerning eight batteries of Third Artillery and two squadrons of Fourth Cavalry, Secretary War directs you confer with General Merriam on this subject. In previous telegram to-day you were informed that either six or eight troops of the Fourth Cavalry would be taken. He does not think that more than four batteries of Third Artillery should go at this time, but these should be filled to the maximum.

ADJUTANT-GENERAL, *Washington, D. C.:*

Under your telegram yesterday four batteries Third Artillery, Major Hess commanding, ordered to report to General Merritt. These batteries not yet filled to maximum, but recruiting rapidly. To make up cavalry squadron have ordered one troop from Vancouver and three from Presidio, Major Kellogg to command. This leaves two troops at Walla Walla with Major Rucker, one at Boise, one old and two new troops with band at Presidio, Lieutenant-Colonel Morris commanding, and two troops in National Park. If more of this cavalry is to join Merritt's force, Morris desires to go with it, but I doubt his fitness for field service.

ADJUTANT-GENERAL, *War Department, Washington, D. C.:*

Replying to your dispatch of 31st ultimo, there are more men ready to embark than the ships *China* and *Colon*, which you mention, will accommodate. The *Zealandia* it is understood here is also to sail at the same time, and there are more

than sufficient men armed and equipped ready to load her also. The total capacity of the three ships is reported by the board of survey as 205 officers and 2,313 men, and the ships are reported staunch and in good sanitary condition. They will not be ready to sail under a week. It is important of course that additional transports be chartered at once.

Major-General MERRIAM, *San Francisco, Cal.:*

With exceptions noted below, orders issued to-day provide for the detail from each battalion of a regiment and from each independent battalion, by the commanding officer thereof, of one recruiting party, to consist of one officer and four enlisted men, one of whom should be qualified to perform clerical work; and in a

like manner from each troop or battery not otherwise provided for above, a recruiting party of one officer and one enlisted man, and in addition from each regiment or organization consisting of two battalions, one medical officer for service with recruiting parties therefrom. Each party to proceed to locality where organization was raised for the purpose of enlisting recruits to fill such organization already in service to the maximum published in General Orders, 29, current series, from these headquarters. The names of the officers, their respective organizations, and the points to which sent to be reported as early as possible to the Adjutant-General of the Army. You will give the necessary orders for transportation and subsistence, the travel enjoined being necessary for the public service. Instructions for recruiting officers and blank forms will be sent on or about the 7th instant to adjutant-general of the state, to whom officers in charge of recruiting parties should apply for the same. Complete returns not having been received here, each recruiting officer, before proceeding to comply with these instructions, will inform himself, by conference with his commanding officer and inspection of returns, of the number of enlisted men required under this plan by the organization for which he is to recruit, which detailed information you will please compile and report to the Adjutant-General of the Army. Each recruiting officer thus detailed will also be an acting quartermaster.

Organizations from the following States, whose apportionment under the first call exceeded their quota under both calls, will not be considered in this order, namely: Delaware, Idaho, Montana, Wyoming, Arizona, Nevada, North Dakota, South Dakota, Vermont, District of Columbia, New Mexico, Oklahoma, Indian Territory.

The organization of additional companies except cavalry necessary for the completion of regiments to twelve-company basis, battalions to four-company basis, will be taken up in the near future under the same rules that governed the organizations and muster in of the troops raised under the President's first call, but it is not intended that this latter work shall interfere with the above, and it is therefore not begun at this time.

Each commander detailing a recruiting officer under these instructions will promptly mail to the chief commissary and chief quartermaster, respectively, of the department into which the recruiting officer is sent a copy of the order of detail, with the signature of the recruiting officer inscribed upon the same. Acknowledge receipt.

DEAR SIR: In accordance with the request of the honorable Secretary of War, which came to us from you, we have written to General Merritt in regard to the Philippines, and inclose copy for your reading.

We remain, very truly, yours, HENRY W. PEABODY & Co.

BOSTON, MASS., *June 4, 1898.*

Maj. Gen. WESLEY MERRITT, U. S. Army, *San Francisco, Cal.*

SIR: In accordance with our overtures and the official indorsements which we inclose, we are pleased to respond to the request of the honorable Secretary of War in submitting to you some information regarding the Philippines. Our close business relations there the past eight years, and especially the residence at Manila nearly four years of Mr. Charles L. Smith, now connected with our Boston office, enable us, perhaps, to have some information that may be useful, at least in confirming what you find from other sources.

His description of the recent conditions at Manila, received by private advices, we believe to be equally reliable to the facts which he states from his earlier observations, viz:

Climate.—The southeast monsoon sets in during April, and rains are frequent in the afternoon during May and become heavier in June, while July is generally the rainiest month of the year, there being a downpour of rain for ten to twelve days at a time, so that the country is practically under water. During August the rains become more spasmodic, though there are usually many heavy storms. September is the last of the southeast monsoon, and with October we have the northeast monsoon, with almost uniform clear, dry weather until April again. The rainy season in Manila is generally considered as healthy a season as any, as, coming after the long hot, dry period, it washes the country and air clear of all impurities, and practically the only danger from this season is the exposure to the weather, with consequent chills and colds.

Location.—Manila is built entirely on the low, swampy land at the mouth of the river Pasig, and the country back of the city, extending to the foothills, some 20 to 25 miles away, is of the same swampy character, and is given up chiefly to the cultivation of rice. Consequently, during the wet season the country inland from Manila is practically impassable, especially for troops of any kind. There are very few roads, and these narrow and poorly made. In fact, it would be very difficult at this season for troops to maneuver to any extent in the rear of the city. The city is built on both banks of the Pasig, and is intersected in every direction by a network of creeks and canals. Most of these are only 10 to 20 feet wide and easily spanned by portable bridges, but very difficult to cross by fording, as they all have a soft mud bottom. The river Pasig has two bridges and one or two smaller ones.

Natives.—My own experience with the natives, and especially with the native troops, is that they have no particular love for the Spaniards, and, while they will fight under the Spanish rule with the utmost valor so long as they think the Spanish are invincible, yet when they once become convinced that the Spanish are to be defeated they will immediately turn against their commanders and join the opposing forces. This has happened several times in the recent insurgent engagements, and, in my opinion, would be sure to be the case if they were attacked by American forces. It may be interesting for you to know that, in all the recent troubles with the natives in Manila, not one Englishman or English-speaking man in the islands has been interfered with by the natives. On the contrary, they have been doing everything possible to win the sympathy of the English-speaking people, and it seems reasonable to suppose that they would help the American troops, and that, with the Spaniards once conquered, we should have no trouble in bringing the natives into submission.

Spanish troops.—There have been apparently about 50,000 troops sent to the Philippines from Spain, but of these apparently only about one-half are now fit for service, the balance having died or been invalided home. Of these 25,000 now in the islands apparently nearly one-half are south of Manila, distributed in

small detachments at the various ports throughout the archipelago. A month and a half ago it was supposed that there were some 7,000 to 8,000 Spanish troops in Manila and about 3,000 to 4,000 native troops, making a total fighting force of not exceeding 12,000, which might be added to by volunteers. It is obviously impossible for the troops in the southern islands to return to Manila, as there is no possible communication except by water. The Spanish troops that were distributed throughout the island of Luzon to curb the recent insurgent uprising will find it extremely difficult to return to Manila, as there are no thoroughfares by land even on that island.

Defenses.—You are undoubtedly fully advised in regard to the principal fortifications in Manila. Since the recent troubles with the insurgents the Spanish have arranged a system of three-story blockhouses at the back of the city, forming a chain covering 6 to 8 miles in extent, there being about fifteen of these houses, occupied by 50 to 100 troops each. My recollection of the fortifications and defenses of the city leads me to believe that the best approach to take the city with troops would be to land on the beach just above Malate, which is about a mile and a half to the south of the old walled city and on the same side of the river. There are no fortifications to speak of at this point, and there is good ground for the formation of troops to advance on the city. All the fortifications that protect the city are on this side of the river, and the advance could be made without having to count on crossing the bridges.

Health.—The chief danger to our troops at this season of the year would be constant exposure to the weather. The Spanish troops endeavor to avoid camping on the ground as much as possible. In Manila the troops live in barracks, and when out of the city they always make a great effort to spend the night in some village where they can be quarted in the houses. Of course, at times this is impossible, and they then wrap themselves in heavy blankets and sleep on the ground. Their uniform consists of a light gauze suit of underclothes and blue and white stripe cotton drill. Yellow fever and cholera are unknown. While there is more or less smallpox, it is not epidemic. The great danger arises from dysentery, which is very easily contracted if one is allowed to get chilled. My own experience proved that the greatest protection from illness during the rainy season was wearing a woolen band around the abdomen, commonly known as a "cholera belt." This proved very effective in preventing the dangerous chills to the stomach. To be thoroughly wet during the rainy season and then sleeping without proper protection or warmth is almost sure to bring on a chill, and dysentery follows quickly. This constant exposure to the weather during the rainy season would be the chief danger to our troops, but with Manila once ours there would be ample accommodations for troops in the Spanish barracks or in the large warehouses erected for the storing of hemp and sugar, which must be more or less vacant while the blockade of Manila continues.

We have the honor to be, sir, very respectfully, yours,

HENRY W. PEABODY & CO.

ADJUTANT-GENERAL, *War Department, Washington, D. C.:*

I consider it important that the authorities in Washington should know how matters are dragging with the Philippine expedition. Owing to changes necessary to be made in the chartered transports, the next detachment can not sail before about the 15th. This includes the *China, Colon,* and *Zealandia.* They

will carry, all told, about 2,500 men and officers. This, including the detachment already sailed, will be, in round numbers, about 5,000, only about one-fourth the entire expeditionary force contemplated. There are plenty of men as fit to go as these already ordered. The need being transports, as already reported (see dispatch of 2d instant), can they not be hurried? I am not complaining, but report the facts, as they do not seem to be understood in Washington. In the meantime we are doing all that is practicable in instructing the commands in camp here.

General MERRITT, *San Francisco, Cal.:*

The Secretary of War directs that you be informed that Light Batteries B and G, which have been ordered to report to you, can not be supplied with ammunition for several weeks. It is expected ammunition will arrive in San Francisco not later than the 30th, and will be hurried before that time if possible. The batteries come without horses. In order that more men may be selected for one of these batteries it is desired to know about what date you would expect them to leave San Francisco for the Philippines, and also that they may have as much time as possible to complete fitting out here.

Any action on your part looking to speedy supply of transportation will be approved. The same, however, should be reported at once to this office. The President as well as the Secretary of War give you the widest latitude in this matter.

ADJUTANT-GENERAL, *War Department, Washington, D. C.:*

The question of the necessity of taking with us machines of sufficient capacity to distill water for drinking purposes has been strongly brought to my attention by the chief surgeon of the expedition. Inquiries directed by me ascertain the facts that distiller's pumps, boilers, and tanks of sufficient capacity for drinking water for the command can be obtained in a reasonable time here at a cost not to exceed $12,000. I desire authority to proceed in this matter. I also find that at a cost not to exceed $7,500 we could procure three or four good portable steam boilers and engines and the necessary pump and about 2 miles of wrought-iron pipe and fittings for the purpose of taking water from a tower to a higher level and providing large camps with water from one or more sources of supply. I consider this also as a necessary matter, and request authority to carry it out.

HEADQUARTERS DEPARTMENT OF THE PACIFIC,
OFFICE OF THE CHIEF PAYMASTER,
San Francisco, Cal., May 30, 1898. (Received June 8, 1898.)

The PAYMASTER-GENERAL OF THE ARMY, *Washington, D. C.*

SIR: I have the honor to request that authority be given the pay department of the army in the Philippines to issue checks on New York and San Francisco to officers and soldiers for money which they may wish to send to their families.

In order to do this the existing Treasury regulations should be rescinded which forbids a disbursing officer to issue a check for less than $100 "for money to pay troops."

After pay day the men can make application to the paymaster for checks for money for mailing, and it will keep the money so received in the pay department and lessen the amount to be sent from the United States. Moreover, it would be a great accommodation to both the officers and men paid on headquarters and company rolls.

Very respectfully, your obedient servant,

CHAS. MCCLURE,
Major and Paymaster, U. S. Army, Chief Paymaster.

[First indorsement.]

WAR DEPARTMENT, PAYMASTER-GENERAL'S OFFICE,
Washington, June 8, 1898.

Respectfully referred to the Honorable the Secretary of the Treasury, through the Secretary of War, inviting attention to the within suggestions of the chief paymaster, Department of the Pacific, that officers and enlisted men may receive from the paymaster checks in exchange for money.

Reference is made to sections 3620 and 5488, Revised Statutes, and rules of the Treasury Department made in accordance therewith, as published in inclosed Treasury Department circular, No. 125, 1897.

Paymasters are authorized by Army Regulations (1349) to issue to enlisted men checks for amount of pay due them on the pay roll, but the suggestion of Major McClure relates to any sum which a soldier may desire to remit by mail.

It is hoped that the views of the Honorable Secretary of the Treasury may be received before the departure of paymasters ordered for duty with the Philippine expedition.

T. H. STANTON,
Paymaster-General U. S. Army.

[Second indorsement.]

WAR DEPARTMENT, *June 8, 1898.*

Respectfully submitted to the Honorable the Secretary of the Treasury.

G. D. MEIKLEJOHN,
Assistant Secretary of War.

Third indorsement.]

TREASURY DEPARTMENT, *June 10, 1898.*

Respectfully returned to the Honorable the Secretary of War, with the information that checks drawn for the purpose herein mentioned would not be a violation of the regulations of this Department, and the convenience to the paymaster in obtaining ready money in this manner, as well as the accommodation to both officers and men at that far-away place, would seem to warrant the War Department in modifying Article 1349, Army Regulations, herein referred to, so far as it relates to disbursements at the Philippine Islands. If a check is drawn for a portion of pay due, it should be drawn in favor of the soldier, and the object or purpose should be stated as "part pay for month of ———." If for any sum which the soldier may desire in exchange for money after he has been paid, the check should be drawn by the paymaster in favor of himself and indorsed by him, payable to the order of the soldier, and the object or purpose should be stated as "to obtain cash to make payments at a distance from a depositary."

L. J. GAGE, *Secretary.*

[Fourth indorsement.]

WAR DEPARTMENT, PAYMASTER-GENERAL'S OFFICE,
Washington, June 11, 1898.

Respectfully referred to the Adjutant-General U. S. Army, recommending modification of Army Regulations 1349 in accordance with foregoing decision of the Secretary of the Treasury.

T. H. STANTON,
Paymaster-General U. S. Army.

[Fifth indorsement.]

The Secretary of War approved the recommendation of the Paymaster-General.

The prospects as to transports is improving; hope to have five sail about the 15th, carrying 4,000 men and officers. The *Indiana*, *Ohio*, *Belgic*, and *City of Puebla* should be ready to sail about June 25. Capacity not yet determined. I again call attention to the consideration of the Government at Washington of the question of convoys for these transport ships, which must of necessity be helpless in a fight.

ADJUTANT-GENERAL'S OFFICE,
Washington, June 9, 1898.

Major-General MERRITT, *San Francisco, Cal.:*

Secretary War regrets there is no fund available for the hire of trained cooks for enlisted men on transports. The men will have to be instructed to do their own cooking. There seems to be universal complaint throughout the service, and the sooner the men understand that they are to do the work themselves, and the officers so instructed, the better it will be for the service. For a hundred years the soldiers of the Army have cooked for themselves, and it is not understood why at this late day change should be made. This, however, is immaterial, as there is no fund available.

By order Secretary War:

WAR DEPARTMENT, *Washington, June 9, 1898.*

MEMORANDUM.

Hon. W. S. Shallenberger, Assistant Postmaster-General, telephones War Department that urgency of the case makes it necessary to wire to San Francisco to-day so as to get the Railway Mail Service in touch with the Philippine expedition.

The Postmaster-General has designated one railway mail superintendent and one clerk from San Francisco to accompany the expedition, and desires to obtain rations and quarters for them. They will be on ship and on land, serving the troops. How can this be done? Wants an early reply to-day.

WAR DEPARTMENT, *June 9, 1898.*

Maj. Gen. WESLEY MERRITT, *San Francisco, Cal.:*

Postmaster-General has designated F. W. Vaille, assistant superintendent Railway Mail Service, and one clerk, to be selected by postal authorities at San Francisco, to proceed to Philippine Islands to establish and facilitate postal connections and mail service with American forces at Manila. You are directed to transport them to Manila, and requested to extend such aid and facilities in prosecution of their work as you consistently can.

Replying to your telegram of June 9, Light Battery A, Second Brigade, Massachusetts Volunteer Militia, will not be taken into the service under the second call.

H. C. CORBIN, *Adjutant-General.*

NAVY DEPARTMENT, *Washington, June 10, 1898.*

The Honorable, the SECRETARY OF WAR.

SIR: The Department finds that it has no available man-of-war fast enough and with sufficient steaming radius to convoy the army transports mentioned in General Merritt's telegram to the Adjutant-General of the 8th instant, as preparing to start for Manila about the 15th instant. It is considered that no danger of capture would be incurred by the transports in crossing the Pacific at present, but as a precaution Admiral Dewey will be requested to send, if practicable, one of his cruisers to Guam, there to meet the army transports and convoy them to Manila.

Very respectfully,

CHAS. H. ALLEN, *Acting Secretary.*

NAVY DEPARTMENT, *Washington, June 10, 1898.*

The SECRETARY OF WAR.

SIR: Referring to my letter of the 10th instant concerning the departure, about the 15th instant, of a division of the army for Manila, you are requested to communicate to this Department the sailing day of the division above mentioned, when finally settled, as also the places at which it will touch, and its estimated sea speed, in order that Admiral Dewey may be requested to have a cruiser at Guam in time to convoy the division thence to Manila.

Very respectfully,

CHAS. H. ALLEN, *Acting Secretary.*

COMMANDING OFFICER, ASTOR BATTERY, *Westchester, N. Y.:*

Secretary War directs you put your battery in readiness to proceed to San Francisco, to report to Maj. Gen. Wesley Merritt, as part of expedition to Philippines. The question of horses is one that Mr. Astor will have to determine for himself. No horses will be taken with any artillery troops going to Philippines; so the question of their transportation need not delay your departure. Quartermaster-General remarks that unless too much money has been paid for these horses that he can take them and pay cost price. Mr. Astor's agent had better correspond with Quartermaster-General on subject. All other appointments of battery, such as harness, had better go; also any ammunition, and everything belonging to battery, except horses. They will have to be supplied from native stock after arrival of troops. This will be authority for Quartermaster's Department to furnish transportation. Colonel Kimball, Army building, New York City, is the officer to whom you should apply; also chief commissary, in same building, with view to your securing travel rations. Acknowledge receipt, and report action taken.

Major-General MERRITT, *San Francisco, Cal.:*

Your request for additional troops to be assigned to expedition for Philippines is received. Our returns show that your command, present and having sailed, amounts to 15,700. To fill these regiments will require 3,300 recruits, which you should receive within few days. This will make your force quite 20,000. The President remarks, however, after reading your telegram, as fast as transportation is provided you should have the full 20,000, or even more if required. This request will be kept in mind and additional troops, if need be, furnished you as fast as transportation can be provided. We have information that Shafter's expedition is sailing at this hour.

WASHINGTON, D. C., *June 14, 1898.* (Received June 15, 1898.)

Gen. H. C. CORBIN.

MY DEAR SIR: I have received the following very satisfactory dispatch from General Merritt:

"SAN FRANCISCO, CAL., *June 14, 1898—1.59 p. m.*

"MURAT HALSTEAD, *Washington, D. C.:*

"Will be very glad to have you go with the expedition in the capacity you mention, and you may say so to the President.

"WESLEY MERRITT,
"*Major-General, U. S. Army.*"

That settles it very agreeably. I sent a copy of the General's dispatch to the President. I would be glad to know—indeed it's of importance to me to have the earliest information—as to when General Merritt will start. I have pretty nearly two thousand things to do. If there happens to be any reason for secrecy as to the movements of the General, I will take a hint and make the trip absolutely confidential; but do not suppose that there will be any hesitation in announcing his departure.

Yours, truly, with old-fashioned regards, MURAT HALSTEAD.

ADJUTANT-GENERAL'S OFFICE,
Washington, June 15, 1898.

Major-General MERRITT, *San Francisco, Cal.:*

The President is anxious that Murat Halstead accompany you to the Philippines. Will you kindly telegraph me for Mr. Halstead's information the probable date of your departure, as he has many matters of importance on hand, and does not desire to tarry any considerable time in San Francisco.

SECRETARY OF WAR, *Washington, D. C.:*

In reply to your dispatch relative to the establishment of a cable from Manila to Hongkong, it has been suggested to me by an officer of high rank in the West-

ern Union Company that it would be unnecessary to land the cable. He thinks cable could be worked from a hulk or war vessel anchored outside of marine league.

ADJUTANT-GENERAL, *War Department, Washington, D. C.:*

Referring to your telegram 15th instant in relation to the organization of an army corps for the expedition to the Philippines, which was addressed to General Merriam, but no doubt intended for me, and in which you ask my views as to the officer to be announced assigned as corps commander, I request consideration of my letter 11th instant, in which my views are fully expressed, and which should reach you by to-morrow. I deem it of great importance that I should be orignally assigned to the command with discretionary power to transfer the corps to General Otis after the assembling of all the troops at the Philippines, retaining myself command of the Department.

MERRITT, *Major-General, Commanding.*

SAN FRANCISCO, CAL., *June 17, 1898.*
(Received 3.02 p. m.)

ADJUTANT-GENERAL, *Washington, D. C.:*

Replying to your dispatch of 15th instant, I can not tell definitely when I will start for Philippines. Certainly not for ten days, when the next expedition starts, and may not then. I will keep Mr. Halstead informed, through you, of the exact date of my departure.

ADJUTANT-GENERAL, *War Department, Washington, D. C.:*

Little or no information can be obtained here in regard to coal supply now available at Manila for return of transports. If nothing definite is known at War Department, should not this information be asked of the naval commander at Manila? In view of his statement in telegram furnished from the War Department that it is difficult to obtain coal, it is possible that colliers should be taken from here. Very desirable to know privately at once in regard to this matter.

MERRITT, *Major-General, Commanding.*

SAN FRANCISCO, CAL., *June 17, 1898.*
(Received 9.50 p. m.)

ADJUTANT-GENERAL, *Washington, D. C.:*

I intend, if everything is propitious, to sail with the next detachment to Manila. In view of this and the growing necessity for a convoy, I request that the *Philadelphia*, now at the navy-yard here, may be placed at my disposal for transportation, and to act as a convoy to the transports. She can return to this port at once after the performance of the duty, or remain at the Philippines under such orders as may be given. I ask that this request may be laid before the President.

ADJUTANT-GENERAL, *War Department, Washington, D. C.:*

The transports *Morgan City, Ohio, Indiana, Valencia,* and *City of Para* are now being fitted out with the total capacity for about 4,000 men. It is expected these ships will be ready to sail in about ten days.

MERRITT, *Major-General, Commanding.*

NAVY DEPARTMENT, *Washington, June 18, 1898.*

SIR: This Department requests to be informed whether the commanding officer of the military expedition that sailed from San Francisco to Manila on the 15th instant was instructed to touch off Guam to meet a convoy from Admiral Dewey, in case one is there. This course was recommended in a letter from this Department to the War Department, dated the 10th instant.

Very respectfully,

JOHN D. LONG, *Secretary.*

The SECRETARY OF WAR.

CAMP MERRITT, CAL., *June 12, 1898.*
(Received June 18, 1898.)

DEAR GENERAL CORBIN: General Merritt was good enough to assign me on arrival here to command the next detachment sailing to the Philippines, consisting of First Battalion, Eighteenth Infantry; First Battalion, Twenty-third Infantry; detachment Company A, Engineer Battalion, United States; First Colorado Infantry; First Nebraska Infantry; Tenth Pennsylvania Infantry; two batteries Utah Artillery; in all, something over 4,000 men. The troops are thoroughly equipped, well drilled, and in every way a splendid body of men. I have spent nearly all this week inspecting and drilling them. We have four ships, *China,* the finest vessel on the Pacific, *Colon, Zealandia,* and *Senator.* The bunks, galleys, sinks, and other arrangements for the men are as far superior to those of the transports I was on in New York Harbor as can possibly be imagined. We expect to sail on Wednesday, June 15. I belive it is General Merritt's intention to sail in person with the next detachment, about ten days later, but I have no positive knowledge.

I do not know whether we shall have much or little fighting to do at Manila, or what the nature of our work will be there. But I feel that the President, Secretary of War, and yourself, as well as General Merritt, have done everything that could possibly be done for me personally, and if I fail to do my part in justifying their confidence in me, I assure you it will not be for lack of trying.

I inclose a photograph taken just before I left New York, and hope you will find a place for it in your collection.

I trust the country will appreciate the tremendous amount of hard and successful work you have done during the last sixty days, and with best wishes I remain,

Very sincerely, yours,

F. V. GREENE.

LIEUTENANT SLOCUM.

HEADQUARTERS UNITED STATES EXPEDITIONARY FORCES
AND DEPARTMENT OF PACIFIC,
San Francisco, Cal., June 11, 1898. (Received June 19, 1898.)

The ADJUTANT-GENERAL, *Washington, D. C.*

SIR: I have the honor to state that, in my opinion, it will greatly facilitate future operations of the Philippine expedition under my command if the troops comprising the expeditionary forces (20,000 in number) should be constituted an army corps, and that I be given discretionary power to assign in the future the next in command under me, after the occupation of the islands, to the command of the corps, should I see fit in the public interest to do so. By making the command an army corps many matters of military administration would be better served so far as the interests of the troops are concerned, and I would be left free, if I find it desirable to transfer the command of the corps, to devote my attention to the important matters of the government of the vast territory and the general military operations.

In the event that this is approved and the eighth corps created, I very earnestly ask that the officers heretofore selected by me, and now in reality performing the duties of corps staff officers, may be appointed to, and assigned with, the volunteer rank to which they would be entitled under section 10 of the act of Congress approved April 22, 1898, as follows: Maj. Thomas H. Barry, assistant adjutant-general, U. S. Army, as lieutenant-colonel and assistant adjutant-general, U. S. Volunteers; Maj. E. H. Crowder, judge-advocate, U. S. Army, as lieutenant-colonel and judge-advocate, U. S. Volunteers; First Lieut. Charles L. Potter, Corps of Engineers, U. S. Army, as lieutenant-colonel and chief engineer, U. S. Volunteers; Capt. Charles W. Whipple, Ordnance Department, U. S. Army, as lieutenant-colonel and inspector-general, U. S. Volunteers. This last nomination with a view to giving Captain Whipple, as ordnance officer, the rank to which his important services entitle him, and for which no provision is made in the law.

Very respectfully,

W. MERRITT,
Major-General, U. S. Army.

ADJUTANT-GENERAL'S OFFICE,
Washington, June 19, 1898.

Maj. Gen. WESLEY MERRITT, *San Francisco, Cal.:*

In case the recruits and regiments now with you do not reach 20,000, as agreed upon for your army corps, would you still prefer the First New York, Colonel Barber, over all others? It looks now as though one additional regiment would have to be ordered to report to you. Would like to know your preference as to regiments. It is understood First New York is very desirous of going with you. It is now on garrison duty at Governors Island and other posts in that vicinity, and is becoming efficient and well equipped, so that it would leave and sail the day after it reached San Francisco if it was agreed upon.

H. C. CORBIN, *Adjutant-General.*

PAYMASTER-GENERAL'S OFFICE,
Washington, June 19, 1898.

The SECRETARY OF WAR.

SIR: I desire to submit the following matter for your consideration:

After the occupation of the Philippine Islands it will be quite difficult for disabled officers ordered to their homes to obtain transportation (as transportation by transports will be very irregular) unless mileage can be advanced to them.

I would therefore recommend that the President be requested to authorize the payment of mileage in advance to disabled officers ordered to their homes from that point.

Very respectfully,

T. H. STANTON,
Paymaster-General U. S. Army.

Capt. GRANVILLE K. PALMER, *Cheyenne, Wyo.*,
Commanding Light Battery A, Wyoming U. S. Volunteer Artillery:

By direction of the Secretary of War you will proceed at once, without horses, taking such guns, carriages, harness, ammunition, and ordnance supplies as you now have, with your battery to San Francisco, Cal., and report to Major-General Merritt. Upon receipt of this order you will at once communicate with chief quartermaster, Denver, Colo., for the necessary transportation, and with the chief commissary, Denver, Colo., for ten days' field rations, the necessary travel rations, and coffee money. The Quartermaster-General and Commissary-General have instructed the chief quartermaster and chief commissary, Denver, to provide the transportation, rations, and coffee money.

Send direct to Quartermaster-General and Chief of Ordnance, respectively, separate telegraphic lists of the exact state of your equipment, including tentage and ammunition. Also to General Merritt, reporting to him at the same time and to this office the date of your departure. Acknowledge receipt.

H. C. CORBIN, *Adjutant-General.*

SAN FRANCISCO, CAL., *June 20, 1898.*

The ADJUTANT-GENERAL, *Washington, D. C.:*

In reply to your telegram, would still prefer Colonel Barber and the First New York. The Kansas regiment and the Tennessee troops now with me are, in my opinion, unlikely to be fit for some time to become a part in this expedition, and in that view it would be well to assign me at once two good regiments, including Colonel Barber's. The Kansas regiment has been here some time, and has made itself prominent by its want of capacity, so far as officers are concerned. The recent arrival of the colonel may improve these conditions, but as it now stands the regiment is unfit to embark. The Tennessee regiment, which just arrived, is completely destitute of equipment in any direction, and of instruction and drill to a great extent. Colonel Smith, of the Tennessee regiment, impresses me as a very excellent soldier, and he tells me he has good officers in his command, but the prospects are that it will be some time before the regiment can be put in shape for duty in the field. For the above reasons I am anxious that other regiments be assigned my command.

Major-General MERRITT, *San Francisco, Cal.:*

Having reference to your telegram June 18, Secretary War directs that such of the transports as may be needed to the carrying capacity of 2,500 men will be pro-

vided from the transports carrying the last of your command to Philippines. The hire or purchase of these steamers will be arranged, and you will be notified.

Major-General MERRITT, *San Francisco, Cal.:*

Careful inquiry has been made of naval commander at Manila to ascertain coal supply available there for return of transports. More definite plans can be entered into when we have report of the expedition that went under command of Brigadier-General Anderson. Secretary War desires that you obtain all possible information concerning supply of coal on which to base your recommendation as to the advisability of colliers going with you.

W. MERRITT, *Major-General.*

[First indorsement.]

WAR DEPARTMENT, SURGEON-GENERAL'S OFFICE,
June 23, 1898.

Respectfully returned to the Adjutant-General of the Army.

I do not agree with General Merritt that the instruments referred to are urgently needed. Captain Woodruff, assistant surgeon, United States Army, now on duty with General Merritt, and recently appointed brigade surgeon, asked to have a lot of instruments for the treatment of eye, ear, and throat troubles, and which had been purchased for his use, sent to him by express from Jackson Barracks, La. This request has been complied with. He has since telegraphed for authority to buy additional instruments, and I declined to authorize the purchase because I consider it an unnecessary expenditure. This telegram from General Merritt indicates an attempt on his part to get what he wants in spite of my disapproval. I have been extremely liberal in authorizing purchases for the Manila expedition, but I am unwilling to give Dr. Woodruff carte blanche for the purchase of special instruments not on the supply table of the Army. He has already been greatly favored in this way, and, as stated, the instruments selected by himself have been sent to him by express.

Five transports, with about 4,000 troops, will sail on the 27th. The ship *Newport* will start in time to overtake advance fleet, with from 500 to 600 men and officers. Before my own departure I request definite information on following points: Can I have the *Philadelphia* by July 1? The prestige and importance of my mission would be more clearly indicated in the islands by the arrival of a Government vessel with my headquarters. Also referring to my telegram on the subject, is it necessary to take colliers from here for the return supply of coal for the transports? If no Government vessel accompanies this fleet, I ask that arrangements be made for convoy in dangerous zone. This precaution seems more important as time for the enemy to prepare to intervene transpires. Also, in view of possibility of foreign interference with my troops landing at the Philippines, I desire instructions to how far, in the opinion of the Government, force should be used to enforce our rights.

He says he has been extremely liberal in authorizing purchases for your expedition and is unwilling that further purchases shall be made, in which Secretary of War concurs.

My chief quartermaster has now concluded a contract for supply of coal at Manila, varying from 3,000 to 6,000 tons, deliveries of which are to begin on or about July 31. It should, however, be considered in reference to subject of sending collier from here that no company will guarantee the time of delivery, the "on or about" being construed liberally. Therefore the Government can not depend upon having a supply of coal delivered as a result of contracts made here before some time in August. I have now definite information that the coal for the Navy Department, referred to in my telegram of the 23d instant, about 5,400 tons started for Manila on the steamer *Nyanza* from Newcastle, Australia, Thursday, the 23d instant.

MERRITT, *Major-General, Commanding.*

NAVY DEPARTMENT, *Washington, June 24, 1898.*

The Honorable, the SECRETARY OF WAR.

SIR: Referring to the telegram of General Merritt, of date the 22d instant, regarding the expedition to Manila in which he proposes to embark, I have to remark as follows:

The cruiser *Philadelphia* can not be ready for sea until several weeks after July 1.

The question of whether it will be necessary to take the colliers from San Francisco in order to coal the transports at Manila for the return voyage from the Philippines can best be settled by ascertaining on board the transports what their expenditure of coal will be in making the voyage out and back. It seems probable that some coal must be taken on board at Manila for the return voyage, though there is no information in this Department on that subject. It is not apparent that any man-of-war will be ready, of appropriate speed and endurance, in time to convoy the transports that leave on the 27th instant, and in view of the present movements of Admiral Camara it is uncertain whether Admiral Dewey will find it possible to detach any vessels from his fleet to convoy the transports when they approach the Philippines. However, Admiral Dewey will be communicated with on this subject.

The Navy has no reserve of coal at the Philippines, and it would seem that the transports will have to make some provisions for coal for the return voyage.

Respectfully,

CHAS. H. ALLEN, *Acting Secretary.*

ADJUTANT-GENERAL'S OFFICE,
Washington, June 24, 1898.

Major-General MERRITT, *San Francisco, Cal.:*

In reply to your cipher telegram of 22d, which has been read by both the President and Secretary War, I am instructed to inform you that the Navy Department reports that the *Philadelphia* will not be ready for any service in less period

than thirty days. This would seem to take her out of list of availabilities for your service. The question of coal will be definitely determined within a day or two. It is thought, however, that sufficient coal can be furnished the transports to Manila, Commodore Dewey having considerable store accumulated. Definite information will, if possible, be obtained by cable. Transports should take with them all that is possible for them to carry. Arrangements will be made for convoy in the dangerous zone. The Secretary War bids me say that the last paragraph of your telegram is not understood. It reads: "Also in view of foreign interference with my troops landing at Philippines, I desire instructions as to how far, in opinion of Government, force should be used to enforce our rights."

The Honorable, the SECRETARY OF WAR.

SIR: The appended telegram expresses the opinions of this Department in regard to the best course to be pursued by General Merritt in conducting his expedition, when he reaches the neighborhood of the Philippine Islands. It will probably be impracticable for Admiral Dewey to send the convoy any distance from Manila to meet the General, but if it so happens that the convoy could be dispatched, the best way to enable it to meet the military transports would be for the latter to run as described in this telegram. It is therefore suggested that, if it meets with your approval, the substance of the appended telegram be sent General Merritt.

Very respectfully,

J. D. LONG, *Secretary.*

[Appended telegram.]

General MERRITT,

Commanding Military Expedition to Manila:

Navy Department can not furnish a convoy for your expedition of June 27, and thinks the probability of meeting Spaniards very small, but recommends you to run at greatest safe speed on as direct a course as practicable for a point 600 miles east true from Cape Engano, at north end of Luzon, and thence to run west true until reaching that cape. Possibly Admiral Dewey may be able to send a convoying ship to look out for you upon this 600-mile line, but whether he can is uncertain, for if Admiral Camara's fleet goes on eastward, it will arrive Manila between July 30 and August 15, according to its rate of speed, and Dewey will need all his ships to meet Camara. Precious time will be saved by not touching anywhere unless necessary.

ADJUTANT-GENERAL'S OFFICE,

Your favor of June 22 just received, and I hasten to assure you that there was no speech made of the kind you indicate on the occasion in question. The dinner was a private affair given to me and a few friends by the mayor, and not a club dinner, as represented, and which I have uniformly refused, though several have been offered. There were no newspaper reporters present and nothing of the character indicated was said. I have not seen the reports of the speech mentioned, but the mayor applied to me and offered to contradict the whole thing if I considered it important. I did not suppose that my friends would think I was capable of such gratuitous folly as was indicated in the speech. Please assure the President that I have said and done nothing which would compromise the policy he has laid out in his treatment of the questions in the East. I am making every exertion to get the command off. Four vessels sail to-day, one to-morrow, and my own early Wednesday morning. Expect to overtake the concentrated fleet at Honolulu, and I will make no delay there that is not absolutely necessary. You may be assured of this.

OFFICE MAJOR-GENERAL COMMANDING PHILIPPINE EXPEDITION,
San Francisco, Cal., June 28, 1898. (Received July 4, 1898.)

SIR: As already reported, I sail on the *Newport* to-morrow about 10 o'clock, and expect to overtake the other vessels of the fleet at Honolulu.

I am sorry that more of the command can not accompany me, but it is out of the question, and I purpose doing the best I can with the means at hand. It may be possible to effect the capture of Manila with the troops that will be there when

I arrive. I will consult with Admiral Dewey, and do everything that is possible to carry out the wishes of the War Department and the President.

I can not leave the country without expressing my extreme satisfaction at the excellent work that has been done by the officers of my staff, both personal and general, in getting the commands in shape for service. My personal aids, as well as General Hughes, Major Simpson, Colonel Whipple, and in fact all of the staff, have done great work in teaching the new men their duties as soldiers, and we have succeeded in giving them all, so far as they have sailed, a short course of target practice. The material that I have sent is very fine, so far as I can judge. The men are enthusiastic and willing to learn, and most of the officers are quite satisfactory. Of course they have to contend with the want of experience in military matters, but I am satisfied they will give a good account of themselves if we have an opportunity to engage them at Manila.

I take it for granted that the possibility of the Spanish fleet arriving at Manila before our troops get there is not great, and I will strain every nerve to anticipate the Spaniards in arriving at Manila.

Thanking you, the President, and the Secretary of War, for the kindnesses extended to me, I am,

Very respectfully, WESLEY MERRITT,
Major-General.

DEPARTMENT OF STATE,
Washington, July 6, 1898.

The Honorable, the SECRETARY OF WAR.

SIR: I have the honor to transmit herewith for your information a copy of an unnumbered dispatch of May 12 last, from the consul at Manila, relative to the political situation in the Philippine Islands.

Respectfully, yours, WILLIAM R. DAY.

[Inclosure.]

No. —, of May 12, 1898, from Manila, Philippine Islands.

CONSULATE OF THE UNITED STATES, MANILA, PHILIPPINE ISLANDS,
Special Cruiser Baltimore, Manila Bay, opposite Cavite, May 12, 1898.

Honorable Judge DAY,
Secretary of State, Washington, D. C.

SIR: To aid you, if possible, permit me to give assurance of the friendliness of the Philippine natives to our country and to me as its representative.

During the period of my residence in Manila every week was a history of barbarities by Spaniards and of efforts, often futile, of the natives to obtain rights and protect their homes.

Scores of times I have heard hopes expressed that either the United States or Great Britain would acquire these islands. In all this, foreign residents other than Spanish concurred, and all such classes are most friendly to me.

In the struggle between Spain and the insurgents the deaths have been many greater among the natives, first, because the Spaniards have been much better armed; second, because the Spaniards killed many noncombatants—old men, women, and children—while the natives refrained from such barbarities.

From concensus of opinions of many reliable people I estimate Spanish forces here about as follows:

First. Naval force, in ships, annihilated in the notable battle of Manila Bay, in which ten Spanish war ships were burned and sunk, two auxiliary gunboats ditto, and about thirty steamers, schooners, tugs, etc., captured.

Second. About 4,000 Spanish infantry, nearly a half of whom are in hospitals.

Third. About 6,000 native troops under Spanish officers: but if such officers were deported their soldiers would eagerly follow our flag.

An insurgent leader, Major Gonzales, reported to me last week on the *Olympia* that they had 37,000 troops under arms, good and bad, surrounding Manila, endeavoring to cooperate with us. In the main they are very poorly armed, but have about 6,600 rifles taken from the Spaniards. They have captured the entire railroad line and the River Pasig, thus cutting off supply lines, while we, by cutting off supply by bay and sea, can soon starve Manila into surrender.

These natives are eager to be organized and led by United States officers, and the members of their cabinet visited me and gave assurance that all would swear allegiance to and cheerfully follow our flag. They are brave, submissive, and cheaply provided for.

To show their friendliness for me as our nation's only representative in this part of the world, I last week went on shore at Cavite with British consul in his launch to show the destruction wrought by our fleet. As soon as natives found me out they crowded around me, hats off, shouting, "Viva los Americanos," thronged about me by hundreds to shake either hand, even several at a time—men, women, and children—striving to get even a finger to shake, so I moved a half mile shaking continuously with both hands. The British consul, a smiling spectator, said he never before saw such an evidence of friendship. Two thousand escorted me to the launch, amid hurrahs of good feeling for our nation. Hence I must conclude:

First. Our squadron can force surrender in a day—Spaniards are all cooped up in Manila.

Second. Spanish officers of native regiments away. These 6,000, together with selections from the 37,000 insurgents, can give us ample land force, and can be well armed with rifles of Spanish soldiers and from barracks and arsenals.

Third. Few United States troops will be needed for conquest and fewer still for occupancy. Expulsion of Spaniards, naval, civil, military, and cleric, will remove all discord and danger, and civil government, crude in the beginning, but better than the present, will be easy and be well received, while native priests, of which there are many, can fully and with perfect acceptability meet all religious requirements so far as present established religion is concerned.

All natives, all foreigners other than Spanish, and certain Spaniards in mercantile and retired life, will aid us to every extent. The people crave a change of flag.

Hence I believe ample assurances are at hand that civil government by us will be easy of organization and gratefully received by the people.

My communications to your Department are, these war days, supra-consular, but on other lines I endeavor to serve our fleet and thus serve our nation.

All rejoice over the merited promotion of our Commodore to the rank of rear-admiral, but every man of the fleet proved a hero, and it seems as if the shield of Providence warded off the enemy's shot, leaving our men unharmed, our ships and guns intact, and gave us the most important and unique victory of history.

The student of the next century will read with pride that the right arm of Spain was broken at the battle of Manila Bay, and from this must come the acquisition of these islands, many times more extensive, more populous, and more valuable than Cuba, or else their capture will force Spain to conditions of peace on basis of honor, so much sought by our nation.

I have the honor to be, sir, your most obedient servant,

OSCAR F. WILLIAMS,
United States Consul.

Hon. G. D. MEIKLEJOHN,
Assistant Secretary of War, Washington, D. C.

DEAR SIR: I have the honor to acknowledge yours of July 7, in the matter of sending a geologist to the Philippine Islands.

I wish to personally thank you for the interest you have shown in sending Dr. Becker, and I trust that the results will fully justify the action taken. Dr. Becker has received a letter from the Secretary of the Navy to Admiral Dewey, and starts out under the most auspicious conditions.

Truly, yours, CHAS. D. WALCOTT.

Major-General OTIS, *San Francisco, Cal.:*

The Secretary is desirous of having a regiment go to Honolulu for station; have you one available? He would also like you to go in advance, if possible, of your expedition, and remain at Honolulu until the forces overtake you.

SAN FRANCISCO, CAL., *July 8, 1898.*
(Received 7.10 p. m.)

ADJUTANT-GENERAL, U. S. ARMY,
Washington, D. C.:

The situation is as follows: Steamers *Pueblo* and *Peru* now loading with freight of troops designated to embark thereon. Troops are remainder of Fourteenth Infantry and remaining recruits for the two battalions of the Eighteenth and Twenty-third Infantry which have already gone to Manila, detachment of battalion Third Artillery also gone, squadron of Fourth Cavalry, two light batteries of Sixth Artillery, and the remaining enlisted men of battalions of volunteer organizations which have gone; all numbering 1,800, equal to full capacities of vessels. The vessels can sail early next week and assignments can not now be changed without making confusion. Steamer *Titania* not to be chartered for reasons telegraphed yesterday to Assistant Secretary of War, hence instructions in your telegram of yesterday can not be strictly carried out. The *St. Paul* can, I think, be secured, and is expected in port on or before Tuesday next. This, with *Rio de Janeiro* and *Pennsylvania*, now discharging cargo, can transport 3,000 men or more; vessels can be in condition about the same time, probably in twelve days. Have directed charter of *St. Paul* on same terms as former charters contained. I would recommend that I take the *Puebla* and *Peru* on to Honolulu as soon as prepared to sail, and there wait the remaining vessels of the flotilla; that a vessel be secured to transport a regiment to Honolulu for station, to sail with them.

This I think I can do. I would recommend that the Eighth California Volunteers be designated for the Honolulu station. The colonel is an excellent national guard officer of long standing and a good lawyer; the lieutenant-colonel (Carrington) is an army officer of experience, as is known. The remaining field officers and a majority of the enlisted men have a long national guard experience. If suggestions are approved, will put the Eighth California in condition to embark. Will telegraph more fully later, as soon as I can learn conditions in regard to transports.

Have directed the charter of steamer *St. Paul*, expected here 10th instant or at latest by 12th. Excellent vessel and terms moderate. Also directed charter of sailing vessel *Tacoma*, at $200 per day, to transport stock and forage. She will leave about 18th instant. Can, I think, secure vessels to transport regiment to Honolulu—men per capita, freight per pound—at moderate rates. First mail steamer for Honolulu leaves on 13th instant.

SAN FRANCISCO, CAL., *July 9, 1898.*

QUARTERMASTER-GENERAL, *Washington, D. C.:*

In accordance with telegraphic instructions this date, chartered steamship *City of Rio Janeiro*, also steamship *Pennsylvania*. Arrangements have been made to fit these vessels as rapidly as possible for transport service. Every endeavor will be used to promptly complete them. Under direction of General Otis have also chartered sailing ship *Tacoma*, which will be fitted as rapidly as possible for animals, and will also take a large quantity of coal in ballast; should transport about 225 animals. Will report further on this ship. This morning I notified General Otis that I could secure the steamship *St. Paul*, which is a sister ship of the *Senator*. Reference to telegram of 11th regarding *Senator*. *St. Paul* will carry about 1,000 men, and is a new ship, most complete in every particular, with every modern improvement, and can be rapidly fitted after arrival, and is expected Sunday or Monday next. Can arrange to charter for $1,000 per day, perhaps less, depending upon price fixed upon *Senator*. General Otis ordered me to charter her, which I will do upon arrival. General Otis has concluded not to take the *Titania*.

LONG, *Quartermaster in Charge.*

SAN FRANCISCO, CAL., *July 9, 1898.*

QUARTERMASTER-GENERAL, *Washington, D. C.:*

Reference to your telegram 7th instant, report regular line of steamers leave monthly for Honolulu on Oceanic Steamship Company, which now has only the *Alameda*, *Mariposa*, and the *Moata*, the latter being under the British flag; capacity, about 250 passengers each. Company reports no vessels available at present for carrying troops. *Alameda* and *Mariposa* about same capacity as transports *Zealandia* and *Australia*. Pacific Mail steamers have been run to Honolulu, but do not now on account of having chartered majority to the Government as transports. The Occidental and Oriental Line are British steamers and can not be utilized. There is no regular line of ships reported as carrying sugar, of which about 50,000 tons is brought here annually in small sailing ships. There are two methods available for transport of troops to Honolulu: First, by means of small steamships which have been used in Alaska trade, and with which I think arrangements can be made to transport at so much a head and so much freight per ton. These ships would carry, approximately, 250 passengers each, and on the return trip could load with sugar and other freight at Honolulu. The second is, if possible, to make arrangements with the Oregon Railway and Navigation Company for two or three of their steamships now used in trade for passengers and freight between here and Portland, which possibly could be utilized for this service as transports between this port and Honolulu if secured. Will see the manager in the early morning regarding the latter suggestion and report further.

SIR: The Department has ten engineer officers which it is desired shall be transferred, as early as practicable, from the navy-yard, Mare Island, Cal., to the fleet in Asiatic waters, under the command of Rear-Admiral George Dewey, U. S. N., now stationed at Manila, Philippine Islands.

It is requested that these officers be allowed to take passage in an army transport, and that the necessary instructions be issued in order that they may take passage on the first convenient transport sailing for Manila. Major-General OTIS, *San Francisco, Cal.:*

Your telegram recommending that you take the *Puebla* and *Peru* and go in advance to Honolulu is approved. Have you fully determined on the regiment you will assign to garrison duty there? There is no objection to the Eighth California other than it is thought that as California has one regiment on the way to the Philippines the other States feel that details for service should be given to all

the states alike. Two regiments from any one state are for these reasons objectionable. You have no idea the anxiety for service, and how any sign of favoritism is resented.

MEMORANDUM FOR THE HEADQUARTERS OF THE ARMY.

Agreeable to the instructions of the President, the Secretary of War has ordered the island of Honolulu to be garrisoned by one regiment of infantry. Provisions will be made accordingly. It has not been determined that the permanent garrison will be of this size, but will be for the present. It is probable this island will be attached to the Department of California, but this has not been fully determined.

By order of the Secretary of War:

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 10, 1898.

Major-General OTIS, *San Francisco, Cal.:*

Under instructions of Assistant Secretary of War, it is understood that you are to make all arrangements necessary for the charter of steamers for transportation of troops to Honolulu. Have you determined what regiment you will send? All things being equal, by reason of well-known ability and education, etc., of Colonel Barber, of the First New York, it is thought it would be well to send his regiment, if agreeable to him and in accordance with your own views. With this suggestion the Secretary War leaves selection to you, but desires to know what regiment you select before orders are issued.

COMMANDING GENERAL, DEPARTMENT OF CALIFORNIA, *San Francisco:*

The following instructions have been sent General Otis:

"Secretary War directs that on the embarkation of the expedition now being formed to go under your immediate charge that the remaining troops heretofore

ADJUTANT-GENERAL'S OFFICE,
Washington, July 10, 1898—midnight.

Major-General OTIS, *San Francisco, Cal.:*

At a conference to-night the President and Secretary War agreed that the First New York Volunteers should be diverted from the force going immediately to the Philippines and assigned to duty for the time being at Honolulu. It was further agreed that the Hawaiian Islands should become a part of the geographical limits of the Department of California. Under this new order of things the troops going to Honolulu will report to the commanding general of that department, but you will stop en route, as heretofore directed.

By order Secretary War:

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 10, 1898—midnight.

COMMANDING GENERAL, DEPARTMENT CALIFORNIA, *San Francisco, Cal.:*

Orders to-morrow will issue attaching the Hawaiian Islands to the Department of California. The First New York Volunteers, Colonel Barber commanding, will be assigned for the time being as the garrison at Honolulu. It is thought you will find Colonel Barber, by reason of his ability and training, an officer peculiarly fitted to the delicate duties devolving upon the first commanding officer of troops on these islands.

By order Secretary War:

ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

I understand that on application of Colonel Barber, First New York, to go to Philippines, General Merritt applied for regiment. It should reach Ogden to-morrow morning and I telegraphed Barber to know his desire and if regiment fully uniformed and equipped. Chicago papers report men without uniforms. Captain Murray informs me that he has completed muster of Eighth California, 1,287 strong, and reports that about 60 per cent are national guard men, well drilled; that officers and men are very superior and that colonel an excellent soldier and strong man. Unfortunately, it is not fully armed and many arms in possession captain has condemned. Benicia Arsenal has no .45-caliber rifles on hand, but expects them daily, as they were shipped on 1st instant. Will telegraph to-morrow, when I have more information as to actual conditions. Your three telegrams of to-day received.

Major-General OTIS, *San Francisco, Cal.:*

If you should find that the First New York is not suitable for service in Honolulu and Colonel Barber would prefer to go to the Philippines, the Secretary of War says that you can then select the California regiment. It was desired to send the First New York for the reason that Colonel Barber was an educated soldier and a man of such character and ability as commended him for this delicate and important duty. It is desired you confer with him before making final selection.

Telegram from Colonel Barber says regiment uniformed and equipped and only needs light clothing, some tentage, and band instruments. Regiment will arrive Thursday. Am promised sufficient excellent coast transportation to send entire regiment on by 23d instant about or shortly after last steamer of next expedition will sail. Terms, $35 per capita, officers and men, which is cheaper than vessels can be chartered even if it were possible to charter any. Will direct contract on these terms as soon as parties notify me that they can execute it without fail.

Great difficulty experienced in securing vessels for transportation of Honolulu troops, as promises heretofore made can not be fulfilled. No ships in port can

have one-half of regiment shipped within fifteen days and rest before August 10. Vessels *Peru* and *Puebla* loaded, and troops can be placed on board to-morrow morning. Vessels *Rio* and *Pennsylvania* ready for troops by 23d instant. *St. Paul* not yet arrived; probably will be ready for troops by same date. Admiral Miller can not start for Honolulu until after 20th instant—probably 23d or 24th. Shall I embark troops on steamers *Puebla* and *Peru* to-morrow and go on with ships to Honolulu and there await rest of fleet, or let vessels remain here two or three days to complete all necessary arrangements for entire flotilla? Please instruct me as to my duties in Honolulu. Colonel Barber arrived with a portion of the First New York. Entire regiment should be here to-morrow. Gen H. C. CORBIN,
Adjutant-General, U. S. Army, War Department, Washington, D. C.

SIR: I am in receipt of a communication from General Merritt at San Francisco, advising me that the Navy authorizes the use of naval coal at this place for the army transports. I am also in receipt of a letter from the chief quartermaster at San Francisco to the effect that he has contracted for 9,000 tons of coal to be delivered here for the use of future transports which are expected shortly. It hardly seems possible that this coal can arrive in time to coal the vessels of the third expedition. Should these vessels, however, arrive before the army coal does, I will coal them with navy coal, as I have done heretofore. I assure you that while the transports are in Honolulu every other duty which I have to perform will be laid aside so that the vessels may get away as quickly as possible.

I am, very respectfully, yours,

WM. HAYWOOD, *Consul-General.*

Hon. W. R. DAY,
Secretary of State, Washington, D. C.

SIR: I have the honor to report that there arrived here on the evening of the 23d instant the United States transports *China*, *Zealandia*, *Colon*, and *Senator*, conveying the second expedition to the Philippines, Brig. Gen. F. V. Greene commanding. These troops received the same generous treatment accorded those of the first expedition, reported in detail in my No. 167 of June 8. There was nothing left undone for the entertainment and comfort of the officers and men which warm American sympathy and traditional Hawaiian hospitality could provide. Good order and general good feeling prevailed. The impression made upon the natives was very favorable, and it is noticed that they adopt a cordial attitude toward our men, and speak in a friendly way of impending annexation. On the morning of the 25th instant, having taken on board 1,667 tons of coal, the fleet left the harbor.

The Honorable, the SECRETARY OF WAR.

SIR: I have the honor to inclose herewith for your consideration, and for such action as you may be pleased to take in the matter, a copy of a dispatch from our

minister at Honolulu, calling attention to the urgent necessity of providing for officers and men of the expeditionary forces sent to the Philippines who have been or may be left behind at Honolulu.

Respectfully, WILLIAM R. DAY.

[Inclosure from minister to Hawaii, No. 176, June 28, 1898.]

[Copy, No. 176.]

LEGATION OF THE UNITED STATES,
Honolulu, Hawaiian Islands, June 28, 1898.

Hon. W. R. DAY,
Secretary of State, Washington, D. C.

SIR: I have the honor to call your attention to the urgent need for some provision on the part of our Government to meet the emergency created by officers and men left here for various reasons from our expeditionary forces en route to the Philippines.

From the second expedition these numbered 17, as will appear from inclosed memorandum; of these, 9 were cared for by the Red Cross Society of Hawaii; 1, Private H. C. Fisk, Company D, Nebraska Volunteers, died at the Red Cross Hospital, and was buried under the direction of the society (newspaper reports of the funeral inclosed); 1 is now at the Queen's Hospital in a very sick condition. The transportation of the convalescents home has been provided for by an order on the quartermaster at San Francisco, but little money was given them for their maintenance here.

Lieutenant Ritchie, of the Tenth Pennsylvania Volunteers, with a Red Cross surgeon of the same regiment, was left behind. Through the generosity of W. G. Irwin, esq., of Honolulu, they were enabled to take the *Belgic*, leaving the 26th instant for Hongkong, whence they hope to reach Manila.

A hospital steward of the Regular Army and a surgeon of the Volunteers are also here. I have requested Captain Leutze, of the *Monterey*, to take them on board the collier *Brutus*.

Four coal bearers from the *Colon* have been assisted at the consulate as distressed American seamen.

The Red Cross Society will accommodate all it can at its hospital, and carry on its work to the limit of its resources, but it is feared that coming expeditions may exhaust these, and there are some cases that can not be taken to its hospital for treatment.

As for the men who are well and left here by mistake, they must depend upon outside assistance, both for maintenance and transportation.

In my No. 166, of June 8, I suggested that it might be necessary for our Government to establish a military camp or sanitarium here. The need of the latter is already apparent. Already the town is exposed to an epidemic of measles, a disease that is very fatal to the natives, brought by the troops, and against which there is established here on passenger steamers a strict quarantine. If the necessity for isolation and Government medical supervision of our troops here exist now, it will certainly be greater when they begin to be sent back from Manila, and are landed here, as many will have to be, because unable to continue the journey.

It will be plain, I think, on the above statement that the emergency created, which will become more serious at each succeeding expedition, and which neither the consulate nor this legation are able to meet, ought to be brought to the attention of the War Department, to which I respectfully suggest a copy of this dispatch with inclosure be submitted.

I have the honor, etc., HAROLD M. SEWALL.

Major-General OTIS, *San Francisco, Cal.:*

Having reference to telegram that you should stop at Honolulu, the Secretary of War now directs that you need not give the matter any further consideration than to confer with General Merriam and have the regiment to take station there to report to him. This to enable you to give your entire attention to the embarkation and departure of your command for the Philippines. It is feared any delay on your part at Honolulu might interfere with the expedition.

By order Secretary of War:

H. C. CORBIN, *Adjutant-General.*

ADJUTANT-GENERAL'S OFFICE,
Washington, July 14, 1898—3.45 p. m.

Major-General MERRIAM, *San Francisco, Cal.:*

General Otis will order a regiment to report to you to occupy the Hawaiian Islands. You will cause arrangements to be made on the lines understood by General Otis, which we will explain to you. Should you deem it best to go in person, with one aid, to examine sites, etc., you are authorized to do so.

ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.:*

Your telegram of to-day just received and not understood. Former expeditions have had sailing orders how to proceed, where convoys are to be met, and ultimate destination. The steamers *Peru* and *Puebla* are loaded and ready to start under orders given men to go with them and stop at Honolulu and there await for remainder of expedition, to leave 23d instant, and disposition of officers, property, and freight has been made accordingly. All orders were issued yesterday and to-day for the loading of remaining vessels, and if steamer *St. Paul* arrives within next two days the last vessel can leave here by 21st unless ordered to the contrary. I will sail on *Peru* to-morrow or Saturday and await at Honolulu for the remaining transports, as intended, but request definite sailing orders.

The ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.*

SIR: I have the honor to suggest the steamer *Newport*, in which I am now proceeding to the Phillippine Islands, as a vessel admirably adapted in every way for one of the permanent fleet of transports which, I have been officially informed, it is the intention of the War Department to furnish for the use of this expedition.

This vessel has recently had her boilers and engines thoroughly overhauled and replaced, and will probably not require repairs in that direction for some time come.

The inclosed tables show the more than ordinary facilities for ventilation possessed by this vessel and the economical expenditure of coal at a speed of 10 knots. The ship is capable of making 14 knots, and she is undoubtedly a very excellent sea boat, as indicated by her behavior in a severe blow which we encountered soon after leaving San Francisco.

I desire to call the attention of the War Department particularly to this last quality of the ship, as this is now the season of typhoons in the Philippines, and it would be unwise to navigate in those waters with transports loaded with troops, unless the ships were in every way fit to ride out a storm of great severity. For a short run this ship could carry almost a full regiment.

For the reasons above stated I particularly recommend the purchase or hire of this ship for the permanent use of the expedition in carrying troops to and from the outlying islands, and that authority may be given me (by cable) to retain her on arrival at Cavite, if I consider it desirable to do so.

Very respectfully,

W. MERRITT,
Major-General Commanding.

FACILITIES FOR VENTILATION, STEAMSHIP NEWPORT.

Forward of midships, in the steerage deck, there are three hatches; one is a hatch 14 feet square. There are two companion ways 5 by 4, and one about 4 feet square. Besides, there are two 14-inch iron ventilators—all forward. The side hatches on the quarters are so situated that they can be left open in any kind of weather. Then she has, on the deck below, capacity in the shape of cargo ports for throwing the whole side open. There are also ventilators in the aft part of the ship—one of 24 inches, and 2 of about 14 inches. She is well supplied with windsails—two 3 feet in diameter, and one of 2 feet. There are no bulkheads in the cargo space on the steerage deck, and therefore there is free passage for currents of air. There are on this deck deadhead lights of about 10 inches, which can be opened in fair weather. The cargo ports above referred to may be opened when the vessel is lying in port, and give perfect ventilation in the steerage deck, and the upper portion can be opened at sea in smooth weather.

Table showing economy in the consumption of coal, steamship Newport.

Knots.	Tons per day.
10.2	28.8
10.96	30
10.27	32
11.33	27
10.10	28
10.3	20
63.16	165.8
10.52	27.6

Average: Knots, 10.52; consumption, 27.6.

The Honorable, the SECRETARY OF WAR.

SIR: Referring to my confidential letter of the 28th ultimo, inclosing a copy of a dispatch from our minister to Hawaii reporting a delay in the departure of the U. S. S. *Monadnock* from Honolulu, and which was accompanied also by a copy

of a memorandum on the Ladrone and Caroline Islands, prepared by the minister, I have the honor to inclose herewith a copy of a revised memorandum on the same subject, which he desires to have substituted for the former one.

Respectfully, yours,

WILLIAM R. DAY.

[Inclosure: From Mr. Sewall, No. 185, July 19, 1898, with accompanying memorandum.]

No. 185.] LEGATION OF THE UNITED STATES,
Honolulu, Hawaiian Islands, July 19, 1898.

Hon. WILLIAM R. DAY, *Secretary of State,*
Washington, D. C.

SIR: Referring to my confidential dispatch of July 8, 1898, I have the honor to inclose a revised memorandum on the Caroline and Ladrone groups of islands, which I respectfully ask may replace that on the files of the Department.

I have the honor to be, sir, your obedient servant,

HAROLD M. SEWALL.

MEMORANDUM ON THE CAROLINE AND LADRONE GROUPS.

The only Spanish colony at Ponape is located on a point in the harbor sloping gradually toward the water, the site of an American mission, destroyed by the Spanish at the time of a native uprising. A wall of adobe and coral surrounds the inland portion of the colony from water to water. There are no defenses on the front or water portion of the colony. Outside this wall there was a moat in progress, with a few watchtowers and sentries, and within this a small fort, evidently built for storage of ammunition and place of refuge in case of attack by natives. There are no mounted guns on the wall nor on the water front or landing side of the colony. On the inner fort there are some small guns, evidently old-fashioned. No access is allowed here. The residences of the governor-general and all the Spanish colony are on the point of land within this large inclosure. There are 200 Spanish officers and men, a captain being the ranking officer.

In the harbor there are what are known as the inner and outer anchorage. Beacons are on all the numerous shoals in the harbor. The inner anchorage is the nearest to the colony; outside of this a larger and deeper anchorage, and within a mile, anchorage for a whole fleet. To land at the colony in a boat a straight course must be made from the inner anchorage until the rear portion of the colony bears right abeam; then steer direct for the landing, otherwise a boat is likely to ground in shoal water unless at the highest tides. The Spanish had begun a boat passage from the colony to the inner anchorage, but that is no sign that it will ever be finished.

In this inner anchorage is usually anchored the Spanish gunboat *Quiros*, somewhat similar to the *Callao* recently captured by Admiral Dewey at Manila. The *Quiros* is a wooden vessel of not over 400 tons, officered by a captain and two lieutenants. She carries 1 rifled gun on each side and 1 on her stern, and on her bow a larger gun. The officers for the most part of the time are on shore.

All the natives of Ponape are well armed with knives, Winchester rifles, and ammunition, and are violently hostile to the Spanish.

The Island of Hogoleu, Rouk, or Turk has probably the finest harbor of all, with good passage, with short intervals, around the entire reef, which is 80 miles in circumference. There are few coral patches in this lagoon and the water is deep, say from 20 to 40 fathoms, and still deeper in places. The ships of the world could anchor there at one time. The surrounding reef is low and dangerous, with

a few trees or shrubbery on it in places. The islands in the lagoon, on board a vessel approaching from any direction, can be seen a long time before the surrounding reef, as some of them are eight and ten hundred feet high.

The Island of Yap, northeast of the Pelews, has an excellent harbor and an inner and outer anchorage. The inner anchorage has water deep enough for any craft, but is very contracted. There are no Spanish fortifications here of any sort. A Spanish governor is here, with a body guard of native police.

The same description applies to the Guam of the Ladrones, but here is a large town of 4,000 people. A large ship can not anchor very near to the island proper or the boat landing. There is a boat landing on the outside of reef, near town. A bold headland marks the right side of the entrance, and has on it what appears to have been a fort.

The *Saturnus*, a Spanish unarmed merchant steamer of about 1,000 tons, runs regularly between Manila, Yap, Guam, and Ponape, taking about six weeks for the round trip. When the American missionary vessel *Morning Star* was at Ponape, the 28th of February last, the *Saturnus* was then daily expected and several days overdue.

The weather about the groups is not variable, the trades blowing quite regularly from the east the year around; November, December, and January are the months of wet and squally weather.

In regard to coal, it is to be had at Jaluit, in the Marshall Group, of the German firm, and at Butaritari, of the Gilbert Group, of a Chinese firm, which keeps on hand a good quality, and the price charged is about $12.50 a ton.

The Secretary of War directs that the following proclamation of the President be sent you for your information and guidance:

"BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

"A PROCLAMATION.

"Whereas by a protocol concluded and signed August twelfth, eighteen hundred and ninety-eight, by William R. Day, Secretary of State of the United States, and His Excellency Jules Cambon, Ambassador Extraordinary and Plenipotentiary of the Republic of France at Washington, respectively representing for this purpose the Government of the United States and the Government of Spain, the United States and Spain have formally agreed upon the terms on which negotiations for the establishment of peace between the two countries shall be undertaken; and

"Whereas it is in said protocol agreed that upon its conclusion and signature hostilities between the two countries shall be suspended, and that notice to that effect shall be given as soon as possible by each Government to the commanders of its military and naval forces:

"Now, therefore, I, William McKinley, President of the United States, do, in accordance with the stipulations of the protocol, declare and proclaim on the part of the United States a suspension of hostilities, and do hereby command that orders be immediately given through the proper channels to the commanders of the military and naval forces of the United States to abstain from all acts inconsistent with this proclamation.

"In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done at the city of Washington, this twelfth day of August, in the year of our Lord one thousand eight hundred and ninety-eight, and of the Independence of the United States the one hundred and twenty-third.

(Signed) "WILLIAM MCKINLEY.

"By the President:

"WILLIAM R. DAY, *Secretary of State.*"

Acknowledge receipt.

By order Secretary War:

THE PROTOCOL PROVIDES

1. That Spain will relinquish all claim of sovereignty over and title to Cuba.

2. That Porto Rico and other Spanish islands in the West Indies, and an island in the Ladrones, to be selected by the United States, shall be ceded to the latter.

3. That the United States will occupy and hold the city, bay, and harbor of Manila, pending the conclusion of a treaty of peace which shall determine the control, disposition, and government of the Philippines.

4. That Cuba, Porto Rico, and other Spanish islands in the West Indies shall be immediately evacuated, and that commissioners, to be appointed within ten days, shall, within thirty days from the signing of the protocol, meet at Havana and San Juan, respectively, to arrange and execute the details of the evacuation.

5. That the United States and Spain will each appoint not more than five commissioners to negotiate and conclude a treaty of peace. The commissioners are to meet at Paris not later than the 1st of October.

6. On the signing of the protocol hostilities will be suspended, and notice to that effect will be given as soon as possible by each Government to the commanders of its military and naval forces.

Chief Surgeon and Majors Ruhlen and Long all recommend the *Scandia* for hospital ship. She will be ready to sail about Saturday. Requires no considerable changes beyond those planned already, but work can not be well done at sea. She can take a large amount of supplies needed at Manila, now loading, and also balance of garrison for Honolulu. *Arizona* is ready for sea, including also large amount of supplies for troops already at Manila. Troops assigned for this ship under General King consist entirely of detachments of organizations now at Manila and incomplete.

On 7th instant Admiral Dewey joined me in forty-eight hours' notification to Spanish commander to remove noncombatants from city. Same date reply received expressing thanks for humane sentiments, and stating Spanish without places of refuge for noncombatants now within walled town. On 9th instant sent joint note inviting attention to suffering in store for sick and noncombatants in case it became our duty to reduce the defenses; also setting forth hopeless conditions of Spanish forces, surrounded on all sides, fleet in front, no prospect of reenforcement, and demanded surrender as due every consideration of humanity. Same date received reply admitting their situation, but stating council of defense declares request for surrender can not be granted, but offered to consult Government if time was granted necessary for communication via Hongkong. Joint note in reply declining on the 13th. Joined with navy in attack with following result: After about half hour's accurate shelling of Spanish lines, MacArthur's brigade on right and Greene's on left, under Anderson, made vigorous attack and carried Spanish works. Loss not accurately known, about fifty in all. Behavior of troops excellent. Cooperation of the navy most valuable. Troops advanced rapidly on walled city, upon which white flag shown, and town capitulated. Troops occupy Malate, Binondo, walled city San Miguel. All important centers protected. Insurgents kept out; no disorder or pillage.

Confidentially, may I suggest that State and national politics are being complicated here, seemingly by whims of Regular Army officers, who appear to be gratify-

ing personal ends. Seventh California been repeatedly promised, and each time new excuses intervene. The Seventh had detail guarding Indians, which took other troops. Was slated for the *Arizona*, and at General King's request recruits put on her. Now guarding *Scandia*, and that ship to be taken for hospital purposes. Southern California feels this a conspicuous discrimination against her regiment, which, first ready, roused local conditions; makes it wisdom to send Seventh instead of recruits. States having regiments in Manila do not care whether recruits are sent or not, but southern California wishes a representation in Philippines.

WAR DEPARTMENT, *August 19, 1898—3.30 p. m.*

Hon. MARTIN FRANK PIERCE, *San Francisco, Cal.:*

There has been no intention on the part of this Department to discriminate against California or any other State. It is not deemed expedient to send any regiment to the Philippines at this time, as it is held, under conditions of the protocol, that the troops and detachments belonging to the organizations now there could only be sent; also supplies; but it is doubtful whether new or independent organizations could be added to General Merritt's force. Should this be decided in the affirmative, I would take great pleasure in instructing General Merriam to send a California regiment among first going to Philippines.

ADJUTANT-GENERAL'S OFFICE,
Washington, August 20, 1898—noon.

COMMANDING GENERAL, DEPARTMENT CALIFORNIA,
San Francisco, Cal.:

The Secretary of War directs that the troops of General Merritt's department remaining in San Francisco be sent to Honolulu, as transportation is available, there to await further orders. At least four months' subsistence and abundant medical stores and medicines should be provided. All the medical officers should go with this command. Where there is not the full complement, you are authorized to employ acting assistant surgeons. The transports going to Honolulu should remain in the harbor there until further orders. Acknowledge receipt and report action taken.

By order Secretary War:

H. C. CORBIN, *Adjutant-General.*

HONGKONG, *received August 20, 1898—2.25 p. m.*

ADJUTANT-GENERAL, *Washington:*

Reply your cablegram 13th regard sending forward troops now San Francisco, my opinion no necessity for sending troops. Difficulty landing supplies here much greater than anticipated. Shall transports now here, which brought second and third expeditions, and are not yet unloaded, be held to return as many troops to Un ted States as exigencies of terms upon which hostilities were suspended, and which are not known to me, will justify?

MERRITT.

ADJUTANT-GENERAL'S OFFICE,
Washington, August 20, 1898.

General MERRITT, *Manila:*

The President is glad to know you have ample force. Keep only such ships as you may require for transportation purposes. Will you want a hospital ship, or can you provide for all necessary hospitals at Manila? Every provision will be made by you for the health of your command and comfort of your sick. One of your ships may be found useful for hospital purposes; if so, you are authorized to make any change necessary. In this connection, the Navy Department reports the Government owns a hospital at Yokohama, with capacity for 600, and that there is also hospital at Hongkong which you can use. A report of the health of the troops of your command desired.

ADJUTANT-GENERAL, *Washington:*

The following are the terms of the capitulation:

The undersigned having been appointed a commission to determine the details of the capitulation of the city and defenses of Manila and its suburbs, and the Spanish forces stationed therein, in accordance with agreement entered into the previous day by Maj. Gen. Wesley Merritt, U. S. Army, American commander in chief in the Philippines, and his excellency Don Fermín Jardenes, acting general in chief of the Spanish army in the Philippines, have agreed upon the following:

1. Spanish troops, European and native, capitulate with the city and defenses with all honors of war, depositing their arms in the places designated by the authorities of the United States, and remaining in quarters designated and under the orders of their officers and subject to control of the aforesaid United States authorities until the conclusion of a treaty of peace between the two belligerent nations. All persons included in the capitulation remain at liberty, the officers remaining in their respective homes, which shall be respected as long as they observe the regulations prescribed for their government and the laws in force.

2. Officers shall retain their side arms, horses, and private property; all public horses and public property of all kinds shall be turned over to staff officers designated by the United States.

3. Complete returns in duplicate of men by organizations, and full lists of public property and stores shall be rendered to the United States within ten days from this date.

4. All questions relating to the repatriation of officers and men of the Spanish forces and of their families, and of the expenses which said repatriation may occasion, shall be referred to the Government of the United States at Washington. Spanish families may leave Manila at any time convenient to them; the return of arms surrendered by the Spanish forces shall take place when they evacuate the city or when the American army evacuates.

5. Officers and men included in the capitulation shall be supplied by the United States, according to their rank, with rations and necessary aid as though they were prisoners of war, until the conclusion of a treaty of peace between the United States and Spain. All the funds in the Spanish treasury and all other public funds shall be turned over to the authorities of the United States.

6. This city, its inhabitants, its churches and religious worship, its educational establishments and its private property of all descriptions, are placed under the special safeguard of the faith and honor of the American army.

Referring to your telegram just received, *Australia* and *Sydney*, now coaling, will sail in about three days with troops and supplies for Honolulu, and can repeat trip twice a month. *Pekin* expected hourly; can do same. Colonel Barber reports great difficulty in finding ground for regimental camp at Honolulu. Larger camp still more difficult. *Arizona* sails to-night with supplies for General Merritt and detachments under General King. I am also aboard to carry out order of August 9 at Honolulu, and will also look into locations for camps there. General Miller will supervise my office here in my absence. *Scandia*, converted for hospital service under your order of 16th August, is loaded with hospital supplies and detachments for Manila, including money for pay of troops, and will sail in three days.

(Received August 29, 1898.)

ADJUTANT-GENERAL, U. S. ARMY.

GENERAL: I have the honor to transmit the required reports of the voyage of the transports of this expedition.

I need only summarize a few suggestions: When possible, it would seem expedient to let the commandant of an expedition have some control before his transports start. Copies of the charters should be given the quartermaster on each vessel. The promises of the agents to make changes and improvements should not be taken for granted as fulfilled.

On our transports the cooking facilities were inadequate. The temperature of the sea water being over 82° F., raised the temperature of the cold-storage rooms so that there was great loss of beef.

In the *Australia* only 800 gallons of water could be distilled per diem, and the water supply was inadequate.

Convoys should be able to run more than 9 knots an hour. A thirty-six days' voyage in the Tropics is very trying when the vessels are crowded and not intended for transports.

Men should not be allowed to take their bedticks on deck, even if allowed to sleep there.

Very respectfully, THOMAS M. ANDERSON,
Brigadier-General, U. S. Volunteers, Commanding.

ON BOARD S. S. CITY OF PEKIN, *June 1, 1898.*
(Received August 29, 1898.)

ASSISTANT ADJUTANT-GENERAL,
First Brigade, United States Expeditionary Forces.

SIR: I have the honor to submit the following report as to the sanitary condition of the S. S. *City of Pekin* and of the troops on board from May 25, 1898, to June 1, 1898.

After leaving the port of San Francisco, May 25, 1898, I discovered a case of measles (private, Company G), and at once used precautionary measures to avoid contagion. On May 28 one more case developed from Company G, and on May 31 one suspected case from the same company was placed in quarantine; on May 28 a severe case of tonsillitis was placed in the hospital, otherwise the health of the command is good, excepting ordinary seasickness.

Dating from May 27 I have issued orders placing each battalion, sanitary condition of quarters, and health of men under the special charge of an assistant surgeon, from whom I receive daily a written report.

A detail of the sanitary corps on duty with the battalion surgeons make hourly inspection of the quarters of enlisted men, and report to the surgeon in charge. As per special orders from this department, blankets, mattresses, and pillows are brought on deck and thoroughly aired for two hours or more daily. Bunks and woodwork are scoured with mercuric chloride solution.

Surgeons in charge of battalions each morning make a personal examination of the men under their charge.

During the past four days, weather permitting, the men of this command have received daily a hose bath under charge of a noncommissioned officer. Also special days assigned for the washing and cleaning of clothes. Sinks for officers and men under the special care of the sanitary corps. Average temperature of sleeping quarters of men from date of leaving San Francisco, 70 degrees in fore and aft parts of ship. The amidships very uncomfortable on account of heat generated from fire room and boilers.

I have ordered men from that part of the ship to sleep on deck. Proper supervision and care is taken to see that food is properly cooked and cleanly served. A carcass of diseased beef was reported by this department and condemned by a board of survey as unfit for food on May 27. I have made my informal inspections during the day, also one inspection daily with the captain of the ship, representing the Pacific Mail Steamship Company, and one inspection daily with Col. James F. Smith, commanding this regiment. After consultation with the naval officers and surgeons I learned that it would be unsafe to fumigate vessel on voyage on account of explosives on board, therefore used the method of cleaning quarters of men with mercuric chloride. The only method we had for fumigating was formaldehyde, which is liable to generate gases that would be dangerous if in contact with explosives.

May 29 every man was vaccinated and his name checked by his company commander (976 men). I have made special investigation as to facility for supplying fresh water. The condensers have a capacity of 2,500 gallons per day. Fresh water is used only for cooking purposes, for drinking, and in officers' quarters. For bathing and washing salt water only is used.

Very respectfully,

WM. D. MCCARTHY,
Major and Surgeon, U. S. Volunteers.

CITY OF SYDNEY, *June 1, 1898.* (Received August 29, 1898.)

ADJUTANT-GENERAL UNITED STATES EXPEDITIONARY FORCES,
S. S. Australia.

SIR: I have the honor to submit the following report concerning the commissary department on board *City of Sydney:*

The means for cooking are so limited that it is not practicable to serve more than two meals each day and have the food well prepared. To serve two meals each day the galley is used day and night.

Fresh bread has been served but three times, and then the quality was such that hard bread was preferable.

Articles for sales to officers and enlisted men are almost exhausted, with the exception of cigars and tobacco. This is due to the fact that I could not secure the articles I asked the purchasing commissary for on such short notice.

I have on hand 8,400 pounds of fresh beef. The supply of rations provided for in Special Orders, No. 4, paragraph 1, is properly segregated and can be issued when required.

Very respectfully,

WM. A. BURNSIDE,
Second Lieutenant, Fourteenth Infantry, Commissary, City of Sydney.

En route to Philippine Islands, June 2, 1898.
(Received August 29, 1898.)

ADJUTANT, SECOND REGIMENT OREGON VOLUNTEERS,
S. S. Australia.

SIR: I have the honor to herewith make the following report as regards the detachment of the Third Battalion, under my command, on board this vessel:

The detachment reported at the Pacific Mail dock at 11 o'clock a. m. on June 24, and were immediately assigned to quarters, taking them in a very orderly manner, without undue confusion.

On board I found a detachment of five companies of the Fourteenth Infantry, U. S. Army, Capt. John Murphy, commanding, and a detachment of 50 men from the California Heavy Artillery, Capt. D. Geary, commanding. Being the ranking officer on the vessel, I assumed command. Captain McVea, U. S. Army, reported to me as surgeon; Lieutenant Burnside, U. S. Army, reported as commissary officer of the vessel.

As soon as practicable the command was divided into two divisions, the first division consisting of the Fourteenth Infantry, numbering 387 soldiers; the second division consisting of a detachment of the Third Battalion, Second Oregon, numbering 231 soldiers, and a detachment of the California Heavy Artillery, consisting of 50 soldiers, making a total of 281 soldiers.

On the morning of the 25th of June Chief Engineer Chalker, U. S. Navy, reported on board with 20 sailors, with an order from Brigadier-General Otis to furnish them transportation and subsistence until the arrival at the destination of the vessel. These sailors were put in the second division.

As regards the commissary department, I beg to say that upon examination of the ship's galley I found it inadequate to supply the demands made upon it. Have therefore adapted myself to circumstances, and instructed the commissary officer of the vessel to issue full rations to every man and to have the same served in two meals, breakfast beginning at 8 o'clock a. m. and dinner at 4 o'clock p. m., daily, the first and second divisions alternating daily as to which goes first. The subdivisions of the divisions alternate the same as the divisions. At first there was some confusion in serving the soldiers, and the meals were not what they should be. However, after several days of unceasing effort upon the part of myself and officers on board, we finally systematized affairs, so that the meals are now served in a very orderly manner, and the men have plenty of good food, well cooked, and are adapting themselves to the cramped quarters and circumstances.

On the main deck I have had shower baths arranged so that the soldiers can take baths. However, at the present time they are inadequate to supply the

demands made upon them, and I am endeavoring to perfect arrangements so that the men can bathe every other day. Owing to the cramped quarters, it is very difficult to manage affairs as they should be, but I am endeavoring to adapt myself to circumstances and make the best of the facilities at hand.

As regards the medical department, I will say that we have been particularly fortunate in the matter of serious illness. We have had, however, a number of cases in the hospital, among them two cases of measles, which are at present improving very rapidly. The bedding is brought on deck twice a week for airing, and the sanitary condition of the vessel is very fair, particular attention being paid to the ventilation of the berth deck and to the cleanliness of the water-closets. Each commanding officer of the companies is held personally responsible for the cleanliness of the quarters occupied by his command. Besides this, I have appointed a provost-sergeant, who is responsible for the general policing of the ship. The officer of the day is required to make three inspections daily of the entire ship. The commanding officers of subdivisions are required to make frequent inspections of their quarters. I make two inspectious daily, one at 11 o'clock a. m. and one immediately after taps.

In general, I may say that the discipline of the troops on board this vessel, and the general health of the same, are very good; and I am pleased to report that no infractions, worthy of note, of any of the rules and regulations, as laid down for the government of the troops, has occurred.

Very respectfully,

P. G. EASTWICK, Jr.,
Major, Second Oregon Volunteers,
Commanding troops on board S. S. City of Sydney.

[Inclosure 4.]

UNITED STATES EXPEDITIONARY FORCES, S. S. CITY OF SYDNEY,
En route to Philippine Islands, June 2, 1898.
(Received August 29, 1898.)

ASSISTANT ADJUTANT-GENERAL,
First Expedition to Philippine Islands,
S. S. City of Pekin.

SIR: In compliance with the regulations, I have the honor herewith to make the following report as regards the troops under my command on board the *City of Sydney.*

The troops on board this vessel are a detachment of the Fourteenth Infantry, U. S. Army, 387 soldiers and 10 officers, Capt. John Murphy commanding; 20 sailors of the Navy, Chief Engineer Chalker in charge; a detachment of California Heavy Artillery, 50 soldiers, Capt. D. Geary commanding; and a detachment of the Third Battalion, Second Oregon Volunteers, Maj. P. G. Eastwick, jr., commanding.

All of the above-mentioned troops were embarked at San Francisco by 1 o'clock p. m., May 24, 1898, and the vessel immediately swung into the stream and anchored.

As soon as possible after embarkation I divided the troops into two divisions and assigned them to sections of the deck, in accordance with a letter of instruction dated May 24, 1898, signed by Major-General Otis.

The first division consists of the Fourteenth Infantry, numbering 387 soldiers. The second division consists of the sailors of the Navy, numbering 20 men; the detachment of California Heavy Artillery, numbering 50 men; and a detachment of the Third Battalion, Second Oregon Volunteers, numbering 231 soldiers.

The quarters on the berth deck, assigned to the troops for sleeping purposes, have been made as comfortable as possible; and I have paid especial attention to

the cleanliness of the quarters and the ventilation of the same, which, under the circumstances, I consider very good.

In regard to facilities for baths for the soldiers, arrangements have been made on the main deck whereby baths can be had daily, if necessary, the second division using the baths in the forenoon and the first division using them in the afternoon. However, the bathing facilities are not yet perfected, and it is hoped that better arrangements can be made at an early date.

In regard to the commissary department, I will say that it was found impracticable to serve three meals a day, owing to the small galley which was at our disposal. We therefore serve full rations in two meals, breakfast beginning at 8 a. m., and dinner beginning at 3.30 p. m. To serve these two meals the galley is used day and night. The troops have plenty of good wholesome food, the first and second divisions alternating daily as to the service of meals.

The medical department, under the charge of the surgeon, is in a very satisfactory condition, and his report is filed herewith.

In general, I will say that the troops are being cared for in the best manner possible, under the existing circumstances.

Very respectfully,

P. G. EASTWICK, Jr.,
Major Second Oregon Volunteers,
Commanding troops on board City of Sydney.

UNITED STATES EXPEDITIONARY FORCES, S. S. CITY OF SYDNEY,
At Sea, June 30, 1898. (Received August 29, 1898.)

ADJUTANT, SECOND REGIMENT OREGON U. S. VOLUNTEERS,
S. S. Australia.

SIR: I have the honor to make the following report regarding the troops of my battalion, consisting of Companies F, I, and M, under my immediate command, and on board the *S. S. City of Sydney.*

The detachment embarked on May 24, 1898, comprising 12 officers, 1 hospital steward, and 231 enlisted men. At Honolulu, where we stopped, 2 men reported to M Company, in compliance with regimental order No. 64.

I desire to say that the discipline of the troops during the trip has been excellent. No serious breach of discipline has been reported, and all the volunteer forces seem to be endeavoring to profit by their surroundings to learn all that is possible and that a soldier should know. Officers' schools have been held daily, Saturday and Sunday excepted, and instructions given in drill regulations, guard manual, troops in campaign, and Army Regulations.

Noncommissioned officers' schools have also been held on the same days, and I would respectfully recommend that a first sergeants' and company clerks' school be organized for all of the first sergeants and company clerks in the regiment for instruction in their respective duties, thus insuring a uniform observance in the manner and custom of making out papers.

In general, I would state that, barring one unfortunate event, which was the death of Private Elias Hutchinson, Company M, who was operated on for appendicitis on June 16, and died on June 20, and was buried at sea with due military honors on the same date, the voyage has been very successful.

Owing to the cramped quarters in the galley, we were unable to give but two meals a day, but this has proven to be sufficient.

Very respectfully,

P. G. EASTWICK, Jr.,
Major Second Regiment Oregon U. S. Volunteers,
Commanding U. S. Troops on board City of Sydney.

[Inclosure 6.]

UNITED STATES EXPEDITIONARY FORCES, S. S. CITY OF SYDNEY,
At Sea, June 30, 1898. (Received August 29, 1898.)

ACTING ASSISTANT ADJUTANT-GENERAL,
First Brigade, First Expeditionary Forces, S. S. Australia.

SIR: In accordance with regulations, I have the honor to herewith submit my report as regards the troops under my command on board the S. S. *City of Sydney* as follows:

DATE OF EMBARKATION AND TROOPS EMBARKED.

On the 24th day of May, 1898, the following troops embarked on this vessel: Five companies of the Fourteenth Infantry, under command of Capt. John Murphy, 387 enlisted men and 8 officers; a detachment of California heavy artillery, Capt. Dennis Geary commanding, 50 enlisted men and 1 officer; 20 sailors of the U. S. Navy, in charge of Chief Engineer J. H. Chalker; three companies of the Third Battalion, Second Oregon Volunteers, Maj. P. G. Eastwick, jr., commanding, 231 enlisted men and 12 officers. Capt. H. E. McVay, surgeon, U. S. Army, and Second Lieut. W. A. Burnside, commissary, reported, making a total of 688 enlisted men and 24 officers; Lieut. Commander T. S. Phelps, jr., U. S. Navy, being the naval officer on board.

ASSIGNMENT OF QUARTERS.

Immediately upon coming on board and assuming command, I assigned quarters to the troops in accordance with instructions received from Major-General Otis, under date of May 24, 1898.

For some twenty-four hours after embarkation affairs on board were in a confused state, owing to cramped quarters, but after that time rapidly improved, and finally order was resumed.

SANITARY CONDITIONS.

In this connection I would respectfully state that under the existing circumstances and the cramped quarters the sanitary conditions on board were very fair. Frequent inspections of the ship were made by myself and the officer of the day each day. Bedding of the men has been brought on deck for airing Wednesdays and Saturdays, weather permitting. The water-closet facilities are sufficient; but I would respectfully recommend in this connection that should this vessel be again used to transport troops a stronger stream of water be kept constantly running through the closets; and I would also recommend that a temporary structure be built on the after part of the hurricane deck, to be used as an hospital to isolate contagious diseases. During the voyage 22 cases of measles were reported by the surgeons. However, all have become convalescent, and 18 cases have been discharged.

SLEEPING ACCOMMODATIONS.

Sleeping accommodations for the enlisted men number 801 berths, and are distributed as follows: One hundred and forty-one berths in the forward steerage, 318 berths in the main steerage, and 342 berths in the aftersteerage. As regards the ventilation of the forward and main steerage, I will state that it is very good, but in the aftersteerage very poor, the temperature reaching as high as 86°. As regards the circulation of air, I will say in connection with the aftersteerage that the wind sail does not seem sufficient to supply the requisite amount of air; and I would respectfully recommend that, if practicable, an artificial current of air be arranged to perfect the ventilation on this steerage.

During the voyage as many as could be accommodated have been allowed to sleep on the hurricane deck during the hottest portion of the trip.

COOKING FACILITIES.

In this connection, I would report that the galley facilities for the accommodation of the number of men on board is entirely too small, and we were forced to serve only two meals—breakfast at 8 o'clock a. m. and dinner at 4 o'clock p. m.—the galley being used day and night, the facilities being much cramped, and practically impossible to make as good bread as required.

As regards the galleys, I would most respectfully recommend that the two rooms immediately aft of the galley on the starboard side be arranged for cooking purposes, as an additional galley; and I believe that by so doing three meals a day may be served, or at least two meals and coffee.

COMMISSARY DEPARTMENT.

The commissary department has been managed as satisfactorily as could be expected under the circumstances. However, I would recommend that, if consistent, prunes should be issued to the soldiers.

BATHING FACILITIES.

No provisions having been made for the bathing of the soldiers, I arranged with the officer of the vessel to have a shower bath made forward on the starboard side for the use of the men. However, this we found insufficient, and I would respectfully recommend that at least four or five shower baths be erected at or near the place at present occupied by the one bath being used.

WATER.

The capacity of the condenser on this vessel is practically about 1,500 gallons per day. The consumption, including wastage, averages in the neighborhood of 2,000 gallons during the hottest days. In order not to run short, it was deemed advisable, after having cautioned the men regarding the willful waste of water, to lock the pumps at night and distribute barrels full of water for drinking purposes on the deck. This we found to do away with most of the waste.

EXERCISE.

Twenty minutes daily, Saturday and Sunday excepted, has been devoted by each company to the setting-up exercises; also squad drill for recruits, as many as could be accommodated on deck, has been had for forty-five minutes daily, excepting Saturday and Sunday. Once a week fire and boat drill has been practiced in connection with the ship's officers and crew.

During the voyage "call to arms" was sounded, and the following disposition made of the troops to act in case of emergency. Three companies were placed on the hurricane deck, lying down and concealed from view as effectually as possible; also two companies were placed on the main deck, one company on the port side and one on the starboard side, practically hidden from sight. The balance of the troops on board were held in their quarters as a reserve.

SCHOOLS.

In compliance with General Orders, No. 2, headquarters First Brigade, United States Expeditionary Forces, officers and noncommissioned officers' schools were organized and held.

OFFICERS OF TRANSPORTS.

In this connection, I will say that the officers of the transport have been courteous and obliging in all respects, and have by their efforts aided materially in the comfort of the troops on board.

However, I would respectfully recommend that the commanding officer of the troops, before sailing, be furnished with a copy of the charter, and also written instructions as regards the authority of the ship's officers in regard to the troops under his immediate command, by this means obviating any misunderstanding that might arise.

On the 16th day of June, Private Elias Hutchinson, Company M, Second Regiment Oregon Volunteers, was operated on for appendicitis, but after lingering for several days died at 6.20 a. m. June 20, and was buried at sea off the Island of Guam, Ladrone group, 2° northwest of Point Orote, on the same day, with due military honors.

Very respectfully,

P. G. EASTWICK, Jr.,
Major, Second Regiment Oregon Volunteers,
Commanding U. S. Troops on board S. S. City of Sydney.

[Inclosure 7.]

ON BOARD S. S. CITY OF PEKIN,
July 1, 1898. (Received August 29, 1898.)

ASSISTANT ADJUTANT-GENERAL,
First Brigade, United States Expeditionary Forces.

SIR: I have the honor to submit the following report as to the sanitary condition of the transport *City of Pekin* and the health of troops on board from June 1 to July 1 1898:

I have taken every precaution to keep the men clean and free from vermin; having them bathe daily, wash their clothes at least thrice a week; the surgeons in charge of battalions examine bodies and clothing of men weekly. The quarters of the men have been washed well with bichloride solution and the berth deck and walls sprayed with a solution of phenol and acid carbol. The result has been most gratifying; a careful individual inspection of every man, his clothing, bedding, and quarters show that the entire command is free from vermin, a condition I think unique on a troopship. The sick report shows that the methods adopted by this department to have pure air have been most successful. The officers and enlisted men have all shown a ready willingness to carry out all orders and suggestions from the medical department. The Hospital Corps have had litter drill daily, the limited space on board ship preventing any marching exercises. They have also been instructed daily in calisthenic exercises.

I and my assistant surgeons have delivered several lectures to the officers and noncommissioned officers on sanitation, hygeine, and how best to preserve health in this climate, the use and abuse of fruits and vegetables indigenous to this country.

The condition of the ship's drainage and plumbing is not good, having on several occasions broken through and flooded the sleeping quarters of men.

The hourly inspection by members of the sanitary corps and several inspections daily by the surgeons have been continued as before; each surgeon giving a written report every evening.

As was stated in last report to you, the men were all vaccinated on May 29. I find that about 80 per cent were successful.

I have in use "social hall" for a hospital, which is fairly large, very airy, and comfortable, giving facilities for doing even more work than has been necessary. We have had only two serious cases this month—one a case of acute mania, developing upon the evening of the 28th, and a concussion of the spine, owing to a fall on June 30. This accident was apparently due to carelessness on the part of the "ship crew," a bunker hatch being left open without the officer of the day

being informed of the fact, therefore the danger was unknown, no sentry being posted, and the man on his way to his quarters dropped through. The other cases in the hospital consisted mostly of influenza and minor surgery.

The battalion surgeons have each been giving daily lectures to their sections of the sanitary corps and the company bearers every afternoon in "first-aid" work.

Very respectfully,

WM. D. MCCARTHY,
Major and Surgeon.

HDQRS. FIRST REGIMENT CALIFORNIA U. S. VOLUNTEER INFANTRY,
Cavite Arsenal, P. I., July 7, 1898. (Received August 29, 1898.)
ACTING ASSISTANT ADJUTANT-GENERAL,
First Brigade, United States Expeditionary Forces.

SIR: In compliance with directions from brigade headquarters, I have the honor to report that the First Regiment California U. S. Volunteer Infantry, at 10.40 o'clock on the morning of May 23, 1898, bound for Cavite, Philippine Islands, boarded the transport *City of Pekin*, chartered by the Navy Department, for which port it sailed at 4.50 p. m. on the 25th of May.

On the 30th of May, 1898, the command participated in the memorial exercises held on Decoration Day, at sea, arriving at Honolulu, Hawaiian Islands, at 6.50 p. m. June 1.

On the morning of June 4, at 10 a. m., the transport began its voyage to the island of Guam, convoyed by the United States cruiser *Charleston*, and sighted the island at 4 o'clock in the morning, June 20, casting anchor in San Luis D'Apra Harbor at 1.50 p. m. of the same day.

On June 22, at 4.05 o'clock p. m., the transport resumed its voyage for Cavite, on the island of Luzon, Philippine Islands, where it arrived on June 30 at 5 o'clock p. m.

The entire distance run was 7,246 miles. The voyage was without event, there being no storms of any kind until the evening of June 29, one day out from Cavite.

The enlisted men, 980 in number, were quartered in the steerage deck, in a space 10 feet high, 425 feet long and 60 feet wide, exclusive of the space located in the bow. Some of the berth-deck space was occupied by commissary supplies.

The bunks were well constructed and arranged in tiers three high, and, in some places, four high. The tiers were from three to seven bunks deep, and I think they were not sufficiently cut up by passages. Had there been a passageway, however narrow, between every two bunks in the same tier, the ventilation would have been somewhat improved and some of the inconveniences resulting from seasickness avoided.

The full strength of the regiment on board the transport was 57 officers and 980 enlisted men. In addition she carried 123 naval officers and about 50 or 60 of a crew—in all over 1,200 persons. While such a number of persons might be readily transported in the Temperate Zone in a vessel of the size and tonnage of the *Pekin* without any discomfort whatever, still I am of the opinion that the number should be considerably lessened for a voyage in the Tropics, in view of the fact that during storms the troops would all be compelled to remain below, under battened hatches and without the advantage of windsails. However that may be, I must say that during the trip the health of the command might be said to be excellent, not more than 8 or 9 men being confined to hospital at any one time. I am inclined to believe that this small sick list was due largely to daily salt-water

bathing, morning and evening, sleeping in the open air on deck, calisthenic and other exercises, and sanitary precautions taken by medical officers.

The rations furnished were ample, but I am of the opinion that some alteration of the prescribed ration should be made to meet the changed condition of a life in the Tropics.

I would, however, respectfully recommend that, for the purpose of cooking the rations, a separate and distinct galley, adequate for the preparation of meals, be set apart for the exclusive use of troops, and that over that galley neither the captain of the vessel nor his crew be permitted to exercise any control whatever.

During the voyage in the warm belt practically but two meals a day were allowed to the men. After reveille coffee and a piece of bread was given to each man. At about 11 o'clock a regular meal was had, and at 5 o'clock dinner was served.

Each morning the arms were inspected, and once a week a general inspection was had. The quarters were inspected several times a day.

Officers and noncommissioned officers had instruction every day, except Saturday and Sunday and the two days during which the transport was at Guam.

Drill in the manual and calisthenic and other exercises, prescribed by the brigade commander, took place each morning, Saturdays and Sundays excepted.

The discipline of the regiment was satisfactory.

I have the honor to be, very respectfully,

JAMES F. SMITH,
Colonel First Regiment California U. S. Volunteer Infantry.

[Inclosure 9.]

HEADQUARTERS SECOND REGIMENT OREGON U. S. VOLUNTEERS,
Cavite, P. I., July 8, 1898. (Received August 29, 1898.)

ASSISTANT ADJUTANT-GENERAL,
First Brigade, U. S. Expeditionary Forces, Cavite Arsenal, P. I.

SIR: In compliance with Army Regulations, I have the honor to make my report in regard to transportation of troops of my command from San Francisco to this point.

On May 24, 1898, we embarked at San Francisco on board the S. S. *Australia* with part of my command, consisting of my headquarters and Companies A, B, C, D, E, G, H, K, and L, and proceeded out into the bay and there dropped anchor, awaiting final departure. About 3 p. m. May 25 we steamed out of the harbor, heading for these islands, and arrived at Honolulu on the 1st day of June. We left Honolulu on June 3 and arrived at Guam, Ladrone Islands, on the 20th about 7 a. m. After a stoppage of about two days we left Guam at 2 p. m. June 22 and sailed for these islands, and arrived in the harbor off Cavite at 5 p. m. June 30.

Outside of the ordinary complaints usual to a sea voyage of this kind the health of the command during the trip was very satisfactory, considering the general arrangements made for the comfort and the condition of the men while in transit.

A daily system of rations was arranged, after a few days out, in adapting ourselves to the different departments and the handling and custody of matters of this kind.

A general system of work was organized for the trip, so far as it related to the health and comfort of the command. We established a system of two meals a day, with a luncheon of coffee and hard bread in the morning.

A system of drill was kept up, so far as practicable, aboard ship. Setting-up exercises and the drill of the manual of arms was adhered to every day (Saturday and Sunday excepted) and strictly complied with.

The bathing of the men was watched very closely, they being compelled to bathe by companies twice a week, commencing by three companies each day on the first three days of each week, to be followed up in like manner on the latter three days of the week.

A general inspection of the quarters of the ship was followed out each day, Major Jones, of the brigade staff, acting as inspecting officer, accompanied by the commanding officer of this regiment.

Officers' schools were kept up each day during the trip, as follows: From 10.30 to 11.30 a school was given for the benefit of commissioned officers under the auspices of one of the brigade officers, where a system was given out in regard to the construction of a quartermaster department, commissary department, and the adjutant-general's department, according to regulations. General Anderson himself kindly assisted in giving valuable information in regard to field maneuvers at these schools. In the afternoons a school for noncommissioned officers was given under the auspices of each battalion commander, the First Battalion having a school from 2 to 3 p. m., and the Second Battalion from 3.30 to 4.30 p. m. In the evening a school was held from 8 to 9 for commissioned officers on general tactics and field maneuvers under the auspices of the commanding officer of the regiment.

Church services were held every Sunday, and, so far as practicable, a general military discipline was conducted all through the voyage.

The distance traveled by this command was as follows: San Francisco to Honolulu, 2,102 miles; from Honolulu to Guam, 3,339 miles; from Guam to Cavite, 1,756 miles; making a total of 7,197 miles.

I would respectfully state that the accommodations aboard ship were entirely inadequate, so far as sleeping accommodations and a general healthful condition was concerned. We were quite fortunate in having a very pleasant and satisfactory voyage all through, the time consumed in the trip being thirty-six days. Also, I regret that conditions were such that compelled my command to come into the field for service only partially equipped, so far as actual necessities, such as clothing, shoes, and equipment, required for field service, owing to the limited provisions made for these matters in the quartermaster department at San Francisco. We are very short on these things that would be absolutely necessary for a successful field campaign.

Accompanying this report you will find reports as made by Maj. P. G. Eastwick, jr., who was placed in command of Companies F, I, and M, of my regiment, which sailed on board the S. S. *City of Sydney* on the same date.

Very respectfully,

O. SUMMERS,
Colonel Second Regiment Oregon U. S. Volunteers.

Cavite Arsenal, Philippine Islands, July 9, 1898.
(Received August 29, 1898.)

ADJUTANT-GENERAL, U. S. ARMY, *Washington, D. C.*

GENERAL: As the major-general assigned to the command of this expedition has not reached here, and his time of coming is uncertain, I submit to you a statement of the present condition of the expedition and of the character of our surroundings.

The town of Cavite entirely covers the point of a narrow peninsula, 7 miles from Manila by water; 27 by land. About one-third of this point of the peninsula is occupied by the buildings of a navy-yard and arsenal; the rest by the

town. But on the sea side of the town there is a line of stone forts and casemated sea wall so extensive that 2,000 Spanish prisoners are confined therein, with room for more.

There is also in the town an infantry barrack, formerly used by the Seventh Spanish Infantry and now by the Second Oregon Infantry.

Between the town and the navy-yard there is a small inclosed stone fort, in which we hold confined the 60 Spanish prisoners taken at Guam, kept as a matter of comity for navy, the admiral commanding promising to reimburse the War Department for the value of their rations.

Here I would state that as I had no orders or instructions in relation to the capture of any of the Ladrone Islands, I allowed the navy to take the entire responsibility, giving them a reinforcement of two companies; rationing and guarding their prisoners—6 officers, 54 soldiers—on the way over.

The buildings of the navy-yard and arsenal are large and commodious, of stone and brick. The houses of the town are built of stone and pesa, and resemble closely the houses to be seen in Mexican cities. The villages of the natives on the upper part of the peninsula are bamboo structures.

This command was landed within two days after our arrival, with five days' rations and from 100 to 200 rounds of ammunition per man.

Apprehending that a strong Spanish squadron might arrive before our monitors, Admiral Dewey strongly advised that we should not land anything more than absolutely necessary subsistence and impedimenta. I acted upon this advice, although it involved, of course, retaining the transports much longer than I would otherwise have kept them.

As soon as it became probable that the monitors and the second land expedition would soon arrive, I took the responsibility of landing our stores. This was advisable, as the canvas clothing was damp and in many cases wet, and needed to be opened and aired as soon as possible.

This has been a slow process, as the transports were anchored far from the shore and all the impedimenta had to be carried by hand.

The ponies here are too small for transportation work, and loads of any weight have to be hauled in carts drawn by the water buffalo, and they can only be obtained by sending out some distance in the country for them. Very little in the way of transportation, fuel, or forage can be obtained in this vicinity.

The district of Cavite—all the part south of the island from Manila—has been for many years the head center of insurrections and the scene of warfare, and consequently ordinary supplies can only be found here in small quantities. As it is now the scene of insurgent warfare, the opposing forces have killed off nearly all the cattle, and appropriate all the subsistence supplies they can seize.

General Aguinaldo tells me he has about 15,000 fighting men, but only 11,000 armed with guns. Most of these he has taken from the Spaniards. He claims to have in all, 4,000 prisoners.

When we first landed he seemed very suspicious and not at all friendly, but I have now come to a better understanding with him, and he is much more friendly and seems willing to cooperate; but he has declared himself dictator and president and is trying to take Manila without our assistance. This is not probable, but if he can effect his purpose he will, I apprehend, antagonize any attempt on our part to establish a provisional government.

Manila is strongly fortified, and is difficult of approach from the land side on account of dense bamboo thickets and swamp land in rainy season.

My information is that there are from 4,000 to 8,000 effective soldiers—regulars—in Manila, and an uncertain number of half-breed volunteers, who are not likely to give much trouble.

As a result of experience, I would respectfully submit a statement as to supplies. I was only in San Francisco two days before sailing, and never saw the command or had any control of it until I saw one regiment of it on board the steamer on which I took passage myself. I had no opportunity to inspect it—to ascertain its wants.

I was assured, however, that it was fully equipped and supplied with subsistence for six months. I found at Honolulu that a large part of the command had no change of underclothing, and were beginning to be infested with graybacks. I ordered a purchase to meet the emergency.

All quartermaster supplies have been invoiced to the regimental quartermasters and all the subsistence to the regimental commissaries.

The estimates of the quartermasters for clothing had been cut down to a very inadequate amount, upon a representation that they should only require for what was absolutely essential, and that a full supply would be sent them hereafter.

Being entirely inexperienced, the regimental quartermasters made no protest, and accepted what was given them. The result is that a number of men have not a single garment of underclothing, the steaming process resorted to on the steamers to kill the vermin having destroyed the clothing.

The men of the Second Oregon Volunteer Infantry have only one pair of shoes each, mostly badly worn, and nearly all of them shoes of their own, which they were wearing when mustered in. Very few of them have Government shoes, as a small lot sent them were nearly all too large. While thus cut down on essentials the Second Oregon Volunteer Infantry was directed to take with them their State tents, about 500 in number, which were useless to them, as we have no transportation for tents and the weather is too hot to use them if we had.

I do not wish to reflect on the administrative organization. The conditions here could not well be anticipated in San Francisco.

We have succeeded in buying a reasonable amount of fresh meat from steamers bringing supplies in on speculation.

The health of the command is good, excepting the Second Oregon Volunteer Infantry, which has 145 men on the sick report.

A refugee from Manila, just in, tells me that the people there have eaten up nearly all their horses.

With great respect, your obedient servant,

THOMAS M. ANDERSON,
Brigadier-General Volunteers, U. S. Army, Commanding.

GENERAL: As I have an unexpected and very short notice of a sailing of a merchant steamer to Hongkong, I will endeavor to give a concise statement of this situation.

All the military stores of the expedition have been landed and stored in the buildings of the navy-yard and arsenal. The soldiers are being drilled, instructed, and disciplined. They have been sent out on practice marches, reconnoissances, and target practice.

We are now beginning to collect water buffalo and carts for transportation, and also to make scaling ladders of bamboo, etc.

One battalion of the First California Volunteer Infantry is under orders to cross the bay and go into camp between Parañaque and Manila, to secure a good camp and to guard transportation to be collected there. A number of discreet officers have made personal reconnoissances. Lieutenants McCain and Clark, of the brigade staff, and Captain Case and Lieutenant Bryan, of the Second Oregon Volunteer Infantry, have obtained valuable information as to the defenses of Manila, landings on the bay, roads, trails, and camping places.

We have succeeded in getting out of Manila a gentleman who has heretofore given very valuable information to Admiral Dewey. I have also obtained valuable, and, I believe, trustworthy information, as it has been tested with varied reports from other quarters. A small reconnoitering party has started from here to-day to make, if possible, the circuit of the city.

The insurgents have the Spanish forces in Manila closely besieged by a bush-whacking force of brave and adventurous men, but of very loose organization. A moderate amount of supplies go through their lines into the city, either by connivance or negligence. Provisions are scarce, but under present conditions the city will not be starved out.

Telegraphic intelligence is said to go to the city by way of a telegraph line to Borneo; and they receive their mails quite regularly through the foreign men-of-war in the harbor.

As you are aware, we have no artillery or cavalry. As Admiral Dewey gave all the captured guns and ammunition to the insurgents, the 50 heavy artillerymen have no guns to use and are only acting as infantry, and are at present guarding prisoners.

I have no intelligence except newspaper reports from Hongkong as to what reinforcements are coming and whether there will be light batteries or cavalry in the expected command. Nor is it known, certainly, whether it will venture to come on from Guam without convoy. I have no orders about the two transports *Australia* and *City of Sydney*, but have kept them at Admiral Dewey's advice. He stated to me, as I before advised you, that if the Spanish fleet arrived before the monitors, he would not fight them, and that I should keep the transports to get to a place of safety, as this place, Cavite, would be indefensible. He subsequently told me that he thought he would make his fight in Subig Bay, and suggests that I should move my forces there; that if defeated in a naval action my command would be safe there; and, if successful, I could march to the termination of a railroad, and move on Manila from the north. Upon this I stated that I would, if in command, move my forces to the north side of the bay directly from here by water. My reason for expressing this preference was that from Subig to reach the railway I would have had to march over an almost impassable mountain trail to the railroad, 131 miles from Manila, with inadequate transportation. Whereas by going directly beyond Manila by water, and a short march, the move can be made in a few hours; and by taking that position we would be able to intercept any Spanish force attempting to reinforce Manila from the north.

But Admiral Dewey has just informed me this morning that he has resolved to make his fight here in this bay. In the event that the Spanish fleet comes on by way of the Red Sea, he proposes to attack Manila as soon as the monitors arrive.

I only fear that, in an attack on formidable land batteries, his fleet may be so seriously injured as to lessen its chance of victory over the Spanish squadron.

Very respectfully,

THOMAS M. ANDERSON,
Brigadier-General, U. S. Volunteers, Commanding.

GENERAL: Since reading the President's instructions to General Merritt, I think I should state to you that the establishment of a provisional government on our part will probably bring us in conflict with the insurgents, now in active hostility to Spain.

The insurgent chief, Aguinaldo, has declared himself dictator and self-appointed president. He has declared martial law and promulgated a minute method of rule and administration under it.

We have observed all official military courtesies, and he and his followers express great admiration and gratitude to the great American republic of the North; yet in many ways they obstruct our purposes, and are using every effort to take Manila without us.

I suspect also that Aguinaldo is secretly negotiating with the Spanish authorities, as his confidential aid is in Manila.

The city is strongly fortified and hard to approach in the rainy season. If a bombardment fails, we should have the best engineering ability here.

Very respectfully,

THOMAS M. ANDERSON,
Brigadier-General, U. S. Volunteers, Commanding.

HEADQUARTERS DEPARTMENT OF THE PACIFIC,
Manila Bay, Philippine Islands, July 25, 1898.
(Received August 29, 1898.)

ADJUTANT-GENERAL, *Washington, D. C.*

SIR: As cabled to-day, I arrived here at noon, and found the condition of things as follows:

The insurgents seem to have surrounded the town of Manila and are lying off at a distance, but making no attempt for its capture. I have conferred with Admiral Dewey, and he is very anxious that nothing should be done until the two monitors arrive. However, much will depend upon when the monitors reach here and what I may discover in the meantime, that I will not attack at once after the remainder of the fleet arrives. Before this reaches you it may be that I will have cabled news which will make this unimportant, and for that reason I will not enter into particulars.

As you have probably been informed, though I have not as yet seen General Greene, there were four fatal cases of sickness in his fleet, one an officer—Lieutenant Lazelle. I have not heard the names of the men, but they probably have been communicated by General Greene. The *Newport*, on which I sailed, has arrived in this port with but one case of typhoid fever, which has been sent to the hospital on shore. There were other cases of sickness confined to two or three of the passengers, but they have all recovered.
