M51A2; TRUCK, TRACTOR: M52, M52A1, M52A2; TRUCK,
TRACTOR, WRECKER: M246, M246A1, M246A2; TRUCK, VAN,
EXPANSIBLE: M291A1, M291A2, M291A1C, M291A2C, M291A1D,
M291A2D; TRUCK, WRECKER, MEDIUM: M62, M62A2, M543, M543A1,
M543A2; TRUCK, BRIDGING: M139, M328A1, M328A2;
TRUCK, LOGGING, M748A1, M748A2.**

TM 9-2320-211-20P, May 1973 is changed as follows:

1. Remove old pages and insert new pages as indicated below.
2. File this change sheet in front of the publication for reference purposes.

REMOVE PAGES	INSERT PAGES
2-27 and 2-28	2-27 and 2-28
3-29 and 3-30	3-29 and 3-30

By Order of the Secretary of the Army:

CARL E. VUONO
General, United States Army
Chief of Staff

Official:

WILLIAM J. MEEHAN II
Brigadier General, United States Army
The Adjutant General

Distribution:

To be distributed in accordance with DA Form 12-38-R, (Block No. 0210) , requirements for Truck, Cargo, 5-ton, 6 x 6, Multifuel, M39-series.

1202 Service brakes	2-102	105
1204 Hydraulic brake system	2-104	106-109
1206 Mechanical brake system	2-109	110
1208 Air brake system	2-110	111-113
1209 Air compressor assembly	2-115	114-117
1211 Trailer brake connections and controls	2-119	118-120
Group 13—WHEELS		
1311 Wheel assembly	2-122	121-123
1313 Tires and tubes	2-126	124 and 125
Group 14—STEERING		
1401 Mechanical steering gear assembly	2-128	126-129
1411 Hoses, lines, fittings	2-130	130
1413 Tanks and reservoirs	2-133	131
Group 15—FRAME, TOWING ATTACHMENTS,		
1501 Frame assembly	2-133	132 and 133
1503 Pintles and towing attachments	2- 135	134

		Page	Figure
	1504 Spare wheel carrier and tire lock	2-136	135-140
	1506 Fifth wheel	2-141	141
	1507 Landing gear, leveling jacks (mechanical or hydraulic)	2-142	142
	Group 16—SPRINGS AND SHOCK ABSORBERS.		
	1601 Springs	2-142	143-148
	1604 Shock absorber equipment	148	149
	Group 18—BODY, CAB, HOOD AND HULL.		
	1801 Body, cab, hood and hull assemblies	2-148	150
	1802 Fenders, running boards and windshield	2-150	151
	1805 Cab floor	2-150	152
	1806 Upholstery seats and carpets	2-150	153 and 154
	1808 Stowage boxes	2-152	155 and 156
	1812 Special purpose body	2-153	157-173
	Group 20—HOIST, WINCH, POWER CONTROL AND POWER TAKEOFF		
	2001 Hoist, winch, crane assembly	2-161	174-195
	Group 22—BODY, CHASSIS AND HULL ACCESSORY ITEMS.		
	2201 Canvas, rubber and plastic items	2-170	196-198
	2202 Accessory items	2-171	199 and 200
	2210 Data Plates and instruction holders	2-173	201 and 202
	Group 33—SPEC1AL PURPOSE KITS.		
	3303 Winterization kits	2-177	203-206
	Group 47—GAGES (NON-ELECTRICAL).		
	4701 Instruments (speed and distance)	2-179	207 and 208
SECTION III.	SPECIAL TOOLS LIST		
	Group 26—TOOLS AND TEST EQUIPMENT		
	2604 Special Tools	3-1	209
SECTION IV.	FEDERAL STOCK NUMBER AND REFERENCE NUMBER INDEX	4-1

SECTION I

INTRODUCTION

1. Scope

This manual lists repair parts, special tools, and test equipment required for the performance of organizational maintenance of the truck, 5-ton 6x6.

2. General

These repair parts and special tools lists are divided into the following sections:

a. *Repair Parts—Section II.* A list of repair parts authorized for the performance of maintenance at the organizational level in figure and item number sequence.

b. *Special Tools and Test Equipment—Section III.* A list of special tools and test equipment authorized for the performance of maintenance at the organizational level.

c. *Federal Stock Number and Reference Number Index—Section IV.* A list of Federal stock numbers in ascending numerical sequence followed by a list of reference numbers in ascending alphanumeric sequence, cross-referenced to the illustration figure number and item number.

3. Explanation of Columns

The following provides an explanation of columns found in the tabular listings.

a. *Source. Maintenance and Recoverability Codes (SMR).* These codes of the uniform SMR code format are listed in column 1 in five positions as follows:

(1) *Source codes.* The Source Codes are entered in the first and second positions and are assigned to support items to indicate the manner of acquiring support items for maintenance, repair, or overhaul of end items. Source codes are defined as listed below.

Code	Definition
	Item procured and stocked for anticipated or known usage.
PC	Item procured and stocked for insurance purpose because essentiality dictates that a minimum quantity be available in the supply systems.
PD	Item procured and stocked and which otherwise would be ceded PA except that it is deteriorative in nature.
PE	Support item, excluding support equipment, procured for initial issue or outfitting and stocked only for subsequent or additional initial issues or outfittings. Not subject to automatic replenishment.
	Support equipment procured and stocked for initial issue or outfitting to specified main. tenance repair activities.
PF	Support equipment which will not be stocked but which will be centrally procured on demand.
PG	Item procured and stocked to provide for sustained support life of the equipment. It is applied to an item peculiar to the equipment which, because of probable discontinuance or shutdown of production facilities, would prove uneconomical to reproduce at a later time.
KD	An item of depot overhaul / repair kit and not purchased separately. Depot kit is defined as a kit that provides items required at the time of overhaul or repair.
KF	An item of a maintenance kit and not purchased separately. Maintenance kit is defined as a kit that provides an item that can be replaced at organizational or intermediate levels of maintenance.
KB	Item included in both a depot overhaul/ repair kit and a maintenance kit.
MO	Item to be manufactured or fabricated at organizational level.
MF	Item to be manufactured or fabricated at the direct support maintenance level.
MH	Item to be manufactured or fabricated at the general support maintenance level.
MD	Item to be manufactured or fabricated at depot maintenance level.
AO	Item to be assembled at organizational level.
AF	Item to be assembled at the direct support maintenance level.
AH	Item to be assembled at the general support maintenance level.
AD	Item to be assembled at depot maintenance level.
XA	Item is not procured or stocked. The requirement for the item will be filled by replacement of the next higher assembly or component.
XB	Item is not procured or stocked. If this item is not available through salvage, it is to be requisitioned.
XC	Installation drawing, diagram, instruction sheet, field service drawing that is identified by a manufacturer's part number.
	A low-mortality item that is not stocked. When required, requisition the item from the end item manager with' exception data, using the manufacturer's code and part number.

NOTE

Cannibalization or salvage may be used as a source of supply for any items coded above except those coded XA.

(2) *Maintenance code.* Maintenance codes are entered in the third and fourth positions. They indicate the level of maintenance authorized to use and repair the support item as defined below.

(a) *Use.* The maintenance code entered in the third position indicates the lowest maintenance

level authorized to remove, replace, and use the support item. The use maintenance level is indicated by one of the codes defined below.

Code	*Explanation and application*
C	*Crew or* operator maintenance performed within organizational maintenance.
O	Support item is removed, replaced, and used at the organizational level.
F	Support item is removed, replaced, and used at the direct support level.
H	Support item is removed, replaced, and used at the general support level.
D	Support item is removed, replaced, and used at depot, mobile depot, or specialized repair activity only.

(b) Repair. The maintenance code entered in the fourth position indicates whether the item is to be repaired. It identifies the lowest maintenance level with the capability to perform complete repair; i.e., all authorized maintenance functions. This position contains one of the following maintenance codes assigned by the service(s) that require the code as defined below.

Code	*Explanation and application*
O	The lowest maintenance level capable of complete repair of the support item is the organizational level.
F	The lowest maintenance level capable of complete repair of the support item is the direct support level.
H	The lowest maintenance level capable of complete repair of the support item is the general support level.
D	The lowest maintenance level capable of complete repair of support item is the depot level; performed by depot, mobile depot, or specialized repair activity.
	Repair restricted to designated specialized repair activity.
Z	Nonreparable. No repair is authorized.
B	No repair is authorized. The item may be reconditioned by adjusting, lubrication ; etc., at the user level. No parts or special tools are procured for the maintenance of this item.

(3) *Recoverability code.* This code is entered in the fifth position. It is assigned to a support item to indicate the disposition action on an unserviceable item. This fifth position contains one of the codes defined below.

Code	*Definition*
Z	Nonreparable item. When unserviceable, condemn it and dispose of it at the level indicated in the third position (use).
0	Reparable item. When not economical to repair, condemn it and dispose of it at organizational level.
F	Reparable item. When not economical to repair, condemn it and dispose of it at the direct support level.
H	Reparable item. When not economical to repair, condemn it and dispose of it at the general support level.
D	Reparable item. When beyond lower-level repair capability, return it to depot. Condemnation and disposal are not authorized below depot level.
L	Reparable item. Repair, Condemnation, and disposal are not authorized below depot / specialized repair activity level.
A	Item requires special handling because of specific reasons (i.e., precious metal content, high-dollar value, critical material, or hazardous material). Refer to appropriate manuals/ directives for specific instructions.

b. Federal Stock Number, Column 2. This column indicates the Federal stock number assigned to the item which will be used for requisitioning purposes.

NOTE

Federal stock numbers that are missing for P source-coded items are not currently recorded in the AMDF. When these stock numbers are broadcast in the AMDF they will be provided by a change to this manual.

c. Description, Column 3. Indicates the Federal item name and a minimum description required to identify the item. The last line indicates the reference number followed by the applicable Federal supply code for manufacturer (FSCM) in parentheses. The FSCM is used as an element in item identification to designate the manufacturer of distributor or Government agency; etc., and is identified in SB 708-42. Items that are included in kits and sets are listed below the name of the kit or set with the quantity of each item in the kit or set indicated in front of the item name. Material required for manufacture or fabrication is identified.

d. Unit of Measure (U/M), Column 4. This column indicates the standard or basic quantity by which the listed item is used in performing the actual maintenance function. This measure is expressed by a two-character alphabetical abbreviation; e.g., ea, in, pr, etc., and is the basis used to indicate quantities and allowances in subsequent columns.

e. *Quantity Incorporated in Unit, Column 5.* This column indicates the quantity of the item used in the functional group. A V appearing in this column in lieu of a quantity indicates that a definite quantity cannot be indicated (e.g., shims, spacers; etc.).

f. *15-Day Organizational Maintenance Authorization, Column 6.*

(1) For repair parts only.

(a) Asterisks in the allowance columns indicate the total range of repair parts authorized for use at the organizational category. The repair

parts will be requisitioned on an as-required basis. The repair parts authorized at the organizational level will be those for the maintenance mission at that level. Requirements for repair parts stockage and for distribution to supported units will be based on demand and determined in accordance with AR 710-2.

(b) Major Army commandes are authorized to approve reductions in the range of support items authorized for use in units within their commands. Recommendations for increases in the range of items authorized for use will be forwarded to: Commander, US Army Tank-Automotive Command, ATTN: AMSTA-M (NMP), Warren, MI 48090.

(2) The allowance quantities for special tools or test, measurement, and diagnostic equipment (TMDE) and other support equipment peculiar to the end item are shown in the appropriate density spread / allowance columns.

g. *Illustration, Column 7 of Sections II and III.* This column is divided as follows:

(1) *Figure number, subcolumn (a).* This column indicates the figure number of the illustration in which the item is shown.

(2) *Item number, subcolumn (b).* This column indicates the call-out number used to reference the item in the illustration.

4. Special Information

a. Useable-on codes are included in column 3. Uncoded items are applicable to all models. Identification of the useable on codes used in this publication are:

Model Code	*Nomenclature*	Model No.
A	All models	
AA	Vehicles with R6602 gas engine	
AB	Vehicles with LDS-465-1A multifuel engines	
AC	Vehicles with ENDT 673 Mack diesel engines	
AD	All 5-ton with winches	
AE	All 5-ton with soft top cabs	
BA	Truck chassis 5T 6x6	M40
BB	Truck chassis 5T 6x6 w / w	M40
BC	Truck chassis 5T 6x6 w / w	M139F
BD	Truck wrecker medium	M543
BE	Truck bridge stake transporter	M139
BF	Truck flat bed 5T 6x6 w / w	M40
BG	Truck bolster swivel 5T 6x6 w / w	M40
BH	Truck bolster 5T 6x6 w / w	M748A2

2C	Truck, dump 5T 6x6 w/ w	M51A1
3G	Truck tractor, wrecker, 5T 6x9 w / w	M246A1

b. The basis of issue for authorized special tools and test equipment is the number of end items of equipment supported and the number of maintenance personnel allocated to perform the required maintenance operations.

c. Due to changes made during production of the engines covered in this manual, effective change points, by engine serial number, are listed following the description of the part where applicable.

d. The following publications pertain to the 5-ton, 6x6 Truck and its components:

LO 9-2320-211-12	Truck, chassis: 5-ton, 6X6, M39, M139, M139A1, M139A1F, M139A2F, M139C, M139D, M139F, M40, M40A1, M40A1C, M40A2C, M40C, M61, M161A1, M61A2, M63, M63A1, M63A1C, M63A2, M63A2C, M63C; truck, bolster: 5-ton, 6X6, M748A1, M748A2; truck, cargo: M41, M54, M54A1, M54A2, M55, M55A1, M55A2: truck, cargo, dropside: 5-ton, 6X6, M54A1C, M54A2C; truck, dump: 5-ton, 6X6, M51, M51A1, M51A2; truck flat bed: 5-ton, 6X6 M40: chassis, truck, bridge stake transporter: 5-ton, 6X6, M139, M328A1, M328A2; truck, tractor: 5-ton, 6X6, M52, M52A1, M52A2; truck, van, expansible: 5-ton, 6X6, M291A1, M291A1C, M291A1D, M291A2, M291A2C, M291A2D; truck, tractor, wrecker: 5-ton, 6X6, M246, M240A1, M246A2; truck, wrecker, medium : 5-ton, 6X6, M62, M543, M543A1, M543A2.
TM 9-2320-211-ESC	Equipment Serviceability criteria for truck, chassis: 5-ton, 6X6, M39, M40, M40C, M40A1, M40A1C, M61, M61A1, M61A2, M63, M63A1, M63A2, M139, M139C, M139D, M139F, M139A1, M139A1F, M139A2F; truck, cargo, 5-ton, 6X6, M41, M54, M54A1, M54A1C, M54A2, M54A2C, M55, M55A1, M55A2; truck, bolster: logging, 5-ton, 6X6, M748A1, M748A2; truck, wrecker: medium, 5-ton, 6X6, M62, M543, M543A1, M543A2; truck. tractor: wrecker, 5-ton, 6X6, M246, M240A1, M246A2; truck, van: expansible, 5-ton, 6X6, M291A1, M291A1C, M291AD: truck, stake: bridge transport, 5-ton, 6X6, M328A1, M328A2.
TM 9-2320-211-20	Operators manual: 5-ton, 6X6, M39, M40, M40C, M61, M61A2, M63, M63A2, M63C, M139, M139C, M139D, M139F, M139A2F: truck, cargo, M41, M54, M54A1, M54A2, M55, M55A2; truck. dump: M51, M51A2; truck tractor: M52, M52A1, M52A2: truck, tractor, wrecker: M246; truck, van: expansible, M291A2, M291A2C: truck, wrecker: medium, M62, M543, M543A2.
TM 9-2320-211-20	Organizational maintenance for truck, chassis: 5-ton, 6X6, M39, M40, M40C, M61, M61A2, M63, M63A2, M63C, M139, M139C, M139D, M139F, M139A2F; truck, cargo: M41, M54, M54A1, M54A2, M55, M55A2; truck, dump: M51, M5142: truck, tractor: M52, M52A1, M52A2 ; truck, tractor, wrecker: M246, M246A1, M246A2; truck, van. expansible: M291A2, M291A2C, M291A1D, M291A21); truck, wrecker, medium : M62, M543, M543A1, M543A2.

e. Tables 1 and 2 provide a rapid index to all recoverable, direct exchange items and repair kits and sets contained in this manual. The items in table 1 are in FSN sequence and items in table 2 are listed in functional group sequence.

5. How to Locate Repair Parts

a. When Federal Stock Number or Reference Number is Unknown:

(1) First. Using the table of contents determine the functional subgroup within which the repair part belongs. This is necessary since illustrations are prepared for functional subgroups, and listings are divided into the same groups.

(2) Second. Find the illustration covering the functional subgroup to which the repair part belongs.

(3) Third. Identify the repair part on the illustration, and note the illustration figure and item number of the repair part.

(4) Fourth. Using the repair parts listing, find the functional subgroup to which the repair part belongs, and locate the illustration figure and item number noted on the illustration.

b. When the Federal Stock Number or Reference Number is Known:

(1) First. Using the index of Federal stock numbers and reference numbers find the pertinent Federal stock number or reference number. This index is in ascending FSN sequence followed by a list of reference numbers in ascending alphameric sequence cross-referenced to the illustration figure number and item number.

(2) Second. Using the repair parts listings, find the functional subgroup of the repair part and the illustration figure number and item number referenced in the index of Federal stock numbers and reference numbers.

6. Abbreviations

assy assembly (ies)
AWG . . American Wire Gage
cp . . . . candle power
dia . . . . diameter
ea . . . . each
FSN . . . Federal stock number
ft . . . . feet (foot)
hex . . . . hexagon (al)
ID . . . . . inside diameter
in. . . . . inch (es)
lg . . . . . long(length)
NC . . . . . American National Coarse Thread.
NF . . . . . American National Fine Thread.
no. . . . . number(s)
nom . . . . . nominal
NPT . . . . . American Standard Taper Pipe Threads.
NPTF . . . . . American Standard Taper Pipe Threads (Dryseal).
NS . . . . . American National Special Thread.
OA . . . . . overall
OD . . . . . outside diameter
pc . . . . . piece(s)
P / N . . . . part number
psi . . . . pounds per square inch
S . . . . . steel
sq . . . . . square
tbd . . . . . thread(ed)(s)
thk . . . . thick (ness)
TM . . . . technical manual
TS . . . . truck single type(tire chain).
TU . . . tube
UNC . . . Unified National Coarse Thread.
UNCA . . Unified National Coarse Thread (male).
UNF . . . Unified Fine Thread
UNJF . . . Unified National Fine Thread with Controlled Radius Root and Increased Minor Diameter.
UNS . . . Unified Special Thread
V. . . . volt(s)

7. Reporting of Equipment Publication Improvements

The reporting of errors, omissions, and recommendations for improving this publication by the individual user is encouraged. Reports should be submitted on DA Form 2028 (Recommended Changes to Publications) and forwarded direct to: Commander, US Army Tank-Automotive Command, ATTN: AMSTA-MAP, Warren, MI 48090.

This fine document...

Was brought to you by me:

Liberated Manuals -- free army and government manuals

Why do I do it? I am tired of sleazy CD-ROM sellers, who take publicly available information, slap “watermarks” and other junk on it, and sell it. Those masters of search engine manipulation make sure that their sites that sell free information, come up first in search engines. They did not create it... They did not even scan it... Why should they get your money? Why are not letting you give those free manuals to your friends?

I am setting this document FREE. This document was made by the US Government and is NOT protected by Copyright. Feel free to share, republish, sell and so on.

I am not asking you for donations, fees or handouts. If you can, please provide a link to liberatedmanuals.com, so that free manuals come up first in search engines:
